*Baltimore & Ohio.*—The B. & O., in comparison with its rival trunk lines, claims a much smaller capital account in proportion to the value of its property. The gross earnings of main stem and branches, and financial condition of B. & O. Co. for four years were as follows:

| | Gross Earnings. | Net Earnings. | Stock and Debt. |
|---|---|---|---|
| 1874-5 .... | $10,514,178 | $4,332,206 | $47,174,134 |
| 1873-4..... | 11,698,955 | 5,018,060 | 45,876,927 |
| 1872-3 .... | 12,252,841 | 4,934,796 | 28,567,899 |
| 1871-2.. .. | 10,654,472 | 4,532,072 | 29,161,399 |

The gross earnings of the main and all leased lines in 1874-75 were $14,426,552, and net earnings, $4,490,098. The company claims a surplus of $34,023,566, in the value of its assets above its stock and debt, which surplus is represented chiefly by securities of branch lines, received for advances made by the B. & O. In Dec., 1875, the operating contract with Pittsburgh & Connellsville road was ratified, by which B. & O. guarantees $10,000,000 bonds. See report in CHRONICLE, V. 21, p. 487, and V. 22, p. 446. (V. 20, p. 183, 381, 404, 453, 492; V. 21, p. 371, 511, 591; V. 22, p. 374, 446.)

*Baltimore & Potomac.*—This is the line of the Pennsylvania Railroad from Baltimore to Washington. The bonds are guaranteed by Penn. RR. and Northern Central. Last annual report V. 21, p. 37.

*Belleville & Southern Illinois.*—Leased and operated by St. L. Alt. & T. H. Co. on a percentage of gross earnings. Gross earnings, '75, $279,337. (V. 20, p. 380.)

*Belvidere Delaware.*—Stock is $995,700. Leased to United Co.'s of N.J., and lease assigned to Penn. RR. Net earnings go to lessor. In 1875 net earnings of B. D. were $236,404, against $4.6,367 in 1874. Floating debt, $1,245,392. (V. 20, p. 488.)

*Berkshire.*—Leased to Housatonic, at 7 per cent per year on stock.

*Boston & Albany.*—The Boston & Albany is the main western trunk line of New England. In past three years the following has been its exhibit:

| | Gross Earnings. | Net Earnings. | Total Stock and Debt. |
|---|---|---|---|
| 1874-5..... | $7,634,139 | $2,262,147 | $26,478,282 |

| 1872-3..... | 9,798,033 | 2,236,873 | 24,183,100 |

$5,000,000 new bonds were authorized in Feb., 1875. (V. 20, p. 14, 162, 592; V. 21, p. 464.)

*Boston, Clinton & Fitchburg.*—The stock outstanding is $872,600. Net earnings for the year ending September, 1875, $491 202; a dividend of 3 per cent paid on pref. stock Jan., 1876. (V. 21, p. 84, 591; V. 22, p. 471.)

*Boston, Concord & Montreal.*—Gross earnings for the year ending with March, 1875, were $664,194; net earnings, $140,208. There are also $76,000 old bonds due in 1865. (V. 20, p. 520.)

*Boston & Lowell.*—Operated with the Nashua & Lowell, which receives 31 per cent. (V. 20, p. 85; V. 22, p. 42)

*Boston & Maine.*—Net income, 1874-5, over interest payments, $607,974. Pools earnings from competing points with Eastern. (V. 20, p. 14, 614; V. 21, p. 533; V. 22, p. 260.)

*Boston & N. Y. Air Line.*—Formerly N. Haven Middletown & Wil. Road cost about $6,000,000, represented now by $3,000,000 pref. stock and $1,000,000 common.

*Boston & Providence.*—The bonds and also $934,000 notes have been issued for purchase of branch roads. Total income, 1874-5, $1,581,258; net, over operating expenses, $447,236. (V. 21, p. 569.)

*Buffalo, Bradford & Pittsburgh.*—Under perpetual lease to Erie at $40,600 per year.

*Buffalo, New York & Erie.*—Leased to Erie in 1863, for 400 years, at 7 per cent on stock and interest and sinking fund on bonds. In 1873 Erie bought $530,600 of the stock at $150 per share. (V. 20, p. 61, 614.)

*Buffalo, New York & Philadelphia.*—This is the connecting line of the Philadelphia & Erie with Buffalo. In 1874 the net earnings were $186,843.

*Burlington, Cedar Rapids & Minnesota.*—In 1874 default was made in interest. A decree of sale in foreclosure was made November, 1875. (V. 21, p. 85, 277, 591; V. 22, p. 350, 374, 495.)

*Burlington & Missouri River.*—An agreement of consolidation and a perpetual lease to Chicago, Bur. & Quincy, was made in Oct., 1872. In August, 1875, stock of Chic. Burl. & Q. was issued in place of stock of this Co. and for convertible bonds. Annual report V. 20, p. 335. (V. 20, p. 139; V. 22, p. 87.)

*Burlington & Missouri in Nebraska.*—The stock is $8,583,750. A report of company's operations, &c., to Jan. 1, 1876, has not been published, but we have the earnings in 1875 as $523,843, and expenses, $351,643. The total land sales up to Jan. 1, 1876, amounted to 733,464 acres for $5,335,675, after deductions for dead contracts. (V. 20, p. 289, 593; V. 22, p. 471.)

*Burlington & Southwestern.*—Defaulted Nov., 1873. Foreclosure in progress. (V. 21, p. 159, 441.)

*Chicago & Canada Southern.*—Connection of Canada Southern. Interest not paid.

*Chicago, Cincinnati & Louisville.*—No information furnished.

*Chicago, Clinton & Dubuque.*—This road defaulted in 1873. It was built by construction companies in which directors of C. B. & Q. were stockholders. (V. 20, p. 85, 1:4; V. 21, p. 14, 612)

*Chicago, Danville & Vincennes.*—There is also a 2d mortgage for $1,000,000 and a chattel mortgage of $1,000,000, most of which are pledged. Default was made in 1873, and coupons partly funded, subsequently receiver appointed, and litigation in progress. (V. 20, p. 60, 241, 266, 289, 313, 357, 382, 404, 453, 499, 570; V. 21, p. 157, 185, 347; V. 22, p. 87, 304.)

*Chicago, Dubuque & Minnesota.*—Defaulted December, 1873, same as Chicago Clinton & Dubuque. (V. 20, p. 85, 133, 184; V. 21, p. 14.)

*Chicago & Iowa.*—Has a traffic guarantee of Chic., Burlington & Quincy 40 per cent for purchase of bonds. (V. 22, p. 87.)

*Chicago, Iowa & Nebraska.*—Leased in perpetuity to Chicago & Northwestern, at 37½ per cent of gross receipts.

*Chicago & Michigan Lake Shore.*—The first mortgages, main line, have traffic agreement from Michigan Central. In default for interest since July, 1873, except on first bonds $477,000. (V. 17, p. 188, 211; V. 18, p. 14; V. 19, p. 247; V. 20, p. 60, 312.)

*Chicago, Milwaukee & St. Paul.*—The following is a comparison for three years of operations and financial condition at the close of year:

| | 1875. | 1874. | 1873. |
|---|---|---|---|
| Miles..... | 1,399 | 1,399 | 1,399 |

| Net earnings. | 3,085,389 | 3,081,900 | 2 451,663 |

The issue of consol. bonds of 1875 was made to substitute for that of 1874; of these bonds $27,339,000 are reserved to take up old debt. The dividend on preferred stock March, 1874, was paid in consol. bonds, and the same April, 1876. See statement V. 22, p. 280 The sterling bonds of 1872 are convertible into dollar bonds. Dividends have been paid since 1869—on pref. stock—in 1876 14 per cent, in bonds; in 1874 7 in bonds, 1873 7 cash, 1872 7, 1871 7, 1870 7 and 3 scrip; on common stock in 1871 7 scrip, 1870 3 cash and 7 scrip. (V. 21, p. 38, 186, 253, 612; V. 22, p. 28, 421.)

*Chicago & Northwest.*—The fiscal year ends with May. The last annual report will be found in the CHRONICLE, V. 21, p. 206. The net surplus of the year on the Chic. & Northwest. lines proper, after paying interest, was $1,366,167, and on the whole system, including proprietary roads, $518,266. The net earnings of proprietary roads were $282,004, and the interest on their bonds, $1,129,905. Lands of the company are 2,108,643 acres unsold, and were only recently placed in market. In 1874-5, 24,296 acres were sold at an average price of $3 78 per acre. The nominal surplus balance of the Company, May 31, 1875, was $2,637,612. Operations for the last six fiscal years compare as follows:

| | Gross earnings. | Expenses and taxes. | Net earnings. |
|---|---|---|---|
| 1874-75 .... | $12,707,726 | $7,984,694 | $4,723,031 |
| 1873-74..... | 14,410,124 | 9,334,450 | 5,075,673 |
| 1872-73... . | 12,736,607 | 8,178,237 | 4,558,370 |
| 1871-72... . | 11,402,161 | 6,810,026 | 4,592,135 |
| 1870-71..... | 11,094,914 | 6,3 1,506 | 5,383,408 |
| 1869-70..... | 12.535,428 | 8, 13,317 | 4,022,111 |

The trust deed of the gold loan provides contingently for a possible issue of $4?,000,000, by ultimately absorbing all the other bonds and also all subsequent issues, including all the bonds of the proprietary roads of the company, together aggregating $35,349,000, which amount is reserved from the $48,000,000. The residue of the gold loan, viz., $12,651,000, represents all the additional indebtedness resulting from the mortgage. Dividends have been paid—July, 1873, 3½ on preferred; December, 1872, 3½ on both; June, 1872, 3½ on preferred; December, 1871, 3½ on preferred; June, 1871, 5 on both; December, 1870, 5 on both; June, 1870, 2 on preferred; December, 1869, 5 on preferred, 4 on common; June, 1869, 5 on both; December, 1868, 5 on both. (V. 19, p. 295, 375 528; V. 20, p. 136, 186, 593; V. 21, p. 109.)

*Chicago & Paducah.*—Completed in July, 1874. (V. 19, p. 16; V. 20, p. 357; V. 21, p. 85.)

*Chicago, Pekin & Southwestern.*—Opened in 1873 Gross earnings first half of 1874, $66,346; net, $33,720.

*Chicago, Rock Island & Pacific.*—Net receipts in year ending April 1, 1875, $3,543,283, against $3,256,684 in 1873-74. The income account for year was as follows: Gross receipts, $7,399,613; net receipts, $3,534,283; dividend payments, $1,678,384; interest, &c., $755,000; surplus for the year, $1,109,899. Chicago & Southwestern road is leased and interest guaranteed on $5,000,000 of its bonds; the others are in default. (V. 20, p. 614; V. 21, p. 38, 186, 253.)

*Cincinnati, Hamilton & Dayton.*—See report in V. 21, p. 62, showing net income of $197,192 in 1874-5. Investigating Committee's report, V. 20, p. 357. (V. 19, p. 183; V. 21. p. 62; V. 22, p. 280.)

*Cincinnati, Lafayette & Chicago.*—Lafayette, Ind., to Kankakee, Ill. Gross earnings in 1874, $453,717, net, $223,488. Cost of road, &c., $3,752,870. (V. 20, p. 568.)

*Cincinnati & Martinsville.*—Leased again to the Ind. Cin. & Laf. Receiver appointed, Feb., 1876. To be sold in foreclosure, June, 1876. (V. 20, p. 289; V. 22, p 282.)

*Cincinnati & Muskingum Valley.*—Is leased for 99 years from 1873 to Pittsb., Cin. & St. Louis for net earnings, but bonded interest is guaranteed. Net earnings, 1875, $35,744 ) V. 20, p. 427.)

*Cincinnati, Richmond & Chicago.*—Leased to Cin., Ham. & Dayton, which owns most of the stock. Net income above interest, 1875-6, $8,229. (V. 21, p. 62.)

*Cincinnati, Richmond & Fort Wayne.*—Leased to Grand Rapids for 99 years. Interest on bonds is guaranteed by Grand Rapids, Cincinnati Hamilton & Dayton, and by Pennsylvania Co. (V. 20, p. 15.)

*Cincinnati, Sandusky & Cleveland.*—In the year ending June 30, 1875, gross earnings were $857,695; expenses, $561,775; net earnings, $295,919, being $28,748 better than in 1873-74. (V. 21, p. 591.)

*Cincinnati & Springfield.*—Leased in perpetuity to Clev. Col. C. & I., with guarantee of interest; on first mortgage half of interest is also guaranteed by Lake Sh. & M. S.

*Cincinnati, Wabash & Michigan.*—Paid interest January, 1875, to bondholders not consenting to pass, and allow funds to be used for completion of road. Some bonds held by Lake Shore & Michigan Southern, but no indorsement by that company. (V. 22, p. 158.)

*Cleveland, Columbus, Cincinnati & Indianap.*—By the annual report surplus over interest in 1875 was $500,261. Net earnings in 1875, $884,021, against $902,674 in 1874. (V. 20, p. 241; V. 21, p. 63, 253; V. 22, p. 237, 303.)

*Cleveland & Mahoning Valley.*—Is leased to Atlantic & Great Western, and interest on bonds is paid. (V. 20, p. 85, 139.)

*Cleveland, Mount Vernon & Delaware.*—Defaulted July, 1874, and made compromise by which all the coupons due July, 1874, and one-half of coupons from January 1, 1875; to and including July 1, 1877, are to be postponed to Jan. 1, 1885, and the remaining half to be paid as they mature. Gross earnings 1875, $126,027; expenses, $32,360; net, $96,667. (See report, V. 20, p. 380; V. 22, p. 350.)

*Cleveland & Pittsburgh.*—Leased to Pennsylvania Railroad at 7 per cent on stock, besides expenses and interest, and transferred to Pennsylvania Co. Report for 1875, V. 22, p. 206, shows surplus of $173,385 over all expenses, interest, &c.

*Cleveland, Tuscarawas Valley & Wheeling.*—This road was sold under a 2d mortgage, Jan. 27, 1875, and re-organized. See V. 20, p. 6?, 110, 336; V. 21, p. 352.

*Colebrookdale.*—Leased to Philadelphia & Read'ng. No dividends paid on stock.

*Colorado Central.*—Built by Union Pacific, which holds the bonds, $5,270,593 in all. (V. 21, p. 85; V. 22, p. 61.)

*Columbus & Hocking Valley.*—Gross earnings, 1875, $877,590; net, $338,376, against $357,077 in 1874. See annual report V. 20, p. 476; V. 22, p 350.)

*Columbus, Chicago & Indiana Central.*—This was a consolidation (Dec. 4, 1867). On January 22, 1869, it was leased by the Pittsburgh Cincinnati & St. Louis, guaranteed by Pennsylvania Railroad. An amended lease was made Feb., 1, 1870, also guaranteed by Pennsylvania Railroad. The first lease guaranteed interest on $15,000,000 of first and $5,000,000 of second mortgage bonds, the amended lease on only $15,821,000 of first and second bonds. Aug., '74, default was made on the $5,000 000 seconds. April 1, 1875, defaulted on 1st mort. The guarantee of interest was absolute, but the Pennsylvania Railroad claims that the C. C. & I. C. Co. did not fulfil all its part. Bondholders claim that no such failure after bonds had been sold with the guaranty could prejudice their rights. Suit is pending against Pennsylvania Railroad. Interest on most of the old prior bonds has been taken up. Net earnings, 1875, $6 06,442. (V. 20, p. 29, 61, 140, 162, 241, 325, 355, 382, 426, 593; V. 21, p. 13, 347, 611, 534; V. 22, p. 352, 495.)

*Columbus & Xenia.*—This road is leased to the Little Miami Co., and both roads for 99 years to Pittsburg Cinn. & St. Louis Co.; the lease is guaranteed by Pennsylvania Railroad, and the terms are 8 per cent on stock and interest on bonds.

*Concord.*—Pays 10 per cent a year; net receipts in 1874-5, $310,904. (V. 20, p. 499.)

*Concord & Portsmouth.*—Leased to Concord RR. at $25,000 per year.

*Connecticut & Passumpsic.*—Annual report to June, 1875, showed net earnings for year $226,875, against $272,790 in 1873-4. Div. passed Aug., 1875. The new mortgage of $1,500,000 will retire previous issues. (V. 21, p. 277.)

*Connecticut Central.*—Leased to Connecticut Valley at a rental covering interest. (V. 22, p. 209.)

*Connecticut River.*—Net earnings 1873-4, $295,067. Surplus account October 1, 1874, $518,089. (V. 20, p. 61.)

*Connecticut Valley.* Hartford to Saybrook—The stock paid is $1,034,600; floating debt, $1,177,000; cost of road, &c., $2,831,819. (Vol. 2, p. 624.)

*Connecticut Western.*—Net earnings 1874-5, $184,295; interest, &c., $221,296. (V. 21, p. 611.)

*Connecting.*—Leased to Philadelphia & Trenton, and operated by Pennsylvania; terms, 6 per cent on $1,2?8,330 stock, and interest on the bonds.

*Cumberland & Pennsylvania.*—Owned and operated by Consolidation Coal Company, which guarantees second mortgage. Stock $1,500,000. (V. 22, p. 415.)

*Cumberland Valley.*—The stock is owned in large part by Pennsylvania Railroad Co. Net earnings, year ending Sept. 30, 1875, $260,594. Large advances have been made to branch roads. This company paid 9 per cent in 1871, 5 in 1872, nothing in 1873, but resumed in 1874, and declared 5 per cent. in October, and semi-annually since.

*Danbury & Norwalk.*—Gross earnings, 1874-75, $107,026; expenses, $87,410; interest and taxes, $42,191; surplus, $37,425

*Danville Hazleton & Wilkesbarre.*—Leased, March, 1872, to Pennsylvania Railroad for 33 years. The coupons due October, 1874, were purchased by Pennsylvania Railroad. In default, April, 1875. (V. 20, p. 334, 476, 500, 570.)

*Danville Urbana, Bloomington & Pekin.*—This is a part of the Indianapolis Bloomington & Western, now in default. See I. B. & W.

*Davenport & St. Paul.*—Sold in foreclosure, March 2, 1876. (V. 20, p. 61, 313, 593; V. 21, p. 441, 570, 612; V. 22, p. 87, 231, 305.)

*Dayton & Michigan.*—Leased in perpetuity to Cin. Ham. & Dayton, which pays interest on bonds, and guarantees dividends on stock, holding itself $1,398,100 of the common. (V. 21, p. 62.)

*Grand Rapids & Indiana.*—An official description of bonds was given when they were put on the call of the New York Stock Exchange, in January, 1875, as follows: $4,000,000 are "Guaranteed Bonds." Principal and interest guaranteed by the Pennsylvania Railroad Company, and are also a lien upon the land grant. No. 1 to 4,000. $3,020,000 are "Unguaranteed Bonds," which are secured by the same mortgage as the guaranteed bonds on the entire land grant. $989,000 are "Ex. Land Grant Bonds," being a part of the original $1,000,000 unguaranteed bonds, which have from time to time been redeemed by the operations of the sinking fund. When the land certificate is detached they are no longer a lien on the land, but, by the terms of the trust deed, remain a first mortgage on the whole line and appurtenances. No. 4,001 to 8,000. Coupons April and October. Annual report, V. 21, p. 510. (V. 21, p. 110, 531.)

—(V. 20, p. 61, **140, 288**; V. 21, p. 489; V. 22, p. 16, **256**.)

*Indianapolis, Bloomington & Western*—Default was first made July, 1874, and affairs are yet unsettled. Receiver's certificates issued to Aug. 1, '75, $295,001. The Danville, Urbana, Bloomington & Pekin is part of this road. Plan of re-organization. V. 22, p. 110 (Vol. 20, p. 61, 495; V. 21, p. 245, 277, 348, 395; V. 22, p. 16, 61, 110, 257, 375.)

*Indianapolis, Cincinnati & Lafayette.*—The company was re-organized in June, 1873, and has since been doing a good business. The last annual report was in V. 21, p. **461**. Gross earnings, 1874–75, $1,767,231; net, $670,980. (V. 20, p. 162. 357; V. 21, p. 207, 277, 465; V. 22. p. 257.)

*Indianapolis, Decatur & Springfield*—This embraces the former Indiana & Illinois Central. The second mortgage is issued to holders of old I. & I.C. firsts, and till July, 1881, interest is payable out of net earnings only, if sufficient. The remaining 67 miles to Indianapolis is in progress.

*Indianapolis & St. Louis.*—The stock, $600,000, is owned by Pennsylvania Co. and C. C. C. & I. This company forms part of the Pennsylvania system, and leases the St. Louis, Alton & Terre Haute. (V. 21, p. 395.)

*Indianapolis & Vincennes.*—Is controlled by Penn. Co, through stock ownership, and interest is guaranteed by Penn. Railroad. Net earnings in 1875 were $32,708. (V. 20, p. **426**.)

*International & Great Northern (Texas).*—This is a consolidation of the International and the Houston Great Northern. Interest passed and funding progressing. The company had an issue of Texas bonds granted it, but the grant was repealed and land given instead. (V. 20, p. 136, 291, 313, 383; annual report, V. 22, p. **398**.)

*Iowa Falls & Sioux City.*—Leased to Illinois Central at 35 per cent. on earnings. Dividend 1¾ per cent, June 1, 1876, on $1,625,000 stock.

*Iron Mountain, Chester & Eastern.*—This was formerly the Chester & Tamaroa. Bonds are in default since 1873, and a receiver has been appointed. (Vol. 19, p. 520.)

*Jacksonville, Pensacola & Mobile.*—This road is mortgaged for a like amount of Florida State bonds. Indefault and litigation. (V. 19, p. 629; V. 21, p. 591; V. 22, p. 158.)

*Jefferson.*—Leased to the Erie Railway Company, which pays interest on the bonds. (V. 14, p. 628.)

*Jeffersonville, Madison & Indianapolis.*—Leased in 1871 to Pittsburgh, Cincinnati & St Louis Railroad for interest and sinking fund of bonds and 7 per cent. a year on stock. Lease transferred December, 1872, to Pennsylvania Company. In 1875, net earnings were $453,281. (V. 20, p. **426**.)

*Jersey City & Albany.*—Road was in progress but was stopped in panic of 1873. Bondholders held off. (V. 19, p. 365; V. 21, p. 613.)

*Joliet & Northern Indiana.*—Mich. Central offered to extend with a 6 per cent. bond but court decided that total rent must be applied to principal and interest of bonds; still in litigation. (V. 20, p. 85, 140, 439; V. 21, p. 110.)

*Junction (Phil.).*—Owned by connecting companies. Cost of road $893,321; paid-up stock, $185,000.

*Kansas City, St. Joseph & Council Bluffs.*—In addition to these, there are also funding bonds of about $610,000 in different issues. Annual report for 1875 in V. 22, p. **495**. Gross earnings in 1875, $1,362,705; net, $351,869. Stock, $2,776,000. Interest defaulted Sept., 1873. (V. 20, p. 475; V. 22, p. 213, 495.)

*Kansas Pacific.*—In 1874 net earnings were $1,685,704, against $1,446,308 in 1873. The land grant is in two trusts, 2,000,000 acres in the first, from the 1st to the 393th mile, and 3,000,000 acres in the second, from 393th mile westward. Interest on income bonds is payable in lands or cash, only out of net earnings. The company now pays half the current interest on its bonds, (except the incomes) as about four-fifths of bondholders have funded. An important settlement with Union Pacific made in May, 1875. See annual report, V. 21, p. **252**. (V. 19, p. **271**, 365; V. 20, p. 8, 85, 476, 501, 544; V. 21, p. 466, 613.)

*Kent Co.*—This road was completed in 1872, but defaulted in 1873. No recent information received.

*Kentucky Central.*—This was formerly Covington & Lexington. (V. 20, p. 500; V. 21, p. 39.)

*Keokuk & Des Moines.*—Formerly East. Div. of Des Moines Valley. The stock is $1,521,000 pref. and $2,400,000 common. In year 1875-6 gross earnings were $741,339; net, $226,838. (V. 19, p. 82, 533; V. 20, p. **520**.)

*Knox & Lincoln.*—Annual report, V. 22, p. **304**.

*Lake Erie & Louisville.*—This road was a reorganization, and has been financially embarrassed. There is a second mortgage of $500,000. See V. 19, p. 366.

| Total debt | 37,774,000 | 38,035,000 | 38,373,421 |

—The company's statement of earnings for last half of 1875, on which the dividend was declared January, 1876, showed surplus over interest of $1,075,000. The 2d general mortgage for $25,000,000 was created to pay floating debt and bonds of 1882 with $12,000,000 and balance to be held for improvements. (V. 19, p. 315; V. 20, p. 16, 85, 140, **451**; V. 21, p. 9, 252, 418.)

*Lake Superior & Mississippi.*—Formerly leased to Northern Pacific. Land grant, 1,032,000 acres. Foreclosure plan V. 22, p. 111. (V. 20, p. 86, 140, 383; V. 21, p. 372, 570; V. 22, p. 233.)

*Lawrence.*—Leased to Pittsburg, Fort Wayne & Chicago at 40 per cent on gross earnings. Lease transferred to Pennsylvania Company. Net earnings, 1875, $84,177. Sinking fund has $10,000 bonds. (V. 20, p. **425**.)

*Leavenworth, Lawrence & Galveston.*—Defaulted on interest July, 1873. (V. 19, p. 39; V. 20, p. 140, 162, 266, 541; V. 21, p. 137, 591.)

*Lehigh & Lackawanna.*—Operated by Central of New Jersey as a coal road.

*Lehigh Valley.*—This company's earnings are chiefly from anthracite coal. The gross receipts in year ending Nov. 30, 1875, were $6,046,495; net, $3,783,633; in 1874—gross, $6,759,391; net, $3,257,972. After interest and dividends, there was a deficit in 1874-5 of $93,053. The company's report gives no details of the construction account, nor of the cost or value of its miscellaneous investments. The Amboy branch was completed June, 1875, and $3,499,867 had been spent on it to December, 1875.

A comparative statement for three years is as follows:

| | 1872-3. | 1873-4. | 1874-5. |

* Anthracite.

(V. 18, p. 237, 504, 527; V. 20, p. **311**, 593; V. 22, p. **156**.)

*Little Miami.*—This company leases the Columbus & Xenia, and both are leased to Pittsburg, Cincinnati & St. Louis, guaranteed by Penn. RR., lessees assuming interest payment on bonds and 8 per cent on stock. Net earnings, 1875, (L. M. & C. & X.) $351,099. (V. 20, p. **427**.)

*Little Rock & Fort Smith.*—Foreclosed Dec. 10, 1874. Re-organized and stock issued for old bonds. The new mortgage is for construction to Fort Smith. (V. 19, p. 583, 617, 639; V. 20, p. 62; V. 21, p. 418.)

*Little Rock, Pine Bluff & New Orleans.*—Sold in foreclosure Dec. 16, 1875, for $35,000. V. 21, p. 535, 613.

*Little Schuylkill.*—Leased and operated by Philadelphia & Reading. Dividends, 7 per cent.

*Logansport, Crawfordsville & S. W. of Ind.*—Decree of sale made. The total liabilities, September 1875, reported at $4,097,000, of which $332,000 were receiver's certificates. (V. 20, p. 86, **312**, 521, 593; V. 21, p. 302, 613; V. 22, p. 63.)

*Long Island.*—Gross earnings, 1874-5, $333,339; net, $213,503. In January, 1876, a sale of stock was made to Mr. Poppenhusen, and this road has since leased the Flushing No Shore & Central, and the So. of L. I., and all are operated together. (V. 22, p. 135, 158, 375, 417.)

*Louisville, Cin. & Lex.*—There are also $60,000 old b'ds. The company, after paying dividends on pref. stock for some years, defaulted on interest 1873-4. Receiver took possession in September, 1874. See his report to December, 1875, in V. 22, p. 181. (V. 19, p. 351; V. 20, p. 212, 383; V. 21, p. 277, 395; V. 22, p. 181, 352.)

*Louisville, New Albany & St. Louis Air-Line.*—This road is projected from Louisville to St. Louis, and has 28 miles built. To be sold in foreclosure. (V. 20, p. 16, **357**, 438; V. 21, p. 86; V. 22, p. 348.)

*Louisville & Nashville.*—Annual report for year ending June 30 1875, in V. 21, p. **269**. Gross earnings of main stem and branches, $4,208,952, net, $1,515,393. General result of operating whole system and leased lines was a deficit of $34,793, after paying interest and all charges. Net earnings, July to December, 1875, much better, being $1,013,731. Nashville & Decatur is leased, and liabilities for the South & North Alabama are assumed. (V. 20, p. 16; V. 22, p. **157**.)

*Louisville, Paducah & S. W.*—Formerly Elizabethtown & Paducah, to which Louisville city loaned $2,000,000. In September, 1874, interest was not paid. Foreclosure in progress. (V. 20, p. 357, 405; V. 21, p. 223, 395, 489; V. 22, p. 487.)

*Lykens Valley.*—Leased to Summit Branch Railroad at $62,500 per annum.

*Macon & Augusta.*—Leased and operated by the Georgia Railroad, which guarantees all the bonds except $100,000 of first mortgage. Gross earnings, 1875-6, $168,090; net, $13,836. (V. 21, p. **157**.)

*Macon & Brunswick.*—This road being in default, was sold June 2, 1875, and bought for the State; offered again for sale or lease January, 1876. The Georgia Legislature declared fraudulent $600,000 of the endorsed bonds issued in 1870. (V. 20, p. 405, 501, 516, 570, 593, 615; V. 22, p. 3 of advertisements.)

*Madison & Portgage.*—Consolidated as Chicago & Superior. No bonds could be negotiated after the "Potter law." (V. 21, p. 15.

*Maine Central.*—The Maine Central leases several roads. The report of the year's operations, ending December 31, 1875, had the following:

"The total earnings for the year 1875 have been $1,786,076 47; operating expenses, $1,147,066 82; net earnings, $639,009 65—sufficient to pay all operating expenses, interest, coupons and rents, and leave a small balance. In 1874 the total receipts were $2,094,080 55, and operating expenses $1,-681,631 25. Net, $812,399 30. Showing a diminution this year, as compared with last, in gross receipts, $308,004 08; in operating expenses of $134,614 43; and in net receipts of $173,389 65.

"Of this reduction in our gross receipts the past year, $77,322 55 was occasioned by the modification of former contracts, for the purpose of producing uniform and harmonious action between the Eastern and Boston & Maine roads, which will result, as we trust, to the benefit and in the general convenience of our patrons who have occasion to do business over the railroads west of Portland. The balance of the diminution in our gross receipts, $230,681 62, must be attributed to the general depression of the business of the country, and 'reduction of tariff by special rates.'" (Vol. 20, p. 313, **356**; V. 22, p. **350.**)

*Manchester & Lawrence.*—Formerly operated with the Concord Railroad as one line. Net earnings 1874-5, $101,117. (V. 20, p. 569.)

*Mansfield, Coldwater & L. M.*—Leased by Penn. Company for net earnings. In hands of mortgage trustees. (V. 20, p. **426**; V. 22, p. 42.)

*Mansfield & Framingham.*—Leased to Boston, Clinton & Fitchburg, at 25 per cent of gross earnings. Consolidation made June, 1875. (V. 20, p. 616.)

*Marietta, Pittsburgh & Cleveland.*—Net earnings in 1874 were $40,717. Defaulted and in receiver's hands August, 1875.

*Marietta & Cincinnati.*—Gross earnings for the year 1875 were $1,602,015; expenses, $1,290,590; net earnings, $371,424 against $523,150 net earnings in 1874. This road forms a part of the through route, and is operated in close connection with the Baltimore & Ohio Railroad, which has made large advances for recent construction on the "Short Line." Annual report V. 22, p. **208.**

*Marquette, Houghton & Ontonagon.*—This is a consolidation of Marquette & Ontonagon and Houghton & Ontonagon. Lands amount to 425,000 acres, chiefly timber and mineral. Stock, $2,306,600.

*Maryland & Delaware.*—This line was leased by the New Jersey Southern, to form part of the through route. Lately proceedings looking to foreclosure have been started. (V. 21, p. 242.)

*Memphis & Charleston*—This road was leased to the Southern Railway Security Co., but in 1874 the lease was cancelled and Mr. R. T. Wilson, President of the East Tennessee, Virginia & Georgia, road was elected President of the Memphis & Charleston, with a new board of directors. No recent report has been obtainable. (V. 19, p. 424.)

*Memphis & Little Rock.*—Decree of foreclosure made. (V. 20, p. 330, 615; V. 21, p. 15; V. 22, p. 471.)

*Michigan Central.*—The annual report to May 31, 1875, (V. 21, p. **109.**) showed gross earnings on main line and branches of $7,102,286, and net earnings, $2,034,188, or $76 250 less than previous year. The floating debt June 1, 1875, was $770,015, against $1,056,452 on the 1st of June, 1874. The J., L. & S. debt is assumed by Michigan Central, which also pays $70,000 per year on the stock, one-third of which it owns. Semi-annual report to Dec. 1, 1875, in V. 22, p. **41**, showing net income of $185,692 above interest charges, &c. Interest was passed on the Detroit & Bay City bonds, not guaranteed, Nov., 1875. (V. 19, p. 143; V. 20, p. 101; V. 21, p. 15; V. 22, p. 41.)

*Michigan Lake Shore.*—Defaulted 1872, and in receiver's hands. (V. 18, p. 218, 501; V. 21, p. **110.**)

*Midland Pacific.*—This was one of the roads represented by Messrs. Turner Bros. in New York, of which Benj. E. Smith was president. Default in interest was made in February and August, 1875.

*Milwaukee & Northern.*—This road defaulted on interest December, 1874. Circular to bondholders, V 20, p. 615. It is leased to Wisconsin Central and there is said to be some prospect of resumption. (V. 22, p. 235.)

*Milwaukee, Lake Shore & Western.*—In 1873 the net earnings were $7[illegible]00; cost of road and equipment, $3,750,000. Sold in foreclosure for $2,509,788, Dec. 10, 1875. (V. 21, p. 277, 591.)

*Mine Hill & Schuylkill Haven.*—Leased to Philadelphia & Reading, May 1864, for 999 years; 8 per cent dividends on stock.

*Mineral Point.*—Total receipts 18 3, $138,121; expenses and interest, $130,6-4; cost of road, &c., $1,200,000.

*Mississippi, Ouachita & Red River.*—Land grant 257,000 acres. Sold in foreclosure, Dec. 16, 1875, for $25,000. (V. 21, p. 495; V. 21, p. 535, 618.)

*Mississippi & Tennessee.*—Stock, $825,400. Net earnings 1874-5, $211,332. V. 22, p. **181.**

*Missouri, Kansas & Texas.*—This road was building under most favorable auspices and showed good earnings, but in December, 1873, passed interest. A compromise with bondholders has been pending and will probably be effected. (V. 21, p. 187.) Receiver was appointed, December, 1874. Land grant is about 4,565,142 acres. Latest plan V. 22, p. 305. (V. 19, p. **29**; V. 20, 16, 141, 501; V. 21, p. 87, 186, 207, 253, 395; V. 22, p. 111, 158, 368, 446, 447, 471, 495.)

*Missouri River, Fort Scott & Gulf.*—The stock is $5,950,000. Interest passed Oct., 1873, on 2d, and Jan., '74, on 1st m'tgs. Net income of 1875, $243,616. (V. 20, p. **403**; V. 21, p. 15; V. 22, p. **470**, 495.)

*Mobile & Girard.*—The Central Railroad of Georgia endorses $212,500 of the first and all the second mortgage bonds. Net earnings 1874-5, $22,685.

*Mobile & Montgomery.*—Sold in foreclosure, November, 1874, and stock given to old bondholders. Old mortgage debt yet out, $263,000. (V. 20, p. 62, 501; V. 22, p. 280.)

*Mobile & Ohio.*—The company has been in default since March, 1875. Gross earnings, 1875, $1,914,347; net, $361,453. W. B. Duncan and A. F. Elliot, Receivers, made report—see V. 21, p. 605. (V. 20, p. 358, 452, 501, 571; V. 21, p. 605; V. 22, p. 154, 375, 437.)

*Montclair.*—The 2d mortgage was foreclosed December, 1874, and road sold again Sept. 25, 1875. (V. 20, p. 16, 290, 383, 488, 501, 571; V. 21, p. 186, 273, 323, 395.)

*Montgomery & Eufaula.*—Interest has been in default since January, 1873. It is one of the State aid roads, and advertised for sale Dec. 6, 1875. (V. 21, p. 489.)

*Monticello & Port Jervis.*—Defaulted in 1873. Sold July 7, 1875. (V. 19, p. 83, 143, 503; V. 20, p. 358, 383; V. 21, p. 39, 592.)

*Morris & Essex.*—Leased in perpetuity to the Delaware, Lackawanna & Western. The lessees assume all liabilities and pay 7 per cent on stock, and 8 after 1874, if they then earn 10 net on Morris & Essex road. (V. 20, p. 85, 477, 488; V. 22, p. 399.)

*Nashville, Chattanooga & St. Louis.*—Gross earnings of 1874-5, $1,6 0,826; expenses, $1,151,954; net earnings, $528,871. In six months ending Dec. 31, 1875, net earnings were $301,120. (V. 21, p. 370; V. 22, p. 109, 181, 303, 400, 447.)

*Nashville & Decatur.*—Leased May 4, 1871, to Louisville & Nashville Company for thirty years.

*Nashua & Lowell.*—Net earnings in 1874-5, $56,464. (V. 21, p. 590.)

*Naugatuck.*—Net earnings 1874-5, $222,327. (V. 21, p. 611.)

*Newark, Somerset & Straitsville.*—Leased to Sandusky, Mansfield & Newark. Guaranteed by Baltimore & Ohio.

*New Bedford.*—This road is leased and operated by the Boston, Clinton & Fitchburg for 8 per cent on stock and interest on debt.

*New Castle & Beaver Valley.*—Leased to Pittsburgh, Fort Wayne & Chicago, and lease transferred to Penn. Company. Net earnings, 1875, $219,531. (V. 20, p. 425.)

*New Haven & Derby.*—Net earnings 1873-4, $24,832. New Haven city guarantees $225,000 of the bonds.

*New Haven & Northampton.*—Gross earnings, 1874-5, $595,184; operating expenses, $399,250; net earnings, $195,913. (V. 21, p. 590.)

*New Jersey & New York.*—This was a consolidation of the Hackensack & N. York and Hackensack Extension, and further built to Haverstraw. The old bonds are about $300,000, 7 p. c., due May, 1890. (V. 20, p. 488.)

*New Jersey Midland.*—Defaulted after the panic of 1873 and funded coupons. The company, having exhausted its capital and credit in construction, leased to the New York Midland for 7 per cent on its cost; it had at the time a floating debt of about $400,000. After the panic of 1873 the road came back without sufficient rolling stock and without means to pay interest. The bondholders funded coupons, but default was again made. Several plans of re-organization are proposed. (V. 20, p. 242, 258, 313, 358, 488; V. 21, p. 39, 64, 85, 230, 318, 395, 442, 466, 489; V. 22 p. 87, 135.)

*New Jersey Southern.*—This was a consolidation of several roads. Net earnings, 1875, $109,276. Interest in default since October, 1873. Litigation in progress. Plan of re-organization, V. 21, p. 488. (V. 20, p. 313, 488; V. 21, p. 466, 489; V. 22, p. 422.)

*New Jersey West Line.*—In foreclosure. (V. 19, p. 640; V. 20, p. 383; V. 22, p 852. 400)

*New London Northern.*—Operated under lease till 1891 by Vermont Central for $150,000 a year. Income of Co., in 1871-5, $151,975; disbursements, $143,973. (V. 21, p. 590.)

*New Orleans, Mobile & Texas.*—The Western Division of this road was sold Nov. 18, 1874. Interest in default since 1872. The trustees' circular for re-organization of Western Division is given in V. 21, p. 231. (V. 21, p. 231, 535; V. 22, p. 263, 352.)

*New Orleans, St. Louis & Chicago.*—Gross earnings year ending June 30, 1875, $3,184,326; net, $1,363,943. See annual report, V. 22, p. 156. Operated as a connecting line with Ill. Cent. Ill. Central buys up $200,000 per year of consol. mortgage bonds of 1873. The Miss. Cent. 1st mort. bonds, due Nov., 1874, were not all paid, and Nov. 1, 1875, and Jan., 1876, there was some delay in payment of interest. Floating debt June 30, 1875, $1,929,087. Receiver appointed March, 1876. (V. 21, p. 15, 613; V. 22, p. 68, 111, 156, 281, 328.)

*New York, Boston & Montreal.*—Proposed consolidation of several roads from New York to Rutland. Company defaulted in 1874 and now in hands of receiver; foreclosure pending. (V. 20, p. 236, 358, 383, 405; V. 21, p. 16, 349; V. 22, p. 447, 471.)

*New York & Canada.*—The bonds are guaranteed by the Delaware & Hudson Canal Co. Road opened through Oct., 1875. (V. 21, p. 207.)

*New York Central & Hudson River.*—The consolidation of New York Central and Hudson River was made Nov. 1, 1869. In 1868 the stock of the separate companies was $42,712,700. The scrip dividend on New York Central of 80 per cent was made in Dec., 1868. On consolidation, another 27 per cent was distributed on Central stock and 55 per cent on Hudson. The mortgage loan for $40,000,000 is to retire prior debt, and the balance for laying third and fourth track and other improvements. These tracks were nearly completed from Buffalo to Albany Jan. 1, 1875, thus furnishing a double track road exclusively for freight traffic. The Harlem Railroad was leased April, 1873. The following is a comparison of operations, &c., for five years:

*Owensboro & Russellville.*—Now Evansville, Owensboro & Nashville. To be sold in foreclosure.

*Pacific of Missouri.*—Road was leased July, 1872, to Atlantic & Pacific Railroad and dividends guaranteed. In Sept. and Oct., 1875, the price of stock fell from 47¾ to 7½, the principal causes being a decrease of $632,996 in earnings since January 1; the failure of A. & P. to pay the October dividend advertised, and the fact that the road was so heavily loaded with debt to A. & P. Co. The lease was surrendered Nov., 1875, and litigation is pending. Interest on 3d mortgage and on Lexington & St. Louis in default, December, 1875. (V. 20, p. 288, 429, 593; V. 21, p. 40, 372, 295, 412, 418, 466, 469, 535, 571, 593; V. 22, p. 10, 182, 328.)

*Paducah & Memphis.*—Foreclosure proceedings commenced, but compromise afterward reported. (V. 21, p. 110; V. 22, p. 233.)

*Panama.*—A steamship line lately started. (V. 20, p. 358; V. 21, p. 207, 231, 489; V. 22, p. 88, 233, 247, 305, 352, 363.)

*Paris & Danville.*—Foreclosure in progress. (V. 21, p. 186, 297.)

*Paris & Decatur.*—Consolidation. Now Illinois Midland. (V. 19, p. 351; V. 21, p. 613.)

*Paterson & Newark.*—Lately operated by Erie. Stock is $250,000.

*Pekin, Lincoln & Decatur.*—Leased to Toledo, Wabash & Western. To be sold in foreclosure April 21, 1876. (V. 22, p. 217.)

*Peninsular.*—There is also a second mortgage for $543,000. Defaulted May 1, 1872. Coupons unfunded. Consol. with Pt. Huron & L. M. July, 1873. W. L. Bancroft, Receiver. (V. 17, p. 155, 650, 763.)

*Pennsylvania.*—The report for '75 is given in V. 21, p. 253 447. In May, '75, the dividend was changed to the rate of 8 per cent per annum. The direct funded debt of the company is $59,000,000; in 1874 the liability as a guarantor of principal and interest was on $33,983,600 bonds; annual liability additional on guarantees of interest or rentals, $13,862,319. On all operations east of Pittsburg, in 1875, the report shows a net surplus of $1,634,929 over all payments, including dividends. The following is a comparison for four years on main line and branches in Pennsylvania:

| | Gross Earnings. | Net Earnings. | Total Stock and Debt. |
|---|---|---|---|

*Texas & Pacific.*—A history of the company is given in the annual report in CHRONICLE, V. 21, p. **229.** Land grant bonds had been issued, but new arrangements were made with the construction company. Gross earnings, 1875-6, $1,518,491; operating expenses, $854,918; net earnings, $663,572. (V. 19, p. 397; V. 20, p. 63; V. 21, p. **229**, 324.)

*Toledo, Peoria & Warsaw.*—Interest in default December, 1873. Passed into receiver's hands February, 1874. Foreclosure suits commenced 1875. (V. 21, p. 160, 372, 505, 592, 614; V. 22, p. 159, 297.)

*Toledo Tiffin & East.*—In hands of mortgage trustees.

*Toledo, Wabash & Western.*—Operations for four years compared as follows:

| | Gross earnings. | Operating expenses. | Net earnings. |
|---|---|---|---|
| 1873 | $5,738,807 | $4,407,378 | $1,331,429 |
| 1872 | 6,038,978 | 4,365,144 | 1,613,834 |
| 1871 | 5,736,666 | 3,776,823 | 1,959,833 |
| 1870 | 4,544,641 | 3,236,265 | 1,308,376 |

Feb. 1, '75, default was made on interest and a funding proposition offered, but not accepted. Mr. J. D. Cox, the President, was appointed receiver Feb. 22, 1875. To be sold under consolidated mortgage June 10, 1876. (V. 21, p. 10, 64, 186, 289, 321, 349, 490, 604, 618; V. 22, p. 88, 182, 200, 234, 305, 344, 375, 495.)

*Troy & Boston.*—With leased roads forms a line from Troy, N. Y., to North Adams, Mass. In 1873-74 gross earnings were $530,310; operating expenses, $283,579. There are a few of old 1st and 2d mortgage bonds yet outstanding.

*Troy Union.*—A short road in Troy city. Bonds issued by city and guaranteed by several roads.

*Tuckerton.*—From New Jersey Southern Railroad to Tuckerton, N. J. Net earnings 1873, $7,759.

WAS THE

*FIRST COMPANY TO SUBMIT TO THE RESTRICTIONS OF THE SURPLUS LAW OF* 1874.

By the provisions of this Law the Company is compelled to limit its dividends to stockholders to 7 per cent. per annum, and to deposit one half of the remainder of its earnings in the Insurance Department of this State, as a SPECIAL RESERVE SAFETY FUND, for the PROTECTION and SAFETY of such policy holders as may not be burned out at the time of a conflagration so great as to destroy the ability of all Companies, to pay their losses in full, thereby avoiding the necessity of placing the Company in the hands of a Receiver in Bankruptcy.

Some of the benefits of submission to this law are as follows:

*First*—To the assured, who are claimants for losses at the time of the great fire.

It will give them more money than can be obtained under the requirements of any other law on this subject, because it exempts the Company from receiver's fees, legal costs, or other expenses of bankruptcy.

It requires the Company to maintain at all times a "GUARANTEE SAFETY FUND" equal in amount to the "Special Reserve Fund," for the greater protection of policy holders generally.

It will prevent any encroachment upon it by later losses under uncancelled policies.

It compels just and prompt adjustments and payments, no matter how great the fire or loss.

*Second*—To the policy-holders whose property is not involved in such fire—a hitherto neglected class:

It will give a deserved protection and provide for the payment of their later sustained losses, as if no great fire had occurred.

It will save them from vexatious and serious loss of time and money in seeking and paying for new insurance, while waiting indefinitely for the return what is due from the Bankrupt companies whose policies have become worthless, and whose assets may be in the clutches of a slow-paced Receiver.

## LITTELL'S LIVING AGE.

In 1876 THE LIVING AGE enters upon its thirty-third year. It has never failed to receive the warmest support of the best men and journals of the country, and has met with constantly increasing success. Having recently absorbed its younger competitor, "EVERY SATURDAY," it is now without a rival in its special field.

During the year it will furnish to its readers the productions of the ablest authors, above-named and many others; embracing the Serial and Short Stories of the

**LEADING FOREIGN NOVELISTS,**

and an amount unapproached by any other periodical in the world of the most valuable literary and scientific matter of the day, from the pens of the FOREMOST ESSAYISTS, SCIENTISTS, CRITICS, DISCOVERERS AND EDITORS, representing every department of Knowledge and Progress.

*A weekly Magazine*, of sixty-four pages, THE LIVING AGE gives more than

**THREE AND A QUARTER THOUSAND**

double column octavo pages of reading matter yearly. It presents in an inexpensive form, considering its amount of matter, with freshness, owing to its weekly issue, and with a *satisfactory completeness* attempted by no other publication, the best Essays, Reviews, Criticisms, Tales, Sketches of Travel and Discovery, Poetry, Scientific, Biographical, Historical and Political Information, from the entire body of Foreign Periodical Literature.

It is, therefore, invaluable to every American reader, as the only thorough as well as fresh compilation of a generally inaccessible but indispensable current literature,—*indispensable* because it embraces the productions of the

**ABLEST LIVING WRITERS**

in all branches of Literature, Science, Art, and Politics

"*It reproduces the best thoughts of the best minds of the civilized world, upon all topics of living interest.*"—Philadelphia "Inquirer."

"*The best of all our eclectic publications.*"—"The Nation," New York.

"*And the cheapest. A monthly that comes every week.*"—"The Advance," Chicago.

"*A pure and perpetual reservoir and fountain of entertainment and instruction.*"—Hon. Robert C. Winthrop.

"*The best periodical in America.*"—Rev. Dr. Cuyler.

"*It has no equal in any country.*"—Philadelphia "Press."

"*Its publication in weekly numbers gives it a great advantage over its monthly contemporaries in the spirit and freshness of its contents.*"—"The Pacific," San Francisco.

"*Ought to find a place in every American Home.*"—New York "Times."

"*Simply indispensable to any one who desires to keep abreast of the thought of the age in any department of science or literature.*"—Boston "Journal."

PUBLISHED WEEKLY at $8 00 a year, *free of postage*; or for $10 50 (*covering prepayment of postage on both periodicals,*) THE LIVING AGE and *either one* of the American *four dollar* monthly Magazines (or *Harper's Weekly* or *Bazar*, or *Appleton's Journal*, weekly) will be sent for a year; or, for $9 50, THE LIVING AGE and Scribner's *St. Nicholas*.

## REAL ESTATE MORTGAGE BONDS

GUARANTEED BY THE

## Equitable Trust Co.,

**$1,000,000 CAPITAL.**

THESE REAL ESTATE MORTGAGE BONDS ARE COMMENDED TO THE ATTENTION OF THE MOST

**CONSERVATIVE INVESTORS.**

*First*—They have the individual liability of the maker.
*Second*—Each bond is secured by a first mortgage of real estate of not less than double its value.
*Third*—The prompt payment of both principal and interest of every bond is guaranteed by this Company.

The Company guaranteeing these Bonds receives no deposits, owes no money, and incurs no obligations of any character except those arising from such guaranty thereby keeping its whole capital of One Million Dollars unimpaired, TO MEET AT ALL TIMES the prompt payment of both principal and interest of these Bonds.

All mortgages securing the Bonds are formally approved by the following Executive Board:

ROBERT L. KENNEDY, ADRIAN ISELIN,
SAMUEL WILLETS, JAMES A. ROOSEVELT,
WM. REMSEN, EUGENE KELLY,
CHAS. BUTLER, JOHN D. MAXWELL,
HENRY P. HAVEN, GUSTAV H. KISSELL.

These Securities bear Seven Per Cent Interest payable semi annually, and are offered for sale at one hundred and two and interest at the office of the Equitable Trust Company, Nos. 52 & 54 William street.

JONATHAN EDWARDS, President.

## THE NEW ENGLAND Mortgage Security Co.

OFFERS FOR SALE, AT PAR,

**SEVEN PER CENT TEN-YEAR BONDS**

SECURED BY

**FIRST MORTGAGES OF IMPROVED REAL ESTATE.**

GUARANTEED, PRINCIPAL AND INTEREST,

BY ITS

**CAPITAL STOCK OF $500,000.**

Interest Coupons payable semi-annually. Bonds registered to order, or payable to bearer at option. Accrued interest is not required to be paid by purchaser, the next-due Coupon being stamped so as to denote that interest begins at the date of purchase.

A Pamphlet with full information will be sent on application to the Company's Office,

**43 Milk Street, Boston.**

These Bonds are commended to the attention of the MOST CONSERVATIVE INVESTORS, as they are believed to be as perfect a security as can be obtained. The issue of Bonds is limited to one-half the amount of the same class of Bonds ever issued under a like Guarantee.

The security of each Bond is not confined to a single Mortgage, but extends over all the Mortgages owned by the Company. This Company receives no deposits, guarantees no other securities, and has no other debts than its bonds. Its Mortgages are of like character to those which have been bought in the last twenty years by individuals, Life Insurance Companies and other Corporations, to the amount of more than Fifty Millions of Dollars, proving a most secure and satisfactory investment. The Loans are all upon improved Farms in some of the most fertile Western States, near the Railroads, with short and perfect titles, and average less than $650 each, upon property worth nearly four times their amount. Experience has proved that well selected Mortgages upon this class of property are safer than those upon city property, either in the East or West. They are not affected by Fires, or by Business revulsions; Principal and Interest are more promptly paid; and upon the success of Agriculture depends that of almost every Industrial Investment.

## LONG ISLAND CITY

Diagram of Location of Long Island City.

**7 PER CENT COUPON**

**$1,000 WATER BONDS.**

Interest payable March and September, at Marine National Bank of New York, principal re-payable from 1887 to 1892, a strictly first-class investment security for sale in lots to suit purchasers.

These bonds are authorized by legislative act, under which, not only the entire taxable property of the city is liable for their payment, but, in addition, the water-works are specially pledged, which are now completed and in successful operation. Water bonds are the most popular and command the highest prices of any municipal issue.

Total debt is about $850,000.

Estimated real value, $30,000,000, while the assessed valuation is only $6,000,000. Population, 20,000.

LONG ISLAND CITY, adjacent to New York, with a water-front of six miles on tide-water, is a continuation of Brooklyn, and must eventually become annexed to that city, as was the case with the city of Williamsburgh. There is certainly no good reason why these bonds will not appreciate at or near to that of Brooklyn bonds, which are now selling at 116, which same security within the past two years sold at par, being about the same price at which we now offer LONG ISLAND CITY BONDS.

The security offered for the bonds of both cities being identical, present purchasers of Long Island City bonds must certainly secure an advance, thereby getting a premium as well as seven per cent interest on their investment. Bonds, as ordered, will be sent by express, C. O. D., accompanied with a certificate of the Treasurer of Long Island City as to their correctness, etc.

## THE BANKING PROGRESS OF THE UNITED STATES.

Several important and timely suggestions were made by Mr. E. G. Spaulding, on Tuesday, in his address before the meeting of bankers at Philadelphia. After the ceremonies were ended by which the Bankers' Building at the Exhibition was dedicated to the purposes designed, the committee and a large number of bankers adjourned to the Judges' Hall to listen to the historic sketch of American banking which Mr. Spaulding, who is well known as the draftsman of the National Bank bill of 1863, had been appointed to prepare. As this elaborate speech has been published in a pamphlet, and can easily be obtained by our readers, we shall not attempt any analysis of its contents. All that will be needful is to direct attention to a few points it suggests.

And, first of all, we are reminded that our banking system is in several of its chief features unlike the systems of Europe. It is the growth of our national exigencies, to which it has adapted itself, one generation after another, until it has become what we see it. Many of us are apt to be impatient at what we deem the obtuseness of foreign critics of our banking system. But it is not wholly their fault that they find so much difficulty in understanding our financial machinery and in appreciating its past history or future prospects. Their experience being confined to the European systems of banking, which are so different from our own, there is not much chance that analogies derived from the one will always hold good for the other. Moreover, the difficulty of intelligent foreigners in forecasting the changes in our monetary horizon is greatly augmented by the spasmodic perturbations due to the paper money inflation from which this country has suffered, both in its banking movements and in other fiscal and financial interests. Not a few of the great differences between our banks and those of Europe arise out of the fact that we have no single bank of such predominance over the rest as to occupy the position of the Imperial Bank of Germany, the Bank of France, or the Bank of England. This decentralization results from, and is in strict harmony with, the Democratic polity on which our institutions rest. Several successive attempts have been made to centralize our banking organism, either by creating one large bank, to which the other members of the system might be more or less subordinate satellites, or by the Scotch method of establishing a number of banks, each having a multitude of branches. For various reasons, some of which are well known, these schemes of centralization have all failed, and our system of banks, though very deficient in symmetry, possesses qualities which admirably fit it for the uses of our industrial and commercial growth. It is commonly supposed that the national banks constitute the greatest part of our banking machinery. This is a mistake. We have in the United States about 6,000 banks. Of these, 2,118 are national banks, 907 are State banks, 166 are savings banks, and 2,375 are private banks. The State banks have a capital of some 200 millions. The capital of the private bankers is not reported. From the best information obtainable we estimate the deposits of the private banks, trust companies and State banks at 1,800 millions. Adding this sum to the 200 millions of capital, we have 2,000 millions of dollars as the aggregate liabilities of this part of our banking system. As to the other portion of the system, it consists of the national banks, of whose liabilities we have complete reports from the Comptroller of the Currency. In his volume for last year the national banks are reported as having an aggre-

gate capital and surplus of 692 millions, with 318 millions of circulation, and 675 millions of deposits. This report makes the total liabilities of the national banks 1,685 millions. It seems, therefore, if we divide our banking system into two sections, putting the national banks on the one side, and all the other banks and trust companies on the opposite side, that the national banks will not report more than 1,685 millions of liabilities, while the other banks will report 2,000 millions; the grand total of the whole system being 3,685 millions.

Now that we have these figures before us, it may be interesting to compare the corresponding aggregates of the banks of Great Britain. The latest reports are those of Mr. Palgrave for 1871, of Mr. T. B. Moxon, of Stockport, for 1873, and of Mr. John Dun, of Warrington, for 1874. From the first of these reports we have $3,310,000,000 as the aggregate for 1871, while the others give $3,660,000,000 for 1873 and $3,910,000,000 for 1874. It thus appears that the liabilities of the banking system of Great Britain are three times as large as in 1850, when Mr. Newmarch estimated them at 260 millions sterling, or $1,300,000,000. How much increase our own banks have realized since 1850 we have no accurate means of ascertaining, as the private banks and other similar institutions were not usually included in any of the statistics prepared for Congress. The aggregate in 1850 has been estimated from 700 millions to 1,000 millions. Taking the mean of these estimates, we have more than quadrupled our banking liabilities during the twenty-five years in which those of Great Britain have increased three-fold.

Among the practical deductions to be inferred from the facts we have stated as to the excessive multiplication of independent banks in this country, is the necessity of those stringent restrictions enforced by law, of which complaints are sometimes heard. The banks in this country have always been subject to Government regulations, which are not so necessary abroad, where the same end is accomplished by a more rigid centralization and by the facilities it affords. Under our system, other safeguards have to be invented, one of the chief of which is publicity. A public officer, the Comptroller of the Currency, is commissioned for this purpose. By the inspection of his examiners and by the frequent reports which he receives from the banks, he is perpetually operating upon those institutions, for the protection of their solvency. Moreover, by keeping up this constant vigilance among the members of the national banking system, we expect not only to stimulate those institutions into an efficient condition, but to disperse a wholesome influence throughout the other banks, which are the rivals and neighbors of the national banks. Hence, as the Comptroller well observed in a recent report, it must be generally acknowledged that no bank has any right to complain of those safeguards; and the soundest banks "regard publicity of their affairs to be a measure of safety to themselves and a duty to the public." To the same purpose, Mr. J. R. McCulloch, much as he was opposed to all needless restrictions on banks, declared that Government may properly prevent the adoption of a policy that leads the banks into embarrassment, generates panics and disturbs the ordinary business of society. No one needs, however, in the United States to defend the safeguards of bank solvency, as they are applied to our national system by law. Such restrictions are, as we said, a necessary concomitant of free banking under a decentralized system, intended to give the utmost amount of liberty with the necessary guarantees for the public safety.

We must not conclude without calling attention to Mr. Spaulding's remarks about specie payments. He says that the national banking system was originally designed, in 1861, to obviate the necessity of issuing paper money, and that the emission of the greenback currency was not intended to fasten upon the country, except for the briefest possible period, the mischiefs of an irredeemable currency. He adds that "the depression and stagnation in business, which commenced in the panic of 1873, still continue, and are likely to continue until the finances are finally settled on a specie basis, the question removed from political agitation, and the business of the country allowed to resume its normal condition, free from the excesses and demoralization of the war." This testimony from a prominent banker, on so conspicuous a public occasion, is very significant, not only on its own account, but for the refutation which it gives of the statement which is sometimes advanced, that our leading banks neither desire resumption nor believe in its practicability.

## IMPERFECT BONDS—NOT NEGOTIABLE.

The point has long been settled that bonds issued by a corporation, and payable to bearer, have the qualities of negotiable instruments. Hence when stolen, a *bona fide* holder for value is protected in his ownership like the purchaser of negotiable paper before due and without knowledge of any defect of title; in all such cases the holder's title is valid as against every other person. With this principle our readers are sufficiently familiar, as we have often commented upon it.

Questions of interest are, however, constantly arising in cases where parties attempt to bring themselves, within the rules which protect the *bona fide* holder. And we notice a recent one which came before the United States Circuit Court (Louisiana District), it being an action against the Vicksburg, Shreveport & Texas Railroad. It will be remembered that during the war (April, 1864), the office of the Vicksburg S. & T. Railroad, was forcibly entered by United States soldiers, its safe broken open, and the contents, including certain bonds of the company, were carried off. The present action was brought to effect a sale of the said road, etc. and in that action a reference was made to ascertain what bonds were *bona fide;* the master's report gives a list of two hundred and twenty-eight bonds, of one thousand dollars each (the bonds stolen as above stated), which, he says, are no claim against the company, even though they may have passed into the hands of a *bona fide* holder for value.

The ground of this decision is, that the instruments when stolen were not complete and perfect. The face of the bonds certified that the company "is indebted to "John Ray or bearer, for value received, in the sum of "either two hundred and twenty-five pounds sterling, or "one thousand dollars lawful money of the United "States," according as they were made payable in London or the United States; and coupons were attached for the payment of "nine pounds sterling," if payable in London, and "forty dollars" if payable in the United States. In the body of each instrument it was provided that "the President of the company is "authorized to fix by his endorsement the place of pay-"ment of the principal and interest, in conformity with "the tenor of this obligation." And endorsed on each instrument were the words: "I hereby agree that the "within bonds and the interest coupons thereto at-"tached shall be payable in ——." C. G. Young, "President." Upon these facts, the Court held that

(first) the instrument was not complete until the place of payment was filled in the blank before the President's name; (second), the fact that the President signed the endorsement in blank is no authority to the holder to fill in the place of payment; (third), the bond not being complete, and there being no authority to the holder to make it so, it is not a negotiable instrument, and the company is not liable on it even to a *bona fide* holder for value.

This decision only affirms well-known principles always applicable to promissory notes. Such a bond is evidently imperfect, and in a vital particular. The only question, therefore, was whether there was any authority reposed in any one to make it perfect. The corporation had given the power to the President, but he had not exercised it. The defendants contended that they, or any holder of these instruments, seeing the endorsement of the President in blank, would regard themselves as authorized to fill the blank. To sustain this position, however, it was necessary for them to show authority, expressed or implied, from the party to be bound. As to an expressed authority, if it existed, there would be no doubt. But the implied authority in all the decisions on that subject is found in the fact of delivery for use; for it is not to be presumed that such a delivery is meant to be nugatory, and hence the law implies the intention, and consequently the authority, that he to whom a note, not complete in itself, is thus delivered may supply all needs for making it a perfect negotiable instrument. But the mere fact that such a paper, thus signed incomplete, is in the hands of another is no evidence of authority to make it perfect; that fact must be joined with the other fact that it has been entrusted to those hands for the purpose, and with the intent, that it shall go into use and circulation. With regard to these bonds, there can, of course, be no such implication. They were stolen from the safe of the company. The title, therefore, of the present holders comes through no parties who possess any authority whatsoever to fill up any blank in the endorsement. The specific place of payment, the kind of money in which the bonds are to be paid, and the amount of that money (all of which facts according to the terms of the bonds were to be settled before issue) are still undetermined. Such instruments, therefore, are not negotiable, and hence the title to them can be inquired into, even though they have fallen into the hands of a *bona fide* holder for value.

## FINANCIAL REVIEW OF MAY.

The general situation in May was marked by a growing ease in money, unsatisfactory reports from most departments of mercantile business, continued depression in speculative stocks, and steadiness without excitement in gold and foreign exchange. As a partial exception to the unsatisfactory reports from trade circles, may be mentioned the large sales of domestic cotton goods at auction on the 23d and 25th of the month, which were well attended and resulted in the distribution of a very heavy amount of staple goods to buyers from all parts of the country, and were considered, upon the whole, to be quite encouraging.

Money became very easy, with a large increase of the legal tenders in bank, and loaned before the close at 2 per cent. on government collaterals.

The demand for investment securities was fair, particularly for government bonds, and for first-class railroad bonds there was also a better demand than in the previous month.

Railroad and miscellaneous stocks were much depressed, the leading features being the reduction of rates on the trunk lines to the West, and the heavy decline in the coal railroad stocks The reduction in freight rates was first made by the New York Central line, to compete with the Grand Trunk of Canada on Boston business, and was followed, as a matter of course, by all the trunk lines. Just at the close of the month a general reduction was made on passenger rates to Western cities, on the basis of $16 to Chicago.

The following table will show the opening, highest, lowest and closing prices of railway and miscellaneous stocks at the New York Stock Exchange during the months of April and May:

Gold was comparatively steady throughout, and the market was free from any speculative influence of importance. Shipments of specie were made to a moderate extent, as the rates of exchange were much of the time so firm as to admit of coin exports at a small profit.

CINCINNATI RICHMOND & FORT WAYNE—

(*For the year Ending Dec.* 31, 1875.)

The annual report says: The road of our company has continued to be operated during the past year by the Grand Rapids & Indiana Railroad Company, under lease to that company.

The earnings and expenses for 1875 were as follows:

| EARNINGS. | | EXPENSES. | |
|---|---|---|---|
| From passengers | $101,816 | Conducting transportation | $65,218 |
| From freight | 184,317 | Conducting motive power | 47,602 |
| From mails | 4,575 | Maintenance of way | 60,415 |
| From express | 3,912 | Maintenance of cars | 6,412 |
| From telegraph | 1,348 | Fuel | 16,727 |
| From miscellaneous | 63 | General expenses | 11,625 |
| Total earnings for 1875 | $295,030 | Total operating expenses | $208,031 |
| Net earnings | | | $87,007 |

The earnings for 1875 compare with those of 1874 as follows:

| | |
|---|---|
| Gross earnings for 1874 | $300,959 |
| Gross earnings for 1875 | 295,039 |
| Gross earnings in 1875 less than in 1874 | $5,920 |
| Operating expenses in 1875 | $208,031 |
| Operating expenses in 1874 | 206,523 |
| Increase in 1875 over 1874 | 1,508 |
| Net earnings in 1875 less than 1874 | $7,428 |
| The net earnings in 1874 were | $94,436 |
| The net earnings in 1875 were | 87,007 |
| Showing decrease as above | $7,428 |

This falling off in gross receipts, increase in operating expenses, and consequent decrease in net earnings in the face of an increase in business, can be accounted for. To do so in part this statement is made as to freight carried:

| Number of tons carried one mile. | | Average rate per ton per mile. |
|---|---|---|
| In 1873 | 6,448,541 | 2 62-100 per cent. |
| In 1874 | 8,990,273 | 2 16-100 per cent. |
| In 1875 | 10,041,225 | 1 84-100 per cent. |

This reduction of rates has been found necessary to conform to the reductions made by other roads, and has been unavoidable. With increase of business comes increase of operating expenses.

The net liabilities Jan. 1, 1876, besides bonds, were $271,487, most of which were for advances heretofore made by the guarantors to pay interest.

[From our own correspondent.]

LONDON, Saturday, May 20, 1876.

The position of the money market has not materially changed during the past week. The demand for accommodation, partly in consequence of the settlement on the Stock Exchange, has been to a moderate extent, and in the open market the rate for three months' bills is firm at 1⅛ to 1¼ per cent. The supply of money seeking employment has continued large, the recent loans having had but little influence in diminishing it. There seems to be but little expectation of any immediate alteration in the official *minimum*. Each day seems to confirm the belief that there will be a somewhat protracted period of easy money, and even of a two per cent official *minimum*. It is, however, but reasonable to conclude that the low prices at which our goods are selling will attract the attention of foreign, as well as home, buyers, and that we have entered upon a period of renewed prosperity. It is true that the indications are not at present very distinct, but the principal markets are not showing additional depression, and this fact leads to the hope that the most critical period has been passed. After the very cautious, and, indeed, timid manner in which trade has been conducted for some months past, it is not of course to be expected that it is to assume immediately an active appearance. Were this to be the case, there would be reasons for apprehension, as it would seem that the difficulties of the past two years, in connection with trade and finance, have been surmounted without having the effect of making the mercantile classes and the investing public more deliberate in their judgment. But it is not so; fresh business, whether it be in the region of commerce or finance, is still undertaken after much deliberation, if not with some reluctance, the losses and difficulties of the past few months having had an excellent effect in checking unwise speculation, both on the Stock Exchange and in merchandise. There are many who look upon our commercial position as in a very unsatisfactory light, and believe that we are gradually getting from bad to worse. It is said that our imports exceed by a very large amount our exports, and that there is a serious and irreparable loss to the country. The exchanges, however, are in our favor, and the bullion account of imports and exports shows that in the first four months of the year we gained in the medium of exchange the sum of £2,650,000. This gain is due, of course, to several matters which it is impossible to include in any official statement. The cost of the conveyance of our goods, to and from the respective countries, as far as it is effected in British ships, and the prices our manufactures fetch in the producing markets, are necessarily not items in the calculation; and when we bear in mind that most foreign nations are largely indebted to us on account of the money they have borrowed, it is at once evident that we can stand a long period of adversity, and, indeed, a longer period than any other nation, before bad trade can affect us seriously. But a very important fact has yet to be stated in connection with our imports. If, as is undoubtedly true, our imports are on a very large scale, and that there is not that foreign demand for our goods which justifies so large an importation of the raw material, there must either be an accumulation of the raw material or of the manufactured article. Judging from the great increase of wealth in this country during the present century, it is logical to conclude that the English people are successful traders, and there is no reason to believe that they are not so now. It would seem, therefore, that our present excessive imports are capable of explanation, and of an explanation to our advantage. The explanation we venture to make is this:—This country having command of the purse, and having a large supply of unemployed money, has distributed a portion of it in the purchase of raw materials, and as many foreign nations have been in pecuniary embarrassment, and have been willing sellers, large purchases have been effected upon easy terms. If, therefore, there has not been the usual demand for our manufactured goods, we still hold value for our money, in the shape either of raw material or manufactures. When trade revives, therefore, and when foreign buyers are again in a position to purchase more freely of us, we shall possess ample supplies with which to meet the demand, and we shall have also the advantage of selling goods manufactured at about the lowest possible cost. A time is likely to come, therefore, when our profits will be very large, and when we shall reap the benefits which wealth, judiciously administered, confers. We are not, however, to expect that foreign buyers will suddenly become numerous. Of late years they have received much assistance in having sufficient credit to borrow money in this country. They have now to trust to their own resources,

and as regards any demand which now arises, or may arise, we shall have the satisfaction of knowing that it is of a *bona fide* character, and is not of that hollow nature which is usually the accompaniment of trading upon capital borrowed to excess. Viewed in this light, there is no reason to believe that our commercial position is an unsatisfactory one. Undoubtedly, a better foreign demand is desirable, but, at the same time, the goods we are manufacturing are not at an excessive cost. It may be further mentioned that the large extent of our importations is partly due to the abundance of our receipts of foreign grain. This, obviously, detracts from the somewhat encouraging nature of the remarks we have made, as they are articles of food and do not re-appear in the re-export list or amongst manufactures; but as there is now a chronic deficiency in the production of wheat in this country, it is an item which will always appear to a greater or lesser extent. Just now, our demands upon foreign countries for grain are very large, and the probability is that next season they will again be upon an extensive scale, but when no foreign competition exists, we may always be certain of obtaining what we require on moderate, if not easy, terms.

The Bank return published this week is favorable. The supply of bullion amounts to £26,565,349, against £21,242,113, and the reserve of notes and coin to £13,662,419, against £9,159,098 last year. The proportion of reserve to liabilities, which was last week 47·37 per cent, is now 49·22 per cent.

There has been a moderate, but far from active, demand for money during the week, and the supply of floating capital being large, the rates of discount are easy, as follows:

There has been scarcely any demand for gold for export, and the arrivals having been considerable, rather important supplies have been sent into the Bank. The silver market has been dull, and the price of fine bars has declined to 52⅛@52¼ per ounce. The quotations for bullion are now as under:

The periodical sale of bills on India was held at the Bank of England on Wednesday. The amount allotted was about £700,000, of which £482,000 was to Calcutta, and £120,000 to Bombay. Tenders at and above 1s. 8⅝d. received in full. The decline in the prices obtained has caused the silver market to become weak.

On the Stock Exchange a dull tone has prevailed, and the tendency of prices has been downward. The unsatisfactory position of affairs in the East has naturally had an adverse effect, especially in the foreign market. Consols, however, are quoted at a high figure. The first mortgage bonds of the principal American railroad companies have been rather firm. The closing prices of consols and the principal American securities, at to-day's market, compared with those of Saturday last, are subjoined:

* Ex 6 coupons, January, 1872, to July, 1874, inclusive.

The weather has been cold during the week, and vegetation is in a backward state. The holders of grain have, in consequence, been firm, and rather more money has been obtained for wheat. The supply afloat is estimated at 1,250,000 quarters, being about the same as at this period last year. Rain is much wanted for the crops generally, but after a wet summer, autumn and winter, it is not improbable that the weather may continue dry for some time to come.

The following figures show the imports and exports of cereal produce into and from the United Kingdom since harvest, viz., from September 1 to the close of last week, compared with the corresponding periods in the previous three years :

During the week ending May 13 the sales of home-grown wheat, in the 150 principal markets of England and Wales, amounted to only 44,989 quarters, against 62,370 quarters last year. In the whole Kingdom, it is estimated that they were 180,000 quarters, against 249,500 quarters, showing a deficiency of 69,500 quarters. Since harvest, the deliveries in the 150 principal markets have been 1,662,173 quarters, against 2,232,019 quarters; while in the whole Kingdom it is estimated that they have been 6,648,700 quarters, against 8,931,700 quarters in the corresponding period of the previous season. The falling off amounts, therefore, to 2,283,000 quarters. It is estimated that the following quantities of wheat have been placed upon the British markets since harvest:

In spite, however, of the above unfavorable result, both as regards quantities and values, the statement is not entirely devoid of a redeeming feature or two. The falling off in the shipments to the United States is very considerable, being as much as 24,700 tons: the total exports for the first four months of the current year having been only 44,205 tons, against 68,904 tons last year. In the same period in 1874 the exports amounted to 106,697 tons, so that the United States are now taking less than half of what they were purchasing two years ago, the principal diminution being in railroad iron. In the shipments to Russia there has been a reduction of 3,640 tons; to Belgium of 7,225 tons, and to Australia, of nearly 26,000 tons. On the other hand, Germany has taken a somewhat larger supply; while to France there is an increase in the exports of 3,426 tons. Italy, also, has taken about 7,000 tons more, consisting chiefly of railroad descriptions; while to Holland there is an increase of 5,658 tons, chiefly under the head of pig iron. It is evident, therefore, that countries which may be regarded as well-to-do are taking some advantage of the existing low prices. There appears to be no doubt that in previous years a good deal of activity was produced in the iron trade by the facility with which foreign loans were negotiated, and possibly many contracts were paid for by foreign governments with bonds now quoted at a considerable discount, or perhaps next to worthless. The absence of that sort of business is not to be deplored. A false position was assumed, and it is found, now that our customers who were trading upon borrowed money are unable to appear upon our markets, that trustworthy buyers are not very numerous. As regards the United States, it is probable that our trade in iron with them will not be so active as it has been in recent years, as they are themselves becoming greater producers; but there is no reason to doubt that the existing low prices will gradually attract *bona fide* buyers, and that the position of the trade will improve as confidence is restored. With regard to the home trade, it may be observed that there is some hope of improvement. Several railroad companies have recently been borrowing money for the extension or completion of existing systems, while some portion of the Metropolitan Board of Works' loan will be spent in the purchase of iron. No doubt, prices will improve very slowly, but, at the existing low quotations, buyers, in the natural course of things, ought to become more numerous. It will probably, however, be a long time before customers have become sufficiently numerous to compensate for the loss of those doubtful ones who traded with money raised at high rates of interest. British bar iron is now quoted in London at £7 to £7 10s. In July, 1873, the price was as high as £12 5s., showing a reduction of about £5 per ton.

**Rockford Rock Island & St. Louis.**—Mr. Osterberg, as "Agent and Trustee," issued a circular May 20, stating that he had sold the Rockford Rock Island & St. Louis Railroad, and the Orion & Minersville Railroad, with their appurtenances, to the St. Louis, Rock Island & Chicago Railroad Company. The new company issues a circular, signed by H. Osterberg, President, and Walter Trumbull, Secretary, giving notice that having purchased the above-named roads, Mr. George Skinner has been elected General Manager, and that the heads of departments will continue to serve in their present positions until further notice. "Agents and others will remit to the Peoples' National Bank, Rock Island, Ill., for account of the St. Louis Rock Island & Chicago Railroad Company, all moneys on account of business originating on and after the time when Mr. H. Osterberg, Agent, took possession of the road."

**Texas Pacific.**—A recent Philadelphia dispatch says: Tom Scott and his friends, failing to get Congressional aid, have put up $1,500,000 cash, and will make it $2,000,000 before the week closes, and are contracting for steel rails to build 120 miles of the Texas Pacific Railroad west of Fort Worth. The road is to be completed this far in August. It is understood that they will push the road west as fast as possible, lest the California Pacific get all the land grant. Contracts for all the work are to be let immediately.

COTTON FERTILIZERS.—As fertilizers are one of the most important elements in the production of cotton, tobacco, etc., the attention of planters and others interested is directed to the Pacific Guano Company's "Soluble Pacific Guano." This article has been before the agricultural interests of the country for a number of years, and we are informed that the sales have reached as high as 36,000 tons in a single year, thereby showing its popularity and value. The company is a corporation chartered by the State of Massachusetts, with a capital of $1,000,000, its stockholders being residents of Massachusetts, Maryland, New York, Georgia and South Carolina. It owns large guano islands in the Pacific Ocean and Caribbean Sea, also large phosphate beds and works in South Carolina. These deposits are reported to be rich in bone phosphate of lime, which, after being prepared, are treated with ammonia obtained from the Menhaden fish (found in great number on our Eastern coast), and thus utilized after the oil has been extracted. This composition is said to make one of the most complete fertilizers used in connection with cotton and other plants. The company occupies 25,000 feet of space at the Centennial Exhibition, where they demonstrate the methods by which this article is made, and its beneficial results on cotton, tobacco, flowers and other vegetable growths. Those attending the Exhibition at Philadelphia will do well to visit the Pacific Guano Company's display, as it affords a view of an enterprise which has a bearing on the interests of science, commerce and agriculture.

—Among the business changes on the 1st of June was the dissolution of the banking firm of Glendinning, Davis & Amory, Mr. John M. Amory withdrawing. The firm during its eight years' existence in this city has become known as one of the most enterprising and honorable in the street. The new firm is under the name of Glendinning, Davis & Co. in New York and Philadelphia, bearing the name under which the original business was started some sixteen years ago in Philadelphia. In the reorganized firm, Messrs. Robert P. Anderson and Charles F. Webb are members.

The developments in the drifts of the Imperial Mine within 50 feet of the Alpha line are improving, and now assay from $200 to $500 per ton. The cross-cut of the Alpha has encountered ore. The Ophir, 1,600 feet level, has been run to within 150 feet of the California, encountering rich ore at that point. The 1,600 feet level of the California has been driven to the Ophir line, the ore being high grade the entire length. The receipts from California for May will aggregate $2,000,000, and from the Con. Virginia $1,500,000.

**The Money Market and Financial Situation.**—There have been no influences of special importance affecting our markets this week, beyond the Turkish troubles, which are too remote to have much effect here, and the reduction in passenger rates on the trunk railroads, which is a further depressing influence for stocks.

The political horizon is undoubtedly scanned now with the deepest interest, as the time for Presidential nominations in both of the parties draws near; and it is a decidedly encouraging feature that up to the present moment, the candidates on either side who seem to have the best chance for nominations are men who are sound on financial questions, and who, if elected, could be safely entrusted to carry out a conservative and rational policy. On general political questions the sympathies of business men may be, and are, widely different, but at the present moment they can hardly be otherwise than united in earnestly hoping for the nomination of candidates in both parties, who, whatever else they may be, will not be the tools for carrying into execution financial measures that would further damage the already suffering interests of the country.

In our local money market there is little change; call loans on government collaterals are made at 2@3 per cent, and on stock collaterals at 2½@4 per cent. There is very little prime commercial paper offered for sale, and on really choice paper the demand exceeds the supply at 4@5 per cent.

On Thursday, the Bank of England report showed a gain in specie for the week of £505,000, the minimum discount rate remaining at 2 per cent. The Bank of France gained 9,406,000 francs in specie.

The last statement of the New York City Clearing-House banks, issued May 27, showed an increase of $2,323,500 in the excess above their 25 per cent, legal reserve, the whole of such excess being $14,414,225, against $12,090,725 the previous week.

The following table shows the changes from the previous week and a comparison with 1875 and 1874:

| | 1876. | | | 1875. | 1874. |
|---|---|---|---|---|---|
| | May 20. | May 27. | Differences. | May 29. | May 29. |
| Loans and dis. | $253,210,500 | $251,492,700 | Dec. $1,717,800 | $231,396,500 | $230,558,100 |

**United States Bonds.**—There has been a good demand for government bonds this week, and prices have been well maintained in consequence. The largest purchasers have been moneyed corporations in this city, and we have heard of two or three of these that were picking up lots of $500,000 or $1,000,000 governments as fast as they could be got together without disturbing the market. The demand has also run considerably on registered bonds, as might be expected from the character of the purchases just noticed.

It is reported from Washington that there will be no further call by the Treasury for bonds on account of the sinking fund for the present fiscal year; $13,000,000 have already been called; $6,000,000 called last year and not presented have been credited to this year, and the Secretary of the Treasury estimates that the redemption of fractional currency will be sufficient to make up the deficiency.

**State and Railroad Bonds.**—State bonds have not been active, and Tennessees are the strongest, at an advance of about 2 per cent from last week's quotations. Louisiana consols are lower, and it is supposed that a considerable part of the $423,448 bonds recently funded have been thrown on the market in New Orleans and here. An important decision was recently rendered by the United States Supreme Court in regard to town bonds in Missouri—the Court holding that where a vote of two-thirds of the legally qualified voters of a township was required by constitutional provision to authorize an issue of bonds, a law permitting two-thirds of the qualified voters, who vote at an election, to authorize such bonds would be void. It is said that a considerable amount of township bonds may be invalidated by this decision.

Railroad bonds have shown a moderate business, with a tendency to firmer prices. The Central Pacific old first mortgage bonds sold to-day at 109, and if this and the Union Pacific should finally settle all their differences with the Government, there is scarcely a doubt that all their later issues of bonds would advance materially, as the competition on other roads turns the attention of investors to the Pacific railroads, which have a business not liable, as yet, to be killed by ruinous strife.

**Railroad and Miscellaneous Stocks.**—Business was interrupted early in the week by the occurrence of Decoration Day on Tuesday, which is now kept as a legal holiday. At the opening of the week the announcement of a reduction in passenger fares by all the Western trunk lines was known, but, contrary to what might have been expected, stocks were generally strong, instead of declining, and purchases by the short interest were assigned as the cause. It is also reported in the papers to-day that a reduction has been made on West-bound freight rates, and it, therefore, appears that the railroad war is complete in every department. The officers of all the lines are aware that their companies are losing money heavily, but it is a sufficient satisfaction to them that the other roads are also losing. It is better, upon the whole, that the war should be sharp and decisive at the outset, as it is then more likely to be short.

Western Union Telegraph closes strong at 68¼, on the prospect that 1¼ per cent dividend will be paid in July. Several sales were made to-day, "seller 60," and there is some curiosity to see

what card is to be played next by the opposition—whether it will be "another reduction," a "quadruplex injunction," a "break in the five Atlantic cables," or "new lines extending to all the principal cities of the South." St. Paul preferred has been one of the strongest stocks, and sold to day at 69¼. Northwest was up to 40¼ for common and 60¼ for preferred. The coal stocks, on small sales, closed at 82½ for Central of N. J., 106½ for Del. Lack. & W., and 109 for Del. & Hudson Canal—the report coming to-day that coal mining in the anthracite coal regions is to be suspended for two months. The general tone at the close is tolerably strong.

**The Gold Market.**—Gold has been without feature of importance, selling at 113¼ early in the week, and since then at lower figures, and to day at 112⅝@112¾. The exports have been smaller, as exchange is somewhat easier. On gold loans the carrying rates to day were 3, 1, 2 and 1½ per cent. Customs receipts of the week were $1,453,000.

The following table will show the course of gold, and operations of the Gold Exchange Bank, each day of the past week:

**Exchange.**—Foreign exchange has been quiet, and to-day rates were rather easier. There have been more commercial bills offering, which came from the shipments of grain, provisions and cotton, and bankers have consequently shown rather more disposition to draw. The Turkish question, which has been a matter of some interest in European markets, is without special effect here.

In domestic exchange the following are the rates on New York to-day at the cities named: Savannah, ¼ premium; Charleston, selling ¼ premium; Cincinnati, 90@100 premium; New Orleans, commercial, ¼; bank, ⅜; Chicago, 75c. discount, and St. Louis, 50c. premium.

The quotations for foreign exchange are as follows:

## ANNUAL REPORTS.

### St. Louis Kansas City & Northern Railroad.

*(For the year ending December 31, 1875.)*

The annual report of this company, just issued, is an exceedingly brief document, not even furnishing a statement of freight and passenger earnings separately.

In the President's report are the following remarks:

The increased facilities for freight purposes, mentioned in our last report, were further improved during the year by large additions, until the present arrangements are quite satisfactory to all receivers and shippers of freight. The adjustment of the leases of branch lines was closely considered and finally arranged on a basis that cannot but prove profitable to this company in the future. A lease was made of the Boone County & Boonville Railroad for a period of 28 years, at the rate of $7,000 per year and taxes; it is our opinion that the business on this road, now that it is controlled by this company, can be largely improved. An adjustment of the lease of the "Cedar Rapids" Branch was made by its owners transferring to this company all their stock, and entering into a perpetual lease of their road to us for an annual rental of $22,500. Upon this basis the earnings of this branch for the past year will pay a good net profit to this company, in addition to which we collect $14,000 per annum as rental for part of the branch. The last report of this company stated the terms upon which it was proposed to enter into a lease of the "St. Joseph" Branch; this lease was not ratified by that company, some slight amendments being desired. But a lease has since been confirmed by both companies without any change in time of payment or amount of rental from that originally proposed.

An adjustment of our difficulties with the stockholders of the St. Charles Bridge Co. has been made by our settling all their past and future demands, to April 1, 1877, in the preferred stock of this company; they agree to accept for the two following years five per cent per annum on their stock, instead of 7 per cent.

The "Kitchen suit" was decided by his Honor Judge Jones in favor of this company. His decision was strong, and so thoroughly exhaustive that it left no ground whatever for the suit to rest upon; and said decision was unanimously affirmed by the general term, consisting of the five Judges of the Circuit Court. So that we can now say that the company is relieved from all the threatening and burdensome cases that have so long overshadowed it like a nightmare, and which have done so much to retard its progress and interfere with the development of its business.

In your last report, your attention was called to the fact that it was imperative that immediate steps should be taken to make a connection with the Union Depot, and as soon as trains commenced running across the bridge, the necessity of the connection became daily more evident. Financial arrangements were concluded in October, with Messrs. Drexel, Morgan & Co., for a loan of $700,000, on two years' time, with the "Real Estate and Railway" bonds of the company as collateral. The work on the connection was advertised and contracts let by a committee appointed by the board, and is now being actively prosecuted.

On account of the heavy mileage paid other roads, and the uncertainty of getting cars when required, it was determined, last March, to purchase 500 additional box cars. The President, Mr. Hoge, contracted with Messrs. Barney, Smith & Co., of Dayton, Ohio, for this number, which has been delivered at a cost of $276,000.

The cost of cars, new rails and other permanent improvements and damage by freshets, in addition to the expenditures for constructing the connection to the bridge, have largely increased the floating debt; but after this connection is completed, and the $2,000,000 bonds are placed, it would so nearly extinguish the debt that it would not exceed the amount ordinarily carried in the usual accounts of the road for supplies; and from the large benefits to be derived from the connection with the bridge, the improved condition of the road, the certainty of improved receipts from local business and favorable connections with other lines, the earnings must be largely increased.

It is due to the stockholders to say that while the last year's operations, from the causes enumerated, show extraordinary expenses, we are now working the road on a basis of earnings and expenses that will soon exhibit most satisfactory results.

The extent of lines owned by the company are as follows:

| | Miles. |
|---|---|
| From St. Louis to Junction with the H. & S. J. R. R. | 265½ |
| " Junction to Kansas City | 9 |

### Missouri Kansas & Texas.

*(For the year ending December 31, 1875.)*

The report of Mr. William Bond, Receiver, furnishes the following:

EARNINGS AND EXPENSES.

*Earnings.*

| | |
|---|---|
| Freight | $1,955,115 |
| Passenger | 750,977 |
| Mail | 132,351 |
| Express | 62,447 |
| Miscellaneous | 4,034 |
| Total | $2,904,925 |

*Expenses.*

| | |
|---|---|
| Conducting transportation | $424,150 |
| Motive power | 399,567 |
| Maintenance of cars | 146,125 |
| Maintenance of way | 304,219 |
| General expenses | 80,422 |
| Renewals | 189,735 |
| Improvements | 19 582 |
| Total | $1,563,404 |
| Net earnings | $1,341,521 |
| Taxes on railway and equipment for 1875 | 116,960 |
| Net proceeds | $1,224,560 |

Under the head of earnings in this statement is included only such earnings as produce a money result in the Receiver's accounts. The earnings of the Boonville bridge, and all amounts for transportation of materials or supplies used in operating and maintaining the railway, and all transportation of freight and passengers not actually paid for being excluded from the stated results. Under the head of expenses is included all the expenses of operating, maintaining and improving the railway and property, excepting taxes, and all additions and increase of equipment. The Receiver has no "construction account" upon his books.

As directed by the Court, the Receiver paid out of the first surplus earnings of the railway coming into his hands, the arrears of taxes due and unpaid upon the roadway, structures, personal property and lands, and has promptly paid all other taxes that have become due and payable during his administration, amounting in the aggregate to $276,151 78.

The Receiver has also paid, under the direct orders of the Court, claims against the Missouri Kansas & Texas Railway Company, other than taxes, created prior to his appointment, amounting to $586,870 36.

The operations and results of the Land Department will be made the subject of another report. The Receiver has received from this department, and purchased from funds derived therefrom, Union Pacific Southern Branch bonds, amounting at the par value to $177,000 for account of the sinking fund of the mortgage to Messrs Russell Sage and N. A. Cowdrey, Trustees.

The railway property and equipment in charge of the Receiver

has been maintained, and it is now in a safe condition for use, and in equal, if not in better, condition than when it came into the custody of the Circuit Court.

The surplus moneys and available resources in the hands of the Receiver, December 31st, 1875, are herewith reported as follows:

| | | |
|---|---|---|
| Cash | $439,489 43 | |
| Accounts Receivable | 342,781 79 | |
| | | $782,274 22 |

The liabilities of the Receiver at the same date, to be provided for from these resources, were:

| | |
|---|---|
| December pay rolls and accounts payable | 197,092 89 |
| The net surplus therefore amounts to | $585,181 33 |

## Pacific Mail Steamship Company.

*(For the year ending April 30, 1876.)*

The report of Mr. Sidney Dillon to the stockholders has the following:

Notwithstanding we have just passed through a season of great depression in business, our labor has not been entirely unrewarded, as a reduction in the liabilities of $2,300,000 will abundantly testify; while at the same time we have made a reduction of nearly one million of dollars in the expenses over those of the previous year, and foot up a half million of dollars net earnings, against a loss of about an equal amount the year previous.

A large expense has been incurred in putting into operation the line to Australia, the benefit of which is just being experienced.

The unfortunate complications that arose in November last between this company and the Panama Railroad Company, and which have continued up to the present time, have seriously impaired our earnings, and for several months past have stopped that gradual decrease in the liabilities that had been going on since we were entrusted with the administration of affairs by you.

—The *World* says: "The annual election for directors of the Pacific Mail Steamship Company was held to-day (Wednesday), and resulted in the choice of the names already made public by the unopposed vote of 140,435 shares out of a capital stock of 200,000 shares. This is the largest vote cast for one ticket at any election in the company's history, unless our information is at fault. The new directors met at 3 P. M. and organized, electing Mr. W. P. Clyde as their President, and Mr. C. G. Francklyn, President *pro tempore*. Of the vote mentioned above, Messrs. Whitehouse & Co. represented 125,248 shares—an ample justification for making their office the headquarters of the stockholders' opposition during the past two elections.

—The *Tribune* says: "The new directors of Pacific Mail, who were elected on Wednesday—Charles G. Francklyn, Andrew Boardman, Samuel C. Thompson, Charles H. Mount, William P. Clyde, Thomas J. Owen, Charles G. Miller, Henry Hart, and Edward A. Quintard—met at the office of the Panama Railroad Company. A consultation was held with Trenor W. Park, President of the Panama Railroad, in regard to the relations of the two companies and as to providing ways and means to meet the obligations of Pacific Mail. An Executive Committee was then elected, composed of Charles G. Francklyn, S. C. Thompson, C. H. Mount and Andrew Boardman. The Board also appointed committees as follows: To audit accounts, to audit and adjust old claims, to settle accounts between the Pacific Mail and the Panama Railroad, and a committee to provide ways and means to settle the present liabilities of the company. A resolution was adopted to close the old books and open an entirely new set, dating from June 1, which will show the current transactions and business of the company under the new board as entirely distinct from that of the former management. Provision was made for meeting the present pressing liabilities of the company and for re-establishing its credit."

## GENERAL INVESTMENT NEWS.

**Atlantic & Pacific.**—The receivers announce that the July coupons will not be paid on the $7,188,500 bonds issued under the mortgage of July 1, 1868, and known as the South Pacific first-mortgage bonds, which had not previously been in default.

**Bost. Clinton & Fitchburg & New Bedford.**—The stockholders of the New Bedford Railroad have voted to mortgage its road to secure $517,000 bonds already issued, and not over $550,000 bonds to be issued.

—The stockholders of the Boston Clinton & Fitchburg Railroad Company voted to accept the terms of consolidation proposed by the New Bedford Company—yeas, 4,255; nays, 358. Stockholders in the New Bedford Railroad who desire to assign their stock and receive instead their money must give notice to the trustees before the 30th day of June, and the money will be paid on the 1st day of August, with interest at the rate of 8 per cent by the year, from May 1 to August 1.

**Chicago City Certificates.**—The Boston *Advertiser* has the following:

The securities known as Chicago certificates went to protest in Chicago last week, and, as they are largely held here, much interest was felt in the action the authorities there proposed to take. The following telegram from the Mayor of Chicago was received in response to inquiries:

*Gentlemen:*—Your telegram has just been received. You are possibly aware that we do not mean to repudiate a dollar of our indebtedness, and yet that the present issue of certificates outstanding was made in violation of law, being an increase of municipal indebtedness beyond what the State constitution permits. If the late administration had left us resources sufficient, we should pay immediately. We are, however, at present without cash resources, except such as cannot be applied in that way, and also necessary to pay more pressing demands now due. In view of the issue of any more illegal paper to take up such as is now maturing, we propose to take such action in the City Council on Monday evening next as will secure the ultimate payment, with interest, within three years, and in the mean time levy and assess taxes sufficient to meet our obligations at the time of deferred payment promptly at maturity. In any event, this will be better than an extension made or secured by the issue of what would be totally unauthorized and illegal. We are sound and solvent—mean to pay—but we insist upon paying in such securities or such manner as may be authorized by law. I have the honor to be, gentlemen, your obedient servant, THOMAS HOYNE, Mayor.

P.S.—We have a meeting of our business men with the Finance Committee of the Council to-morrow morning.

The adjourned meeting of Chicago city officials and citizens was held the 29th inst., at the rooms of the Citizens' Association, to receive the report of the committee of eleven appointed last Saturday on the city finances. The committee reported a series of resolutions, which were adopted, recommending that an extension of one, two and three years be obtained on the outstanding city certificates, the city agreeing to pay 7 per cent interest. The sentiment of the meeting was very pronounced in favor of paying every cent of the indebtedness represented by the certificates at the earliest possible moment, and just as pronounced in opposition to the issuing of any new certificates to take up the old ones. In the afternoon, Judge Farwell announced to the Council that if the *quo warranto* case of Colvin vs. Hoyne should be taken to the court, one of the common law judges would hear it next Wednesday.

An order was entered referring the account to Mr. Bishop, master, for examination and report.

**Chicago & Northwestern Railroad.**—Messrs. Albert Keep, A. G. Dulman, Charles R. Malvin, M. L. Sykes, Jr., R. P. Flower and H. H. Porter, all of the old Board, have been re-elected as a Board of Directors for the ensuing year. The business for the month of May being not yet ascertained was not stated at the annual meeting, nor was any full report for the year made, although from the figures submitted it is reported that there would be shown profits of $500,000 over the last fiscal year.

Mr. H. H. Porter, the General Manager, has resigned, and the company has decided to abolish the office and transfer its duties to the General Superintendent.

**Chicago & Pacific.**—In Chicago, May 27, application was made to the United States Circuit Court for an injuction against the company, and the appointment of a receiver, by parties holding notes of the company for about $450,000, secured by a deposit of first mortgage bonds, $1,237,000 in all, upon which no interest has been paid. Judgments to the amount of $65,000 have recently been obtained, under which the equipment has been seized by the sheriff.

The Court granted the injunction and appointed James M. Whitman receiver.

**Chippewa Falls & Western.**—This company has made an issue of $150,000 first mortgage bonds, being at the rate of $12,500 per mile of finished road. It is said that arrangements have been made for the sale of bonds at 85.

**County, City and Township Bonds in Missouri.**—An important decision has just been rendered by the United States Supreme Court, affecting bonds of this class, and an abstract of the opinion delivered by Justice Bradley is given below:

G. W. Hartman, Plaintiff in Error, vs. Bates County.—This is an action brought to recover the amount due on certain coupons attached to bonds of Bates County, Missouri, issued at the request and on account of Mount Pleasant township, in said county, in payment of a subscription on behalf of the township to the capital stock of the Lexington Lake and Gulf Railroad Company. The subscription was made under a law of Mis-

souri, called the "Township Aid Act," passed in 1868, by which, on the application of twenty-five taxpayers and residents of any township for election purposes in any county, the County Court may order an election to be held in such township to determine whether and on what terms a subscription to any railroad to be built in or near the township shall be made; and if two-thirds of the qualified voters of the township, voting at such election, are in favor of the subscription, the County Court shall make it in behalf of the township, and if bonds are proposed to pay the subscription, the court shall issue such bonds in the name of the county, but to be provided for by the township. It is contended that this law is repugnant to the fourteenth section of article 11 of the Constitution of Missouri, adopted in 1865, by which it is declared that "the General Assembly shall not authorize any *county, city or town* to become a stockholder in, or to loan its credit to, any company, association or corporation, unless two-thirds of the qualified voters of such county, city or town, at a regular or special election to be held therein, shall assent thereto." Now, the law of 1868 only requires the assent of two-thirds of the qualified voters who vote at such election. This is certainly a broad difference; and if the constitutional restriction extends, by implication, to townships, as well as to counties, cities and towns, an election not conforming to the requirements of the Constitution would be invalid and confer no authority to make a subscription. The question, therefore, arises whether townships are within the restriction of the constitutional provision. A township is a different thing from a town in the organic law of Missouri, the latter being an incorporated municipality, the former a geographical subdivision of a county only. As said in the State vs. Linn County Court (44 Misso., 510), "it has no power by itself to make independent contracts or to become bound in its separate capacity. The law has not invested it with that power. It forms an integral part of the county, and the county, to a certain extent, controls and acts for it." That the framers of the Constitution intended to require the assent of two-thirds of all qualified voters of a "county, city or town," as a prerequisite to a subscription to a railroad or other company, and did not intend the same thing with regard to townships, seems almost absurd. It was undoubtedly supposed that every case was provided for. To contend that the mere subdivisions of counties into townships enabled the Legislature to defeat the constitutional provision is to ignore the manifest intention and spirit of that instrument.

Another objection to the validity of the subscription for which the bonds were given in this case is, that the township voted a subscription to one company and the county court subscribed to another. This is sought to be justified on the ground that the former company became consolidated with another, thereby forming a third, to whose stock the subscription was made. This consolidation was effected under a law of Missouri authorizing consolidation and declaring that the company formed from two companies should be entitled to all the powers, rights, privileges and immunities which belong to either. The extinction of the company in whose favor the subscription was authorized worked such a revocation. The law authorizing the consolidation of railroad companies does not change the law of attorney and constituent. It may transfer the vested rights of one railroad company to another upon a consolidation being affected; but it does not continue in existence powers to subscribe for stock given by one person to another, which, by the general law, are extinguished by such a change.

As sufficient notice of these objections is contained in the recitals of these bonds themselves to put the holder on inquiry, we think there is no error in the judgment of the circuit court, and it is therefore affirmed.

**Davenport & St. Paul.**—The bondholders, for whose account this road was bought at the recent foreclosure sale, have agreed to raise the $200,000 required to complete the road into the city of Davenport, Ia, provided the city will give the right of way.

**Erie Railway.**—Mr. H. J. Jewett, receiver of the Erie Railway, has filed in the County Clerk's office his report for the months of February and March.

The report for February shows that the balance January 31 was $405,382; the receipts of the road for the month, including this balance, were $2,430,292; the aggregate amount disbursed, $2,199,239; balance February 29, $301,052, but the actual balance was $113,518, the difference being claims and debts set forth. The amount of receiver's certificates of indebtedness and notes issued during the month of February amounted to $200,000; the amount of same cancelled during the month was $50,000.

The report for March shows a balance February 29 of $301,052; receipts for the month, including above balance, were $2,323,148; and payments were $1,942,840, leaving a balance March 31 of $380,307; but claims and debts, and proofs of payment, as in February, not submitted to the referee for examination and audit, reduced the referee's actual balance to $33,299. The total amount of certificates issued by the receiver from date of his appointment to March 31 was $2,236,539, of which $200,000 were issued in March. The total amount paid and cancelled by the receiver to the same date was $1,086,539, leaving certificates and notes outstanding March 31, $1,150,000.

The referee approves the payment of money on the coal lands by the receiver.

**Lake Superior & Mississippi.**—It is stated that holders of $3,750,000 out of the $4,500,000 first mortgage bonds have assented to the proposed plan of reorganization, and others are coming in daily.

**Nashua & Rochester.**—This company was authorized by the last New Hampshire Legislature to issue 2,000 shares new stock to the Worcester & Nashua Company, lessee, to pay for advances, etc. The lessee pays 6 per cent. dividends as part of the rental. The Worcester & Nashua Company is now offering this stock to its own stockholders, and has already sold a part of it at from 90 to 95.

**New York Boston & Montreal.**—The foreclosure sale of the New York & Boston Division has again been postponed to June 5.

**Pacific Railroads.**—The different bills heretofore reported by the Senate and House Committees have already been referred to in the CHRONICLE. The House bill proposed to make the companies provide for paying their indebtedness, without any particular regard to their rights under the laws by which the companies exist, nor under the U. S. Supreme Court decision of last year, which went far to establish the real status of these corporations in their relations to the Government. There was a minority report with this, which said in substance, that the bill proposed by the majority ignored the rights of the companies, and was unconstitutional. The bill reported to the Senate by Mr. West, from the Committee on Railroads, was referred to briefly in the CHRONICLE of May 27, on page 514. This was accompanied by a report at some length showing that the Government has no power now to enforce any payment of the debts due to it in 1898, and that its whole authority is limited to the claim for 5 per cent. of net earnings, to withhold payment of one-half the money due for government transportation, and to have a second mortgage on the roads as security.

The report urges, therefore, that the Government will do much better to accept the re-conveyance of lands now to the extent of $15,000,000 from each of the two principal companies, together with the payment of such annual sum in cash (not exceeding $750,000 per year by the Union Pacific, and $850,000 per year by the Central Pacific) as shall make sinking funds which will equal the amount of indebtedness at the date of maturity. The bill also provides that the government mortgage on the companies' franchises and property shall remain in full force until the companies shall have complied with the requirements, and shall not be operative unless accepted by the companies within four months from the date of its enactment, by the votes of the directors and stockholders, at regular meetings duly called.

The bill also provides that the payments so to be made by said companies shall be in lieu of all payments or other requirements from them, under all the various Pacific Railroad acts in relation to the re-imbursement to the Government of the bonds issued to the said corporations, except that the companies shall still be required, until said bonds and interest are fully paid, to keep its line in repair and perform service for the Government, giving it priority of use when demanded at fair and reasonable rates of compensation, not exceeding those paid by private parties, which charges shall be paid in cash. The bill further requires the companies to provide for and pay the principal and interest, and maintain sinking funds for any and all land grant and sinking fund bonds issued upon the security of mortgages covering the lands, which are to be conveyed to the Government, and to pay to the trustees under said mortgages amounts sufficient to release all these lands from mortgage claims as fast as they may be sold by the Government.

The following statement shows the principal of the bonds issued to the various companies, with the total amount of interest which, together with the principal, will be due from the companies to the Government, on an average, in 1898, or at the time of the maturity of the bonds, thirty years from their date, crediting no re-imbursements:

Central Pacific, Western Pacific—Principal of bonds, $27,855,680; interest, $50,140,221; principal and interest, $77,995,904.
Union Pacific—Principal of bonds, $37,234,512; interest, $19,023,721; principal and interest, $76,262,233
Kansas Pacific—Principal of bonds, $6,303,000; interest, $11,315,400; principal and interest, $17,618,400.
Central Branch, Union Pacific—Principal of bonds, $1,600,000; interest, $2,880,000; principal and interest, $4,480,000.
Sioux City and Pacific—Principal and interest of bonds, $1,628,320; interest, $2,930,976; principal and interest, $4,559,296.
Total principal of bonds, $64,623,512; interest, $116,332,321; principal and interest, $180,943,833.

In conclusion the report says:

The new agreement being on the whole advantageous for the companies, it is fair to presume that they will be both able and willing to carry it into execution faithfully. Should they not be so able, however, the Government is in no worse condition than it was before. It will have received all the payments which will have been made up to the time of the failure of the companies, and can resort to its second mortgage lien, which has been in no way waived, canceled, or released, except to the extent of the partial payments made by the companies with which the latter are in any extent entitled to be credited.

**Tennessee & Pacific.**—At the sale of the interest of the State of Tennessee in this road, the company having failed to make the final payments, the road was bought in by President Maney for account of the company. The board subsequently ratified the purchase and ordered the necessary payment to be made. The purchase money is payable in State bonds and over-due coupons.

**Toledo Wabash & Western.**—A despatch from Toledo, May 31, says: A meeting of stockholders of the Toledo Wabash & Western Railway Company, which has been extensively advertised for some time past, was held here this afternoon. Mr. O. D. Ashley of New York was present with proxies representing between one-fourth and one-fifth of the capital stock. Two or three other persons were present. About one-fourth of the capital stock in all was represented. Resolutions were introduced by Mr. Ashley, and adopted, declaring that the stockholders had not had sufficient notice of the impending default of payment of interest, which occasioned the present foreclosure. Another resolution was adopted appointing Mr. Ashley chairman of a committee to employ counsel to contest the sale of the road advertised for June 10.

## COMMERCIAL EPITOME.

FRIDAY NIGHT, June 2, 1876.

The speculative excitement in leading staples of domestic produce has at times run quite high during the past week, not withstanding the interruption to business caused by a close holiday on Tuesday; but general trade has remained dull. There has been a falling off in the export movement of breadstuffs, while provisions shipments have somewhat increased, stimulated by the lower prices. The weather has continued generally favorable for the crops, though a little too cool in Northern latitudes.

The following is a statement of the stocks of leading articles of domestic and foreign merchandise, at dates given:

Pork has been fluctuating; a strong effort was made to check the decline in prices which preceded three important failures among Louisville packers, announced on Monday, but success has been but partial. To-day there was a marked decline, and the closing bids for mess for future delivery were: $18 25 for June, $18 50 for July, $18 65 for August, $18 55 for September, and $18 50 for October, with a sale on the spot at $19 25. Lard has also fluctuated sharply, prime steam closing lower at $11 15 @11 20 on the spot, with bids for future delivery at $11 10 for June, $11 15 for July, $11 30 for August, $11 35 for September, and $11 40 for October. Bacon and cut meats have declined, leading to more business. Beef and beef hams are dull and nominal. Butter and cheese are lower, showing steadiness, with more activity at the close. Tallow has been fairly active, at 8¾c. for prime.

Groceries have generally ruled dull and weak. We notice, however, a slight improvement in business at the close in Japan teas, at a slight decline.

Ocean freights have continued to show much firmness in rates, and a pretty active state of affairs has existed, so much so that the offerings of room at the moment are rather limited, and a tendency toward still higher rates is noticeable. Late engagements and charters are: Grain to Liverpool, by steam, for next week, 9@9¼d.; provisions, 40@50s. per ton; grain, by sail, 8d.; do. to London, by sail, 8¼@9d., and flour 2s. 6d.; grain to Cork, for orders, 6s. 6d; do. to the Continent, 6s. 9d.; do. to the Baltic, 6s. 9d.@7s. 3d.; refined petroleum to Bremen or Hamburg, 3s. 6d.@3s. 9d. To day, a fairly active movement was effected in both berth and charter room, but especially in the latter; full rates were maintained. Grain to Liverpool, by steam, 9@9¼@9½d.; do. by sail, 8d; do. by steam, to London, 10½d; do. to Cork for orders, 6s. 6d.@6s. 9d, principally at the latter rate; do. to Rotterdam, 6s. 9d. Six vessels were chartered to load grain.

Naval stores have been pretty quiet during the past week so much so that the close shows considerable weakness; spirits turpentine quoted at 30½c.; common to good strained rosin, $1 70@1 75. Petroleum has been rather quiet, but closes higher and firm, under advices of a similar tenor from the creek; crude, in bulk, quoted at 8¼c.; and refined, in bbls., at 14⅛@14½c. Ingot copper is a trifle easier, with 150,000 lbs. Lake sold at 21c. cash. Whiskey closed at $1 12½, tax paid.

The market for Kentucky tobacco has been quiet, but prices are firm at 6½c.@8c. for lugs, and 8½c.@16c. for leaf; the sales for the week embraced 500 hhds., of which 300 hhds. were for export, and 200 hhds. for consumption. Seed leaf has continued in fair demand and steady; the sales embrace: Crop of 1872 and 1873, 119 cases New York at 7½c.@13c.; crop of 1873, 46 cases Pennsylvania at 8c.; crop of 1873, 1874 and 1875, 538 cases Ohio at 5½@8¾c.; crop of 1874, 25 cases New England, at 10c, 25 cases Pennsylvania at 14c., 5 cases Florida at 7½c.; and crop of 1875, 175 cases New England on private terms; also 200 cases sundry kinds at 7@25c. Spanish tobacco has ruled firmer, with sales 800 bales Havana at 88@$1 15.

The demand for hides during the past week has been active, and prices have advanced 1c., the market closing very firm; dry Montevideo sold at 19c., Rio Grande at 17¾c., dry Matamoras at 16c. gold, and dry Texas at 17c., cash, currency. Linseed oil has ruled firmer at 55@56c.; other oils are quiet and unchanged.

## COTTON.

FRIDAY, P. M., June 2, 1876.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening (June 2) the total receipts have reached 13,810 bales, against 16,330 bales last week, 19,995 bales the previous week, and 26,441 bales three weeks since, making the total receipts since the 1st of September, 1875, 4,018,014 bales, against 3,408,425 bales for the same period of 1874–5, showing an increase since Sept. 1, 1875, of 609,589 bales. The details of the receipts for this week (as per telegraph) and for the corresponding weeks of five previous years are as follows:

* *New Orleans.*—Our telegram to-night from New Orleans shows that (besides above exports) the amount of cotton on shipboard and engaged for shipment at that port is as follows: For Liverpool, 15,500 bales; for Havre, 10,000 bales; for Continent, 4,000 bales; for coastwise ports, 300 bales; which, if deducted from this stock, would leave 90,500 bales representing the quantity at the landing and in presses unsold or awaiting orders.

† *Galveston.*—Our Galveston telegram shows (besides above exports) on shipboard at that port, not cleared: For Liverpool, 4,319 bales; for other foreign, 259 bales; for coastwise ports, 281 bales; which, if deducted from the stock, would leave remaining 11,639 bales

‡ The exports this week under the head of "other ports" include from Philadelphia, 973 bales to Liverpool.

From the foregoing statement it will be seen that, compared with the corresponding week of last season, there is a *decrease* in the exports this week of 23,599 bales, while the stocks to-night are 104,287 bales *more* than they were at this time a year ago. The following is our usual table showing the movement of cotton at all the ports from Sept. 1 to May 26, the latest mail dates:

These mail returns do not correspond precisely with the total of the telegraphic figures, because in preparing them it is always necessary to incorporate every correction made at the ports.

Our Cotton Exchange the past week has been the scene of unusual excitement and activity, with fluctuations in prices seldom equalled. Cotton on the spot was quoted 1–16c. higher on Monday, 3–16c. higher on Wednesday, (the intervening day having been a close holiday), and ¼c. lower on Thursday. There was a moderate business for export and consumption and some speculation. The early advance was stimulated by the withdrawal of

stocks from sale by leading holders, and by the more peaceful construction put upon the political news from Turkey. Yesterday, however, all this was reversed, and one-half of the advance on previous days was lost. But to-day the decline was recovered, with a large business for consumption, and a large business reported for export yesterday afternoon. For future delivery the market has also been very excited. On Wednesday the highest prices paid were 12 11-32c. for June, 12½c. for July, 12 19-32c. for August, 12½c. for September, 12⅝c. for October, 12½c. for November, 12 3 16c. for December, 12 5-16c. for January, 12 9-32c. for February, and 12½c. for March. These prices, as compared with the closing bids of the previous Friday, were 13 16c. higher for this crop, and 15-32c.@21-32c. for the next crop. A large portion of this advance was lost in the course of Wednesday afternoon and all Thursday. Crop accounts current on the street have been all that could be desired, and a local paper in Louisiana has reported "first bloom." Yesterday, our people were not inclined to join in the peaceful interpretation put upon the Turkish advices, and the course of the Liverpool market was very disappointing. There was also some selling to realize the previous advance, under which prices fell 7-16c.@9-16c. from the highest figures of Wednesday. To-day, there was a renewal of speculative excitement and buoyancy, with prices 3-16c.@½c. higher, except for June, for which there were large deliveries upon contract.

The total sales for forward delivery for the week are 214,300 bales, including —— free on board. For immediate delivery the total sales foot up this week 7,640 bales, including 3,354 for export, 3,616 for consumption, 670 for speculation, and —— in transit. Of the above, —— bales were to arrive. WEATHER REPORTS BY TELEGRAPH.—Our crop reports this week are somewhat irregular; that is to say, there have been quite general rains, which were very beneficial in many sections, but somewhat excessive in others, though no actual damage is anywhere reported. Throughout Texas now the reports are extremely favorable; and generally in Louisiana, Arkansas and Tennessee the same is also true. In one half or more of Mississippi and two-thirds of Alabama, warm, dry weather is very much needed, as the plant is backward and the rains have been too frequent. In the Atlantic States the progress now making is generally very satisfactory. Planting has been going on this week in portions of the overflowed section.

*Galveston, Texas.*—We have had rain on five days this week, which, though heavy, has been very welcome; the rest of the week has been cloudy. There have been good rains throughout the State, and the crop is developing promisingly. The fields are clear of weeds. The thermometer has averaged 78, the highest being 89 and the lowest 69. Total rainfall for the week, nine inches and fifty-two hundredths; for the month, ten and twenty-seven hundredths inches.

*Indianola, Texas.*—Delightful showers, which were so much needed, have fallen here on two days of this week, and the indications are that they extended over a wide surface, but we are still needing more rain. The showers have done a great deal of good, and with hopeful indications of more, planters are much encouraged. Average thermometer this week 78, highest 89, and lowest 71. Total rainfall, one inch and seven hundredths. The rainfall for the month is one inch and nineteen hundredths.

*Corsicana, Texas.*—We have had splendid rains on six days of the week, the rainfall reaching two inches and eleven hundredths. Crop accounts are more favorable. Average thermometer 79, highest 94, and lowest 65. Total rainfall for the month, four inches and sixteen hundredths.

*Dallas, Texas.*—There were light showers here on two days this week, the rainfall reaching thirteen hundredths of an inch. The crop is developing promisingly—amazingly so; the wheat harvest is progressing actively, and everything looks encouraging. Average thermometer this week 86, highest 90, and lowest 63. The rainfall for the week is thirteen hundredths of an inch, and for the month, eighty-three hundredths.

*New Orleans, Louisiana.*—It has rained here on five days of this week, the rainfall aggregating two inches and eighty-eight hundredths. The thermometer has averaged 78. Total rainfall for May, eight inches and fifty-four hundredths.

*Shreveport, Louisiana.*—We have had fine weather for crops all the week. The rainfall has reached forty-eight hundredths of an inch, and the thermometer has averaged 76, the highest being 90 and the lowest 67.

*Vicksburg, Mississippi.*—Rain fell on three days of the week, to the extent of one inch and seventy-six hundredths. Average thermometer 73, highest 86 and lowest 66. Our region is two or three weeks behind last year, and the planting is very irregular. There is an increase of acreage by labor brought from Georgia and Alabama, but the planting has been so late and irregular, and the condition is so backward, that it will require a good season to make a good crop.

*Columbus, Mississippi.*—We have had three rainy days this week, the rainfall reaching two inches and fifty-three hundredths. The weather has been too wet for the growth of cotton. The thermometer has averaged 75, the highest being 80, and the lowest 71.

*Little Rock, Arkansas.*—Most of the week has been cloudy, with rain on three days. Last night we had quite a severe thunder storm. Planters now need dry weather, although the rain has not hurt the crops so far. Average thermometer this week 76, highest 91, and lowest 63. Total rainfall, one inch and thirty-one hundredths.

*Nashville, Tennessee.*—It rained slightly on two days this week, the rainfall reaching forty-two hundredths of an inch. The thermometer has averaged 74, the extremes having been 64 and 85.

*Memphis, Tennessee.*—There have been three rainy days this week, the rainfall reaching two inches and ninety-three hundredths, and the rest of the week has been cloudy. The crop is developing promisingly. Grass is growing fast, but good progress is being made in clearing the fields of weeds. Average thermometer during the week, 76; highest 86, and lowest 68.

*Mobile, Alabama.*—It has been showery two days of the week, and the rest has been cloudy. Crop accounts are less favorable, as we are having too much rain; with that exception, however, the plant is making satisfactory progress. The thermometer has averaged 78, ranging from 69 to 89. The rainfall for the week is thirty-one hundredths of an inch.

*Montgomery, Alabama.*—We have had warm, sultry, wet weather this week. There have been six rainy days, the rainfall reaching six inches. We are having too much rain. Total rainfall for the month, fourteen inches. Average thermometer this week, 74; highest 89, and lowest 65.

*Selma, Alabama.*—There has been rain on four days this week, the rainfall footing up ninety-six hundredths of an inch. The thermometer has averaged 76.

*Madison, Florida.*—There has been no rain here all the week. The average thermometer is 79, the highest 85 and the lowest 73.

*Macon, Georgia.*—We have had no rain this week. The thermometer has ranged from 64 to 90, averaging 73.

*Atlanta, Georgia.*—We were visited by showers on four days this week, the rainfall reaching a total of one inch and three hundredths. The rainfall for the month is five inches. Average thermometer during the week 80, highest 87 and lowest 64. The cotton plant looks strong and healthy.

*Columbus, Georgia.*—It has been showery three days of the week, the rainfall aggregating eighty-seven hundredths of an inch. Average thermometer 75, highest 88 and lowest 68. Total rainfall for the month, four inches and forty-five hundredths.

*Savannah, Georgia.*—There have been four rainy days this week, but the remaining three days have been pleasant. The rainfall for the week is sixty-two hundredths of an inch, and for the month, two inches and twenty-five hundredths. Crop reports continue favorable. Average thermometer 71, highest 87 and lowest 63.

*Augusta, Georgia.*—The weather during the week has been warm, the thermometer averaging 75, and ranging from 66 to 90. It has been showery four days, the rainfall reaching ninety-five hundredths of an inch. Total rainfall for the month, one inch and ninety-seven hundredths. We have secured a good stand of cotton. Planting is about completed in this neighborhood, and accounts in this section are very favorable.

*Charleston, South Carolina.*—It was showery one day this week, the rainfall reaching thirteen hundredths of an inch. The thermometer has averaged 75, the extremes being 66 and 83.

The following statement we have also received by telegraph showing the height of the rivers at the points named at 3 o'clock June 1. We give last year's figures (June 4, 1875) for comparison.

New Orleans reported below high-water mark of 1871 until Sept. 9, 1874, when the zero of gauge was changed to high-water mark of April 15 and 16, 1874, which is 6-10ths of a foot above 1871, or 16 feet above low-water mark at that point.

WEEKLY RECEIPTS OF COTTON.—Below we give a table showing the receipts of cotton each week at all the ports of the United States for several seasons, indicating, also, the total crop each year. Our figures are given in thousands of bales.

DRAFTS AND BILLS OF LADING.—The United States Supreme Court has just decided the case which, in its earlier stages, we sometime since referred to in our editorial columns, respecting the surrender of bills of lading. The case is

No. 15. The National Bank of Commerce of Boston, State of Massachusetts, vs. The Merchants' National Bank of Memphis, State of Tennessee. In error to the Circuit Court for the District of Massachusetts. The fundamental question in this case is whether a bill of lading of merchandise deliverable to order, when attached to a time draft and forwarded with the draft to an agent for collection without any special instructions, may be surrendered to the drawee on his acceptance of the draft, or whether the agent's duty is to hold the bill of lading after the acceptance for the payment. It is true there are other questions growing out of portions of the evidence, as well as the finding of the jury, but they are questions of secondary importance.

After reviewing the evidence in full the Court holds as follows:

Hence, were there nothing more, it would seem that a drawer's agent to collect a time bill without further instructions would not be justified in refusing to surrender the property against which the bill was drawn after its acceptance, and thus disable the acceptor from making payment out of the property designated for that purpose. But it seems to be a natural inference, indeed a necessary implication, from a time draft accompanied by a bill of lading indorsed in blank, that the merchandise (which in this case was cotton) specified in the bill was sold on credit, to be paid for by the accepted draft, or that the draft is a demand for an advance on the shipment, or that the transaction is a consignment to be sold to the drawee on account of the shipper. It is difficult to conceive any other meaning the instrument can have.

After an elaborate opinion reviewing the decisions in point, the Court conclude that whether a time draft accompanied by a bill of lading be viewed as an evidence of sale on credit, or as a request for advances on the credit of the consignment, the consequence is the same. The acceptance is not asked on the credit of the drawer of the draft, but on the faith of the consignment. It is declared as the opinion of the Court that no respectable case can be found in which it has been decided that when a time draft has been drawn against a consignment to order, and has been forwarded to an agent for collection, with the bill of lading attached, without further instruction, the agent is not justified in delivering over the bill of lading on the acceptance of the draft.

Mr. Justice Strong delivered the opinion.

COTTON SUPPLY AND CONSUMPTION.—Mr. Michael J. McHaffie, of London, writing under date of May 17, gives the following estimate of the cotton supply and consumption in Great Britain to September next:

First—Take *American Cotton.*

| | |
|---|---|
| The stock in Liverpool on 12th May was | 612,000 |
| At sea for Liverpool on same date | 158,000 |
| Allowing six weeks for an average voyage we should receive at Liverpool before Sept. 7 all the cotton shipped her sailing vessel and steamer from May 13 to July 27. These eleven weeks we estimate at 100,000 over 1875, when the shipments were 240,000. Say this year | 340,000 |
| Add steamer shipments July 27 to August 17 | 20,000 |
| Total American available to Sept. 7, 1876 | 1,130,000 |

The demand on American for the past nineteen weeks has been 42,720 per week, and for the corresponding seventeen weeks, May to September, of past years, has been:

| | 1875. | 1874. | 1873. | 1872. | 1871. |
|---|---|---|---|---|---|
| Taken by the trade | 481,129 | 479,580 | 526,950 | 398,060 | 764,360 |
| Taken by exporters | 70,850 | 25,650 | 28,940 | 38,870 | 75,850 |
| Together | 551,970 | 504,180 | 555,890 | 436,930 | 840,220 |
| Seventeen weeks' average | 32,469 | 29,658 | 32,699 | 25,702 | 49,425 |

This year we have no well-confirmed accounts of short planting being general, and we think planters will try to make up for low prices by cultivating as much cotton as their field force will allow them to do. We therefore do not anticipate any increase on the average of the last nineteen weeks, but on the contrary a decrease of three or four thousand a week. We therefore estimate demand at 34,000 per week, requiring | 663,000 |
| Leaving American in Liverpool, Sept. 7, 1876 | 467,000 |
| Against 393,000 at same date 1875, and 311,000 same date 1874. | |

Secondly—Let us look at *East India Cotton:*

| | |
|---|---|
| The stock in Liverpool on May 12 was | 95,000 |
| At sea for Liverpool at same date | 160,000 |
| We may calculate on receiving before September 7 the Cape and steamer shipments from May 12 to June 8, which I take at 100,000; also the shipments via Suez Canal, from June 8 to July 20, which I take at 30,000 (as against 35,750 during same time last year). These together amount to | 130,000 |
| Giving available to September 7, 1876 | 385,000 |

The demand on East India Cotton from Liverpool during the corresponding 17 weeks of past years has been:

| | 1875. | 1874. | 1873. | 1872. | 1871. |
|---|---|---|---|---|---|
| Taken by the trade | 183,760 | 148,950 | 147,310 | 177,950 | 152,780 |
| Taken by exporters | 70,430 | 81,870 | 62,490 | 83,430 | 96,240 |
| Together | 254,190 | 230,820 | 209,840 | 260,780 | 249,030 |
| Seventeen weeks' average | 14,952 | 13,577 | 12,343 | 15,340 | 14,649 |

This year, looking at the abundance of low American, I do not think it safe to take the demand on East Indian higher than 13,000 per week, requiring | 221,000 |
| Leaving East India in Liverpool, Sept. 7, 1876 | 161,000 |
| Against 249,000 at same time 1875, and 219,000 at same time 1874. | |

Looking at *East India Cotton in London,* I estimate as follows:

| | |
|---|---|
| Stock in London, May 12, 1876 | 60,000 |
| At sea for London, same date | 26,000 |
| Three weeks' sail shipments, to 1st June | 3,000 |
| Steamer shipments, eight weeks, June 1 to July 28 | 9,000 |
| Available in London to Sept. 7 | 98,000 |

The demand for trade and export during the corresponding 17 weeks of past years has been:

| | 1875. | 1874. | 1873. | 1872. | 1871. |
|---|---|---|---|---|---|
| Trade and export | 94,440 | 85,710 | 91,410 | 100,000 | 84,250 |
| 17 weeks' average | 5,555 | 5,042 | 5,377 | 5,882 | 4,956 |

This year the demand so far has been 4,860 per week, and I estimate demand for the next 17 weeks at 4,500 per week, or | 77,000 |
| Leaving stock in London September 7th, 1876 | 21,000 |
| As against 61,000 at same time 1875, and 111,000 at same time 1874. | |

Thirdly—Let us look at *Sundry Cottons.*

Under this head come Egyptian, &c., West India, &c., and Brazils, and the stock of these on 10th May was: Brazils, 148,000; Egyptian, &c., 142,000; West Indian, &c, 8,000 | 298,000 |
| Our arrivals in Liverpool during corresponding 17 weeks were: | |

| | Brazils. | Egypt. | W. Ind'n. | Total. |
|---|---|---|---|---|
| 1875 | 138,700 | 20,320 | 31,120 | 190,140 |
| 1871 | 171,110 | 35,850 | 31,110 | 238,070 |
| 1873 | 171,320 | 38,780 | 35,250 | 245,350 |

This year I estimate arrivals—Brazils, 150,000; Egyptian, 20,000; West Indian, 30,000 | 200,000 |
| Giving sundries available to September 7th, 1876 | 498,000 |

The demand on these cottons during the corresponding period of preceding seasons is given in the following table; but unless we have a rise in American cotton, owing to unfavorable accounts of the newly-planted crop, I reckon that our demand on sundries will hardly come up to what it did in the corresponding period of 1875. Egyptian, although heavy in stock, appears very cheap, and speculators may go in for it. The demand on sundries during the corresponding seventeen weeks of past years has been:

| | 1875. | 1874. | 1873. | 1872. | 1871. |
|---|---|---|---|---|---|
| Egyptian, etc | 72,700 | 79,160 | 72,510 | 77,380 | 104,350 |
| Brazils | 161,025 | 122,180 | 139,410 | 124,990 | 181,870 |
| West India, etc | 28,090 | 13,140 | 19,600 | 27,430 | 46,840 |
| Total | 252,815 | 214,480 | 231,460 | 231,700 | 334,600 |
| Seventeen weeks' average | 14,871 | 12,616 | 13,616 | 19,512 | 19,682 |

This year I take the similar trade and export demand for the seventeen weeks at 14,000 per week, requiring | 238,000 |
| Leaving stock of sundries in Liverpool on 7th September, 1876 | 260,000 |
| against 138,000 at same time 1875, and 230,000 at same time 1874. | |

A summary of the foregoing estimate shows as follows:

| | | 1876. | 1875. | 1874. |
|---|---|---|---|---|
| Stock American | Liverpool, 7th Sept. | 467,000 | 393,000 | 311,000 |
| " East Indian | " 7th " | 161,000 | 249,000 | 279,000 |
| " " | London, 7th " | 21,000 | 84,000 | 111,000 |
| " Sundries, | Liverpool, 7th " | 260,000 | 138,000 | 250,000 |
| Total | | 909,000 | 819,000 | 954,000 |

GUNNY BAGS, BAGGING, &c.—Bagging has continued quiet during the past week, and nothing of moment has been done. The sales of the month foot up 5,500 rolls here and and in Boston. The demand from the South is small, but, as stocks are light, holders are steady as to price, and quote 12¼@12½c. Bales are dull and prices nominal at 9@9½c. for India and 12½c. for Borneo. Bags rule quiet and unchanged at 13@13½c. for 440's. Butts have also ruled quiet, and the orders coming to hand are of the smallest character. Spot lots are held at 2½@3c., cash, and time lots to arrive are dull with no inquiry of moment. The following is the stock as given by Messrs. Willett & Hamlen:

| GUNNY BAGS. | Bales. |
|---|---|
| Stock in New York June 1 | 950 |
| Stock in Boston June 1 | 700 |
| Total | 1,650 |

| BAGGING. | Bales. |

## BREADSTUFFS.

FRIDAY, P. M., June 2, 1876.

The flour market has been less active the past week, and prices have ruled in favor of buyers; yet, with moderate supplies, no important or general reduction of prices can be reported. Shippers have done a small business in common extras at $5 15@$5 20, but in the better grades, at $5 75@6 75, have taken some large lines, part for the West Indies. The better grades of bakers' and family brands have ruled dull. Rye flour has been firm and quiet, but corn meal at a further decline was more active. To-day, shipping extras were 5c. lower, with a large line of extra State sold at $5 15.

The wheat market since Saturday has ruled dull and drooping; and in spring wheats there was at the close of yesterday a decline of 2@3c. in the week, without much demand at the concession. Receipts have been large at this point, and show a considerable increase at the West, so as to compare more favorably with last season. Crop accounts continue highly favorable, from all sections. The harvest in Texas is in progress, and a greatly increased yield is expected. The condition of much of the present stock of wheat is such as to cause it to be pressed on the market. To-day, there was a large business at 1@2c. decline; sales aggregating 300,000 bushels, mainly at $1 17 for No. 2 Chicago, and $1 20@1 20½ for No. 2 Milwaukee.

Indian corn has declined sharply, under free receipts, and a pressure to sell, together with some speculative manipulation but yesterday an active demand sprung up, and there were large sales of fair to prime new Western mixed at 56½@59c. for steamer and sail shipment. Old mixed sold at 60c. The receipts continue free at all points, and there is every disposition to let them move off freely. To-day, the market was irregular—steamer mixed selling at 55¾@57½c.; sail do., 58½@59½c. on the spot, and 59c. for all June.

Rye has been fairly active lately, with sales of 50,000 bush. Western at 84@85c. to arrive and on the spot. Canada peas very firmly held and quiet. Barley and barley malt are nearly nominal.

Oats have ruled lower; but yesterday there was a very active demand, and the sales included five boat loads at 39½c. for No. 2 Chicago, and 43c. for No. 2 Milwaukee. The improved tone and business was mostly in the better qualities. To-day, there was no essential change.

## THE DRY GOODS TRADE.

FRIDAY, P. M., June 2, 1876.

Business has been comparatively quiet the past week with manufacturers' agents representing cotton goods, owing to the large distribution made at public sale during the previous week, which has supplied jobbers with all the goods they require for the present. In heavy woolens there has been a moderate movement from first hands, and a large auction sale of about 1,200 cases overcoatings was made by Townsend, Montant & Co., which attracted a great many clothiers from the leading manufacturing cities. The overcoatings sold at auction were not much appreciated by the trade, however, and very low figures were realized for cotton warp goods, while all-wool makes brought fair prices. The jobbing trade has been fairly active for the time of year, and near-by retailers were more liberal buyers than for some time past. Foreign goods have been quiet, and, aside from ribbons and millinery goods, which were presented in large quantities, the offerings at auction have been meagre and unattractive, which is indicative of the approaching close of the season.

DOMESTIC COTTON GOODS.—There is an improved undertone in the cotton-goods market, and more confidence is felt in values, based upon auction prices, than for many months past. A few of the leading commission houses effected liberal sales of brown cottons, &c., by means of price concessions, but the market was generally quiet, as might be expected after the auction sales of last week, which placed over 22,000 packages of domestics in the channels of distribution. The export demand was fairly satisfactory, and the aggregate shipments amounted to 1,332 packages, of which 932 packages were sent to Great Britain, 100 to New Grenada, and the remainder in small lots to other countries. Agents have not as yet definitely established prices for such makes of cotton goods as were lately sold at auction, as they have no stocks to offer for the present, and jobbing quotations on the same class of goods are irregular. Print cloths were in moderate request and steady at 3⅜c. cash@3¼c. 60 days for extra 64x64 makes. Fancy and shirting prints, cambrics and percales, met with fair sales, and ginghams were in steady demand for small parcels.

DOMESTIC WOOLEN GOODS.—The clothing trade of the interior was largely represented in the market, and the package houses were enabled to effect a very fair distribution of heavy woolens, which were, however, mostly taken in comparatively small lots. Jobbers have been operating sparingly in autumn woolens, although they have placed some fair orders with manufacturers' agents for future delivery. The Slater Woolen Company have increased the discount on their No. 600 and Imperial Cestors, which led to a fair movement in these fabrics. Cloths and doeskins of the most popular makes were a trifle more active, and there was more demand for heavy cassimeres, suitings and worsted coatings. Satinets were in limited request, and Kentucky jeans continued inactive. Flannels moved slowly, and there was not much animation in carpets. Worsted dress goods ruled quiet, and shawls were very dull.

FOREIGN DRY GOODS.—The jobbing trade was a little more active, but transactions with importers were few and unimportant. Black grenadines were in better demand, but other dress fabrics were comparatively quiet. Black, colored, and fancy dress silks were taken in small lots, and millinery silks and ribbons were freely distributed through the auction rooms at fair prices. Linen and white goods ruled quiet but steady in price, and lace points, sacques, etc., sold low at auction. Men's-wear woolens continued dull in first hands, but were rather more active with cloth jobbers. Hosiery and kid gloves were in steady request.

We annex prices of a few articles of domestic manufacture:

Gross Assets held by Board of Management in New York, $1,600,000.

The Company's actual losses by Chicago conflagration in 1871 were $1,713,457 31.

The Company's actual losses by Boston conflagration in 1874 were $503,690 46.

Yet the Company paid these losses at sight without borrowing or selling a single dollar of permanent investments, continued regular dividends to their stockholders, and at the end of 1873 had entirely made up (not in this country, however), the losses of these two conflagrations and all others, commencing 1874 with a surplus over $100,000 larger than ever before.

Annual Income of Fire Department alone over $4,000,000.

Fire and Life Assets entirely distinct—the one not liable for the other.

The Company organized A. D. 1809. Commenced business in this country A. D. 1867.

These Bonds are commended to the attention of the MOST CONSERVATIVE INVESTORS, as they are believed to be as perfect a security as can be obtained. The issue of Bonds is limited to one-half the amount of the same class of Bonds ever issued under a like Guarantee.

The security of each Bond is not confined a to single Mortgage, but extends over all the Mortgages owned by the Company. This Company receives no deposits, guarantees no other securities, and has no other debts than its bonds. Its Mortgages are of like character to those which have been bought in the last twenty years by Individuals, Life Insurance Companies and other Corporations, to the amount of more than Fifty Millions of Dollars, proving a most secure and satisfactory investment. The Loans are all upon improved Farms in some of the most fertile Western states, near the Railroads, with short and perfect titles, and average less than $650 each, upon property worth nearly four times their amount. Experience has proved that well selected Mortgages upon this class of property are safer than those upon city property, either in the East or West. They are not affected by Fires, or by Business revulsions; Principal and interest are more promptly paid; and upon the success of Agriculture depends that of almost every industrial investment.

## SOME CAUSES OF THE LOW RATES OF INTEREST.

"Why," it is often asked, "are the rates of interest so low?" Some light is thrown on this question, as well as upon the general condition and prospects of the money market, by Mr. Bagehot's elaborate article in the last number of the *Fortnightly Review*. The general course of the financial development of the last quarter of a century is there sketched out, and the amazing rapidity appreciated with which in modern commercial countries the growth of banking facilities has augmented the productive power of the world. At some future time, the author's plan, it is hoped, will admit of a practical application to the movements of the money market of the principles he so instructively deduces from the banking progress of the last half century. Mr. Bagehot, like nearly all the best authorities on the subject, follows Adam Smith's division of capital into fixed and circulating. The former, however, Mr. Bagehot prefers to call "co-operative capital," and the latter "remunerative capital." We do not think very much is gained by this innovation in the accepted terminology of political economy, except, indeed, that the new words give prominence to some important aspects of the two kinds of capital, that are useful, if not novel. One practical deduction from the paper of Mr. Bagehot seems to be that in our day the reservoir of floating capital from which the loan market is supplied, is immense beyond all former precedent; and that its movements, like those of the ocean, are not to be thoroughly investigated by the simple process of studying and observing them in one country or under one set of local conditions. If a man would understand the money market thoroughly, his observations must be patiently conducted on a great scale, as well as on a small scale. He must comprehend international finance, as well as that of the United States or England or Germany or France. That this is a correct view of the subject, few well-informed persons in this country will doubt. It has often been demonstrated in our columns that the present ease and plethora of our own money market is almost sure to be misunderstood by those who regard it as a phenomenon affecting one country alone, and forget that the whole of Christendom is suffering from a similar type of economic and financial derangement. Another deduction from Mr. Bagehot's suggestive paper is that one cause of the low rates of money which at present prevail throughout the commercial world, is a result of that excessive conversion of floating capital into fixed capital, to which the panics of the last three or four years were ascribed. As those financial convulsions were brought on by too much conversion of floating capital into fixed forms, so the present plethora of the loan market is perhaps due to the opposite process of converting an excessive amount of fixed capital into floating capital. However this may be, it is certain that all great commercial panics do result in such a conversion; and every mercantile man is familiar with the fact that an enormous amount of capital is lost and destroyed to debtors and creditors in the forced sales and liquidations consequent on failures and panics. It is equally certain that after any commercial revulsion there is usually a long period of easy money. For example, we are often reminded that subsequent to the panic of 1857 and to the Overend revulsion of 1866, money lent for several successive months at 2 per cent. Without pursuing this discussion any further, we may safely conclude that as commercial panics are caused by one form of excessive conversion of capital, that of floating into fixed, so the opposite form of excess brings on that plethora of float-

ing capital which so often results from panics and is frequently so slow to pass away.

When, therefore, we attempt to account for the low rates of interest which capital is now able to earn, it is necessary for us to look on all sides of the question. As the same complaint of low interest is heard in other countries besides our own, it is useful for our purpose to trace out those great general causes which are so extensive in their influence and are producing such widely-extended and similar results in the money markets at the present time. The operation of these general causes may be summed up in a few words. First, there is everywhere, as here, an accumulation of loanable capital seeking a certain class of employment, such as call loans and short investments. Secondly, the demand for money on such investments is below the supply, so that the rates favor the borrowers. Thirdly, the usual outlets of capital are many of them closed or are rejected and refused, either from a want of confidence on the part of lenders or of enterprise on the part of borrowers. Fourthly, there does not appear to be any immediate prospect of a general recovery of confidence. So soon as any such symptoms are distinctly visible, they are always seized upon and discounted beforehand.

So far, however, we have considered only a part of the question. Besides these general causes of monetary ease, which are at work here as elsewhere, there are a multitude of special circumstances which originate in our own peculiar circumstances. The first and most conspicuous of these is our expected approach to specie payments. The transition of the financial system to a specie basis spreads so much of uncertainty over the immediate future that many departments of business are of necessity checked and curtailed. Now, as Mr. Bagehot shows, all such curtailments are accompanied by a plethora of idle capital. This is an important principle; for it helps us to explain several features of our money market which have misled a multitude of writers on finance. It is obvious to any reflecting person that, if the reservoir of loanable capital is not drained by its usual outlets, its level will rise, and the accumulation of idle capital will tend to produce all its usual symptoms in the money market. In this point of view our financial system resembles a large machine organized to do an immense aggregate of work, and compelled temporarily to restrict itself to a smaller aggregate. Instead, therefore, of being surprised that the depression of business has caused so much loss to the country, we ought rather to be gratified that it has produced so little. As has been shown, our monetary and commercial activity have not suffered to an extent which compares very unfavorably with that of which other nations are at this time complaining. As we have in this country so many special causes of financial perturbation, this fact is encouraging; it leads us to augur favorably for the future. Whether, as some persons tell us, it is the immense material resources of the United States that have given us an advantage over foreign nations, or whether a part of the benefit has been procured in other ways, we have not space to inquire at present. We content ourselves with simply pointing to the fact that the money market is as tranquil here, and its rates as easy, as in the older countries of Europe; and that this ease, whatever may be its inconveniences, offers a favorable forecast for the future, so far as it indicates the absence of expected financial perturbation. With respect to the practical question, as to the course of the money market in the early future, we can only say that our bankers are looking for a continuance of the present easy rates, at least until the activity of the fall business sets in.

## CURRENCY CHANGES.

In our issue of May 6 we gave a statement of the currency changes down to May 1 under the acts of June 20, 1874, and of January 14, 1875. Through the kindness of the Comptroller of the Currency we are now able to bring our figures down to June 1, one month later, as follows:

| | | |
|---|---|---|
| National bank notes outstanding when Act of June 20, 1874, was passed | | $349,894,182 |
| National bank notes issued from June 20, 1874, to January 14, 1875 | $4,734,500 | |
| National bank notes redeemed and retired between same dates | 2,767,232 | |
| Increase from June 20, 1874, to Jan. 14, 1875 | | 1,967,268 |
| National bank notes outstanding January 14, 1875 | | $351,861,450 |
| National bank notes redeemed and retired from January 14, 1875, to June 1, 1876 | $26,891,127 | |
| National bank notes surrendered between same dates | 5,248,298 | |
| Total redeemed and surrendered | $32,139,425 | |
| National bank notes issued between same dates | 14,845,415 | |
| Decrease from January 14, 1875, to June 1, 1876 | | 17,294,010 |
| Amount outstanding June 1, 1876 | | $334,567,440 |
| Greenbacks on deposit in the Treasury, June 20, 1874, to retire notes of insolvent and liquidating banks | | $4,813,675 |
| Do. deposited from June 20, 1874, to June 1, 1876, to retire National bank notes | | 53,930,989 |
| Total deposits | | $57,744,664 |
| Circulation redeemed by Treasurer between same dates without re-issue | | 29,663,192 |
| Balance of deposits June 1, 1876 | | $28,081,472 |
| Greenbacks retired under Act of January 14, 1875 | | $11,876,332 |
| Greenbacks outstanding June 1, 1876 | | 370,123,668 |

By this compilation we see that during May the total of bank notes redeemed and surrendered was $2,649,842; during the same time there were issued of new notes $476,560; so that the net decrease of bank-notes outstanding during May was $2,173,282, against a net decrease during the previous two months of $3,979,-161. Of greenbacks deposited by the banks to retire their notes, the balance unused, and therefore on hand, was, May 1, $28,083,291; and on June 1, $28,081,472, or a *decrease* for the month of $1,819. On May 1, the total greenbacks outstanding were $370,527,876, and on June 1, $370,123,668, or a net decrease of $404,208. The full figures, therefore, showing the changes in the active circulation during the month of May, would be as follows:

| | *To May 1, '76* | *To June 1, '76.* | *Decrease dur'g May.* |
|---|---|---|---|
| National Bank notes redeemed and surrendered from Jan. 14, 1875 | $29,489,583 | $32,139,425 | $2,649,842 |
| Notes issued same time | 14,368,555 | 14,845,415 | 476,560 |
| Net decrease | $15,120,728 | $17,294,010 | $2,173,282 |
| Greenbacks on deposit with U. S. Treasurer to retire notes | $23,083,291 | $28,081,472 | $1,819 |
| Making the net decrease | $43,204,019 | $45,375,482 | $2,171,463 |
| Total greenbacks outstanding | $370,527,876 | $370,123,668 | $404,208 |
| Total decrease in active currency during month of May | | | $2,575,671 |

This decrease in the active currency, it will be seen, therefore, was smaller than previous months, the total for March and April being $8,744,178, against $2,575,671 for May. If, however, we go back to January, 1875, we see the total extent of the movement. At that time the greenbacks outstanding were $382,000,000; at present they are, as stated above, $370,123,668, or a decrease of $11,876,332, that being the amount retired under the act of January 14, 1875. Now, if we add this total to the amount of national bank notes already surrendered and redeemed since January, 1875, and to that total the

greenbacks on deposit, which will not be again issued till the same amount of bank notes are retired, we would have the following as the decrease in the active currency since January, 1875:

| | |
|---|---|
| Net decrease in bank notes from Jan. 14, 1875, to June 1, 1876 | $17,294,010 |
| Greenbacks on deposit with Treasurer to retire notes, June 1, 1876 | 28,081,472 |
| Decrease in greenbacks since Jan., 1875 | 11,876,332 |
| Total decrease since January, 1875, to June 1, 1876 | $57,251,814 |

Some discussion has arisen the past month among a portion of the daily press, (growing out of our publication of May 6) as to the status of the $28,081,472 of greenbacks on deposit with the Treasurer to retire bank notes. We anticipated that a difference of opinion might be developed with regard to that item, and so stated in our former article. But the result of all that has been said is simply, as we then remarked, that those greenbacks are deposited by the banks, and are held by the Treasurer for the sole purpose of redeeming their notes; and they can never be in circulation until the bank notes which they now represent are out of circulation. Hence, the total given above, of $57,251,814, represents the actual decrease in circulation since January, 1875. The actual greenback and bank-note circulation outstanding in January, 1875, and at the present time, may, therefore, be stated as follows:

| | |
|---|---|
| Greenbacks outstanding January, 1875 | $382,000,000 |
| Bank notes outstanding same date | 351,831,450 |
| Outstanding January, 1875 | $733,831,450 |
| Decrease since, to June 1, 1876 | 57,251,814 |
| Total outstanding June 1, 1876 | $675,609,636 |

## RAILROAD PROGRESS.

We are able now to give the results of 1875 in railroad building. It seems that the amount constructed in the United States during the year was 2,035 miles, against 1,940 miles in 1874 and 3,948 miles in 1873. The progress since 1860 may best be seen from the following statement:

| Year. | Miles in Operation. | Annual Increase. | Year. | Miles in Operation. | Annual Increase. |
|---|---|---|---|---|---|
| 1860 | 30,635 | 1,846 | 1868 | 42,235 | 2,979 |
| 1861 | 31,286 | 651 | 1869 | 47,208 | 4,973 |
| 1862 | 32,120 | 834 | 1870 | 52,898 | 5,690 |
| 1863 | 33,170 | 1,050 | 1871 | 60,568 | 7,670 |
| 1864 | 34,908 | 738 | 1872 | 66,735 | 6,167 |
| 1865 | 35,985 | 1,177 | 1873 | 70,683 | 3,948 |
| 1866 | 36,827 | 1,742 | 1874 | 72,623 | 1,940 |
| 1867 | 39,278 | 2,419 | 1875 | 74,658 | 2,035 |

The check in construction since the panic was well known. But these figures bring the whole subject forcibly to mind. One can easily understand the effect upon all industrial interests of this sudden pause in railroad progress. In 1871 there were 7,670 miles built, in 1872 6,167, and now for two years only about 2,000 miles a year. The unnatural growth of 1872 and of previous years necessarily stimulated every industry either directly or remotely connected with it, while the same conditions which forced railroad progress and its connecting interests also forced every other trade. This was a diseased condition of business, and when the fever burned itself out, the patient of necessity was dreadfully prostrated.

It is a little surprising, but a fact which we have frequently referred to, that the railroad mania extended to Europe during the very same period in which it prevailed so decidedly here. We give the following two tables for the purpose, among other things, of illustrating this fact. The first is an approximate statement which we have prepared of the mileage of railroads existing in all countries of the world at the close of 1875:

The next table shows the extension of railroads by quinquennial periods in the several great divisions of the world:

| Close of Years. | America. m. | Europe. m. | Asia. m. | Africa. m. | Australasia. m. | Total. m. |
|---|---|---|---|---|---|---|

| 1875 | 83,910 | 88,007 | 7,187 | 1,528 | 2,118 | 182,690 |

We here see that during the five years from 1870 Europe added 24,000 miles to its railroad network, and during the ten years from 1865 it added 42,000 miles, while during the previous ten years it only added 25,000 miles. Not very long since we gave in our columns the history of the German railroad expansion, and all are familiar with its growth in Russia. Without, however, going into particulars, the above figures, taken in connection with the re-action in Europe, which set in about the time of our panic, and the prostration which has ruled there since, go very far towards explaining one another.

And here may we not make a suggestion which some of our Western and Southern friends will see is in point. The railroad bubble in Europe burst only shortly previous to our own panic. There was no contraction of the currency that did it. The inducing cause of the mania in Germany which led to so great increase in railroad mileage —an increase of 50 per cent during the five years in Prussia alone—was the immense sums of money which came from France. Under this unnatural stimulus they overdid the railroad business, producing them beyond the power of the country to make them pay—that is beyond the present wants of the country. The end to the speculation did not come because the currency was contracted or because there was not enough currency, but simply for the reason that the disease had run its course. This we all must admit, for the facts are beyond dispute. But when we look at our own case, currency doctors claim that contraction brought on the panic, and that more greenbacks will revive business, which in this

instance means, will revive railroad building. It collapsed simply because it was already overdone; a forced growth of six or seven thousand miles of railroad a year has placed us far in advance of the necessities of the country, or, in other words, of its capacity to make railroads pay. Construction, therefore, can revive only when the development of the nation has again caught up with this overgrowth. That time will soon come, if we simply allow nature to work out its own cure. We are young, energetic, boundless in resources—both the West and the South with their undeveloped wealth most tempting to capitalists. There is, however, one condition precedent, and only one, to our receiving that capital freely, and that is indicated in the words safety, security, certainty. Have not three years of bitter experience taught us at least this—that an irredeemable currency furnishes a state of things the very opposite of that described by the words mentioned?

We can best mark the rapidity of railroad extension in this country by the fact that in 1868 we had in the United States one mile of road to every 905 persons, while now we have a mile of road to every 591 persons. In Great Britain there is one mile of road to 1,916 persons, and in France a mile of road to 2,940 persons. The following exhibits the number of persons to each mile of road in the countries of North America and Europe:

## RAILROAD EARNINGS IN MAY, AND FROM JAN. 1 TO MAY 31.

It is gratifying to be able to report a continued improvement in railroad earnings as compared with 1875. On 22 roads embraced in the table below, the increase in May was $482,300 as compared with the same month in 1875, and this relatively favorable aspect has some influence in sustaining the prices of railroad stocks, in the face of the recent reductions in freights and fares. Except for the present hostility among the officers of trunk lines, the railroad situation would be tolerably favorable, and with the experience of the past five months of this year, there would be much confidence in a steady progress towards more remunerative business. Notwithstanding the general depression in business and the low prices, it is apparent that the volume of some important articles of produce moved has been considerably in excess of last year, and the increase in railroad earnings is partly due to this fact. The following figures, taken from our tables showing the movement of breadstuffs, exhibit the shipments of flour and grain from the ports of Chicago, Milwaukee, Toledo, Detroit, Cleveland, St. Louis, Peoria and Duluth, for the five months, Jan. 1 to May 27, for four years:

| | Flour, bbls. | Wheat, bush. | Corn, bush. | Oats, bush. | Barley, bush. | Rye, bush. |
|---|---|---|---|---|---|---|
| Jan. 1 to May 27, '76 | 2,202,563 | 14,126,315 | 21,622,540 | 5,954,296 | 1,130,701 | 483,118 |
| Same time 1875 | 1,995,420 | 10,209,202 | 11,911,065 | 4,6 0,268 | 871,540 | 244,766 |
| Same time 1874 | 2,431,851 | 21,614,005 | 11,654,185 | 5,809,912 | 1.179,091 | 2.320,610 |
| Same time 1873 | 2,391,081 | 10,440,870 | 12,175,619 | 5,700,705 | 1,482,541 | 279,768 |

The following shows the receipts of flour and grain at the seaboard ports of New York, Boston, Portland, Montreal, Philadelphia, Baltimore, and New Orleans, for the same period:

| | Flour, bbls. | Wheat, bush. | Corn, bush. | Oats, bush. | Barley, bush. | Rye, bush. |
|---|---|---|---|---|---|---|
| Jan. 1 to May 27, 1876 | 8,537,530 | 12,168,305 | 20,666,964 | 7,756,402 | 1,861,234 | 302,259 |
| Same time 1875 | 3,487,385 | 9,214,190 | 22 088,804 | 6,130,006 | 801,328 | 96,149 |
| Same time 1874 | 4,405,686 | 20,382,720 | 18,750,509 | 6,223,866 | 699,790 | 526,386 |
| Same time 1873 | 3,472,538 | 5,425,882 | 12,683,722 | 7,864,948 | 1,061,452 | 63,348 |

As to cotton, the whole movement overland to the close of April, from Sept. 1, 1875, the beginning of the crop year, was about 130,000 bales more than for the whole year 1874–5, showing here also a considerable increase in quantity transported by rail.

The most important questions now bearing upon the subject of railroad earnings are these: 1. How long will the present competition among the trunk lines probably continue? 2. What effect will the Centennial traffic probably have in increasing passenger earnings? 3. Is the larger movement of produce as compared with 1875, likely to continue throughout the remaining months of this year? In answer to these questions it may be said that the duration of the railroad war on through rates is altogether uncertain, but the sharper it is the more likely is it to bring an early settlement; and it is to be remembered that the sharp competition applies only to that class of business which is

ordinarily done at the lowest prices. The receipts from Centennial passenger traffic can hardly fail to be large on those roads lying on the direct route to Philadelphia, and chiefly to the Pennsylvania Railroad and its branches. The daily attendance at the Centennial will possibly average over 30,000 paying visitors during the balance of the time to November 10, and so large a number of persons, many of them from considerable distances, must contribute no insignificant amount to the railroad receipts. As to the movement of cotton, breadstuffs and merchandise, we can hardly see any good reason to anticipate that the quantities moved in the last half of 1876 will be materially larger than in the same time last year.

The St. Paul and Northwest roads are reaping the benefit of their increased tariffs on the large grain movement called forth by the extremely low rates from Chicago eastward.

The annual report of the Rock Island road to March 31, 1876, shows gross earnings for the year, of $7,655,161; expenses, $3,687,028; net earnings, $3,968,133. This is a decrease in the gross earnings, as compared with last year, of $46,444, and an increase in the net earnings of $154,723.

* The expenses of the Burlington Cedar Rapids & Minnesota Railroad in 1876 include taxes, the proportionate amount of which for each month amounts to about $3,000; in 1875 the expenses did not include taxes.
† The disparity between the gross and net earnings this year, has been occasioned by extra expenses incurred in preparations for Centennial business; this business is now making very favorable returns.

[From our own correspondent.]

LONDON, Saturday, May 27, 1876.

The supply of money seeking employment in the discount market continues very large, and loans for short periods are obtainable on good security on remarkably easy terms. For

three months bills the open market rate is only 1⅞@1⅞ per cent and very choice paper is taken at even a lower quotation. The complaints amongst the bill brokers respecting the paucity of bills are very great, and it is to be feared that any improvement in the supply is, for some time to come, quite out of the question. Beyond the usual consumptive business in progress, there is very little passing in commercial circles. The home demand for goods is considered to be fairly active, but foreign buyers remain comparatively few, though there is every reason to believe that the purchases they are making are with a view to meet a *bona fide* demand. In the present uncertain condition of affairs, merchants are, obviously, unwilling to speculate much, if at all, in manufactured goods. Money is certainly cheap enough to encourage and foster speculation; but the distrust which has for so long prevailed, in consequence of the serious results of the trading of former years, is very slow in being eradicated; and this conservative spirit is increased, owing to the ominous position of the Eastern question. Merchants trading with Levantine countries are naturally extremely cautious, and it is very difficult just now to ascertain what a day may bring forth. It would seem that the integrity of Turkey is maintained almost by the jealousies of the neighboring countries, so that their jealousies are for a time her strength. But it is obvious that such a condition of affairs cannot last; and yet, who can divine the future? The uncertainty existing with regard to the affairs of Turkey has also the effect of curtailing trade in other quarters, though not to the same extent. In spite, therefore, of the large supply of unemployed money, and the low rates which are current in the discount market, distrust and political complications check any tendency to an improvement, the only desire being, at present, to trade with safety, and, if possible, with some profit, however small. Considering the present unsatisfactory condition of our export trade, it will occasion no surprise, if manufacturers should endeavor to curtail production. In Lancashire an attempt to effect this object is not only contemplated, but is making some progress. In such a movement there are necessarily some drawbacks to contend against, as it is difficult to please all classes of manufacturers. Producers, however, are naturally anxious to do all that is in their power to increase the value of their goods by diminishing the supply, and, at the same time, to reduce the price of the raw material, by restricting the demand for it; but, as yet, the movement has not assumed sufficient importance to materially influence the markets. Those who have inaugurated, as well as those who are supporting the movement, are restricting it almost entirely to Whit-week, which is the holiday season in the manufacturing districts. To what extent efforts will be made to diminish production in the future is a question upon which there does not appear to be much unanimity of opinion.

The demand for money during the week has been very moderate, and the supply of floating capital being ample, the rates for the best bills rule as under:

| | Per cent. | | Per cent. |

This week's Bank return shows a considerable increase of strength. The supply of bullion is now as much as £27,095,222, while the total of "other securities" has declined to £16,960,746 The largest total for the year was on the 5th of January, when "other securities" amounted to £31,661,281; there has since then been a diminution, therefore, of £10,134,476. The proportion of reserve to liabilities, which, at the commencement of the year was only 28¾ per cent, is now 51·54 per cent. During the current year the Bank rate has been reduced from 5 to 2 per cent.

There has been scarcely any demand for gold for export, and the importations having been upon a moderate scale, supplies have continued to accumulate in the vaults of the Bank of England. The silver market has remained dull, and the price of fine bars has fallen to 52½d. per ounce.

The following are the rates of discount at the leading cities abroad:

| | Bank rate. | Open market. | | Bank rate. | Open market. |
|---|---|---|---|---|---|
| | per cent. | per cent. | | per cent. | per cent. |
| Paris | 3 | 1⅝ | Brussels | 2½ | 2 |
| Amsterdam | 3 | 3 | Turin, Florence and Rome | 5 | 4 |
| Hamburg | 3½ | 2¾ | Leipzig | 3½ | 3 |
| Berlin | 3½ | 2¾ | Genoa | 5 | 4 |
| Frankfort | 3½ | 2¾ | Geneva | 3½ | 3½ |
| Vienna and Trieste | 4½ | 4½ | New York | ... | 4½@5 |
| Madrid, Cadiz and Barcelona | 6 | 6@8 | Calcutta | 9½ | .... |
| Lisbon and Oporto | 6 | ... | Copenhagen | 5 | 5 |
| St. Petersburg | 6 | 6@7 | Constantinople | .... | ... |

In the above, it will be seen that the Bank of France has reduced its rate of discount from 4 to 3 per cent. It was fixed at the former figure on the 4th of June, 1874, so that a four per cent rate has been in existence for nearly two years. The supply of bullion held by that institution amounts to as much as £80,100,000, while the proportion of reserve to liabilities is nearly 87 per cent.

The stock markets have been dull, and even consols have given way, owing to the unsatisfactory aspect of the Eastern question. The general public are operating to a very limited extent, and not much speculation is in progress. There seems, at present, to be no hope of any immediate improvement in values, and as many classes of securities are at a low figure, it seems dangerous to operate in any direction. With a view to check some of the abuses which have caused so much sensation of late, the committee of the Stock Exchange have passed a new rule, as follows: "No member shall enter into bargains in prospective dividends on shares or stocks of railways or other companies." Any infraction of this rule will render a member liable to be dealt with under rule 16, which may lead to suspension or expulsion from the Stock Exchange.

The weather has been unsettled during the week, and there has been a genial and opportune fall of rain. Rain was much wanted throughout the country, the cold, dry, easterly winds which have prevailed for so long having parched the earth to such an extent that the progress of vegetation has been much impeded. There have, at times, been somewhat severe frosts at night; but the weather having been dry, not much damage has been done. Green food for cattle has, however, in consequence of its scarcity, risen to high prices, and for butchers' meat, enhanced terms have been obtained. As regards wheat, a firm tone has prevailed, and an advance of about 1s. per quarter has been established in prices. The quantity of English grain offering has continued small; but of foreign produce there has been a good supply. There has, however, been a Continental demand for produce off the coast, and this has naturally given some firmness to the trade. It is not expected that this demand will assume any considerable proportions; but as the crop in France last year was not a large one, it is not improbable that a late harvest will compel French millers to make some moderate purchases of foreign produce. The wheat crop in this country looks promising on light soils; but on heavy land, owing to the protracted wet, the plant has grown unevenly, and is not expected to yield a favorable result.

The following figures show the imports and exports of cereal produce into and from the United Kingdom since harvest, viz., from September 1 to the close of last week, compared with the corresponding periods of the previous three years:

According to the official returns for the week ending May 20, the sales of home-grown wheat, in the 150 principal markets

of England and Wales, amounted to 41,957 quarters, against 51,278 quarters last year. In the whole Kingdom, it is estimated that they were 167,900 quarters, against 205,120 quarters. Since harvest, the sales in the 150 principal markets have been 1,701,130 quarters, against 2,284,197 quarters, while in the whole Kingdom it is computed that they have been 6,816,520 quarters, against 9,136,800 quarters in the corresponding period of last season. It is estimated that the following quantities of wheat and flour have now been placed upon the British markets since harvest:

**Valley (of Virginia).**—A meeting of the stockholders of this company was held at Staunton on the 30th ult., and the following resolutions were submitted:

*Resolved*, That the board of directors be, and are hereby authorized and empowered to lease the Valley Railroad from Harrisonburg to Staunton, and *pro rata*, as it may be completed in sections of twenty-six miles south of Staunton, for the term of fifteen years, at $20,000 per annum, and half of the net earnings.

*Resolved*, That the board be authorized to lease the road by the month, at $2,000 per month, until a permanent lease is effected.

*Resolved*, That any company leasing the road by the month shall pledge its equipment unencumbered as security.

The resolutions were adopted, Mr. Keyser, of the Baltimore & Ohio Railroad Company, voting no.

Colonel Allen offered a resolution that the president and directors be instructed to call the attention of the Baltimore & Ohio Railroad to the unsettled condition of its accounts with the Valley Railroad, and to request an immediate and amicable adjustment. Adopted.

—Now, that the heated term is upon us, a large number of our citizens are looking for places in the country for board for the summer season. The New Jersey & New York Railway runs through the northern portion of New Jersey into Rockland county in New York. Along its line are many beautiful places where pure air, good water and fine scenery are readily to be had. An advertisement in our to-day's issue of the CHRONICLE calls attention to the fact that summer board may be had along the line of this road at very moderate prices. Express trains are run morning and afternoon, and commutation tickets are sold at a low rate. Among the numerous stations on the road, we may mention Hackensack, Oradell, Westwood, Hillsdale, Pascock, Park Ridge, and Montvale, in New Jersey; and Pearl River, Nanuet, Spring Valley, Pomona, Mount Joy, West Haverstraw and Stony Point, in Rockland county, N. Y.

—Holders of miscellaneous investment securities are referred to the card, in to-day's CHRONICLE, of Mr. Samuel R. MacLean of 90 Broadway, corner of Wall street. Mr. MacLean has been established over thirteen years and during that time has made a specialty of investment securities. He also deals in commercial paper and exchange, and makes collections on country and foreign points.

—The Western Union Telegraph Company has declared a quarterly dividend of one and a half per cent., payable on and after July 15. Transfer books close on June 20 and re-open July 17.

## FRIDAY, JUNE 9, 1876—6 P. M.

**The Money Market and Financial Situation.**—The principal features of the past week have been the suspension of the Atlantic Mills of Lawrence, Mass., and Cochrane, McLean & Co., dry goods jobbers in this city, a renewed strength and activity in government securities, and a rather better tone in speculative stocks on the declaration of a dividend by Western Union Telegraph, and good reports of railroad earnings for the month of May. The embarrassments just referred to are, perhaps, designated more properly as liquidations than failures, if the large amount of reported assets in proportion to liabilities, may be taken as a standard; in the case of the Atlantic Mills, the treasurer states that the land, water-power, mills, machinery, &c., stand charged at $2,400,000, and the value of the cotton goods and supplies is estimated at $225,000, making the total assets of the corporation $2,625,000. The debt May 27 was $842,500, which deducted from the assets leaves a surplus of $1,782,500. As to the jobbing house, it has been known for some time that their paper was not selling well in this market, and it was not therefore so great a surprise when the suspension was announced; in their case also, the amount of assets is said to be large. The occurrence of such failures, however, after putting the best possible face on the matter, is undoubtedly prejudicial, and the effect is immediately seen in the preference given to exceptionally choice paper, even at 4 per cent., and in the demand for government securities at the high prices now ruling.

Our local money market has shown no particular change, the rates on call being 2@3½ per cent., and on prime paper 4 to 6 per cent., with much discrimination in favor of the choicest paper.

On Thursday, the Bank of England reported a gain of £47,000 specie for the week, and the discount rate was left unchanged at 2 per cent. The Bank of France gained 12,691,000 francs.

The last statement of the New York City Clearing-House banks, issued June 3, showed an increase of $2,041,925 in the excess above their 25 per cent. legal reserve, the whole of such excess being $16,456,150, against $14,414,225 the previous week.

The following table shows the changes from the previous week and a comparison with 1875 and 1874:

| | 1876. | | | 1875. | 1874. |
|---|---|---|---|---|---|
| | May 27. | June 3. | Differences. | June 5. | June 6. |

**United States Bonds.**—The strength and activity in government securities have been one of the noticeable points of the week. There was a marked advance in the prices of five-twenties in London, which seems to be scarcely accounted for satisfactorily by the telegrams that it was owing to large purchases made for the Continent. Both in London and here the advance was chiefly in the 6 per cent. issues, and comparatively little in the 5 per cents, which seems to indicate that purchasers have lost confidence that practicable funding measures will be adopted at the present session of Congress. Notwithstanding the large advance in London (generally attributed to the fear of war in Europe), there has been little done between that market and this, as there was no sufficient margin for profitable transactions. The largest buyers here have been, as usual, the moneyed corporations, but there have also been numerous inquiries from individual investors, who have been made very cautious by the decline in stocks and railroad bonds.

Closing prices of securities in London have been as follows:

**State and Railroad Bonds.**—There have been few transactions in State bonds at the Board; Tennessees are about 1 per cent. lower than last week, and the new Louisiana consols are also easier at 65@65½. In a decision of the U. S. Supreme Court referring indirectly to the Minnesota State Railroad bonds, the opinion alludes, by-the-way, to the State's position as regards the holders of those bonds, and affirms very distinctly the moral obligation to settle with them.

Railroad bonds have been well sustained on a moderate business, and prices of several of the popular issues are higher. Union Pacific first are about ⅝ higher than last Friday, and Central Pacifics about 1 per cent. lower. The questions at issue between these companies and the Government are still unsettled, but from the decided change in the terms of the bills reported to the two houses of Congress, it seems more than probable that they will effect some arrangement for a sinking fund that will adjust all their differences with the Government.

**Railroad and Miscellaneous Stocks.**—The stock market has been sensitive, but the general tone perceptibly stronger. Lake Shore and Michigan Central have been conspicuous during most of the week, and as to the former, there have been frequent reports of a probable dividend in August; for Michigan Central the best card has been the increase in May earnings. Western Union Telegraph has declared a dividend of 1¼ per cent. for the quarter ending July 1, payable July 15, and based on the following statement :

| | | |
|---|---|---|
| Net profits for the current quarter ending June 30 (June and part of May estimated) | | $735,489 |
| Add dividend received on the shares of the International Ocean Telegraph Co. held by this company | | 125,000 |
| And surplus April 1 | | 102,402 |
| Makes a total surplus July 1, 1876, of | | $962,891 |
| Interest on the bonded debt for one quarter | $116,576 | |
| One quarter's proportion of sinking fund | 20,000 | |
| | | 136,576 |
| Deducting and setting this aside leaves | | $826,314 |
| Amount of the purchase of Southern & Atlantic Telegraph stock, about $200,000, deducted from the balance of $826,314, as above, leaves | | $626,314 |
| Expended for construction of new lines from January 1 to May 1, 1876 | | 32,900 |
| Balance of surplus | | $593,413 |
| A dividend of 1¼ per cent on the capital outstanding requires | | 505,720 |
| Deducting which leaves a balance of | | $86,693 |

The American Express Company, we are informed, had a larger business in May than they ever had before in any single month. The general market has been favorably influenced by the reports of railroad earnings in May, which are given at length

on another page. Towards the close of business to-day there was a sharp decline in Ohio and Mississippi, which was reputed to have been occasioned by large sales for account of a holder in Montreal; the late hour, however, prevented the tracing of this report to an authoritative source. The decline of 1½ in this stock influenced to some extent the rest of the list, which closed heavy.

**The Gold Market.**—Gold varies an eighth per cent, according to the tenor of foreign dispatches from time to time, and this is about all there is of the market. The export of specie has fallen off, and a good deal now depends on the shape assumed by the war question abroad, which will direct to some extent the movement of the exchanges, and influence both the shipments of breadstuffs and the prices of U. S. Government bonds abroad.

On gold loans to-day the borrowing rate was 1 per cent. Loans were also made flat and at 1¼, 1, 2, 3, and 2½ per cent. for carrying. Customs receipts of the week were $1,631,000.

The following table will show the course of gold, and operations of the Gold Exchange Bank, each day of the past week:

**Exchange.**—There has been a very moderate business in foreign exchange, and the nominal rates of leading drawers have remained unchanged throughout. The Eastern difficulty, which has been the principal influence talked of in London, has thus far affected us but remotely, and until the war question is more definitely settled it will hardly have any more weight here. ## ANNUAL REPORTS.

### Boston Concord & Montreal Railroad.
(*For the year ending March* 31, 1876).

The directors' annual report contains the following:

| EARNINGS. | | EXPENDITURES. | |
|---|---|---|---|
| From passengers | $276,162 | Maintenance of way | $170,236 |
| From freight | 386,607 | Mu'tenance of motive power. | 80,482 |
| From mails | 18,019 | Cost of working road | 227,630 |
| From express | 9,000 | Cost of management | 14,360 |
| From miscellaneous | 3,565 | Miscellaneous | 18,732 |
| | $693,354 | | $511,341 |
| | | Net earnings | $182,012 |

The increase of gross earnings over last year is $29,160, and of net earnings $41,803,—results quite as favorable as could have been expected, considering the long state of business depression.

The road-bed, track, bridges, fences, stations, &c, have been kept in careful repair, and are in as good condition as at any previous period. Our equipment has been increased by the purchase of one thirty-ton freight engine, one first-class monitor-top passenger car, and one new baggage car; one of our passenger cars has been changed to a drawing room car; we have re-built one passenger car with monitor top and Miller platform, and rebuilt seventeen platform cars and one box car, all at a cost of over $30,000.

The semi annual dividends upon the preferred stock, amounting to $43,000, have been paid and charged in the accounts. The sinking fund holds $306,000 of its own bonds which cannot be re-issued, so that our bonded debt is practically reduced that amount.

The lease of the Southeastern Railway and equipment to the Passumpsic Railroad, and the contract between the latter railroad and this corporation, expired, by limitation, in March last. These contracts have not been attended with direct profit, but have resulted in an efficient and economical line to Montreal, which, in connection with other incidental advantages to both the Passumpsic and this corporation, promises, with the recurrence of business activity, favorable pecuniary results. While, therefore, the lease and contract have not been formally renewed, they have been practically continued in force, and the line and the business operation and connections of the roads forming it have been continued as heretofore.

The best interests of the corporation seemed to the directors to require the extension of the branch from the Fabyan House to the base of Mount Washington, a distance of about seven miles, there connecting directly with the Mount Washington Railway extending to the summit. Accordingly, contracts for its construction were entered into last fall and the work was then commenced. It is expected that this extension will be completed and opened for public travel by the first of next July.

The directors trust that the future of the corporation will soon warrant the issuing of the consolidated stock to the satisfaction and for the best interests of all concerned. During the past year, we have sold consolidated bonds to the amount of $245,100, the proceeds of which have been applied towards payment for the branch extension.

### Concord Railroad.
(*For the year ending March* 31, 1876).

The report has the following:

Owing to the continued general depression of business, the gross receipts have fallen off about $52,500 during the year, as compared with the previous year; but this has been offset in part by a reduction of nearly $17,000 in the expenses.

NASHUA ACTON & BOSTON RAILROAD.

The directors, subject to the approval of the stockholders of this company, have taken a lease of the Nashua Acton & Boston Railroad for the term of ten years, from Jan. 1, 1876, and at the rent of $11,000 per annum. In connection with this lease, purchases of the rolling stock, and other furniture of the same road, have been made by this company to the amount of $70,000. These purchases were necessary for the purposes of the lease, but the property would be useful to this road, and was taken at such prices that there would be no loss to this company on it, even if the lease should not be approved and continued. In addition to this, a loan of $72,500 has been made by this company to the Nashua Acton & Boston Railroad, to enable it to discharge some of its obligations, which it was desirable to have removed in order to accomplish the lease. This loan is made on security which the directors regard as reliable, and the interest on it is provided for by allowance from the rent of the lease. The sum of $16,512 has been paid towards the purchase of the property, above mentioned from the earnings of this road, during the past year, and is included in the foregoing expenses of that year.

To provide for the balance of these purchases, and also to supply the place of the funds used for the loan referred to, it has been necessary for this company to make temporary loans on its own credit, for which its notes have been given.

| Dividend payable June 1, 1876, $2 50 per share | 74,952 | |
| | | 149,905 |
| Balance of income account | | $23,335 |

During the year, 456 tons of iron and 200 tons of steel rails, and 52,020 new sleepers have been laid in the track, and about 3,300 tons of rails have been repaired and re-laid. One new mail and eleven freight cars have been built as additions to the equipment of the road, and one passenger engine and seventeen freight cars have been re-built to supply the place of others; and the road and furniture have been kept in good repair. The report says:

The statement of earnings and expenses from the agent's department, if compared with that of the previous year, would indicate a large decrease of income during the past year. But a part of the difference which thus appears arises merely from a change in the form of the accounts; the statement of last year having included certain receipts which now appear in the item of balance of interest account.

The actual falling off in the total income of the road during the year, from that of the previous year, has arisen from those general causes which have so severely depressed the business of railroads, in common with other enterprises, during the year.

The amount of outstanding Flint and Holly bonds is stated at $400,500. This will appear inconsistent with recently published statements in which the sum is given as $375,000. The discrepancy is explained by the fact that the trustees redeemed the bonds of that issue that matured on the first of May, 1875, but have not yet returned them cancelled to the Treasurer's office.

On the 31st of December, 1874, there stood at credit of

| | |
|---|---|
| S. Knapp, Trustee | $181,706 |
| The net credits to same account in 1875 were | 22,498 |
| | $204,004 |

The bonds of the first trust having been redeemed and cancelled (except $1,000, as stated in the report), and the remaining assets of this and the second trust being largely in excess of the Flint and Holly bonds, $360,000 of which do not mature till 1888, this credit balance was disposed of, under direction of the Board, as provided in the Trust Deed of Aug. 2, 1875, by a conveyance to trustees of the latter trust of real estate to extent of $112,411 for security of bonds therein named, and by merging the balance into the general fund of the company to the extent of $91,592. The issue of 8 per cent land-grant bonds was not secured on the lands from which these funds were realized.

The expenses of 1875 were largely increased by reason of the very severe and protracted winter of '74 and '75, during which the damage to track and rolling stock and the cost of removing snow were excessive. The gross earnings and operating expenses of the year compared with former years as follows:

| Year. | Earnings. | Expenses. | Net. |
|---|---|---|---|
| 1872 | $1,133,612 | $678,494 | $455,118 |
| 1873 | 1,126 197 | 711,603 | 414,594 |
| 1874 | 1,063.985 | 668,995 | 291,990 |
| 1875 | 1,055,053 | 696,455 | 358,598 |

LAND DEPARTMENT.

During the year 1875, there were sold by this department 7,430 acres of land, at an average price of $11 39, amounting to $84,658. In addition thereto, sales of timber have been made, retaining the fee, to the amount of $23,050. Making the aggregate sales, $107,688.

The sales of land during the year 1875, as compared with previous years, is shown in the following table:

| | Acres. | 100ths. | Per acre. | Amount. |
|---|---|---|---|---|
| Sales to Jan. 1, 1870 | 62,870 | 60 | $9 85 | $567,818 93 |

## Sioux City & St. Paul.

*(For the year ending December 31, 1875.)*

The report of this company for the year 1875 contains the statements below; the report of the connecting line, the St. Paul & Sioux City, was given in the CHRONICLE of May 13, on page 470. The President says:

The final adjustment of our lands with the State of Iowa has not been made, and no deeds have been received from the State during the past year. The suit brought by the McGregor Railway Company, for about 100,000 acres of our lands, pending at date of my last report, remains undecided. By the advice of a majority of the Directors, I entered into an agreement with the McGregor Company to refer the claim made by them to Hon. S. F. Miller for decision, both parties agreeing to abide by his determination of the case. The greater portion of lands heretofore sold, have been for bonds, and at prices that would redeem the face of the bonds, or nearly so, without including the lands in suit. Should those lands be lost to the company, the remaining lands will have to be sold at the full appraised value, and great care and economy practiced to make the lands redeem the bonds. As President of the company and Trustee for the bondholders, I deem it my duty to hold the lands at present prices, until the question of disputed title is settled. Feeling confident of success in obtaining title for the lands in suit, I have contracted to sell some of them, and a small portion of the bonds on hand are deposited on account of such sales. No deeds have been given, and if our title fails, the bonds will be returned, and contracts cancelled. At the last report, there had been cancelled of land bonds $283,000. At the next meeting of the board there will be cancelled $317,000—making in all, of cancelled bonds, $600,000; leaving outstanding $2,200 000. From sales made since January 1st, 1876, bonds have been received for sale of deeded lands equal to the amount received for sale or contract of disputed lands, so we may safely cancel the full amount shown by this report to be on hand. I think it proper to remind all holders of land bonds that their bonds may be exchanged for any lands of the company, at appraised prices for land, and at the face value of the bonds.

## GENERAL INVESTMENT NEWS.

**Atlantic Mississippi & Ohio.**—The case of the Atlantic Mississippi & Ohio Railroad, on a motion of the trustees under the $15,000,000 mortgage for foreclosure and appointment of a receiver, was up in the United States Circuit Court, at Richmond, June 2. The counsel for the defendants demurred to the bill of complainants on the ground that the plaintiffs represented too small an interest to give them standing, and likewise on the ground of want of equity. After argument, pro and con, leave was asked to withdraw the demurrer and that further time be given to file an answer to the bill. The court allowed a withdrawal of the demurrer, and the case was continued; and on the 6th inst. the Court appointed as joint receivers Messrs. Charles L. Perkins, of New York, and Henry Fink, of Lynchburg, Va., the present superintendent of the line. These gentlemen were recommended by both parties to the case, Mr Perkins on the part of the bondholders and Mr. Fink on the part of the railroad company.

**Atlantic & Pacific Railroad.**—We are informed that no announcement has been made by the Receivers that the July interest on the South Pacific first mortgage bonds will not be paid, as stated in the CHRONICLE of June 3. The item referred to was taken from the columns of another journal, and being a brief and positive statement of fact was supposed to be correct.

**Boston & Lowell.**—The company invites sealed proposals until June 15, 1876, for the purchase of $750,000 of their six per cent. currency bonds, having twenty years to run from July 1, 1876, with interest payable semi-annually, the same being authorized by vote of stockholders, passed January 5, 1876, "for the purpose of funding the floating debt of the corporation." These bonds may be registered at the option of the holder.

**Boston & New York Air Line (late New Haven Middletown & Willimantic).**—The annual meeting was held at Middletown, Conn., this week, when the following directors were elected for the ensuing year: Samuel S. Sands, President; D. B. Hatch, Treasurer; H. B. Hammond, General Manager; Ripley Ropes, Charles Dana, E. Ellery Anderson; Thos. L. Watson, Secretary; Henry Lewis, Isaac Anderson, Allyn M. Colgrove, J. N. Camp, Benjamin Douglas, George S. Moulton.

The gross earnings for the year ending June 1, 1876, were $165,986; the operating expenses for the same period were $128,635; surplus applied to construction, $37,351.

In the operating expenses are included the following extraordinary disbursements, which will not be again required for a long period:

| | |
|---|---|
| Painting of iron bridges | $6,629 |
| Repairing and re-building locomotives and passenger cars | 15,771 |
| Rent of engines | 1,200 |
| Total | $-3,600 |

The operating expenses were 77 per cent. of the gross earnings. Deducting the above extraordinary expenses or disbursements, the operating expenses would have been 3 per cent.

**Burlington Cedar Rapids & Minnesota Railroad.**—Under the decree of the United States Court, made in October last, the official notice fixes the sale at Cedar Rapids, June 22. The sale is to satisfy the following mortgagees:

| | |
|---|---|
| Charles L. Frost and J. Edgar Thomson | $ 5,400,000 |
| Philo C. Calhoun and Henry Clews | 3,000,000 |
| Farmers' Loan & Trust Company | 2,191,300 |
| | $10,591,300 |

**Canada Southern.**—At the annual meeting of the stockholders, the following directors were elected: Messrs. William H. Vanderbilt, Augustus Schell, Samuel F. Barger, D. D. Worcester, Joseph Harker, W. L. Scott, Sidney Dillon, Adam Crooks and E. A. Wickes. A resolution was passed approving and confirming the sale of the majority of the stock of the company to Commodore Vanderbilt.

**Chicago Milwaukee & St. Paul.**—Milwaukee, June 5.—At the annual meeting of the stockholders of the Chicago Milwaukee & St. Paul Railway, to-day, over $28,000,000 of stock and bonds were represented. The following gentlemen were elected Directors: Alexander Mitchell and John Plankinton, of Milwaukee; Julius Wadsworth, Walter S. Gurnee, David Dows, Jeremiah Milbank, Abram R. Vannest, John M. Burke, and Peter Geddes, of New York; George W. Wild, of Boston; Joseph G. Thorp, of Eau Claire; and Jonathan M. Bowman, of Kilbourn City. At a subsequent meeting of the Directors the present officers were re-elected.

**Colorado Central.**—The Denver (Col.) *Mirror* says: "By a clever *coup de main* the Colorado stockholders (the proxies of Eastern holders, by reason of certain informalities, having been thrown out) voted themselves into positions of authority, organized a new board of management, appointed officers of their own, and by the use of a little physical persuasion, obtained complete possession (nine points of the law) of the road and its rolling stock, and are now operating it. The Union Pacific sold and transferred the property to the Kansas Pacific, with a guarantee to carry out in good faith the terms of sale. The latter have made no effort to recover, waiting probably for the original owners to settle the difficulty and restore the purchase. The latter will probably enter upon formal proceedings, prove up their claims, get judgment and foreclosure on the road (leaving the county stockholders out in the cold, or paying them the 20 per cent. on their subscriptions they offered to do in the first place), then get legal possession and turn over the entire property to the Kansas Pacific Company."

The local stockholders have opposed the consolidation with the Kansas Pacific, but were unable to prevent it, as the Union Pacific Company held the controlling interest in the stock.

**Franklin Telegraph Company.**—The annual meeting was held at Boston. The receipts for the year were $320,660; expenses, $336 431; deficit, $15,770. The assets are $17,650, and liabilities, $78,118. New lines are recommended from Boston to Portland; from Bristol, N. H., to Wells' River, Vt.; from Providence via Fall River to New Bedford; and from Springfield via Holyoke, Northampton, Easthampton, and Greenfield, Mass., to Troy and Albany. Sidney Dillon, Jay Gould, W. J. Lyons, John A. Mortimer, Thos. T. Eckert, Henry M. Taber, Frederick L. Ames, Edwin F. Atkins, and E. H. Rollinson were chosen directors.

**Joliet & Northern Indiana.**—Judge Blodgett has entered a decree in the foreclosure suit, pending in the United States Court in Illinois, of Julius Wadsworth, trustee, and others vs. The Joliet and Northern Indiana Railroad Company and the Michigan Central Railroad Company.

The court orders that the Joliet and Northern Indiana Railroad should transfer to the trustee (Wadsworth) the lease with the Michigan Central Railroad Company, or deposit it with H. F. Eames, the Receiver of the Joliet Road, and also surrender to the Receiver thirty-eight bonds of the Chicago Burlington & Quincy Railroad in its possession. The Receiver is authorized to sell these thirty eight bonds and pay the proceeds to the bondholders, and also collect the rents due under the lease, and make reports from time to time to the court. The Michigan Central Road is required to return to the Receiver, as landlord, pay him within ten days $89,000, now due for the year ending Jan. 10, 1876, and thenceforth on the 10th of July and January alternately pay the future rent in semi-annual instalments. The injunction heretofore existing to restrain the defendants from taking any steps to annul the lease, and to prevent the Michigan Central Road from paying any rent to the Joliet and Indiana Road, is continued in full force, and made permanent until the bonds are paid.

**Maryland & Delaware.**—The Maryland Circuit Court has granted a decree of foreclosure and sale of this road on application of the bondholders. It is one of the roads that were to form part of the consolidated through line of the New Jersey Southern to Baltimore and Norfolk.

**Middletown Unionville & Water Gap.**—At the annual meeting in Middletown, N. Y., May 29, President Burt reported that all difficulties arising under the lease to the New Jersey Midland had been adjusted and a settlement of accounts arranged with the receivers, which was now before the Chancellor of New Jersey for approval.

During the year the floating debt of $8,000 has been paid; about $20,000 had been paid on account of past-due coupons, and $8,760 more was ready for payment to the second-mortgage bondholders on June 1. The coupons accruing during the year have all been paid. The rental is now punctually paid.

**Minnesota Railroad Bonds.**—In the case of Selah Chamberlain against the Southern Minnesota Company, the St. Paul & Sioux City Company and others, recently decided in the United States Supreme Court, that court held, affirming the decision of the Circuit Court, that where land is conveyed to the State by a corporation, as indemnity against losses on her bonds loaned to it, the bondholders have no equity for the application of the land to the payment of the bonds which can be enforced against the State, and her grantees take the property discharged of any claim of the bondholders.

Mr. Chamberlain, who was contractor for a portion of both roads, holds $500,000 of the bonds of the State of Minnesota issued to the original companies. These companies failed and the liens of the State upon their roads were foreclosed, and the property with the land-grants was transferred by the State to the new corporations which built, and now own, the roads. Mr. Chamberlain, payments of the bonds being refused by the State, brought the suit, lately decided, to attach a lien to the land grants. The Court has now finally decided against him, but in its opinion uses the following language as to the liability of the State: "The bonds of the State in the hands of the complainant remained unpaid, and they are still unpaid. The faith of the State, solemnly pledged for the payment of both principal and interest, has never been kept. So far from keeping it, the State, as early as November, 1860, adopted an amendment to its constitution prohibiting any law which levied a tax or made other provision for such payment from taking effect until the same had been submitted to a vote of the people, and been adopted by them. This prohibition, if not a violation of the State's pledge, conflicts with its spirit. The bonds issued are legal obligations; the State is bound by every consideration of honor and good faith to pay them. Were she amenable to the tribunals of the country, as private

individuals are, no court of justice would withhold its judgment against her in an action for their enforcement."

**Missouri Pacific Railroad.**—A despatch from St. Louis, June 6, says: In the United States Circuit Court, to-day, a decree of foreclosure of the third mortgage bonds of the Missouri Pacific Railroad was consented to, subject, however, to the rights of St. Louis County to its claim for $700,000, and the right to a prior lien over all other incumbrances. It is understood that C. K. Garrison, who represents the holders of these third mortgage bonds, has made a proposition to the County Court of St. Louis County, that the holders of these bonds consent to a foreclosure of the mortgage and the sale of the road, and will make over to the county $700,000 of the new third mortgage bonds to ecsure its claim.

The Court had previously ordered that the receivers of the Pacific Railroad are authorized, if in their judgment they think it advisable, to purchase and retire such portion of the second mortgage bonds on the Pacific Railroad as are required to be retired by the terms of said mortgage; provided no certificates of indebtedness be issued for such purpose without further order of the Court.

**Mobile & Ohio.**—A plan of reorganization has been prepared by joint committees of the bondholders and the board of directors, and is summed up as follows by the *Railroad Gazette:*

1. Stockholders to surrender their certificates and to receive new ones for one-half of the former amount. The other half to be held by trustees for the purpose of voting only.

2. The present securities of the Mobile & Ohio Railroad Company to be surrendered to a trust company, and held in escrow, so as to preserve to the owners all their present rights and powers, and new securities given therefor as follows:

3. Currency 6 per cent bonds at the rate of $15,000 per mile on the 472 miles of main line, $7,080,000 in all, to be divided between holders of first mortgage and Tennessee substitution bonds, pro rata, in proportion to the mileage covered by their respective liens. Coupons unpaid and up to Jan. 1, 1878, to be included in the amount to be redeemed with these bonds.

4. First preferred 7 per cent income bonds, interest non-cumulative, to be issued for the balance of the first mortgage and Tennessee substitution bonds.

5. Second preferred 7 per cent income bonds, interest non-cumulative, to be issued for the second mortgage bonds and coupons unpaid and up to March 1, 1878.

6. Third preferred 7 per cent. income bonds, interest non-cumulative, to be issued for the convertible bonds and coupons unpaid and up to March 1, 1878, also in settlement of judgments, floating debt and other claims now outstanding.

7. Dividends on stock to be paid only when an equal amount is in hand and applied to the purchase and cancellation of the preferred income bonds, in the order of their respective priorities.

The present stock is $5,320,600; the total amount of funded debt is $15,079,043.

**New Jersey Town Bonds.**—An act of the Legislature of New Jersey, passed in 1868, authorized the owners of two-thirds of the value of real estate, in any township through which the Montclair Railroad should pass, to issue its bonds to the amount of 20 per centum of the valuation of the real estate of such township. The Township of Pompton accordingly issued $100,000 in bonds to aid the railroad. These bonds were purchased by Peter Cooper, and by him given to the Cooper Union. The bonds were due on November 1, 1873, at the First National Bank of Jersey City, but were not paid, and hence a suit. The defence was irregularity in the action of the commissioners in the issue of the bonds, and defects in the consents obtained from the taxpayers and in the affidavits of the assessors nullifying the assents.

The suit was tried at great length before Judge Strong, at Trenton, and the jury, under direction of the Court, without leaving their seats, rendered judgment for the plaintiffs for the full amount claimed.

**New Orleans Mobile & Texas.**—Justice Bradley, of the Supreme Court, recently decided in the Circuit Court at New Orleans the case of Charles Morgan vs. The New Orleans Mobile & Texas Railway Company. The suit was based upon an alleged violation of a contract formed between Charles Morgan and the New Orleans Mobile & Texas Railroad Company, on the 12th of December, 1871.

Charles Morgan owned two steamers and a railroad between New Orleans and the lake, and another from New Orleans to Brashear. He agreed to relinquish running them for fifteen years, and to turn them over to the Mobile Railroad Company at a stipulated price, fixed at $797,800. This included wharves, steamers, Pontchartrain Railroad stock to the amount of 5,080 shares; also the Opelousas. Mr. Morgan further agreed to subscribe to the stock the sum of $1,258,000 on the same terms as other subscribers, and the property before named was to be taken as payment of the subscription as far as it went. Mr. Morgan was to receive as security mortgage bonds and income bonds of the company. It was stipulated that Morgan should have, for the $250,000 cash, the levee line of the Pontchartrain Railroad and the new depot. The gross receipts of the through business were to be divided ratably according to the relative length of the railroads of complainant and defendants between New Orleans and Texas. The agreement was made in the city of New York. The Judge concludes as follows: "The conclusion I am forced to come to is that the principal contract made on the 12th of December, 1871, between Charles Morgan and the New Orleans Mobile & Texas Railroad Company was a New York contract, governed as to its nature and obligations by the laws and jurisprudence of the State of New York, and as by their laws and jurisprudence, so far as appears, no such dissolving consequence follows from a non-performance of a part of the contract as is claimed in this case, the claim is untenable, and the relief must be refused. As no relief can be granted on either of the grounds laid in the bill of complaint, the same must be dismissed with costs."

**New York Boston & Montreal.**—The New York and Boston Division was sold under foreclosure of the first mortgage in White Plains, N. Y., June 5. The whole amount of the bonds and accrued interest is $3,230,835, for which amount the property was bought in by the Farmers' Loan and Trust Company, Trustee, for account of the bondholders. This division extends from High Bridge to Brewster's, about fifty miles, on some twenty-five miles of which track has been laid.

**N. Y. City Bonds.**—At an adjourned meeting of the Board of Estimate and Apportionment, the Controller was authorized to issue $60,000 in bonds for the four new free baths. He was also empowered to issue $633,835 in bonds to pay assessments for opening streets, etc. The Mayor then called up the question of authorizing the issue of $1,000,000 in bonds for the Brooklyn Bridge. T. G. Ritch, counsel for the opponents of building the bridge at the present hight, asked one day's delay to hear argument. Henry C. Murphy, President of the Board of Trustees of the Bridge, said the act of the Legislature made it mandatory on the Board to issue the bonds on a requisition from the Bridge Trustees. This requisition was made a year ago, and expecting money from the city, the Trustees have gone on with their work, and their obligations now amounted to about $600,000. In answer to questions, Mr. Murphy stated that the Trustees had complied with all the requirements of the act of Congress in regard to the Bridge, and had the written permission of the Secretary of War to go on with the construction upon the present plans. After some discussion, in which Mayor Wickham spoke in favor of the resolution, it was adopted, the Controller voting in the negative.

**Portland Saco & Portsmouth.**—The report of the Directors states that the future dividends are to be three per cent. semi-annually, and the Eastern is to pay all taxes. A resolution was passed at the recent annual meeting, authorizing the issue of $500,000 in six per cent. bonds, secured by mortgage to run for twenty years, to pay all the outstanding liabilities and to provide funds for contingencies.

**Western Union Telegraph.**—The following is the quarterly report of the Executive Committee of the Western Union Telegraph Company:

EXECUTIVE OFFICE WESTERN UNION TEL. CO.,
NEW YORK, June 7, 1876.

*To the Directors:* The Executive Committee respectfully submit the following statement of the operations of the company and the condition of its affairs:

| | |
|---|---|
| In the report presented by the committee at the last quarterly meeting of the Board, held March 8, 1876, the net profits for the quarter ending March 31 (February business being partially and March wholly estimated) were stated at | $720,014 53 |
| And the liabilities paid and accruing, for which provision had not then been made | 686,387 93 |
| Leaving a surplus of | $33,626 60 |

The official returns for the quarter (ending March 31) showed the profits to be $788,790 75, or $68,776 22 in excess of the estimate. Adding this excess to the estimated surplus of $33,626 60, as above, gives $102,402 82 as the actual surplus April 1, 1876. This was what remained after providing for six months' interest on the bonded debt due May 1, and one year's appropriations for the sinking fund and payment of all liabilities for the completion and furnishing of the new building, all of which have since been paid.

| | | |
|---|---|---|
| The net profits for the current quarter ending June 30, inst., based upon official returns for April, nearly complete returns for May, and estimating the returns for June, will be about | | $735,488 57 |
| Add dividend received on the shares of the International Ocean Telegraph Company, held by this company | | 125,000 00 |
| And surplus April 1, as above | | 102,402 82 |
| Makes a total surplus July 1, 1876, of | | $962,891 39 |
| Interest on the bonded debt for one quarter (not payable till November 1, 1876) is | $116,576 90 | |
| One-quarter's proportion of sinking fund (not payable till May 1, 1877) is | 20,000 00 | |
| | | 136,576 90 |
| Deducting and setting this aside leaves | | $826,314 49 |

In March last, steps were taken with the view to secure to this company control of the lines of the Southern & Atlantic Telegraph Company, in case it should become desirable to do so. Early in May it became expedient to close the matter, which was done by purchasing a majority of the stock. A lease of the lines has since been negotiated, the details of which have been substantially settled, and it is expected that possession will be given us in a short time.

| | |
|---|---|
| The amount of the purchase is about $200,000, which, deducted from the balance of $826,314 49, as above, leaves | $626,314 49 |
| There have been expended for construction of new lines from January 1 to May 1, 1876 | 32,900 60 |
| Deducting this from balance of surplus, as above, leaves | $593,413 89 |
| A dividend of 1½ per cent. on the capital outstanding requires | 506,720 00 |
| Deducting which leaves a balance of | $86,693 89 |

To avoid possible misapprehension, it may be stated here that all expenditures for reconstruction and rental of leased lines are charged to profit and loss as current expenses, and deducted from gross receipts before profits are stated.

In view of the preceding statements, the committee recommend the adoption by the board of the following:

*Resolved*, That a dividend of 1½ per cent. from the net earnings of the three months ending June 30 be, and the same is hereby, declared, payable on the 15th day of July next.

*Resolved*, That for the purpose of such dividend the stock-books be closed at 3 o'clock on the afternoon of the 20th inst, and be re-opened on the morning of the 17th of July.

Respectfully submitted, WILLIAM ORTON, President.

## COMMERCIAL EPITOME.

FRIDAY NIGHT, June 9, 1876.

General trade has remained dull, but speculation in leading staples has received a new impulse from the condition and prospects of political affairs on the Continent, it being doubtful whether peace shall be maintained in Europe, or whether a general war shall break out. In mercantile circles the discussion has been active concerning the probable effect of such a war upon business and values, and the course of speculation has been largely influenced by conflicting views. Private advices from England have generally given assurance of the maintenance of peace; but they do not receive full credit with us. The weather has become warm, and crop prospects are almost uniformly favorable.

The speculation in hog products has been generally towards higher prices, stimulated in part by the reduction that has been effected in stocks, but more directly by the expectation of war in Europe, and the export demand to which it may give rise. Besides, the summer production is not so large as in previous years. Mess pork to-day was quoted at $19 50 on the spot, and the closing bids for future delivery, were $19 20 for July, $19 65 for August, $19 50 for September and for October. Lard has recovered nearly one cent a pound from the lowest point, and sold freely to-day at $11 62½@11 70 for prime city and Western, with closing bids for future delivery, $11 65 for July, $11 75 for Augnst, $11 82½ for September and $11 80 for October. Bacon and cut meats are also rather dearer, after some speculative transactions at low prices early in the week. Beef and beef hams have been dull and drooping, but close more steady. Tallow has been selling fairly at 8⅝c. for prime. Stearine is dull at 13@13½c. for prime. Butter is in large supply at 15@25c., as in quality. Cheese is lower at 8@11c. for new State factories. The exports from New York, Nov. 1 to June 3, inclusive, for 4 years:

Rio coffee has been moderately active, but at easier prices; fair to prime cargoes, 16½@17¾c. gold; mild grades have also sold slowly; Java, mats, 20@23c. gold, and Maracaibo, 15@18½c. gold. Stocks of Rio, 124,410 bags here, with a visible supply for the United States of 238,800 bags; Java, 126,500 mats, and other growths, 42,125 bags. Rice has been quite dull. Teas were dull, till within a day or two, when the demand became more active and prices firmer.

Molasses, at a decline to 33c. for 50 test, has been more active, four cargoes having been sold for refining, besides three cargoes of Porto Rico to the trade; stock of foreign, 7,760 hhds. Sugars continue to show an accumulation of stock, and prices have been barely supported, at 7⅞@8c. for fair to prime refining, with standard crushed refined at 10½c. The movement in raws has been:

The business in ocean freights for the past week has not reached that liberal volume that was so noticeable during the previous week. The consequence is that the grain rates, both for berth and charter room, are a trifle easier. Petroleum tonnage, however, is firm and, at the close, in better demand. Late engagements and charters were: Grain to Liverpool, by steam, 9@9½d.; cotton, 5 16d.; provisions, 40@50s. per ton; grain, by sail, 8d.; cotton, 5-16d; corn to London, by steam, 11d.; cheese, 50s. per ton; grain, by sail, 9½d.; flour, 2s. 6d.; grain to Hull, by steam, 10½d; bacon, 40s. per ton; grain to Glasgow, by steam, 9½@10d.; do. to Bristol, by sail, 8½d.; flour, 2s. 6d.; grain to Cork, for orders, 6s. 3d.@6s. 9d.; do. to Cardiff, Limerick, London, and Calais, 6s. per qr.; do. to Oporto, 17c. gold per bushel; case oil to the Levant, 30c. gold; naphtha to Gottenburg, 4s. 10d.; crude petroleum and naphtha to Havre, 3s. 7½d. To-day, there was a moderately fair business, though at a further slight decline for berth room; charters, however, remained steady. Grain to Liverpool, by steam, 9d.; cotton, 5 16d.; grain, by sail, 8d., and cotton, 9-32d.; grain to London, by steam, 10½d.; flour by sail, 2s. 4½d.; grain to Cork for orders, 6s. 6d.; do. to Hamburg, in shippers' bags, 6s. 6d.; refined petroleum to the Baltic, 4s. 6d., and crude do. to Havre, 3s. 9d.

Naval stores have not shown any improvement; trade has dragged slowly, and figures are anything but in a healthy position; spirits turpentine closes at 29½@30c.; common to good strained rosin at $1 65@$1 75. In petroleum, a good business has been done at full figures, until at the close, when there was a falling off in the export demand; prices, however, remained firm at 8⅛c.@8¾c. for crude, in bulk, and 14½c. for refined, in bbls.

There has been a moderate demand for Kentucky tobacco, and quotations are steady at 6½@8c. for lugs and 8½@16c. for leaf; the sales for the week embraced 600 hhds., of which 400 were for export and 200 for consumption. Seed leaf has continued in fair demand and unchanged; the sales embrace: crop of 1873, 18 cases Ohio, at 6@7c., 120 cases New England, at 12@16c.; crop of 1873 and 1874, 85 cases Wisconsin, on private terms; crop of 1874, 366 cases New England, at 6½@25c.; and crop of 1875, 150 cases Ohio, at 6@7c.; also, 200 cases sundry kinds, at 7@30c. Spanish tobacco has ruled a shade easier, with sales of 600 bales Havana at 85c.@$1 15.

## COTTON.

FRIDAY, P. M., June 9, 1876.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening (June 9) the total receipts have reached 10,456 bales, against 13,810 bales last week, 16,336 bales the previous week, and 19,995 bales three weeks since, making the total receipts since the 1st of September, 1875, 4,028,470 bales, against 3,422,294 bales for the same period of 1874-5, showing an increase since Sept. 1, 1875, of 606,176 bales. The details of the receipts for this week (as per telegraph) and for the corresponding weeks of five previous years are as follows:

* *New Orleans.*—Our telegram to-night from New Orleans shows that (besides above exports) the amount of cotton on shipboard and engaged for shipment at that port is as follows: For Liverpool, 12,500 bales; for Havre, 9,570 bales; for Continent, 3,000 bales; for coastwise ports, 200 bales; which, if deducted from the stock, would leave 75,300 bales; representing the quantity at the landing and in presses unsold or awaiting orders.

† *Galveston.*—Our Galveston telegram shows (besides above exports) on shipboard at that port, not cleared: For Liverpool, no bales; for other foreign, no bales; for coastwise ports, no bales; which, if deducted from the stock, would leave remaining none.

‡ The exports this week under the head of "other ports" include from Baltimore 56 bales to Liverpool; from Boston 1,529 bales to Liverpool; from Philadelphia 357 bales to Liverpool.

From the foregoing statement it will be seen that, compared with the corresponding week of last season, there is an *increase* in the exports this week of 15,707 bales, while the stocks to-night are 91,761 bales *more* than they were at this time a year ago. These mail returns do not correspond precisely with the total of the telegraphic figures, because in preparing them it is always necessary to incorporate every correction made at the ports.

We have had a feverish and unsettled market for cotton during the past week, but fluctuations were not so wide as those noted in our last. Cotton on the spot was quoted at 1-16c. advance on Saturday, with a large business for export; but on Monday this

was lost, and on that and subsequent days there was only a small business for consumption, at prices nominally unchanged. Yesterday, quotations were reduced 1-16c., under unfavorable foreign advices, but to-day there was a brisk export demand, and the decline of yesterday was recovered. For future delivery, there was a buoyant opening on Saturday, stimulated by the comparatively unfavorable weather reports in the last CHRONICLE, and the continued heavy rains in the Atlantic and Gulf States, which were reported on that day to the Cotton Exchange. But on Monday there was a cessation of heavy rains in the Gulf States; it was a close holiday on the Liverpool Exchange, so that no foreign advices were received, and the political intelligence from the Continent was regarded as threatening; prices consequently declined rapidly; the advance of Saturday was more than lost. Tuesday opened buoyantly, on the report of an armistice, but the close was flat, under the intelligence of the failure of the Atlantic Mills at Lawrence, Mass., and rumors of other reverses to domestic manufacturers. Wednesday, there was a return of good weather in the Atlantic States, and Liverpool opened unexpectedly weak after the holidays; under these influences, futures gave way fully ½c., and yesterday, the opening was quite weak, and there was a decline of 1-32@1-16c., under the report that Servia had declared her independence of Turkey, with the weather most favorable for the growing crop. To-day, there was an advance of ½c. on the early months, and 1-16@3 32c. on the later months. Liverpool accounts were stronger, and private telegrams from New Orleans stated that the National Cotton Exchange estimated a decrease in acreage of 7 per cent in the Mississippi Valley and 3 per cent in the aggregate for the whole South. These estimates were not generally credited, but had their effect.

The total sales for forward delivery for the week are 132,000 bales, including —— free on board. For immediate delivery the total sales foot up this week 10,403 bales, including 7,300 for export, 2,171 for consumption, 932 for speculation, and —— in transit. Of the above, —— bales were to arrive. The following were the closing quotations to day:

These figures indicate a *decrease* in the cotton in sight to-night of 91,759 bales as compared with the same date of 1875, a *decrease* of 344,543 bales as compared with the corresponding date of 1874, and a *decrease* of 188,368 bales as compared with 1873.

AT THE INTERIOR PORTS the movement—that is the receipts and shipments for the week and stock to-night, and for the corresponding week of 1875—is set out in detail in the following statement:

The above totals show that the old interior stocks have *decreased* during the week 3,859 bales, and are to-night 22,230

bales *more* than at the same period last year. The receipts at the towns have been 495 bales *more* than the same week last year.

BOMBAY SHIPMENTS.—According to our cable despatch received to-day, there have been 25,000 bales shipped from Bombay to Great Britain the past week, and 19,000 bales to the Continent; while the receipts at Bombay during this week have been 49,000 bales. The movement since the 1st of January is as follows. These are the figures of W. Nicol & Co., of Bombay, and are brought down to Thursday, June 8:

| | Shipments this week | | | Shipments since Jan. 1 | | | Receipts. | |
|---|---|---|---|---|---|---|---|---|
| | Great Britain. | Continent. | Total. | Great Britain. | Continent. | Total. | This week. | Since Jan. 1. |
| 1876..... | 25,000 | 19,000 | 44,000 | 428,000 | 274,000 | 701,000 | 49,000 | 901,000 |
| 1875..... | 18,000 | 17,000 | 35,000 | 615,000 | 334,000 | 1,049,000 | 83,000 | 1,171,000 |
| 1874. ... | 35,000 | 19,000 | 54,000 | 665,000 | 322,000 | 988,600 | 88,000 | 1,161,000 |

From the foregoing it would appear that, compared with last year, there is an *increase* of 9,000 bales this year in the week's shipments from Bombay to Europe, and that the total movement since January 1 shows a *decrease* in shipments of 317,000 bales compared with the corresponding period of 1875.

WEATHER REPORTS BY TELEGRAPH.—Almost uniformly favorable weather is reported this week. The rainy districts of last week have had very little rain and higher temperature; much needed showers have visited other sections; so that altogether the plant is making satisfactory progress, with generally clear fields. In Texas the fine weather has forced cotton forward so rapidly that it has already nearly made up for the late planting.

*Galveston, Texas.*—There was a sprinkle here one day this week, the rainfall reaching two hundredths of an inch. The thermometer has averaged 81, the extremes being 73 and 91. The crop is developing promisingly, the extremely favorable weather tending to retrieve the lateness of planting.

*Indianola, Texas.*—The railroad has stopped running for the season, so there are no receipts. On one day this week we had a good shower, and another is desirable. The rainfall for the week is thirteen hundredths of an inch. The average thermometer is 80, the highest 90 and the lowest 72. Crop accounts are more favorable.

*Corsicana, Texas.*—We have had delightful showers on two days this week, and the indications are that they extended over a wide surface. The rainfall is thirty four hundredths of an inch. The average thermometer is 76, the highest 94 and the lowest 58. The crop is developing promisingly.

*Dallas, Texas.*—There was a light shower on one day this week, the rainfall reaching four hundredths of an inch. A little more would have been welcome. Crops are doing about as well as possible. The wheat harvest is progressing. Average thermometer 76, highest 90 and lowest 54.

*New Orleans, Louisiana.*—There have been two rainy days this week, the rainfall reaching eighty hundredths of an inch. The thermometer has averaged 77.

*Shreveport, Louisiana.*—There were lively showers here on Saturday and Sunday mornings last, the rainfall reaching one inch and sixty-four hundredths. Average thermometer during the week 77, highest 91 and lowest 61. All kinds of crops are doing finely, oats and corn in particular doing better than at any time since the war.

*Vicksburg, Mississippi.*—There has been rain here on one day this week, the rainfall reaching twelve hundredths of an inch. The thermometer has averaged 75, the highest being 89 and the lowest 63.

*Columbus Mississippi.*—During this week the days have been warm, but the nights cold. The thermometer has averaged 75, the highest being 81 and the lowest 69.

*Little Rock, Arkansas.*—We had quite a rain and thunder storm on last Friday night, and it is being repeated now. In the meantime the weather has been fair and pleasant. Crop reports from all parts of the State are very favorable. Average thermometer 74, highest 89 and lowest 57. The rainfall is two inches and thirty-three hundredths.

*Nashville, Tennessee.*—There was rain here one day this week, the rainfall reaching forty-two hundredths of an inch. The thermometer has ranged from 64 to 82, averaging 73. The crop is developing promisingly.

*Memphis, Tennessee.*—During this week the days have been warm, but the nights have been cold. There has been one rainy day, the rainfall reaching fifteen hundredths of an inch. The thermometer has averaged 73, ranging from 85 to 56. The crop is developing promisingly.

*Mobile, Alabama.*—Rain fell the early part of the week on one day, to the extent of eighty-two hundredths of an inch; but the latter part has been clear and pleasant. The average thermometer is 78, the highest 92 and the lowest 63. Crop accounts are more favorable. Good progress is being made in clearing the fields of weeds.

*Montgomery, Alabama.*—There was rain on two days, to the extent of ninety hundredths of an inch. The thermometer has averaged 77, the highest being 90 and the lowest 61. Our last week's report of the rainfall was incorrect. It should have been —for the week, two and seventy-five hundredths, and for the month, six and fifty-five hundredths inches.

*Selma, Alabama.*—We have had two light rains this week, the rainfall reaching sixty-six hundredths of an inch. The thermometer has averaged 76.

*Madison, Florida.*—Telegram not received.

*Macon, Georgia.*—There has been rain on two days this week. The fields are clear of weeds, and the crop is developing promisingly Average thermometer for the week 71, highest 88 and lowest 62. The rainfall during the month of May was one inch and eighty five hundredths.

*Atlanta, Georgia.*—On three days the early part of the week, there were showers, the rainfall reaching an aggregate of one inch. The latter part of the week has been clear and pleasant. The thermometer has averaged 76, the highest being 82 and the lowest 62. The fields are clear of weeds.

*Columbus, Georgia.*—It rained severely one day this week, but the rest of the week has been pleasant. The thermometer has averaged 77, the highest being 84 and the lowest 66.

*Savannah, Georgia.*—Rain has fallen on three days this week, to the extent of thirty-four hundredths of an inch. The rest of the week has been pleasant. Wages will be lower this year, and there will be more corn and less cotton planted this year than last. Crop accounts are more favorable, and good progress is being made in clearing the fields of weeds. Average thermometer 79, highest 90 and lowest 65.

*Augusta, Georgia.*—The weather has been pleasant the latter part of the week, but it rained three days the early part, the showers being heavy and general in this section, and the rainfall reaching three and two hundredths inches. The rain was very beneficial to the crops. The cotton plant looks strong and healthy, and crop accounts are more favorable. Average thermometer 76, highest 88 and lowest 62.

*Charleston, South Carolina.*—One day of the week was showery, the rainfall reaching forty six hundredths of an inch. The average thermometer is 78, the highest 88 and the lowest 64.

The following statement we have also received by telegraph showing the height of the rivers at the points named at 3 o'clock June 8. We give last year's figures (June 11, 1875) for comparison.

Up to June 1st the receipts at the ports this year showed an excess of 613,013 bales over the previous season, while the overland movement was at the same time probably about 60,000 bales larger, so that, with no increase after June 1st, this crop would reach about 4,503,000 bales.

OUR ACREAGE REPORT.—We shall be delayed until two weeks from to-day in the publication of our acreage report. This is owing to the very extensive correspondence we have been undertaken this year, which promises to result in an amount of information on this subject never before gathered. One point in particular we have sought to determine, and that is the exact planting and yield per acre in each county of the South the last two years. If this can be reached, and the increased or decreased planting in every county for this year be determined, we shall secure an unusual degree of accuracy in our result; for it is not simply the aggregate acreage in the United States that determines the crop; it is of far more importance to know, in seeking to reach a correct conclusion, whether acres that easily produce 500 lbs. have been substituted for those which, with difficulty, produce 90 lbs., or *vice versa*, and just to what extent this has been done. With regard to the result of previous crops, we began collecting our information several months since, and our returns have been very satisfactory and gratifying. If we succeed as fully in our efforts as we now anticipate, we shall have the satisfaction of knowing that we have taken another element of uncertainty out of this crop question.

WEEKLY RECEIPTS OF COTTON.—Below we give a table showing the receipts of cotton each week at all the ports of the United States for several seasons, indicating, also, the total crop each year. Our figures are given in thousands of bales.

MOVEMENT OF COTTON IN LIVERPOOL.—We find in the Manchester *Guardian* the following estimates of the probable movement of cotton in Liverpool from 19th May to the 29th of September, 1876. The first line, it will be seen, gives the stock at Liverpool, May 18 (1,001,120 bales), and the last line the anticipated prices, Sept. 29. One is almost induced to believe that there is some connection between the ownership of the present Liverpool stock and the anticipated prices given in these estimates; and that, therefore, the wish is father to the thought. Nothing would be pleasanter than to see cotton go up to 7½@7 11-16d., but we would advise our readers not to buy futures on that expectation, for unless our crop meets with disaster, we can discover no reason for anticipating such rates. The *Guardian* states that these estimates have been compiled by men of great experience in the trade, and represent its various branches—merchants, brokers, exporters, and importers—and were made up entirely independently of each other.

In examining the American portion of the above, our reader should remember that on 18th of May the American afloat for Liverpool was 202,000 bales, and the stock at our outports was 458,325 bales, and the amount likely to be received at the ports from May 18 to Sept. 1, about 180,000 bales, or a total of about 840,000 bales. Out of this, we should allow for England at least 50,000 bales more than the highest estimate of American given above. It was not our purpose, however, to criticise the various items in these estimates, but simply to warn our readers against acting on the supposition that the prices named are to be reached; for certainly we have no good reason for expecting them to be, in any event other than that we have mentioned—a disaster to our crop.

GUNNY BAGS, BAGGING, &c.—Bagging has ruled quiet during the week past, and the enquiry is of no importance. The sales making are only of small parcels. Holders are asking former figures, but values are entirely nominal in the absence of any trade. Bales are quiet and unchanged at 9@9¼c. for India. Bags are nominal. Jute butts are ruling quiet, and we hear of no sales of moment making. Prices are unchanged, and at the close holders are asking 2¾c. cash and 3c. time. Lots to arrive are dull at previous figures.

LIVERPOOL, June 9—3:30 P. M.—BY CABLE FROM LIVERPOOL.—Estimated sales of the day were 10,000 bales, of which 2,000 bales were for export and speculation. Of to-day's sales 7,200 bales were American. The weekly movement is given as follows:

Below we give all news received to date of disasters, &c., to vessels carrying cotton from United States ports:

ORIENTAL, Hedge, from Savannah of, and for, Boston, went ashore on Harding's Ledge, at 7:30 P. M., June 4, in a fog. The passengers, twenty in number, were taken off by fishing schooner Omega, and reached Boston shortly after midnight. The steamer bilged and filled with water, but, with a continuance of favorable weather, may be saved. Her cargo will be saved. Two lighters, loaded with cotton, wool and rosin, arrived at Boston 6th.

—Boston, June 6.—Steamer Oriental still remains ashore, two lighter loads of cotton, rosin and hides having arrived in this city. A survey will be held on the vessel this afternoon, when the question will be considered whether the expense of getting her off and the cost of repairs necessary to put her in serviceable condition will not be greater than the property is worth. If such a decision is reached, the wreck will be sold at auction.

ANDREA WILHELMINA, ship (Swed.) from New Orleans for Reval, arrived off Dungeness, May 18, with foreyard broken, having collided with Norwegian bark Svanhild.

TURKESTAN, ship (Br.), from New York for Liverpool, before reported ashore at Port Madoc, Wales, was sold prior to May 23, with her materials, for £2,700.

OSSEO, brig, from Mobile for Havre, before reported at Bermuda in distress, was ready for sea June 1, and would sail in one or two days.

M. M. MERRIMAN, schr. (of Taunton), Crane, from Bay River, North Carolina, for Fall River, with shingles and cotton, put into Norfolk, May 31, leaking. The M. M. M. sailed from Bay River on the 25th, and during the voyage encountered strong northeast winds. On the 30th, Cape Henry bearing west, thirty miles distant, at 3 P. M., she keeled over on the port side, when, on sounding the pumps, found that she had sprung a leak at the rate of 1,500 strokes per hour, which required constant pumping by all hands, in order to keep her free. She will undergo repairs at Graves' ship-yard.

## BREADSTUFFS.

FRIDAY, P. M., June 9, 1876.

The flour market was without essential change during the past week, but towards the close became more active, with a slight upward tendency. The export demand was good for common and medium extras, ranging from $5 10 to $6 20; and the better grades of bakers' and family brands were latterly more salable. This is especially true of Southern flours. Supplies for this point have not come forward very freely, but there is an increased production at the West, for which our receivers are inclined to make room. Rye flour has tended upward, and corn meal has been quite active at a slight decline. To-day, the market was dull and weak, except for common shipping extras.

The wheat market was variable throughout the week, in tone as well as in volume of business. Receipts all all points have materially increased, and crop accounts are excellent, but the influences have proceeded from the daily changes in the phases assumed by political affairs on the Continent. The offerings have been free, and the demand promptly filled, so that very little improvement has taken place on the reduced prices noted in our last. Yesterday there were large sales of No. 2 spring at $1 17½ for Chicago and $1 20 for Milwaukee, with prime No. 1 at $1 32. To-day, there was a further advance of ½c., which checked business.

Indian corn was somewhat depressed early in the week, by liberal supplies of new mixed, much of it out of condition, and holders anxious to effect prompt sales. Prices gave way 1@2c. per bushel in consequence. But latterly receipts by rail have fallen off, and the demand has been urgent to fill freight engagements. Prices more than recovered the early decline, and last evening were 1c. higher for sound qualities, and 2@3c. higher for the lower grades, which are comparatively less plenty. The limited speculation for future delivery has been in prime mixed, at 59c. for June and 60c. for July. Receipts at the West have greatly increased. To-day, the market was quiet and scarcely so firm. Steamer mixed 56@57½c.

Rye has been active for arrival at 87c. for Western and 96½c. for State, closing quiet, with Canada nominal. Barley remains quiet, but barley at some decline has been more salable. Canada peas are unsettled.

Oats have been active, and prices are 1@2c. higher. There has been some business for export to France (part for arrival) at 40@44c. for prime to choice mixed. Yesterday, No. 2 Milwaukee sold at 43½c., and No. 2 city-graded at 38c., with choice white 47c. in store. To-day, the market was dull.

## THE DRY GOODS TRADE.

FRIDAY, P. M., June 9, 1876.

The trade movement has been irregular during the past week with package houses. The clothing trade have been operating to a fair extent in heavy woolens, but, as a rule, domestic cottons were very quiet, while prints, dress goods, &c., were in moderate demand. With importers, business has been dull and uninteresting, and the jobbing trade has been about as active as usual at this advanced period of the season, when retailers only buy such small re-assortments as are found necessary for the pursuance of current trade. The Atlantic Cotton Mills will be closed in a few days, owing to the floating debt of the corporation having become too large to be paid without increasing the capital stock which will probably be done, and the company re-organized within a short time, when these splendid mills will again resume production. Messrs. Cochran, McLean & Co., importers and jobbers, have suspended payment, with liabilities of about $1,600,000, and nominal assets of $2,000,000, and the firm will go into liquidation. The house has not been in very good credit for some time past, but was so strongly backed by men of wealth that the failure was somewhat of a surprise; as it is, a large dividend may be expected, because of the honorable character of the members of the firm, provided the creditors act harmoniously.

DOMESTIC COTTON GOODS.—There were exported from this port during the week 1,115 packages cotton goods, of which Great Britain took 597 packages, Brazil 342 packages, and other countries the remainder. There was also an increased demand by Canadian merchants, whose purchases do not appear in the above list, and American cottons are evidently gaining a foothold in the Dominion. The home demand was light, but fairly satisfactory for the time of year. Agents for the large corporations whose fabrics were lately sold at auction have not yet fully determined upon prices for future business, but the few quotations issued are a trifle above those realized at auction. Bleached shirtings were in fair demand and generally steady, although a few unimportant reductions were made on low grades. Brown and colored cottons were dull in first hands, but broken lots were distributed to a fair aggregate amount. White ground prints—which have become comparatively scarce—were fairly active, and there was a well-sustained demand for shirting prints, cambrics, and percales. The lately unprofitable results attending calico printing are seen in the published reports of New England print works, whose semi-annual meetings have been held within the last few weeks. Some of these reports show losses on the half-year's business, varying from $60,000 to $100,000. Print cloths have been very quiet, but prices are nominally steady at 3⅜c.—cash to 30 days—for extra standard 64x64 cloths, although some small transactions were reported at 3¼ cash.

DOMESTIC WOOLEN GOODS.—There has been a slight improvement in the demand for moderate lots of heavy woolens by clothiers, but the general trade has been less active than sanguine holders expected, and jobbers are placing orders for the autumn trade with extreme caution. The jobbing trade has been light and Messrs. Gilbert & Weaver have been compelled to suspend payment, owing to the late shrinkage in values and the dulness of business. Plain beavers were relatively more active than fancy makes of overcoatings, which were comparatively quiet. Heavy cassimeres and suitings of new and attractive styles found buyers, but old styles are difficult to move at a reasonable price. Cloths and doeskins were dull at unchanged prices, but there was more inquiry for popular makes of diagonal and fancy worsted coatings. Satinets moved slowly, and Kentucky jeans lacked animation, although extremely low offers were made for considerable lots. Flannels remained quiet as a rule, but a few sales were made to the shirt trade, which is indicative of an early movement in these fabrics. Worsted dress goods were in fair request for the time of year.

FOREIGN DRY GOODS.—With importers, business has been very quiet, but jobbers effected numerous small sales, which reached a fair aggregate amount. Low-grade black silks were in steady request, and grenadines were taken in fair parcels. Linen goods were quiet but steady in price, but white goods and embroideries were a trifle lower in some cases. Woolen goods for men's wear remained exceedingly quiet in first hands, but were distributed rather more freely in the auction rooms. Ribbons and millinery silks were largely sold at auction, the former at low and the latter at fair prices.

We annex prices of a few articles of domestic manufacture:

Investors'
SUPPLEMENT
OF THE
COMMERCIAL & FINANCIAL CHRONICLE.

This Supplement issued on the last Saturday of each month is furnished GRATIS to all regular subscribers of the CHRONICLE.
It contains a complete exhibit of the Stocks and Bonds of
STATES,
CITIES,
RAILROADS, and
OTHER COMPANIES,
presenting full details of each issue, and furnishing a hand-book of information for the use of dealers and investors.
One of the principal features of the Supplement consists in the remarks upon the
FINANCIAL CONDITION
of each State, City, or Company, giving the latest intelligence in regard to their financial situation, resources, income, &c.
The remarks, in each case, also embrace
AN INDEX
to the pages of the CHRONICLE for a year or more past, where further information has been published, in space too extended for the matter to be concentrated into the limits of the SUPPLEMENT.
This Supplement is sent to all regular subscribers of the CHRONICLE, without extra charge.
No single copies are sold.

**Guaranty Cash Capital, $125.000,**

Invested in U. S. Five-Twenty Bonds.

*This Society separates the Insurance Part of the Premium from the Reserve or Deposit Part*, which latter is held merely for accumulation.

*This Society recognizes the Policy-holder as owner of the Reserve.*

This Society, therefore, will either issue policies on the payment of uniform annual premiums, *guaranteeing a specified surrender value for every year in cash;* or it will furnish the PROTECTION OF LIFE ASSURANCE *at actual current cost for death claims and expenses of management, each year by itself, renewable at the close of any year without further medical examination.*

These Plans are indorsed by leading Actuaries and State Commissioners, and also by the "*Society for the Promotion of Life Insurance among Clergymen*," James Brown, *President;* Howard Potter, *Treasurer.*

Gross Assets held by Board of Management in New York, $1,600,000.

The Company's actual losses by Chicago conflagration in 1871 were $1,743,457 81.

The Company's actual losses by Boston conflagration in 1872 were $503,690 46.

Yet the Company paid these losses at sight without borrowing or selling a single dollar of permanent investments, continued regular dividends to their stockholders, and at the end of 1873 had entirely made up (not in this country, however), the losses of these two conflagrations and all others, commencing 1874 with a surplus over $100,000 larger than ever before.

Annual Income of Fire Department alone over $4,000,000.

Fire and Life Assets entirely distinct—the one not liable for the other.

The Company organized A. D. 1809. Commenced business in this country A. D. 1867.

Agencies in most of the principal cities and towns in the United States.

AT A MEETING OF THE BOARD OF DIRECTORS of the ERIE RAILWAY COMPANY, held in the City of New York June 8, 1876, the following preamble and resolution were adopted:

*Whereas*, By the Statutes of the State of New York, Railroad Corporations are required to make an annual report to the State Engineer of their operations during each year ending the 30th day of September;

*And whereas*, An act of the Legislature of said State, passed March 12, 1872 fixes the time for the election of Directors of the Erie Railway Company on the second Tuesday of July in each year, and an annual report of the operations of the Road to that date is required, for the information of stockholders at such election;

*And whereas*, For the purpose of avoiding the confusion in accounts and expense of preparing two reports in every year, the Legislature of New York has enacted as follows:

"AN ACT *to define the powers and privileges of Railroad Corporations, &c., passed June* 12, 1875.

"SECTION 1. When the time for holding the annual election for the directors of any railroad company is now fixed by any law, charter, or by law for a time within three months before the thirtieth day of September in any year, the directors of such company may by resolution, to be published at least thirty days before the time now established for such election, postpone such election to a time not more than two months after the thirtieth of September then next ensuing, and thereafter the annual election of such company shall be held in each year on the day so designated, and the term of office of the directors of such company, in office when such change is made, shall be extended to the day thus fixed for the next election of directors, and the election of their successors."

*And whereas*, The time for holding the annual election for Directors of the Erie Railway Company is now fixed by law on the second Tuesday of July in each year, and it is desired to avail of the provisions of the act above recited, and to postpone the time for holding the annual election for Directors in accordance therewith:

*Now, therefore, be it resolved*, (by this Board, under and in pursuance of the law aforesaid), That the annual election for Directors of the Erie Railway Company, which is now fixed by law to be held on the second Tuesday of July in the year 1876, be and the same is hereby postponed to the fourth Tuesday of November next ensuing the 30th day of September 1876, and that the annual election for Directors of said Company shall be held on the fourth Tuesday of November in each year thereafter.

## Equitable Trust Co.,

**$1,000,000 CAPITAL.**

THESE REAL ESTATE MORTGAGE BONDS ARE COMMENDED TO THE ATTENTION OF THE MOST

**CONSERVATIVE INVESTORS.**

*First*—They have the individual liability of the maker.

*Second*—Each bond is secured by a first mortgage of real estate of not less than double its value.

*Third*—The prompt payment of both principal and interest of every bond is guaranteed by this Company.

The Company guaranteeing these Bonds receives no deposits, owes no money, and incurs no obligations of any character except those arising from such guaranty thereby keeping its whole capital of One Million Dollars unimpaired, TO MEET AT ALL TIMES the prompt payment of both principal and interest of these Bonds.

All mortgages securing the Bonds are formally approved by the following Executive Board:

ROBERT L. KENNEDY, ADRIAN ISELIN,
SAMUEL WILLETS, JAMES A. ROOSEVELT,
WM. REMSEN, EUGENE KELLY,
CHAS. BUTLER, JOHN D. MAXWELL,
HENRY P. HAVEN, GUSTAV H. KISSELL.

A Pamphlet with full information will be sent on application to the Company's Office,

**43 Milk Street, Boston.**

These Bonds are commended to the attention of the MOST CONSERVATIVE INVESTORS, as they are believed to be as perfect a security as can be obtained. The issue of Bonds is limited to one-half the amount of the same class of Bonds ever issued under a like Guarantee.

The security of each Bond is not confined a to single Mortgage, but extends over all the Mortgages owned by the Company. This Company receives no deposits, guarantees no other securities, and has no other debts than its bonds. Its Mortgages are of like character to those which have been bought in the last twenty years by Individuals, Life Insurance Companies and other Corporations, to the amount of more than Fifty Millions of Dollars, proving a most secure and satisfactor investment. The Loans are all upon improved Farms in some of the most fertile Western states, near the Railroads, with short and perfect titles, and average less than $650 each, upon property worth nearly four times their amount. Experience has proved that well-selected Mortgages upon this class of property are safer than those upon city property, either in the East or West. They are not affected by Fires, or by Business revulsions; Principal and Interest are more promptly paid; and upon the success of Agriculture depends that of almost every industrial investment.

## MONETARY PRINCIPLES AND MATERIAL PROGRESS.

We have several times of late directed attention to the importance of taking note of certain monetary movements which are common to all commercial countries, and which need, therefore, to be known, if we would be successful in forecasting the changes of our own money market. Every intelligent merchant and banker knows that commerce and finance are cosmopolitan, and that by their beneficent influence, steadily operating through many centuries, civilization has been extended, laws and customs have been ameliorated, and the nations of the Old and New Worlds are being united into one great industrial republic, in which each member will find its permanent best interest in pursuing an enlightened and honest policy towards its own creditors and towards other nations. Financial history and experience have repeatedly demonstrated the fact, and made it familiar to us, that it is impossible to understand the movements of our money market without having constant regard to, and drawing some of our most important data from, the money markets abroad. It would, indeed, be an easy and suggestive labor, if we had leisure for it, to pursue this principle further and to show that in nearly all the other departments of industrial and economic progress the same beneficent law prevails, and that a nation does not live for itself alone, but for and by other nations also. A man must have read modern history to little profit who has not learned from it that there is in the order of Providence a consolidating force at work which is paramount to all the opposing social and political forces known in the present age, and that by its beneficent operation the most distant nations are being unified and drawn together more and more closely. How important is the part which commerce and finance are playing in the great transformation which is thus going on before our eyes, it may be an interesting and instructive task for some future follower of Adam Smith to tell us. One might have expected that this important question would have been discussed at the recent meeting held by the club of political economy, in London, to celebrate the hundredth anniversary of the publication of Adam Smith's great work, "The Wealth of Nations." That book was the first treatise in which the principle to which we have referred was systematically taught and scientifically demonstrated. Previous writers had dreamed of it, just as Pythagoras and others had imagined the principles of the solar system before Newton demonstrated them. So economists had conjectured that there was or might be a beneficent general principle capable of unifying the nations by means of financial and commercial bonds; but Adam Smith was the first to place under the grand structure of conjecture and imagination a solid basis of vitalizing proof and logical demonstration, which has now stood for a century, and is as strong and as firm in our time as it appeared to be three generations ago, by the leaders of which it was received with general acclamation and almost with universal approval.

This is not the time nor the place for any elaborate account of Adam Smith's doctrines, which are by no means so much studied among us as they were a quarter of a century ago. Such at least is the inference suggested by the crude discussions which we are too accustomed to hear, in and out of Congress, on monetary and financial questions. There are many passages in Smith, which, if we were to publish them as he originally wrote them, would seem as if they were penned but yesterday, so

true it is that the work he set himself to do of refuting economic error is still unfinished, and that, as the London *Economist*, in a recent thoughtful article, reminds its readers: "We must not be deluded into thinking that the characteristic work of Adam Smith is over, because the laws which he disapproved are repealed. Perhaps there never was a time in which we more needed to combine a stern and homely sagacity resembling his, with the far-reaching aims and ample knowledge for which he was so remarkable." We scarcely know a better book for the present time than might be made by republishing the first three books of the wealth of nations, with a copious, well-written introduction and notes, to adapt the work to the present financial aspects and needs of this country. We commend this suggestion to the gentlemen who are preparing to celebrate in New York the centenary of "The Wealth of Nations."

The chief object of Adam Smith, as is well known, was to overthrow the mercantile system of political economy, which taught that gold and silver were the true wealth of a country, and that all commercial legislation ought to be so adjusted that the balance of trade should bring a continual stream of the precious metals into the country, and that none should leave it. Smith not only refuted this mischievous theory, but he also overturned the less harmful one of Quesnay, which held that labor applied to the land was the only sort of labor that enlarged the wealth of a nation, but that all labor spent in manufacturing or selling goods was unproductive. Hence Quesnay supposed that all taxes ought to be imposed directly on land; for the simple reason that all wealth came out of the ground; and that the merchant and manufacturer were unproductive and sterile laborers, who contributed nothing new to the national wealth, and should consequently pay no taxes. In opposition to these now antiquated theories, Smith showed that the wealth of any country can be augmented in one way, and in that way only. Such a country must use its labor and its accumulated capital for the increase of commodities which men desire and are willing to buy at a price remunerative to the producer. Smith's whole book is in reality little more than an argument to establish this principle and to use it to overthrow the mischievous systems by which legislation in his day, and for centuries before, had been misdirected and abused by false knowledge. We hope that in our New York meeting which is to be held to celebrate the Smith centennial, this great principle which underlies all Smith's teaching will be set in a true light, and something of its full importance more fully shown. In this principle we shall be able to find a solution for not a few of the difficulties most hotly contested between capital and labor.

Another point which might be profitably explained is the precise amount of credit which ought to be ascribed to Adam Smith for the extraordinary material development of Europe and America during the past century. Many English writers think that Great Britain owes the amazing increase of its trade to the liberal legislation of the British Parliament, in Sir Robert Peel's time and since. On the other hand, the chief foreign authorities, while according a higher or lower place to this and other causes, ascribe a large share of the growth to the invention and use of labor-saving machinery, by which, during the last one hundred and fifty years, the labor and capital whose productive powers Smith insisted on have been multiplied a hundred fold. How far each of these theories is true, and what further principles must be brought in to complete the circle, are questions which may very properly occupy the attention of a body of American merchants, bankers and economists, assembled in the commercial metropolis of the United States to do honor to the memory of a man who has for a century occupied the foremost place among the early teachers and explorers of economic and financial science, and who by his labors has not only projected an impulse of immense value to the progress of the world, but has given valuable aid to those persons who are required by the emergencies of life and the demands of business to investigate and to act upon their forecast of the future monetary and commercial movements of the markets.

## THE GENEVA AWARD AND MR. LORD'S SPEECH.

This much-discussed question has been brought up again in the House of Representatives during the past two weeks. It will be remembered that the majority report of the committee is the report which proposes to carry out the policy discovered or invented by Mr. Benjamin Butler. The Chairman, Mr. Lord, of Utica, law partner of Mr. Conkling, our United States Senator, on Wednesday of last week, made a very elaborate speech in support of the bill. Mr. Lord is, we understand, an able lawyer, and would have done himself great credit had he been on the other side of the question. But when he consents to follow in the footsteps of the Massachusetts Statesman, his position is a false one, and like his leader, he at once becomes celebrated, more for ingenuity of argument than for statesmanship. In fact, if this were a question simply between a few claimants, it would be of very little importance. It is in its international aspects alone that we have any regard for it. We claim, and those agreeing with us claim, that the Government of the United States has been made trustee by Great Britain and certain of our citizens to receive and disburse certain funds. We are pleading simply for the preservation of the integrity and honor of that trustee.

We regret, therefore, to see in the early part of Mr. Lord's speech the sentence "shall we yield to the argu-"ments of newspapers, perhaps advertisements paid for "by the very men who demand the" action proposed by the minority report? In making such a statement the Oneida County member takes a very low position for himself, and puts an extremely modest estimate on the intelligence of his hearers. For we always understood that in anything above a Justices Court, it is esteemed more creditable to answer the arguments of one's opponent than to spit at him personally. The editorial columns of a respectable newspaper can not be bought. Try it, Mr. Lord; experience is worth something. Besides, as we said, the question here at issue rises far above personal interests, and we are sorry that the Chairman of the committee does not appreciate its gravity. As we understand it, this money does not belong to our Government in any sense; after paying certain specified claimants; if anything is left, it belongs to Great Britain. No fifteen millions of dollars could pay the United States for the harm done during the war. We did not accept it as a salve for that wound. The Court passed upon and pronounced invalid every such demand. And we rejoice that it did, for it was not a fit subject for money estimates. All indirect claims of every description were first generally and, after that, specifically ruled out; and then evidence was taken of the direct losses incurred by individuals, and they were allowed

principal and interest, and a gross sum paid over to the United States for the purpose of discharging them. All this we have shown in former editorials. But let us now look at Mr. Lord's opposing argument a moment.

As he is a lawyer, of course he sees that it is first of all necessary for him (and he therefore so states it) to establish the proposition that "the Award * * * "was in favor of the United States as a nation * * "absolutely free from any trust or legal claim to be "distributed by the United States according to its "sense of justice." That is the proposition the Chairman of the committee attempts to establish, admitting that it must "be sustained" by him, and therefore if he fails to do it that his whole argument fails. And here we wish we had the room to print every word Mr. Lord says on this point, for we are surprised at the utter want of force in the argument,—the evident laboring with a weak cause which is displayed. First he cites Article 1 of the Treaty, in which it is agreed (the italics are his own) "*that all the said claims, growing out of acts committed by "the aforesaid vessels and generally known as the Alabama "Claims, shall be referred to a tribunal of arbitration.*" This sentence is quoted for the purpose of proving that all kinds of claims were submitted to the tribunal. "Alabama Claims," he says, was used "generically and typically" as meaning "all claims." Does not this statement show great ignorance of the subject under discussion? Of course the expression "Alabama Claims" is in one sense generic, and the the counsel for the United States insisted upon the construction now claimed by Mr. Lord; but the Court of Arbitration, to which our Government committed the whole subject, gave, after a most exhausting discussion, a clear and absolute and irrevocable definition of its meaning, and it is now as well defined as any word in the dictionary. It was expressly held by the Court that "Alabama Claims" did not mean "Government damages;" it did not mean "damages for the people;" it did not mean "war premiums;" in a word, it did not mean any claims or losses except those enumerated and specifically mentioned and proved growing out of the "Alabama," the "Florida," the "Georgia" and the "Shenandoah." The whole subject was argued at very great length, and deliberately passed upon by the Court, and the view of Great Britain adopted. After such an arbitration and such a decision, we do not see the force of bringing forward quotations to show what our Government view was at the time of making the treaty, or before or after it was made. We submitted the question to the Court, and the Court settled it finally and forever. But Mr. Lord goes on to say:

> This international treaty recognized no individual right, but, as before suggested, repudiated the long-established heresy by which the citizens of one nation, through commissions, could prove claims directly against another nation, thus involving practices often discreditable and tending to bring the nation the claimants represented into disrepute. Both the dignity and interest of the nation, as well as its superior power to do justice, uphold the principles underlying the treaty of Washington.

Here again Mr. Lord is at fault, as the decision of the arbitrators clearly shows. They expressly disallowed all Government claims, and recognized nothing but individual claims. As we have stated above, the United States insisted upon every kind of indirect damages, urging that the words of the treaty covered them. In fact, our agents made a catalogue of our claims in these words:

> "(*a*) The claims for private losses growing out of the destruction of vessels and their cargoes by the insurgent cruisers.
>
> "(*b*) The national expenditures in pursuit of those cruisers.
>
> "(*c*) The loss in the transfer of the American commercial marine to the British flag.
>
> "(*d*) The enhanced payments of insurance by private persons.
>
> "(*e*) The prolongation of the war, and the addition of a large sum to the cost of the war, and of the suppression of the Rebellion."

The damages falling under every one of the classes above enumerated except the first"—private losses"—were, we repeat, disallowed by the Court. But to make the thing perfectly clear we would refer the reader to vol. 4, page 21, of the proceedings at the Geneva Council, where he will find the following in a communication to the tribunal by Mr. Davis:

> "The declaration made by the tribunal individually and "collectively, respecting the claims presented by the United "States for the award of the tribunal, for, first, the losses in the "transfer of the American commercial marine to the British "flag; second, the enhanced payments of insurance; and third, "the prolongation of the war, and the addition of a large sum to "the cost of the war and the suppression of the rebellion; is "accepted by the President of the United States as determinative "of their judgment upon the important questions of public law "involved. The agent of the United States is authorized to say, "that consequently the above-mentioned claims *will not be further "insisted upon before the tribunal by the United States, and may "be excluded from all consideration in any award that may be "made.*"

Thereupon Count Sclopis, in behalf of the arbitrators, declared (page 22):

> "That the said several claims for indirect losses, mentioned in "the statement by the agent of the United States, on the 25th "inst., and referred to in the statement just made by the agent of "Her Britannic Majesty, *are and from henceforth wholly excluded "from the consideration of the tribunal*, and directed the Secretary "to embody the declaration in the protocol of this day's proceed-"ings."

After the above, the United States continued the proceedings by the presentation simply of what Mr. Evarts, one of the counsel of our Government, called "a bundle of private claims," and yet now we are told that this treaty "recognized no individual right!" How far from the truth that is! It would be just to say that it and the Court it organized recognized the Government, *only* so far as it represented "individuals;" in the same manner in which any Court recognizes the attorney and not his client, the trustee and not the cestui que trust. The Government had no standing before the arbitrators except as it held in its possession those proofs of loss which were prepared by private claimants at their individual expense, and by them in their simplicity entrusted to the Government. Finally, the point in the proceedings was reached where the tribunal desired a tabular statement from each government, by which comparison could be made of the conflicting views of the two governments. And thereupon Mr. Davis, on behalf of the United States, made up a full detailed account (it will be found in vol 3 of the proceedings, p. 579, &c.,) stating "that "these computations show the entire extent of all pri-"vate losses which the results of the adjudication of this "tribunal ought *to enable the United States to make com-"pensation for*," giving the name of each vessel, cargo, owner and insurer, making thus a complete list of the claimants. Those were the claims for which the award was given; and it was given "to *enable the United "States to make compensation*" (as Mr. Davis, the United States agent, expresses it,) in the cases therein named.

But we forbear following Mr. Lord further. We cannot put so low an estimate upon the average intelligence of the members of the House as to believe that his argument has served to help the cause of Mr. Benjamin Butler's clients.

## COTTON ACREAGE OF AGRICULTURAL BUREAU AND COTTON EXCHANGES.

Any one who has not examined the acreage reports of the Agricultural Bureau and Cotton Exchanges, in detail, will be surprised, perhaps, to see how near alike their total results as to acreage are. They differ materially with regard to certain States, and yet the average total decrease for all the States is about the same: that is, about three (3) per cent. in both cases. For the convenience of our readers, and for the purpose of making comparison between the two authorities, we have prepared the following analysis of the reports of the Cotton Exchanges:

| COTTON EXCHANGES. | No. of counties District covers. | Acreage In each Dist. | Acreage In each State. | Stand. | Condition. |
|---|---|---|---|---|---|
| *Virginia*—(N'rfolk) | State | 96 | 96 | Good | 1 week earlier; condition good. |
| *N. Carolina*—(N'flk) | 41 | 96 | 96 | Good | 1 week earlier; condition good. |
| (Wilmington)... | 43 | No report | | | |
| *S. Carolina*—(Chstn) | State | 96 | 96 | Good | 5 to 10 days late; condition good. |
| *Georgia*—(Sav'nah). | 100 | 90 | 92 | Very good | Very fine. |
| (Augusta)..... | 28 | 94·2 | | | |
| *Florida*—(Sav'nah). | State | 87 | 87 | Good | 2 weeks late; condition good. |
| *Alabama*—(Mobile). | 45 | 100 | 99 | Good | Fair to good. |
| (Nashville)..... | 11 | 97 | | | |
| *Mississippi*—(N. O.) | 33 | 98·5 | 101 | Fair to Very good | 9 to 18 days late. In New Orleans district, grassy and poor, but rest good to very good. |
| (Mobile)..... | 20 | 104·2 | | | |
| (Memphis)..... | 8 | 99·2 | | | |
| *Louisiana*—(N. O.).. | State | 90 | 90 | Fair | 3 weeks late; small and grassy. |
| *Texas*—(Galveston). | State | 100 | 100 | Good | 8 days late; good condition. |
| *Arkansas*—(N O.).. | 27 | 92 | 95 | Very good | 10 days late; good condition. |
| (Memphis)..... | 35 | 97·3 | | | |
| *Tennessee*—(M'phis) | 18 | 103 | | Good | 7 days late; condition very good. |
| (Nashville)..... | 18 | 97 | 100 | | |

In the above table, the column immediately succeeding the names gives the number of counties in each Cotton Exchange district, wherever a State is divided between two Exchanges; the next column is the acreage as reported by each Exchange; the third column is a conclusion as to acreage, drawn from the previous two columns; and the remainining columns give the stand and condition of the plant as appears by these reports, as near as we can indicate it in so limited a space. The main object we had in preparing this table was to set before our readers the procise acreage in each State, as made up from the various district reports, and we think the above correctly indicates it.

Now, for the purpose of making the comparison proposed, we bring down the above results of the Cotton Exchange acreage in each State, and give them in connection with the Agricultural Bureau's figures for this June, just issued, working out in each case the actual acreage in 1876 from the CHRONICLE'S figures of acreage in 1875. The statement in full is as follows:

| | 1876. Acreage. | | 1876. | | 1875. |
|---|---|---|---|---|---|
| States. | Bureau. | Cotton Exch. | Bureau. | Exchanges. | Acres. |
| North Carolina..... | 98 | 96 | 469,165 | 450,774 | 469,556 |
| South Carolina..... | 99 | 96 | 557,535 | 540,640 | 563,166 |

| Louisiana .. ..... | 89 | 90 | 839,534 | 848,967 | 943,296 |
| Texas ..... | 100 | 100 | 1,209,063 | 1,209,063 | 1,209,063 |
| Arkansas..... | 100 | 95 | 826,146 | 784,839 | 826,146 |
| Tennessee..... | 95 | 100 | 520,266 | 547,643 | 547,648 |
| All others ..... | .. | .. | 97,164 | 97,164 | 97,164 |

| Or a decrease from last year of about | | | 3 per cent. | 3 per cent. | ..... |

We thus reach the result, which we have already stated, that there is no particular difference in the total acreage as indicated by these two authorities; both show about 3 per cent. decrease. As to condition, the following are the figures of the Bureau for this June and the previous four years:

| | June | | | | |
|---|---|---|---|---|---|
| | 1876. | 1875. | 1874. | 1873. | 1872. |
| Texas..... | 90 | 96 | 90 | 86 | 100 |
| Louisiana..... | 83 | 05 | 70 | 94 | 104 |
| Mississippi..... | 92 | 100 | 78 | 92 | 100 |
| Alabama..... | 94 | 101 | 82 | 93 | 105 |
| Florida..... | 82 | 94 | 90 | 103 | 95 |
| Georgia..... | 103 | 91 | 80 | 94 | 96 |
| South Carolina..... | 93 | 97 | 81 | 88 | 92 |
| North Carolina..... | 101 | 91 | 89 | 85 | 96 |
| Tennessee..... | 93 | 99 | 85 | 90 | 101 |
| Arkansas..... | 95 | 90 | 90 | 92 | 98 |

The Agricultural Bureau gives the following in explanation of, or in addition to, its figures:

The June returns of the Department indicate a slight reduction of the ar in cotton; comparatively late planting, good stands except in cases of t early planting or inundation, growth not up to the average for the seaso healthy and improving condition, and clean culture, with the exceptio caused by heavy rains that stimulate growth and prevent working. T largest local reduction in area has been in Louisiana, caused by the overflo and wet weather in the planting season. The next largest is Tennesee, whe the season has been cold and wet. In certain districts in Texas there has be an effort to substitute corn for cotton, but in one fourth of the counties the has been a positive increase, and in nearly half the remainder no decrea while the enlargement of the total area of arable crops is rapidly increasin

[From our own correspondent.]

LONDON, Saturday, June 3, 1876.

The demand for money has continued very moderate, but owing to the uncertainty which has prevailed with regard to the state o politics in the East, the market has presented a somewhat firme appearance, although there has been no material alteration in the rates of discount. In the open market the quotation for the bes short-dated and three months' bills is 1⅛@1⅛ per cent, while the Bank rate remains at 2 per cent. The position of the Bank o England continues to be a strong one. The supply of gol amounts to as much as £27,600,672, against £22,484,393 last yea while the reserve of notes and coin is £14,816,202, against £10, 076,498. The total of "other securities" is only £17,077,554 against £21,976,809, but the circulation of notes is large, viz. £28,049,586, against £27,755,871 in 1875. The large circulatio of notes is due to the fact that owing to the want of confidence which prevails, cash payments are more numerous, but the position of the Bank is, nevertheless, a strong one, being 51·39 per cent. The quotations for money are now as follows:

| | Per cent. | Open-market rates: | Per cent. |

The stock markets have been in an agitated state during the week, but since the deposition of the Sultan of Turkey, and the accession of his nephew to the throne, a better feeling has prevailed, and hopes are entertained that the existing complications will be solved in a pacific manner. The investing public are operating to a very limited extent, and there is not much speculation in progress outside the Stock Exchange. The summer months promise to be exceedingly quiet, as the extremest caution prevails in every department of business. The closing prices of consols and the principal American securities at to-day's market, compared with those of last week, are subjoined:

The trade of the country continues remarkably quiet, and efforts are being made in many quarters to diminish the hours of labor in order to restrict production. This is regarded as one of the principal means for improving the present condition of affairs, as the effect should be two-fold: first, to enhance the price of the manufactured article by diminishing the supply; and second, to reduce the value of the raw material by lessening the demand for it. Next week being Whitweek, and a holiday throughout the country, especially in the manufacturing districts, production will be upon a very limited scale, and efforts are still being made to induce mill-owners to work short time. No doubt, the existing state of depression is largely caused by the economies which diminished, if not want of, prosperity has enforced upon a very large section of the community. It is evident that there is a large class, and perhaps a class not well able to bear a heavy loss, which has suffered heavily in connection with foreign loans and public companies. That class has been undoubtedly imprudent or injudicious in its investments, as it sought for a high rate of interest, or for large returns, without maturely considering that by adopting such a course, it, according to a very old and well-known maxim, risked its capital. The economies enforced upon this class must necessarily exert a powerful influence in checking the demand even for certain necessaries. Articles of clothing are made to last a longer period, and in every possible direction economies are carried into effect. The demand for articles of luxury has, for a long period, been in a state of abeyance; but, no doubt, a time will arrive when profits will become larger and when a strong inquiry will prevail for articles of necessity. When that time shall arrive, it is more than probable that the requirements of the community will be very great, as a large void will have to be filled up.

The wheat trade during the past week has presented a firm appearance, and the holders of grain have demanded higher prices. Millers have been very reluctant to pay higher terms, and hence the amount of business transacted has been very moderate. In several instances, however, an advance of 1s. per quarter has been established in the quotations. The weather during the week has been more favorable, but vegetation is still in a backward state.

The following figures show the imports and exports of cereal produce into and from the United Kingdom since harvest, viz., from September 1 to the close of last week, compared with the corresponding periods in the previous three years:

During the week ending May 27, the deliveries of home-grown wheat in the 150 principal markets of England and Wales, amounted to 40,672 quarters, against 48,711 quarters last year. In the whole Kingdom it is estimated that they have been 162,700 quarters, against 195,000 quarters in 1875. Since the commencement of September, the deliveries in the 150 principal markets have amounted to 1,744,802 quarters, against 2,332,908 quarters, while in the whole Kingdom it is computed that they have been 6,970,200 quarters, against 9,331,700 quarters in the corresponding period of 1874-5. The diminution this season now amounts, therefore, to 2,352,500 quarters. It is estimated that the following quantities of wheat and flour have been placed upon the British markets since the close of August:

| | 1875-6. cwt. | 1874-5. cwt. | 1873-4. cwt. | 1872-3. cwt. |
|---|---|---|---|---|

It is stated that there are general complaints as to the dulness of trade in the Halifax (Yorkshire) district. Most of the great manufactories have adopted short time in some departments, and weavers are occasionally kept standing—every effort short of general short time being made to limit production. The Chamber of Commerce held its monthly meeting on Thursday, when loud complaints were made as to the unsatisfactory state of trade. A reduction of wages was suggested, some hinting that the example set at Bradford should be followed. A committee was appointed to wait upon the manufacturers generally to see if some united action could be taken.

Notice has been issued that the Mersey Forge, one of the largest ironworks in Liverpool, will be closed from the 3d instant until further notice. This will throw about fifteen hundred men out of employment.

In reference to the state of the Lancashire coal trade, it is mentioned that it continues very flat, and supplies in the market are abundant. Owing to the quietness in most of the coal-consuming branches of industry in this district, there is none of the usual demand for extra supplies prior to the holidays, when the pits are closed, which will be the case in this district for about a week following Whit-Tuesday; and stocks continue to increase, though not to any large extent, as in most cases the get is restricted to the amount of sales. The demand for house coal is sensibly

falling off; fuel for iron-making purposes is only in very limited request; burgy and engine fuel are in rather less demand, but in slack there is a good demand for qualities suitable for brick making. So far as list rates are concerned no general alteration is being made at the close of this month, but prices are weaker, the competition in the market forcing them gradually downwards. The top quotation for best Arley coal in the Wigan district is 12s. per ton at the pit, but inferior sorts are offering at from 9s. 6d. to 10s. 6d. per ton. Pemberton 4ft. is quoted at from 9s. 6d. to 10s. 6d.; common coal, 7s. to 7s. 6d.; burgy, 6s.; and slack, 4s. to 5s. per ton, according to quality. For the contracts to supply gas companies which are now in the market, there is a very keen competition, and the prices quoted are in many cases much below what have been lately current in the market. The shipping trade shows no improvement. There is very little demand for steam fuel for steamers' use, and the few cargoes of coal which are sent out are as a rule at very low prices. For coke there is still but very little inquiry.

**The Railroad Competition.**—The war between the trunk lines of railroad has been carried to such an extreme point, in the reduction of fares and freights, that there is a better prospect of its early termination. It is far better that the war should be short, sharp and decisive, and that rates should be reduced in its early stages to a ridiculously low point. The present disagreement was started by the Messrs. Vanderbilt, because the old arrangement under which the several trunk lines were operating was deemed unsatisfactory for New York Central interests. So far as financial strength is concerned, undoubtedly the New York Central could wage a long and bitter contest against those of the trunk lines which have large obligations to meet, and intend to meet them. Erie, however, is operated by a receiver and hangs only between foreclosure and reorganization without sale. In every reduction by New York Central, Erie is able to go further, and has recently followed closely in putting down Western freight rates *from 75 cents per 100 pounds to 25 cents per 100 pounds.* Mr. Vanderbilt in fighting such a concern as this is like a stalwart soldier charging bayonet into a wool sack.

Where is the next weakest spot in the several through lines? Undoubtedly, the Grand Trunk of Canada. And if the New York Central succeed in forcing this company into insolvency, they will then be sandwiched between two bankrupt trunk line companies, one on the north and the other on the south of them, that need not care a fig for rates of any kind, so long as they make enough money to pay receivers' fees and the bare expenses to keep their trains running. It is commonly reported that the Erie is used by agreement with the Pennsylvania and the Baltimore and Ohio to force conclusions with the New York Central.

On Western freight the railroads reduced their rates on the 12th, so that first, second and third classes of freight are now carried to Cleveland, Chicago, Springfield, Ill., Dayton, Cincinnati, Columbus, Indianapolis, Fort Wayne and other corresponding points, for 25 cents per hundredweight. The winter rates on first-class freights to Chicago were 75 cents. Fourth and fifth class rates to the points mentioned have been reduced to 16 cents.

On passenger fares the following were current prices June 15:

| | | | |
|---|---|---|---|
| To Cleveland | $9 | To St. Louis | $18 |
| Detroit | 11 | Chicago | 13 |

**New Jersey Midland.**—The Chancellor of New Jersey has admitted the second and third mortgage bondholders as parties in the foreclosure suit. This action is claimed as a substantial recognition of the Balestier-Doyle Committee and its plan of reorganization.

**FRIDAY, JUNE 16, 1876—6 P. M.**

**The Money Market and Financial Situation.**—Extremely easy money, active government bonds, a stronger stock market, and steady gold and exchange, have been the principal characteristics of the past week.

The railroad "war" has gone to a further extreme in the reduction of freight rates from New York to Chicago to 25 cents and 16 cents respectively on the different classes, and from these absurdly low figures, as well as those on passenger fares, there is the more hope that the differences between the trunk lines will presently be adjusted, and a reasonable scale of prices adopted. From a definite statement made by Mr. Jewett, Receiver of the Erie Railway, to a *Times* reporter, it appears that the present "cutting" on through business was inaugurated and has been carried on by the New York Central, which has been the first in each case to make further reductions. As the public had been led to suppose that the Erie had, in several instances, made the first move towards lower figures, it is hardly surprising that Mr. Jewett should be unwilling to have this unjustly attributed to him, and should therefore make a statement correcting the erroneous impression which had gained ground.

The rates for money continue to grow easier, and with the larger accumulation of loanable funds at this point the rates for call loans are down to 1½ per cent for large blocks of money on government collaterals, and from 2 to 3 per cent for ordinary loans on governments or stock collaterals. Prime paper is in demand at 4 to 5 per cent for that ranking as first-class.

The Bank of England report on Thursday showed a gain of £847,000 in specie for the week, and the discount rate remains at 2 per cent. The Bank of France gained 9,865,000 francs in the week.

The last statement of the New York City Clearing-House banks, issued June 10, showed a decrease of $374,675 in the excess above their 25 per cent legal reserve, the whole of such excess being $16,081,475, against $16,456,150 the previous week.

The following table shows the changes from the previous week and a comparison with 1875 and 1874:

**United States Bonds.**—Governments have still been strong and active. There have been some large amounts of bonds picked up in a quiet way, mostly for the banks and Trust Companies, which have a great surplus of funds on hand without any means of profitable employment. There have also been a number of inquiries for bonds from savings banks in Massachusetts, as we understand that these institutions are now permitted by law to pay 5 per cent. on their deposits, instead of 6, and are, therefore, better able to invest in government securities.

**State and Railroad Bonds.**—Among State bonds Tennessees are stronger than last week, and it is suggested that there is a demand from some of the railroad companies. Louisiana consols are also firmer on considerable purchases in this market. The $200,000 of Missouri State bonds, for which proposals were recently received at the State capital, brought a little over 4½ premium; and $500,000 Georgia 7s, sold by the State Treasurer at Atlanta, brought over par.

Railroad bonds have been in moderate demand, and prices show a tendency to improve. The Northwest and St. Paul and some of the Pacific Railroad issues are all stronger, and there is an inclination to show more favor towards railroad securities, except of those companies engaged in the present competition, or of such others, as the coal-carrying roads, which are depressed by exceptional influences. The Toledo Wabash & Western Road was sold this week in foreclosure, and will probably be reorganized by a new company. This is one of the few instances of an old railroad being sold out whose stock and bonds had been for any length of time prominent at the Stock Exchange. Among all the railroad defaults which have occurred, a large proportion has been among new companies whose stocks had never attained any considerable market value.

**Railroad and Miscellaneous Stocks.**—Stocks have been somewhat variable through the week, generally showing the strongest tone towards the close. The influences which acted favorably on the market were the satisfactory reports of railroad earnings in May and for the first five months of the year, the good outlook for the Northwest and St. Paul stocks under the large grain movement, and the declaration of a dividend by Western Union Telegraph. On the other side, the principal causes for depression have been the continued war among the trunk railroad lines, and the doubt as to a speedy revival of prosperity among the coal roads. There is no present intimation of an agreement among the officers of the trunk lines, but the extremely low figures to which through freights and passenger fares have fallen would indicate that the lowest point has probably been reached, or at all events that an arrangement is more likely to be reached soon, than if the reduction was moderate.

One of the strongest and most active stocks this week has been Lake Shore, and its friends appear confident that an August dividend will be declared. St. Paul and Northwest, both common and preferred, have shown a good deal of strength, on the reports that earnings showed an increase. The Rock Island annual report lately presented showed an increase in net earnings of about $150,000 over 1874–5. Nothing further has been heard of the Pacific Railroad bills in Congress. It appears that the Western Union Telegraph Company, after purchasing a majority of the stock of the Southern & Atlantic Company, proposes to lease it at 5 per cent. per annum on the stock of $1,000,000. The Atlantic & Pacific Telegraph Company has leased for 99 years the lines of the Franklin heretofore controlled by it. New York Central declined early in the week to 105, but recovered to 108 at the close; the loss of earnings by the competition with Erie and other lines was the alleged cause of decline, as Commodore Vanderbilt's health is reported as improving. The general list was strong to-day, and the leading stocks up to the highest point of the week, with a fractional decline at the close.

**The Gold Market.**—Gold remains quiet on very small fluctuations. The slight influence exerted by the unsettling dispatches from abroad has passed away, and there is nothing else of importance in the market. Exports of coin continue to a limited amount, but not sufficiently to affect the price of gold. There has been a difference in the past ten days in the loaning rates of gold, which seems to indicate some short interest in the market. To-day, cash gold loaned flat and at 1 per cent for borrowing and 2 per cent for carrying. The gold disbursements for interest on the first of July are large, and the Government alone pays about $25,000,000, of which a considerable part goes abroad. Customs receipts of the week were $1,662,000.

The following table will show the course of gold, and operations of the Gold Exchange Bank, each day of the past week:

**Exchange.**—Exchange has been quiet and steady. There is but little demand from merchants for bills to make remittances and the bankers are slow buyers of commercial bills, of which there is a fair supply, arising from shipments of grain, provisions and cotton. There is no influence to be noticed in connection with bond transactions, and on the other side the markets are more quiet, as the apprehension of war appears to have subsided. On actual business, to-day, the rates were 4.87¼ for bankers' 60 days' sterling and 4.89¼ for demand.

## ANNUAL REPORTS.

### Piltsburg Fort Wayne & Chicago.

(*For the year ending December* 31, 1875.)

From the directors' annual report we have the following:

| | 1875. | 1874. |
|---|---|---|
| Earnings from freight | $5,430,510 | $5,841,960 |
| Passengers | 2,024,432 | 2,310,986 |
| Mails and express | 290,151 | 290,151 |
| Rents and miscellaneous | 118,564 | 126,374 |
| Total earnings | $7,863,664 | $8,599,472 |
| Expenses and taxes | 4,662,091 | 5,055,330 |
| Net earnings | $3,201,572 | $3,544,142 |

Your board of directors have not yet audited and approved the account of $233,948 26 for money expended for improvements and equipments under the sixteenth section of the lease, and, therefore, do not know as yet what proportion, if any, of the same would eventually be charged to running expenses; but the probability is that the greater portion will be found to be correct, and that guaranteed special stock will be issued therefor. The entire expense of maintaining the road, including taxes on real estate, repairs of machinery, and operating the road, according to the report made by the lessee to the Secretary of Internal Affairs of Pennsylvania, has been $4,586,097 93.

The result of the year's business to the lessee may be stated thus:

| | | |
|---|---|---|
| Earnings of main line | | $7,863,664 |
| Net gain in operating the New Castle and Beaver Valley and Lawrence railroads | | 91,706 |
| Total | | $7,955,370 |
| From which deduct: | | |
| Operating expenses and all taxes | $4,602,091 | |
| Amount paid Cleveland and Pittsburgh and Bellair divisions of joint earnings | 69,446 | |
| Miscellaneous | 19,000 | |

Out of the above stated profits of operating the road, the lessee, by the terms of the lease, has to make payments amounting to $2,745,800, leaving a profit to the lessee, after paying every charge, of $519,032 66. Of these profits, the lessee reports having expended for equipment and construction the sum of $233,948 26, for which, approved by your board, there will be issued a like sum in guaranteed special stock in payment. The profits of the lessee will then consist of guaranteed special stock, $233,948 26; cash, $285,084 40; total, $519,032 66.

The trustees have rendered a statement of money received and disbursed on account of the sinking fund during the year 1875, which you will find appended to this report. They report as having purchased and now in the sinking fund of the

This amount is equal to one-sixth of the debt to be paid by the operation of the sinking fund.

The share capital account of the company stands as at the close of the year 1875, as stated in the annual report of the previous year, there having been no guaranteed special stock delivered to the lessee during the year 1875. Quite recently there has been a settlement of the unadjusted accounts of the lessee, which have been running some years, and guaranteed special stock has been issued to the amount of $978,000, making the whole issue as of the date of this report $5,078,000, and the entire share capital $24,793,285.

### Baltimore & Potomac Railroad.

(*For the year ending December* 31, 1875.)

The annual meeting of the stockholders of the Baltimore & Potomac Railroad Company was held recently in Baltimore. Hon. Oden Bowie, President, submitted a report of the President and directors of the operations of the road in 1875. The gross earnings from all sources for the year were $678,091, of which the Washington line and tunnel were $638,992, Pope's Creek line, $39,099—showing an increase in 1875 over 1874 of $64,170 on the Washington line and tunnel, and a decrease on Pope's Creek line of $1,493. The increase on both lines of passenger and freight receipts is about $16,000 over the above figures, but there was a decrease of that amount from mail and miscellaneous matter.

The total expenses were $550,012, of which the expenses on the Washington line were $507,205, and the Pope's Creek line $42,807; an increase on both lines of $65,104.

The general expenses of 1875 were reduced nearly 50 per cent., and the other increased expenditures occur mainly in maintenance of way, in conducting transportation and increased taxation on real estate, particularly on the passenger depot in Washington, which not being paid in 1874 made the amount in 1875 double the sum properly chargeable to that year. The increase in maintenance of way is caused by laying over five hundred tons of steel rails and nearly 17,000 new cross-ties and improvements about the Washington depot.

The total number of passengers carried in 1875 was 1,030,706; as against in 1874 783,623—an increase in 1875 of 247,083. The amount of freight carried in 1875 aggregated in tons 215,859, as against in 1874 161,314—an increase in 1875 of 54,545 tons. The transportation per passenger per mile was seven-tenths of a cent, and per ton, one mill per mile less in 1875.

Although the ratio of the operating expenses to the gross receipts is unquestionably large, the report says it must be borne in mind that the company is required to keep up a large train service, more expensive terminal arrangements, and a higher standard of efficiency generally than the present business warrants, because of a keen rivalry with one and connections with other lines.

### Keokuk & Des Moines Railway.

(*For the year ending March* 31, 1876.)

The report has the following:

The gross earnings show a decrease from the previous year of $16,042, notwithstanding an increase in the transportation of 20,013 tons, and a gain in the number of passengers carried of about 72,000.

The total cost of the betterments made during the past two years is $777,933. The funds to provide for these have been derived from the net earnings since November 10, 1873, together with the proceeds of $132,000 of the $452,000 first mortgage bonds reserved in the Treasury, and the balance is represented by bills payable secured by $231,000 of the same reserved bonds.

RECEIPTS AND EXPENDITURES.

The following statement, taken from the books of the corporation, exhibits the amount of earnings and expenses on the line of the road, and on account of connecting roads, together with the sums paid by the Concord Railroad on account of the use made of the joint property, and on account of the income of the roads above referred to, and from other sources in which this road has an interest in common with that corporation.

| Dividends unpaid | 5,313 |
| Balance to credit of income account | 90,822 |
| Total liabilities | $1,144,134 |

ASSETS.

The following statement shows the property of the corporation, as it appears on the books of the Treasurer:

| | |
|---|---|
| Main line of road from Manchester to Methuen, with side tracks, depots, etc | $1,000,000 |
| Telegraph line | 4,770 |
| Two-fifths of Hooksett Branch Railroad | 18,000 |
| Stock charged Concord, Manchester and Lawrence Railroads | 32,000 |
| Freight cars for Vermont Central line | 17,353 |
| Cash | 72,010 |
| | $1,144,134 |

In addition to these items, shown by the trial balance of the Treasurer, all of which remain substantially as stated in the last report, this corporation has an interest, in common with the Concord Railroad corporation, in the Manchester and North Weare Railroad, and in the engines, cars, shop tools and machinery, and other property, which has been acquired from the common funds of the Concord and Manchester and Lawrence Railroads, while those roads were operated together under the management of the Concord Railroad; and in the income derived from the operation of the Manchester and North Weare Railroad, and from the use of such common property; and is also entitled to two-fifths of the net income from the operation of the Concord and Portsmouth Railroad and the Suncook Valley Railroad.

Efforts have been continued during the year to have the interests of each of the two corporations in this common property definitely determined, but hitherto we have been unable to agree upon any basis of separation or division that appeared to be for the benefit of this corporation, or at all likely to subserve the interests or convenience of the public.

In the meantime the Concord Railroad have paid us from previous joint earnings twenty thousand dollars to partly adjust these claims, which has been credited to our income account.

## GENERAL INVESTMENT NEWS.

**Atlanta & Richmond Air Line.**—CHARLESTON, S. C., June 15.—In the United States Circuit Court, to-day, a decree was rendered in the Wilmer *et. al.* against the Atlanta & Richmond Air-Line Railroad and others, confirming the decrees of the Circuit Court of Georgia as to the position of the road in South Carolina, and ordering that the sale give a good title to the purchasers.

**Atlantic Mississippi & Ohio.**—At Petersburg, Va., on Monday last, General Mahone turned over the management of the Atlantic Mississippi & Ohio Railroad to the lately appointed receivers, C. L. Perkins, of New York, and Henry Fink, of Lynchburg, Va. The Petersburg *Index-Appeal* states that Gen. Mahone turned over to the receivers $70,000 in cash, with the prospective receipts for the balance of June ot $60,000 for connecting lines and $40,000 from daily receipts; so the receivers will have on hand on the 1st of July $170,000, out of which they will only have to pay the current expenses of one month, which can be anticipated out of the receipts of the first fifteen days in July.—*Balt. Sun.*

**Atlantic & Pacific.**—In the United States Circuit Court at St. Louis, June 7, a decree of foreclosure of the second mortgage and an order of sale were entered. The receivers are to sell the road at public sale, upon 60 days' notice, such portion of the road and other property as is covered by the first mortgage executed by the South Pacific Railroad Company to be sold subject to that lien. The property is to be sold together, as a whole. The purchasers, if bondholders, may pay $100,000 in cash, and such further amount as may be necessary to satisfy the claims of bondholders not joining in the purchase for their *pro rata* share; the balance may be paid in second-mortgage bonds. The amount of first-mortgage bonds outstanding is named in the decree as $7,197,500.

The decree was subsequently amended by directing the payment in cash of such further sum, not exceeding $300,000, as and when the court may require, and direct to be paid, for the purpose of satisfying any (statute, equitable, or other lien) claims that, on a hearing and accounting had between the Atlantic & Pacific Railroad and the Pacific Railroad, may be found due and owing to said Pacific Railroad.

This leaves the question as to which of the two roads should be chargeable with the claims for supplies to be finally determined at the fall term before Judge Dillon.

All claims against the road are referred to Seymour D. Thompson, as Master, for examination and report.

A meeting of second mortgage bondholders of the Atlantic & Pacific Railroad has appointed the following committee to prepare a plan of reorganization of the company, and report promptly: Joseph Seligman, A. Pierce, F. Butterfield, William H. Coffin, M. F. Buckley, James P. Robinson and Uriel Crocker.;

**Baltimore City Bonds.**—An ordinance has been passed by the Mayor and City Council, authorizing the issue of city bonds to the amount of $5,000,000 to redeem the water-stock loan of 1875; and also providing for the issue of stocks or bonds for the redemption or negotiation of other loans already created or authorized.

**Brooklyn Bonds.**—Controller Powell invites proposals for the purchase of $1,500,000 city bonds. The bonds are chiefly Brooklyn City permanent water loan, and tax certificates.

**Central Vermont.**—The St. Albans *Messenger* of June 9 says: "The Central Vermont Railroad Company, Tuesday, June 6, filed its account as Receiver of the railroads for the year ending July 1, 1875. All sums of money paid out for rents of the different roads, and all payments of interest on the funded debt are not included in the statement. The figures show a falling off of $738,667 during the six months ending July 1, 1875, as compared with the six months ending Jan. 1, 1875, and a falling off in the net earnings at the same time of $317,363.

| | |
|---|---|
| The gross earnings were | $2,772,065 |
| The expenses | 2,689,857 |
| Leaving net earnings | $1,082,198 |
| The rent during the same period was | 1,082,000 |
| Leaving | $198 |

"This is only $198 to pay the interest on the funded debt which is $320,000. As this lacks $319,801 of paying that interest, it follows that the floating debt of the management was increased that amount during the year."

**Chesapeake & Ohio Railroad.**—This company has secured an important petroleum traffic which is not only advantageous to the company, but of general interest as a trade item. Ships are now loaded at Richmond and sail direct for foreign ports. The June circular of Messrs. Meissner, Ackermann & Co., New York, has the following:

"The shipments from Richmond are gradually increasing, and we consider it our duty to inform ship-owners and brokers of the advantages to load petroleum in Richmond. We are fully convinced that vessels loading there will find an advantage of almost 6d per 40 gallons against the ports of New York, Philadelphia or Baltimore. Vessels can load at the Chesapeake and Ohio Railroad dock to a depth of 13½ feet, and will complete at City Point. We guarantee to vessels loading in Richmond the following indocements: 1. No wharfage charges. 2. Stevedoring not to exceed 4½c per round barrel. 3. Cheaper dunnage wood than in any other oil port. 4. Port charges, none, except trifling for Custom House fee. 5. Cheaper labor for discharging ballast. 6. No pilotage up the James River, as vessels anchoring at Hampton Roads or Fortress Monroe will be taken from there to Richmond, and back again by tug, at not exceeding 40c per register ton."

**Coupons Stolen.**—Mr. C. W. Hasaler, who has recently been admitted to the Bar and intends to make a specialty of the law relating to railroad securities, has just published a small pamphlet on stolen coupons. This pamphlet embodies a summary of a late decision of the N. Y. Court of Appeals, drawing a distinction between ordinary coupons and interest warrants. We extract the following:

On the thirty-first of March, 1871, the National Bank of Newport, New York, received for collection, from certain owners of the Danville Urbana Bloomington and Pekin First Mortgage Bonds, and of the Indianapolis Bloomington and Western First Mortgage Bonds, their coupons due the next day.

The Cashier of the Bank inclosed them in a package addressed to the First National Bank of this city, and gave the package to a stage driver to deliver to the agent of the American Express Company at Herkimer. The stage-driver carelessly left the package on the counter of the Express Company's office in the latter village, and it was stolen by some one as yet unknown.

The next day, the Newport Bank, having been informed of the loss, telegraphed to the agents of the Railroad Company and requested stoppage of payment.

On the third of April, Mr. Evert Evertsen, a banker at Albany, purchased the stolen coupons. He bought them in the regular course of his business, paying for them in currency, and allowing a premium of ten per cent for gold. * * * *

On the evening of the day on which he purchased the coupons, he forwarded them to his correspondents in this city, requesting them to collect and place the proceeds to his credit.

On the 4th of April the coupons were presented, and payment refused, because of the telegram received from the Newport Bank.

Mr. Evertsen thereupon sued the Indianapolis Bloomington and Western Railroad Company, and that company having paid the amount of the coupons into court, the Newport Bank was substituted in its place in the suit, and Mr. Evertsen and the Bank proceeded to litigate their claims to the amount deposited.

The Referee, to whom the matter was referred, found in favor of Mr. Evertsen, and the finding was sustained by the Court.

The Bank appealed, and the Supreme Court, General Term, sustained the former decision in favor of Mr. Evertsen.

Again, the Bank appealed, and now, within the past few weeks, the Court of Appeals has decided in favor of Mr. Evertsen as regards ten of the coupons, and in favor of the Newport Bank as regards the remaining forty-seven.

It is a familiar rule of law that, in general, a thief can transfer to another no greater title than he himself possesses—that is, none whatever. The great exception to this rule is in the case of negotiable paper; and to constitute any written instrument negotiable, it is necessary that it should contain an absolute promise, signed by a definite person, to pay to a definite person, or to his order, or to bearer, a certain sum of money, absolutely, and at all events. Such promises to pay, whether under seal or not, if payable to bearer or indorsed in blank, are different from all other classes of property, and the honest purchaser for value, before maturity, acquires title even if purchased from a thief, who himself has no title and can give none.

A coupon bond may be said to consist of two parts. First, the bond proper, containing the promise to pay the principal and interest at certain definite periods; and, second, the coupons, being detachable portions of the complete instrument, by means of which the specified payments of interest may be collected as they become due.

Decisions, almost without number, sustain the statement that coupon bonds, "when expressed in negotiable words," follow the same rules as are applicable to other instruments similarly worded. And, had Mr. Evertsen bought the fifty-seven bonds with the coupons of April 1, 1871, attached, it is scarcely possible that the Court of Appeals should have decided that he had title to only ten of them.

And, as to *detached* coupons, the Supreme Court of the United States has given a decision in which Justice Nelson says: "The coupon is not an independent instrument, like a promissory note for a sum of money, but is given for interest thereafter to become due upon the bond, which interest is parcel of the bond, and partakes of its nature." * * * * *

After further comments on the "great convenience" of these coupons, the Court decided that they were negotiable, subject to the usual rules, *independent of the bonds*, and could be sued upon without producing the bonds, and such suit was not barred by the statute of limitations unless the lapse of time was sufficient to bar also a suit upon the bonds.

In another case, the same Court has held that "the coupon, if in the usual form, is but a repetition of the contract in respect to the interest."

And this leads us to inquire what did the Supreme Court consider the "usual form?"

The expression is used, "*Coupons* attached as *interest warrants* to bonds." And again, "The *interest warrants*, payable on the 1st September, 1858," etc. But, when we examine the wording of the coupon thus described, we find that, in each case, there was a promise to pay to the bearer or holder a certain sum, absolutely, and on a certain specified date.

Ten of the coupons bought by Mr. Evertsen read as follows:

$35 THE INDIANAPOLIS BLOOMINGTON AND WESTERN RAILWAY CO. $35

Will pay the bearer, at its Agency, in the City of New York, thirty-five dollars in gold coin, on the 1st day of April, 187-, for semi-annual interest on Bond No. ——. A. T. LEWIS, Secretary.

And the other forty-seven were as follows:

$35 INTEREST WARRANT FOR THIRTY-FIVE DOLLARS $35

Upon Bond No. ——, of the Danville Urbana Bloomington and Pekin Railroad Company. Payable in gold coin, at the office of the Farmers' Loan and Trust Company, in the City of New York, April 1st, 1871.

W. J. ENMENTAOUT, Secretary.

The Supreme Court of this State decided that both these coupons were negotiable instruments, and that Mr. Evertsen, having purchased them in good faith for value, held them as against all claimants.

But, as we have previously said, the Court of Appeals has just decided that he acquired title only to the ten Indianapolis Bloomington and Western coupons.

"The coupons of the Indianapolis Bloomington & Western Railway Company," says Judge Allen, in the opinion concurred in by all, "being promissory notes, they necessarily had all the characteristics of such instruments, and were entitled to the benefit of the days of grace allowable on bills and notes payable at a given day, or on time."

In regard to the other forty-seven coupons, the opinion says:

"The coupons of the Danville Urbana Bloomington and Pekin Railroad Company, termed upon their face "Interest Warrants," are in somewhat different form. Whether they are within that description of property to which a title may be acquired by a *bona fide* transferee for value, notwithstanding a defect of title in the transferer, depends upon their negotiability." And then the court holds that these "warrants" are not negotiable, not having the necessary requisites of negotiable paper, and that, therefore, Mr. Evertsen acquired no better title than that of the thief—none whatever.

**Columbus Chicago & Indiana Central.**—Argument has been in progress this week in the United States Circuit Court as to the disposition of the net earnings for 1875, which the court recently directed the lessee to pay over to the receivers, and the net earnings for the first quarter of 1876, which will be payable July 1. The parties represented are the stockholders and the bondholders of various classes, and Mr. James Pullan, trustee for the overdue mortgage of the old Richmond & Newcastle road, also appears by counsel.

**Davenport & St. Paul.**—A new company has been organized in New York by the late bondholders, who bought the road last March under foreclosure, and it will hereafter be known as the Davenport & Northwestern. Vigorous measures are being taken to raise $60,000 to secure the right of way for the road into the city.

**Eastern Railroad of Massachusetts.**—Messrs. Baring Brothers & Co., in pursuance of a notice given some months ago, now advertise that—

"The Legislature of Massachusetts having sanctioned the creation of a mortgage over the entire property of the Eastern Railroad Company of Massachusetts, holders of the above bonds are requested to send the same at their earliest convenience to the counting-house of Baring Brothers & Co., No. 8 Bishopsgate street within, to be forwarded to the United States for exchange into first mortgage bonds of the said Company, having thirty years to run, bearing interest at the rate of 3½ per cent for the first three years of their currency, and 4½ per cent for the succeeding three years, and 6 per cent thereafter. Baring Brothers & Co. further give notice that, in conformity with their circular dated 25th January, 1876, they will pay, on presentation of the new coupons, at their respective maturities, during the first three years of the currency of such mortgage bonds, the further interest of 2¼ per cent per annum, and for the next succeeding three years of the currency, the further interest of 1½ per cent per annum. A receipt will be given for all bonds deposited, to be exchanged in due course for the first mortgage bonds, as above."

**Erie Railway.**—*Herapath's Railway Journal* gives the statement of operations submitted to the bondholders' committee, for March and the six months ending March 31, 1876. The receiver's statement says:

The traffic earnings and expenses for the month of March, as thus rendered, show the following comparative results; but it must be borne in mind that in the month of March, 1875, the through traffic was seriously interrupted by the destruction of a bridge:

| | Gross traffic earnings. | Expenses. | Net earnings. |
|---|---|---|---|
| 1876.. | $1,186,421 | $1,003,023 | $183,398 |
| 1875.. | 1,074,742 | 1,030,539 | 44,202 |

To and from the traffic earnings and expenses have to be added and deducted the outside operations of the company (as detailed in the comparative statement of the six months), which show that to pay the leased lines and other and similar outgoings (as now to some extent reduced) in full, as claimed, and without reduction, and also to pay the full interest upon the funded and other debts and liabilities, a deficiency on the six months of $979,843 would remain, as against a deficiency of $1,165,223 in the corresponding six months of 1875. This improvement mainly arises from the reduction effected in the Weehawken Dock liability, the closing of the Jefferson Car Company's agreement (one of the onerous bargains which the receiver has succeeded in terminating), and in a saving of proportion of loss in working the Cleveland Hartford and Delghton Railroad. The figures summarize as follows:

| | | |
|---|---|---|
| CREDITOR. | | |
| Total net earnings from all sources—Six months, 1875 | | $2,077,019 |
| " " " " " 1876 | | 1,800,626 |
| Decrease | | $276,393 |
| DEBTOR. | | |
| Outside expenses, viz: Pavonia ferries and horse railroad, Erie baggage express, Weehawken docks, Grand Opera property and unclaimed baggage, etc— | | |
| Six months, 1875 | $280,923 | |
| Six months, 1876 | 205,569 | |
| Decrease | | $75,353 |
| Interest on bonds and loans (in full), leased lines (in full), taxation, claims prior to Oct. 1, 1874, etc.— | | |
| Six months, 1875 | $2,961,320 | |
| Six months, 1876 | 2,574,901 | |
| Decrease of debit | | 386,419 |
| | | $461,772 |
| As against decrease of net profit of | | 276,393 |
| Improvement 1876 over 1875 | | $185,379 |

It may be observed that the railway traffic and earnings (apart from the outside earnings) amounted in the six months of 1875 to $7,756,762, and in the corresponding period of 1876 to $8,152,926, and that the ordinary traffic working expenses for 1875 were $6,013,579, and in 1876 $6,293,550, showing an increase in 1876 of $279,970. At the same time an extraordinary expenditure for increasing the efficiency and quantity of the locomotive engines and passenger and freight cars of $368,638 was incurred, leaving therefore a balance of net result on traffic working of $1,490,736 in 1876, as against $1,743,182 in 1875, and showing a decrease under this head of $252,445.

—At a meeting of the Board of Directors of the Erie Railway Company, held June 8, 1876, the following resolution was passed:

Be it resolved by this Board, under and in pursuance of the law aforesaid (act of June 12, 1875), That the annual election for Directors of the Erie Railway Company, which is now fixed by law to be held on the second Tuesday of July in the year 1876, be and the same is hereby postponed to the fourth Tuesday of November next ensuing the 30th day of September, 1876; and that the annual election for Directors of said company shall be held on the fourth Tuesday of November in each year thereafter.

**Fredericksburg Orange & Piedmont.**—This railroad, running from Fredericksburg to Orange Court House, has been sold to a company called "The Royal Land Company of Virginia." The new company propose making the road narrow guage, and will extend it to Harrisonburg, where it will connect with a line which the company is now building from their coal fields near Rawley Springs. The sum paid for the road was $40,000.—*Alex. Gazette.*

**Georgia State Bonds.**—Over $500,000 of the new Georgia State 7 per cent bonds were sold at a premium. New York took over $200,000, and the Citizens' Bank of Georgia the balance.

— Pursuant to this sale, notice is given by the Treasury of of Georgia that the holders of coupons of the valid and recognized bonds, being first mortgage on the Macon and Brunswick Railroad, having the indorsement thereon of the State of Georgia, and which coupons matured July 1st, 1873, and since to July 1st, 1876, both inclusive; and the holders of the coupons of the first mortgage bonds of the North and South Railroad, indorsed by the State of Georgia, and which coupons matured Nov. 6, 1873, and since, including current coupon, are invited to forward said coupons to the Treasurer, with the accompanying schedule of the same from each sender, that the same may be paid in currency after the first day of July next.

**Illinois Midland.**—In the Illinois Circuit Court at Decatur, June 8, the Court gave its decision on a demurrer, holding that the charter of the Peoria Atlanta & Decatur Company gave it authority to purchase any road which might form part of its proposed route; but it is very doubtful whether that could be extended so as to include any road beyond the two terminal points, Peoria and Decatur. Moreover, the Paris & Decatur had no power to sell its road or consolidate with any other company. The sale of the road to the Peoria Atlanta & Decatur must therefore be held void and of no effect. The demurrers are sustained, but leave is given the company to file a new plea in answer.

**Irregularities in the Issue of Municipal Town Bonds.**—In the case of the holders of bonds issued by Oswego township, Kansas, in aid of the Missouri Kansas & Texas road, the United States Supreme Court has sustained the decision of the Circuit Court, which was to the effect that an over-issue of bonds, or a technical irregularity in their issue, would not make the bonds void when they were regular on their face and were in the hands of innocent holders. In the Oswego case, $100,000 in bonds were sold, though the amount which the township was authorized to issue under the provisions of the law was only $46,000. The Court held that a purchaser was not obliged to go back of the certificate embraced in the bonds, and examine into all the circumstances of their issue.

**Louisville Paducah & Southwestern.**—This road is noticed for sale in Louisville on the 27th of July.

**Missouri Kansas & Texas.**—A second mortgage from the Missouri Kansas and Texas Railroad Company, embracing all their lines in Missouri, Kansas and the Indian territory, to the Union Trust Company of New York, as trustee, to secure the issuing of ten million dollars in bonds, was recorded at Sedalia, Mo., on the 13th. The bonds are to be in the denomination of $1,000 and larger and bear 6 per cent. interest payable semi-annually.

**Mississippi Central.**—The holders of the first and second mortgage bonds of this company are requested, by trustees of the mortgages, to meet at the office of the company, in the city of

New York, No. 20 Nassau street, on the 23d of June, at 1 o'clock P. M., to consider matters of interest to them.

**Missouri State Bonds.**—At Jefferson City, 200 bonds of the State of Missouri for $1,000 each, payable at any time between five and twenty years, were sold by the State Fund Commissioners, and realized the premium of a fraction over 4½ per cent, Messrs. Kohn & Co., of St. Louis, becoming the purchasers. There were ten bidders in all, and all above par, but several bids for only a portion of the bonds. The following were the bids for the whole amount: Kohn & Co., at $1,015 03; Matthews & Whittaker, $1,035 90; Kuhn, Loeb & Co., New York, $1,035 30; C. B. Burnham, $1,025 25; National Bank, State of Missouri, $1,028 10; Industrial Savings Bank, New York, 100 at $1,025 and 100 at $1,015 55.

**Misssouri Town Bonds.**—The recent decision of the United States Supreme Court has occasioned a great deal of comment in the newspapers, and a great deal of rejoicing among those towns in Missouri and other States which hope to evade the payment of their debts, by resisting under this decision. The Missouri *Republican* gives a sweeping opinion that it is probable the decision clears out of existence all the township railroad bonds issued in the State, and gives the following statement, compiled from the last State Auditor's report, showing approximately the amount of these bonds outstanding:

| | | | |
|---|---|---|---|
| Adair | $16,000 | Linn | $163,000 |
| Bates | 155,000 | Lafayette | 312,000 |
| Cape Girardeau | 136,000 | Livingston | 12,000 |
| Cass | 600,000 | Marion | 200,000 |
| Clark | 25,000 | Randolph | 65,000 |
| Cooper | 170,000 | Pike | 315,000 |
| Crawford | 51,000 | Saline | 75,000 |
| Howard | 100,000 | Schuyler | 15,000 |
| Jackson | 447,000 | | |
| Johnson | 160,000 | Total | $2,990,000 |

The *Republican* adds:

"This list is not complete, for several counties that have considerable township railroad debts, Boone being one of them, were not returned to the auditor's office at the date of his last report. Besides, a large proportion of this township debt is in arrears for interest, the coupons having been in litigation for several years. It would not be out of the way to estimate the entire township indebtedness on railroad account at $3,300,000, all of which is dissipated into thin air by the Court's decision. The people of Bates, Cass, Jackson, Johnson and Lafayette certainly take this view, and there is as much rejoicing in that part of the State over the decision as though some great blessing had suddenly descended on the people. It destroys really all the Cass county debt, one-third of the Lafayette county debt, two-thirds that of Marion county, and nearly one-third that of Pike county; and, as the decision comes from the Court of last resort, there would seem to be no further litigation on the part of the bondholders possible."

There is some question now whether bonds which actually received a two-third vote of the qualified voters, and were therefore within the constitutional limitation, are good, or whether the law of 1868 is absolutely and wholly void and all bonds issued under it are therefore void *ab initio*. The better opinion seems to be that only such bonds are void as were actually issued without the authority of two-thirds of the legal voters of the township, as the language used in the opinion of the Court is as follows: "An election not conforming to the requirements of the constitution would be invalid and confer no authority to make a subscription."

Among the immediate fruits of the late decision the following are noticed: The St. Louis *Republican* of the 9th reports that fifty-five citizens of Kaw township, Jackson county, have addressed to the County Court a protest "against any further recognition of the validity" of the railroad bonds issued by the county for that township, and also against the further recognition of the validity of the Jackson county bonds issued to the Memphis & Mobile Railroad, on the ground that the recent decision made by the United States Supreme Court, in the case of township railroad bonds, destroys their validity. The Kaw township bonds thus protested against amount to $550,000; the bonds of other townships in the same county of a similar character to $161,000; and the Jackson county bonds, issued without the approval of two-thirds of the qualified voters of the county, to the Memphis & Mobile Railroad, to $350,000; making a total of $1,061,000 bonds which it is claimed are invalid and of no binding force on the county under the decision. The interest on these bonds has heretofore been faithfully paid. The court laid the subject over for consideration.

The same paper of the 12th says: "The Jackson County Court had the question presented to it of making provision for the interest on its township bonds, last Thursday. It has been paying the interest regularly, all along, ever since the bonds were issued, but a number of citizens, holding that the bonds are illegal under the late decision of the Supreme Court, petitioned the court not to pay interest any longer. When the subject came up before the court, there was presented a counter petition from several citizens in favor of continued payment, declaring that any other course would impair the credit of the county, and inflict serious injury on it. After hearing arguments on both sides, it revoked the order for a tax levy to meet the interest, and set Tuesday of this week as the time for making a final decision of the question."

**New York Central.**—The following were elected directors June 7: Cornelius Vanderbilt, William H. Vanderbilt, Cornelius Vanderbilt, Jr., William K. Vanderbilt, Augustus Schell, Samuel F. Barger, Joseph Harker, Chauncey M. DePew, John E. Burrill, Walter S. Church, Chester W. Chapin, George J. Whitney, and James M. Marvin.

**Pacific Mail Steamship Company.**—The Pacific Mail Steamship Company's Directors had a protracted meeting on the 9th inst. at the office of the Panama Railroad Co., Mr. Park, President of the Panama Railroad Co., being present, as well as the full Board of the Pacific Mail Company. Mr. Clyde presiding. The result of the deliberations was as follows: (1) The Panama Railroad Company, through Mr. Park, its president agreed to postpone the payment of all its claims against Pacific Mail, on their adjustment, until May 1, 1877, holding the same securities for the entire debt that are now held by the Panama Company. (2) The Panama Railroad Company and the Panama Transit Company agreed to admit the Pacific Mail in its connections with the Panama Railroad, on the same terms made by contract with the Panama Transit Company, without any charge for commissions or other charges except those made to the Panama Transit Company. It was ascertained that there were about $450,000 of call loans, overdue paper, and cash bills, left by the old direction. This indebtedness has been provided for, each director and Mr. Park advancing $12,500, which has been deposited with the First National Bank to the credit of the Company, and to-day each director and Mr. Park will deposit $30,000 to the credit of the Pacific Mail Company. This will provide $425,000, which will meet all the present liabilities of the Steamship Company. The directors stated that they were satisfied that all the Company's steamers could be used to a profit as well as the steamers of the Panama Transit Company.

**Port Royal Railroad.**—In Marks against the Port Royal Railroad, and the Union Trust Company against the same, a decree was rendered, in the United States Circuit at Charleston, for the foreclosure of the first mortgage bonds, and sale, in default of payment of $2,500,000 and interest, by July 15; allowing the bondholders to become a corporation and making the stockholders liable for deficiencies.

**St. Louis & Southeastern.**—A suit has been commenced in Kentucky to set aside the decree of foreclosure under which the road from Henderson, Ky., to the Tennessee State line, was sold in 1867 and transferred to the Evansville Henderson & Nashville Company. The Henderson & Nashville Company, in 1854, issued $750,000 bonds, and in 1856 $186,000 of these bonds were sold in England. Some of the holders of these bonds brought suit to foreclose the mortgage, and a decree of foreclosure was granted, under which the road was sold February 23, 1867, for $20,000, to one of the bondholders, who transferred it shortly afterwards to the Evansville Henderson & Nashville Company. The English holders of the $186,000 bonds now appear and claim that they had no notice of the foreclosure proceedings, and knew nothing of the sale of the road until long afterwards. They ask that the decree may be set aside and their claim upon the property recognized.

**Toledo Wabash & Western.**—This railroad was sold at Toledo by auction, in pursuance of the decree of the Supreme Courts of Ohio, Indiana and Illinois. The road was bought by the following committee of the gold bondholders: Messrs. John W. Ellis, John T. Martin, George I. Seney, Alexander M. White and H. A. V. Post. The total issue of gold bonds is $5,000,000, and this committee represent $4,943,000. It appears, however, that on the day of the sale, the Indiana Circuit Court at Logansport made an order for a stay of the foreclosure proceedings on application of the stockholders' committee, on the ground of certain defects in the proceedings. It is not known to what extent this stay will be effective, and on the 12th a dispatch from Toledo said: The sale of the Wabash Road was confirmed this morning.

**Valley Railroad (Va.)**—The Hon. William Milnes, President of the Shenandoah Valley Railroad Company, made another proposition to lease the Valley Railroad between Harrisonburg and Staunton, for fifteen years, at $20,000 per year and one-half of the net earnings, payments to be made monthly; and he proposed to put $50,000 of unencumbered rolling-stock upon the road as a guarantee of payment for the use of the road. He expected an answer in a few days to his proposition, as the Valley directory would be convened at once for action.

**Washington City Va. Midland & Great Southern.**—A suit has been entered in the Orphans' Court of Alexandria, Va., by J. D. Bowie for himself and other creditors against the company, and John S. Barbour, Robert Garrett, Decatur H. Miller and others, trustees of said company, the object of which is to foreclose the mortgages on the W. C. V. M. & G. S. R., the V. & N. Carolina, the Orange Alexandria and Manassas, and the Orange and Alexandria, and to sell the property of the several corporations and subject the proceeds of sale to the payment of their debts according to priority, and in the meantime to have a receiver appointed.

**Western Union Telegraph.**—Mr. Orton states, in his recent report, that this company had purchased a majority of the stock of the Southern & Atlantic Telegraph Company for about $200,000. The stock of that company was $1,000,000, and if a bare majority over $500,000 was purchased, it must have cost about 40. Since obtaining control, a lease of the Southern & Atlantic to the Western Union has been prepared, which will probably be signed shortly. The terms of this lease are 5 per cent per annum on the Southern & Atlantic stock, after October, 1876, payable semi-annually in April and October, and its period of duration is for 99 years.

**Wilmington & Reading.**—A decision was rendered, June 5, in the United States Circuit Court, in the suit of Randolph *et. al.* against this company. The following is a brief synopsis: First, notwithstanding the Wilmington & Reading Railroad Company is an inter-State railroad, the Circuit Court has jurisdiction throughout the entire line, both in the States of Delaware and Pennsylvania. Second, that under the charter, as granted by the State of Delaware, the company had no power to mortgage the corporate franchises; consequently the mortgage given and described in the bill filed is a lien upon the corporate franchises and all the property in Pennsylvania, but not in Delaware. Third, the branch road, extending from Birdsboro to Reading, nine miles in length, is not covered by said mortgage.

## COMMERCIAL EPITOME.

FRIDAY NIGHT, June 16, 1876.

The volume of trade during the past week has been of sufficient extent to leave no substantial cause of complaint, were it only fairly remunerative; but, unfortunately, there is little reason for congratulation in that respect. An important sale of woolen goods by auction is referred to on another page. The excitement of the political canvass has been felt in business circles, owing to the holding of the Republican National Convention at Cincinnati. The Centennial also grows in interest, and the hot weather has hastened the departure of many to the watering places. Under these circumstances the volume of business may be regarded as quite satisfactory.

The speculation in pork and lard has been feverish, and prices variable, but on the whole the advance of last week is pretty well supported, though the legitimate trade has been less active. The general situation, as regards present and prospective supplies, remains unchanged, and it is not anticipated that the present crop will further decline to any material extent; but the next crop will, it seems to be generally expected, open lower. Mess pork sold to-day at $19 40 on the spot, and the closing bids for future delivery were $19 35 for July, $19 65 for August, $19 70 for September, and $19 60 for October. Lard sold at $11 70 on the spot, for prime Western steam, and the closing bids for future delivery were, $11 67½ for July, $11 82½ for August, $11 90 for September, $11 95 for October, and $10 40 seller the year. Bacon and cut meats have been in better demand, and are a shade firmer. Beef and beef hams in better request. Butter has advanced 2c., to 16@28c. Cheese rather more active at 8@11c. for State dairies. Stearine held firmer at 13¼@13½c. Tallow moderately salable at 8¼c. for prime.

Rio coffee has been moderately active, and closes firmer; fair to prime cargoes, 16¾@18c., gold. The stock at this port is reduced to 120,000 bags, and the visible supply to 238,300 bags. Mild grades firm, with a better demand. Rice has been very quiet, but firmly held. Teas have been irregular and unsettled; new crop Japans sold early in the week at quite satisfactory prices; but an auction sale on Thursday developed lower prices, and Japans sold at the lowest figures of which we have any record. Dried fruits are very dull, but nuts more active. Molasses has been freely taken for refining purposes at 33@33½c. for test Cuba Muscovado, and grocery grades of Porto Rico are wanted. Sugars have also been active for both raws and refined, and raws are higher at 7¾@8¼c. for fair to prime refining Cuba, and refined quoted at 10¼@10¾c. for standard crushed. The following will show the movement in raws:

| | Hhds. | Boxes. | Bags. | Melado. |
|---|---|---|---|---|
| Receipts past week | 14,203 | 4,717 | 2,140 | 251 |
| Sales past week | 11,155 | 2,638 | 5,587 | .... |
| Stock June 15, 1876 | 103,536 | 46,055 | 227,318 | 3,970 |
| Stock June 17, 1875 | 141,133 | 41,368 | 142,941 | 10,301 |

The market for Kentucky tobacco has been moderately active the past week, at steady prices. Sales 550 hhds, of which 400 for export and 150 for consumption. Lugs quoted at 6½@8½c. and leaf 9@18c. Seed-leaf tobacco has been rather quiet, and we have only to notice sales of 72 cases New England, crop of 1874, at 10@11c; 117 do Pennsylvania, crop of 1875, at 18c; 100 do do, crop of 1874, private terms; 217 cases New York, crop of 1875, private terms; 180 cases Ohio, crop of 1875, 5½c, and 200 cases sundries at 7@25c. Spanish tobacco has been in fair request, with sales of 600 bales Havana at 88c@$1 15.

Hides have been quiet the past week, at unchanged prices. Oils generally quiet, but prices steady. Whiskey has been very unsettled, but closes firmer at $1 12, tax paid.

Ocean freights on the whole have been fairly active, but the movement, both in berth and charter room, has had to be stimulated by some declines and more marked concessions, as regards terms, etc., etc.; the demands have not been as steady nor as large as those noted a week ago. Late engagements and charters include: Grain, by steam, to Liverpool, 7@7½d.; provisions, 40@45@50@55s. per ton; cotton, 5-16d.; grain, by sail, 7d.; cotton, 9-32d. Grain to London, by steam, 9¾d.; do., by sail, 8¼d.; flour, 2s. 4½d. Grain to Cork, for orders, 6s.@6s. 4½d.@6s. 6d.; do. to Cardiff, 5s. 6d.; do. to Penarth Roads, 6s.; do. to the Continent, 6s. 3d.; refined petroleum to the Baltic, 4s. 6d.@4s. 10½d. @5s.; do. to Bremen, 3s. 6d.; case oil to the Levant, 28c., gold; refined, in bbls., from Philadelphia to Bremen, 4s.; do. from Richmond to the Baltic, 5s.@5s. 6d. To-day, business was slow, yet no decided changes took place. Grain to Liverpool, by sail, 7½d.; do. to Glasgow, by steam, 9d.; do. to Cork, for orders, 6s. 3d.; do. to Antwerp, 6s.; refined petroleum to the Baltic, 4s. 10½d.; case oil to Java, 30c.

In spirits turpentine there has been a better business, especially at the close, when, 200 bbls. were sold at 30c.; closing with 30½c. firmly asked. Rosins, however, had continued quiet, and late figures are nominally unchanged at $1 65@1 75 for common to good strained. Petroleum early in the week was active and higher, but at the close the demand fell off and part of the tone also. Crude, in bulk, quoted at 8¼c. Refined, in bbls., at 14½@14¾c. Ingot copper was easier, with 200,000 lbs. Lake sold at 19½@20c.

## COTTON.

FRIDAY, P. M., June 16, 1876.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening (June 16) the total receipts have reached 8,444 bales, against 10,456 bales last week, 13,810 bales the previous week, and 16,330 bales three weeks since, making the total receipts since the 1st of September, 1875, 4,037,057 bales, against 3,435,134 bales for the same period of 1874–5, showing an increase since Sept. 1, 1875, of 601,923 bales. The details of the receipts for this week (as per telegraph) and for the corresponding weeks of five previous years are as follows:

* *New Orleans.*—Our telegram to-night from New Orleans shows that (besides above exports) the amount of cotton on shipboard and engaged for shipment at that port is as follows: For Liverpool, 11,000 bales; for Havre, 4,250 bales; for Continent, 1,250 bales; for coastwise ports, none; which, if deducted from the stock, would leave 73,500 bales representing the quantity at the landing and in presses unsold or awaiting orders.

† *Galveston.*—Our Galveston telegram shows (besides above exports) on shipboard at that port, not cleared: For Liverpool, no bales; for other foreign, no bales; for coastwise ports, no bales; which, if deducted from the stock, would leave remaining none.

‡ The exports this week under the head of "other ports" include from Baltimore 50 bales to Liverpool; from Boston 516 bales to Liverpool; from Philadelphia 656 bales to Liverpool.

From the foregoing statement it will be seen that, compared with the corresponding week of last season, there is an *increase* in the exports this week of 7,197 bales, while the stocks to-night are 75,844 bales *more* than they were at this time a year ago. The following is our usual table showing the movement of cotton at all the ports from Sept. 1 to June 9, the latest mail dates:

These mail returns do not correspond precisely with the total of the telegraphic figures, because in preparing them it is always necessary to incorporate every correction made at the ports.

The market the past week has ruled stronger for cotton on the spot, with a better business for export, but the demand for consumption has been held in check by the closing of Eastern mills. Quotations were advanced 1-16c. on Monday; but the large stock here, and the probability that the demand for home consumption will be very small during the summer months, have been obstacles to a further improvement. This was seen yesterday, when a further advance of 1-16c., to 12¼c. for Middling Uplands, had the effect of checking the demand. To-day, however, there was more activity for consumption and a steady market. For future delivery, the market opened with considerable buoyancy, stimulated by the reduced estimates of the acreage planted for the next crop, which were put forth by the Southern Exchanges, to which allusion was made in our last, and confirmed on Saturday and Sunday. These reports had some effect, likewise, in stimulating the Liverpool market. There was also a recurrence of rains and complaints of grass in many Southern States, but notably in Alabama and Mississippi. The operators for a rise made the most of these, and developed considerable strength, so that, except some re-action on Tuesday, the advance was pretty steady up to the close of last evening's business, the improvement then being ¼c. for this crop and 3-16c. for the next crop. To-day a more favorable construction was put upon the Bureau report than had been done by the rumors current yesterday, and there was a pretty general decline of ¼c., closing quiet.

The total sales for forward delivery for the week are 142,800 bales, including —— free on board. For immediate delivery the total sales foot up this week 12,892 bales, including 6,571 for export, 4,420 for consumption, 934 for speculation, and 967 in transit. Of the above, —— bales were to arrive. The following were the closing quotations to day:

These figures indicate a *decrease* in the cotton in sight to-night of 47,404 bales as compared with the same date of 1875, a *decrease* of 263,891 bales as compared with the corresponding date of 1874, and a *decrease* of 91,273 bales as compared with 1873.

AT THE INTERIOR PORTS the movement—that is the receipts and shipments for the week and stock to-night, and for the corresponding week of 1875—is set out in detail in the following statement:

The above totals show that the old interior stocks have *decreased* during the week 4,339 bales, and are to-night 21,002 bales *more* than at the same period last year. The receipts at same towns have been 764 bales *more* than the same week last year.

BOMBAY SHIPMENTS.—According to our cable despatch received to-day, there have been 61,000 bales shipped from Bombay to Great Britain the past week, and 10,000 bales to the Continent; while the receipts at Bombay during this week have been 33,000 bales. The movement since the 1st of January is as follows. These are the figures of W. Nicol & Co., of Bombay, and are brought down to Thursday, June 15:

| | —Shipments this week— Great Britain. | Con-tinent. | Total. | —Shipments since Jan. 1— Great Britain. | Con-tinent. | Total. | —Receipts.— This week. | Since Jan. 1. |
|---|---|---|---|---|---|---|---|---|
| 1876..... | 61,000 | 10,000 | 71,000 | 489,000 | 284 000 | 773,000 | 33,000 | 934,000. |
| 1875..... | 37,000 | 5,000 | 42,000 | 682,000 | 379,000 | 1,061,000 | 26,000 | 1,197,000. |

From the foregoing it would appear that, compared with last year, there is an *increase* of 29,000 bales this year in the week's shipments from Bombay to Europe, and that the total movement since January 1 shows a *decrease* in shipments of 288,000 bales compared with the corresponding period of 1875.

WEATHER REPORTS BY TELEGRAPH.—There have been frequent, and, in many cases, heavy showers throughout the South the past week. In many districts they have been very beneficial, but in others complaints of too much rain are made. Texas reports an exceedingly prosperous condition of the crop, with no more rain than desirable; but in Arkansas and Tennessee, where the plant has been growing finely, it is stated now that the weather is too wet, though no damage has as yet been done. Along the Atlantic coast there have also been excessive rains; in the main, however, they have been confined to the coast, extending only partially to the interior. In Alabama and Mississippi the progress during the week has been satisfactory.

*Galveston, Texas.*—We have had delightful showers on four days of the week, and the indications are that they extended over a wide surface. The rainfall is sixty-nine hundredths of an inch. The average thermometer is 82, the highest 92 and the lowest 73. Crop accounts throughout the State are surprisingly favorable, and despite the late planting the prospect is, up to this date, the best we have enjoyed for years.

*Indianola, Texas.*—There have been showers here on three days of the week, and more rain is desired; still the cotton plant looks strong and healthy, and the crop is developing promisingly. Some corn has been hurt by the drouth, but the prospect is still favorable for an abundant harvest. The rainfall for the week is fourteen hundredths of an inch. The average thermometer is 81, the highest is 94, and the lowest is 70.

*Corsicana, Texas.*—We were visited by refreshing showers on four days this week, and, from appearances, they have reached over a considerable extent of country. The crop is developing promisingly, and the prospect is flattering. Total rainfall this week, one inch and twelve hundredths. Average thermometer 77, highest 93 and lowest 58.

*Dallas, Texas.*—Crop accounts in this section are more favorable. The cotton plant looks strong and healthy, and the prospect is all that could be desired. The wheat yield per acre is less than last year, but the increased acreage gives a large excess in the total yield.

*New Orleans, Louisiana.*—We have had warm, sultry, wet weather this week. There have been four rainy days, with a rainfall of one inch and fifty-two hundredths. The thermometer has averaged 79.

*Shreveport, Louisiana.*—All crops are doing finely, especially in eastern Texas. The thermometer has averaged during the week 78, the highest being 92 and the lowest 65. The rainfall is one hundredth of an inch.

*Vicksburg, Mississippi.*—There have been two rainy days here this week, the rainfall reaching seventy-nine hundredths of an inch. The thermometer has averaged 79, the highest being 94 and the lowest 64.

*Columbus, Mississippi*—We have had two rainy days this week, the rainfall reaching eighty-two hundredths of an inch. The thermometer has averaged 79, the highest being 85 and the lowest 73. Crops are doing very well.

*Little Rock, Arkansas.*— The week just closed has been cloudy, with frequent showers. We are having too much rain for the good of the crops, and planters are beginning to complain. The rainfall for the week is one inch and fifteen hundredths. The average thermometer is 75, the highest 90 and the lowest 60.

*Nashville, Tennessee.*—We have had warm, sultry, wet weather. There are complaints now of too much rain. This week there have been five rainy days, the rainfall reaching two inches and fifty-seven hundredths. The average thermometer is 76, the highest 84, and the lowest 68.

*Memphis, Tennessee.*—It has rained six days this week, the rainfall reaching two inches and twenty-five hundredths, but no serious damage has been done, excepting that the grass is becoming troublesome; otherwise the crop is developing promisingly. The average thermometer is 76, the highest 87, and the lowest 68.

*Mobile, Alabama.*—It rained severely two days and was showery two days of this week, the rainfall aggregating two inches and fifty-one hundredths. The rest of the week has been pleasant. The thermometer has averaged 79, the extremes being 70 and 91. Good progress is being made in clearing the fields of weeds, and the crop is progressing favorably.

*Montgomery, Alabama.*—The latter part of the week has been clear and pleasant, but there were three rainy days the early part of the week, the rainfall reaching two inches and thirty-one hundredths. The average thermometer for the week is 78, the highest 93 and the lowest 69.

*Selma, Alabama.*—The weather during the week has been warm, sultry and wet, there having been three rainy days and a rainfall of eighty-two hundredths of an inch. The thermometer has averaged 78.

*Madison, Florida.*—There have been two rainy days here this week, the rainfall reaching fifty hundredths of an inch. The thermometer has ranged from 71 to 85, averaging 78. The fields are clear of weeds, and the cotton plant looks strong and healthy.

*Macon, Georgia.*—The weather here this week has been warm, sultry and wet. There have been five rainy days, and the rest of the week has been cloudy. The average thermometer is 75, the highest 90 and the lowest 64.

*Atlanta, Georgia.*—It has been showery three days of the week, the rainfall reaching twenty-eight hundredths of an inch. The thermometer has averaged 75, ranging from 71 to 87.

*Columbus, Georgia.*—There have been two rainy days this week, with a rainfall of eighty seven hundredths of an inch. The thermometer has averaged 81, the highest being 88 and the lowest 72.

*Savannah, Georgia.*—There have been five rainy days, and the rest of the week has been cloudy. The thermometer has averaged 76, the highest being 84 and the lowest 65. Some alarm has been expressed here on account of the excessive rain. But the recent heavy rains have not extended to or damaged the interior.

*Augusta, Georgia.*—Accounts in this section are flattering, but just now we are having too much rain. It has rained heavily on five days of the week, the rainfall reaching four inches and thirty-nine hundredths. The thermometer has averaged 75, the highest being 88 and the lowest 67.

*Charleston, South Carolina.*—It has rained severely five days of the week, the rainfall aggregating thirteen inches. There is more rain falling this year than last. The average thermometer is 75, the highest 82 and the lowest 69.

The following statement we have also received by telegraph showing the height of the rivers at the points named at 3 o'clock June 15. We give last year's figures (June 18,1875) for comparison.

New Orleans reported below high-water mark of 1871 until Sept. 9, 1874, when the zero of gauge was changed to high-water mark of April 15 and 16, 1874, which is 6-10ths of a foot above 1871, or 16 feet above low-water mark at that point.

COTTON ACREAGE OF AGRICULTURAL BUREAU AND COTTON EXCHANGES. Want of space in this department compels us to transfer to our editorial columns some remarks on this subject which our readers may find of interest.

EXPORTS OF YARN AND CLOTH FROM GREAT BRITAIN.—A "subscriber" calls attention to a table (in the CHRONICLE of February 6, 1875) taken from the annual circular of Stolterfoht Sons & Co., of January, 1874, in which pounds and yards and yarns and cloth seem to be strangely mixed, and asks if those figures represent correctly the exports from Great Britain of cotton manufactures for the years named. Most certainly they do not. The correct figures are as follows—we have stated them in millions and tenths; that is, 115.9 equals 115 900,000 yards:

COTTON EXCHANGE ACREAGE REPORTS FOR JUNE 1.—We give below, in full, the Cotton Exchange Acreage Reports. Brief extracts from some of them were received last Friday, and referred to in our remarks with regard to the New York Market. But the telegraph was in some particulars quite inaccurate.

### Questions.

**First Question.**—What is the area of land planted in cotton in your section as compared with last year? State percentage of increase or decrease.
**Second Question.**—What proportion of land planted in cotton last year in your section has been, and is now, overflowed?
**Third Question.**—What is your estimate of damage done the ensuing crop by the overflow in your sections?
**Fourth Question.**—What has been the character of the weather, and has it been more or less favorable than last year?
**Fifth Question.**—How are the stands of cotton in your section?
**Sixth Question.**—How much earlier or later is the cotton crop in your section this than last year?
**Seventh Question.**—How is the labor, in number and efficiency, compared with last year?
**Eighth Question.**—Has the use of fertilizers increased or decreased, compared with last year?
**Ninth Question.**—What is the present condition of the cotton crop in your section?
**Tenth Question.**—State any material facts not covered by above questions.

### Galveston Department

covers the *State of Texas*, and was prepared and issued by the Galveston Cotton Exchange, through their Committee on Information and Statistics, composed of John Focke, Chairman, G. A. Hill, H. I. Anderson, G. W. Embrey and H. Dreier.

**Texas.**—These answers are condensed from 79 replies received from 48 counties, and are based upon mail accounts dated from May 26 to June 1.

ANSWER TO FIRST QUESTION.—The area of land planted in cotton in this State compares with last year as follows:—16 counties reporting a decrease of from 5 to 33⅓ per cent; 17, the same as last year; 15, an increase of from 5 to 33⅓ per cent—the land planted averaging about the same as last year.
ANSWER TO SECOND AND THIRD QUESTIONS.—No overflows or damage reported.
ANSWER TO FOURTH QUESTION.—The character of the weather for planting this year, compared with last year is as follows:—22 counties report "same as last year;" 15, less favorable; 11, more favorable.
ANSWER TO FIFTH QUESTION.—37 counties report the stands of cotton good; 5, fair; 6, not good.
ANSWER TO SIXTH QUESTION.—The cotton crop is reported in 10 counties to be as early as last year; 4, two weeks earlier; 31, about two weeks later.
ANSWER TO SEVENTH QUESTION.—The labor, in number and efficiency, is fully as good as last year.
ANSWER TO EIGHTH QUESTION.—No fertilizers are used in this State.
ANSWER TO NINTH QUESTION.—The condition of the cotton crop is good, but it is about two weeks late.
ANSWER TO TENTH QUESTION.—The rains in the latter part of May have been beneficial, generally improving the prospects.

### New Orleans Department

covers that part of the *State of Mississippi* not apportioned to the Memphis and Mobile Cotton Exchanges; the entire *State of Louisiana* and the *State of Arkansas*, south of the Arkansas River. The report is prepared and issued by the New Orleans Cotton Exchange, through their Committee on Information and Statistics, composed of Harrison Watts, L. F. Berje, E. F. Golsan, William A. Gwyn, Edward Morphy, R. C. Cammack, and L. Lacombe.

**Louisiana.**—80 replies from 33 parishes; average date May 26.

The reports show an average decrease in the area planted in cotton of nearly 10 per cent. A large proportion of the cultivable lands of the river parishes has been inundated, equal to about 1 per cent of the whole State, and the waters will subside too late for farmers to re-plant. The season is at least three weeks late, and the weather much less favorable than usual. The stand of cotton is fair, considering the inclement season, but its condition is not good, the plant being small and very grassy. Heavy rains have done considerable damage. Labor is about the same in numbers, but more efficient. No commercial fertilizers used.

**Mississippi.**—101 replies received from 33 counties in this State, bearing dates from May 25 to June 5.

The decrease in acreage planted is small—1 to 2 per cent. The damage from overflow is confined, mostly, to the river counties, and is estimated at about 8 per cent of their produce too. Weather very generally less favorable; complaints of too much rain and cold nights. Stands fair, though the plant is small and backward. Crop from two to three weeks later than last year. Labor good. No fertilizers used in this State. The present condition of the crop is not encouraging, the plant being in the grass and backward, occasioned by heavy rains. Complaint is also made of inferior seed in many sections.

**Arkansas.**—We have received 53 answers from 23 counties (dates ranging from May 19 to June 2).

The replies indicate a decrease in acreage of about 5 per cent. The damage by overflow appears to have been confined to Chicot, Desha and Drew counties, the first named has suffered most, and to the extent of 40 per cent, whereas the injury in Desha is estimated at 20 per cent, and Drew 10 per cent. The weather is reported equally as favorable as last year, but in some counties it has been wet and unseasonably cold. The stands are represented as very good in most counties, although the crop is said to be about 10 days later than last year. The labor is good, and about equal in efficiency and number, though somewhat demoralized in the inundated districts, and the present condition of the crop, with very few exceptions, is good. Little or no fertilizers are used in this State.

### Memphis Department

covers the *State of Tennessee*, west of the Tennessee River, and the *following counties in Mississippi*; Coahoma, Panola, Lafayette, Marshall, De Soto, Tunica, Benton and Tippah, and the *State of Arkansas* north of the Arkansas River. The report is prepared and issued by the Memphis Cotton Exchange, through their Committee on Information and Statistics, composed of Sam. M. Gates, Chairman, W. W. Guy, Hugh Torrance, B. Baylis, H. Furstenheim, J. W Jefferson, J. L. Wellford.

The report is derived from 166 respondents—average date June 1, to wit: From West Tennessee, 52 replies; North Mississippi, 53 replies.; Arkansas (north of Arkansas River), 50 replies; North Alabama, 11 replies.

FIRST ANSWER.—*West Tennessee* reports 3 per cent increased acreage. *North Mississippi*, four-fifths per cent decrease; *Arkansas*, two and 7-10 per cent decrease; *North Alabama*, 3 per cent increase.
SECOND ANSWER.—*West Tennessee*, no overflow; *North Mississippi*, 3 report average of 8 per cent had been overflowed, 50 report none; *Arkansas*, 10 report an average of 5 per cent had been overflowed; *North Alabama*, no overflow.
THIRD ANSWER.—*West Tennessee*, no damage; *North Mississippi*, 50 report no damage, 3 report 1 2-3 per cent damage on 8 per cent of their lands; *Arkansas*, 40 report no damage, 10 report 1 1-5 per cent on 5 per cent of their lands; *North Alabama*, no damage.
FOURTH ANSWER.—*West Tennessee*, 33 report April more unfavorable than last year, on account of excessive wet and cold weather; May more favorable than last year; 10 report more favorable throughout, 8 about same as last year, and 1 less favorable throughout. *North Mississippi*, 41 report April less favorable, with May more favorable; 2 report more favorable throughout, 3 less favorable, 4 about same. *Arkansas*, 40 report April less favorable and May more favorable, 2 more favorable throughout, 3 less favorable, 5 about same. *North Alabama*, 7 report April less favorable, with May more favorable; 1 more favorable throughout, 3 less favorable.
FIFTH ANSWER.—*West Tennessee*, 19 report stands never better, 28 good, 5 not so good as last year, 4 of which stands not yet up; *North Mississippi*, 11 never better, 32 good, 9 not so good as last year, 4 of which, standsnot yet up; *Arkansas*, 18 never better, 25 good, 6 not so good as last year, 3 of which stands not yet up; *North Alabama*, 3 never better, 6 good, 2 not so good as last year, 1 of which stands not up.
SIXTH ANSWER.—*West Tennessee*, 34 report later, 5 earlier, 11 about same, average 9 days later; *North Mississippi*, 46 later, 1 earlier, 6 about same, average 11 days later; *Arkansas*, 36 later, 3 earlier, 11 about same, average 9 days later; *North Alabama*, 6 later, 2 earlier, 3 about same, average 4 days later.
SEVENTH ANSWER.—*West Tennessee* reports three-fifths per cent decrease of numbers; 50 report laborers working well, 2 not well. *North Mississippi*, numbers about same; 51 report laborers working well, 2 not well. *Arkansas*, 3-5 per cent increased numbers; 45 report laborers working well, 5 not well. *North Alabama*, ⅘ per cent decreased numbers; 4 report laborers working well, 6 only moderately well, 1 not well.
EIGHTH ANSWER.—The almost unanimous answer throughout this region is: No commercial fertilizers used; all are using full extent of home-produced fertilizers.
NINTH ANSWER.—*West Tennessee*, 40 report crops in very good condition, well cultivated, clear of grass and weeds; 12 healthy, strong, but grassy; 5 not yet worked out, 2 suffering for rain. *North Mississippi*, 31 very good condition, well cultivated, free of grass and weeds; 11 healthy, strong, but grassy; 6 crops not yet worked through, 4 suffering for rain. *Arkansas*, 36 very good condition, well cultivated; 9 healthy and strong, but grassy; 5 crops not yet worked through. *North Alabama*, 5 very good condition, well cultivated; 2 healthy, strong, but grassy; 4 crops not yet worked through.
TENTH ANSWER.—This is Pandora's box, filled with anticipated evils principally.

*Eleventh Question.*—What has been the percentage of corn planting, as compared with last year? What its condition? What per cent will be planted in June?

ELEVENTH ANSWER.—*West Tennessee* reports 4 per cent less acreage planted, 3 per cent to be planted in June; 38 report crop well conditioned; 10 plant small, but well cultivated and healthy. *North Mississippi*, ¼ per cent increased acreage planted, with 5 per cent to plant in June; 42 crops well conditioned; 10 plant small, but well cultivated and healthy. *Arkansas* 5 per cent increased acreage planted, 3 per cent to be planted in June; 47 crops well conditioned; 3 crops small, but healthy and well cultivated. *North Alabama* 5 per cent decreased acreage, ⅘ per cent to plant in June; 7 report crops well conditioned; 3 crops small, but healthy and well cultivated.

*Twelfth Question.*—How will the crops of grasses, including oats and millet, compare with last year? Please give per cent and condition of each.

TWELFTH ANSWER.—*West Tennessee*, 5 per cent decreased acreage, generally better conditioned than last year; *North Mississippi*, 2 per cent decrease, with better average condition; *Arkansas*, 1½ per cent increase and better condition; *North Alabama*, 10 per cent decrease; condition about the same as last year.

*Thirteenth Question.*—Your wheat crops are now maturing; what is their condition as to prospects of yield as compared with last year?

THIRTEENTH ANSWER.—*West Tennessee* reports a prospective decreased yield per acre of 35 per cent; *North Mississippi* 30; *Arkansas* 23; and *North Alabama* 18 per cent; attributable almost entirely to the rust.

*Fourteenth Question.*—Our April report exhibited much interest in, with prospective large increase in, hog raising. Will you now state your opinion as to per cent increase over last year, and present condition of hogs.

FOURTEENTH ANSWER.—*West Tennessee* reports a prospective increased pork crop over last year of 110 per cent; *North Mississippi* 98; *Arkansas* 35½; and *North Alabama* 125 per cent. All report hogs well conditioned.

AGGREGATE FOR WEST TENNESSEE, NORTH MISSISSIPPI AND NORTH ARKANSAS.

1. For the district of Memphis, ¼ per cent decreased acreage of cotton.
2. There has been 1¼ per cent of cotton lands overflowed.
3. There has been a damage of 55-100 per cent by overflow.

### Mobile Department

covers the *State of Alabama* as far north as the summit of the Sand Mountains, and *the following counties in Mississippi*: Wayne, Clarke, Jasper, Landerdale, Newton, Kemper, Neshoiso, Noxubee, Winston, Lowndes, Oktibibs, Colfax, Monroe, Chicasaw, Itawamba, Lee, Pontotoc, Prentiss, Alcorn and Tishamingo. The report is prepared and issued by the Mobile Cotton Exchange, through their Committee on Information and Statistics, composed of T. K. Irwin, chairman, Geo. G. Duffee, Julius Buttner and A. M. Wilmarth.

**Alabama.**—109 letters from 45 counties.

The acreage as compared with last year is as follows: 12 counties report an average increase of 8⅘ per cent, 26 the same; and 7 an average decrease of 14 per cent. These last are upland counties, located in the northern and eastern portions of the State. There has been no material damage by overflow; the character of the weather has been equally as favorable as last year, very few reporting it less so; the stands are almost universally "good," but the crop is from one to two weeks later than last year; the labor is equal in number, and, if anything, more efficient; scarcely any commercial fertilizers have been used, but in the poorer counties domestic manures have been applied; the present condition of the crop is from "fair to good;" some counties, however, report too much rain about the 1st inst., causing a rapid growth of grass and weeds.

**Mississippi.**—52 replies from 20 counties.

The acreage as compared with last year is as follows: 12 counties average 7 per cent increase, and 8 counties same as last year; no damage done by overflow; the weather was somewhat unfavorable up to April, but since then is reported as being very favorable; the stands on the uplands are not so good, but on the low and prairie lands are almost perfect. The crop is from eight to 10 days later than last season; the labor is equal in number and efficiency to that of last year; no commercial fertilizers used, but more homemade. The general condition of the crop is reported "good."

### Savannah Department.

This report covers *Northern, Middle, and Southwestern Georgia* (being all of Georgia, except the 28 counties in charge of the Augusta Cotton Exchange) and the entire *State of Florida*. The report is prepared and issued by the Savannah Cotton Exchange, through their Committee on Information and Statistics, composed of J. H. Johnston, J. T. Stewart, T. H. Austin, W. B. Woodbridge and J. deB. Kops.

**Georgia.**—There were 135 replies from 68 counties; average date, May 28.

The decrease in land planted in cotton, as compared with last year, has been 10 per cent. The weather has been remarkably seasonable since the plant commenced to grow, but the spring was late and planting was delayed. The stands of cotton are generally good—better than last year. Although the crop was put in the ground much later than usual, it has been able to catch up in a great measure from the fine season, so that it is not behind more than five to eight days. Owing to the necessities of the times, labor is both more abundant and more efficient. In sections where fertilizers have been generally used, the increase over the previous season has been fully 20 per cent. The condition of the crop is unprecedentedly fine. The fields are free from grass, and the plant, though small, is growing off well. Owing to the failure of the corn crop last year, the increase of land put in grain has been in proportion to the decrease in the acreage of cotton, and to make the grain crops more effective, it is estimated that nearly 25 per cent of the commercial manures sold this season have been placed upon these crops.

**Florida.**—There were 31 replies from 16 counties; average date, May 27.

The decrease in the area devoted to cotton has been from 12 to 15 per cent. The spring was a backward one, but for the last month the weather has been more favorable than last year. The stands of cotton are generally good, although the plant is small, and complaint of cut-worm in some localities. The crop is put down as being about two weeks later than last year.

Labor is abundant and efficient, but the scarcity of corn and the want of money is a serious drawback to the employment of laborers. The present condition of the crop is good, but backward. But little commercial fertilizers have ever been used in this State, but planters are turning their attention more generally to the making of manures at home.

## Augusta Department

covers the counties of *Georgia* not included in the *Savannah Report*, and is issued by the Augusta Cotton Exchange, through their Committee on Information and Statistics, composed of L. L. Zolavsky, Chairman, J. J. Pearce, J. W. Echols, R. W. Heard, C. A. Rowland, A. M. Benson, Wm. M. Read.

**Georgia.**—49 replies, from 23 counties; average date of replies, June 1.

First Answer.—The acreage under cotton is generally stated to be below that of last year, the decrease averaging 5¾ per cent.

Second Answer.—None.

Third Answer.—None. Some insignificant damage in small localities on hill-lands from some late heavy rains.

Fourth Answer.—The character of the weather was, as a rule, more favorable for planting, and decidedly more favorable immediately succeeding that for working the crops.

Fifth Answer.—Some planters have not yet quite completed chopping out the cotton, but wherever that has been done the stands are reported as very good. Many of our correspondents state that they could hardly be better, and are far above the average of several years past.

Sixth Answer.—As a rule, planting was completed somewhat later than last year. But the crop has grown remarkably well. The present general condition averages about the same as last year, but ranges from "two weeks later" to "two weeks earlier," according to local influences, and more or less favorable weather in certain localities.

Seventh Answer.—Labor is reported the same in quantity as last year, but as a rule more efficient.

Eighth Answer.—The use of commercial fertilizers on cotton lands has been about the same as last year, but there has been an increase in the application of home manures and composts.

Ninth Answer.—The present condition of the cotton crop is very good and promises well. The plant, as a rule, is not large, but is healthy and vigorous, and the fields free from grass. The majority of our reports point to a condition decidedly above the usual average at this season.

Tenth Answer.—In two counties there is some complaint of an impairment of stands by the cut-worm. Two counties report lice. In all material respects, however, our reports point to an excellent condition of the crop, and a more than favorable prospect for the future.

## Charleston Department

covers the *State of South Carolina*, and is prepared and issued by the Charleston Cotton Exchange, through their Committee on Information and Statistics, composed of Jas. S. Murdoch, Chairman, Robert D. Mure, J. W. Lewis, L. J. Walker, J. Adger Smyth.

**South Carolina.**—Condensed from 84 replies received from 30 counties.

First Answer.—By average, 4 per cent decrease.
Second Answer.—No overflow in this State.
Third Answer.—None.
Fourth Answer.—Generally more favorable.
Fifth Answer.—Good.
Sixth Answer.—From five to ten days later.
Seventh Answer.—About the same as last year.
Eighth Answer.—By average, a decrease of 1 per cent.
Ninth Answer.—The plant is small, but healthy. Generally good.
Tenth Answer.—No responses.
*Eleventh Question.*—How will the acreage in corn compare with last year, and what is the condition of the crop?

## Norfolk Department.

The Norfolk Cotton Exchange (H. S. Reynolds, Asa Biggs, and C. W. Grandy, Jr., Committee on Information and Statistics) issues the following report, covering the *State of Virginia* and the following *Counties in North Carolina:* Rutherford, Lincoln, Catawba, Rowan, Davidson, Iredell, Burke, Wilkes, Caldwell, Alexander, Davie, Forsythe, Yadkin, Stokes, Surrey, Rockingham, Caswell, Person, Granville, Warren, Franklin, Nash, Wake, Hyde, Pitt, Green, Cartaret, Craven, Beaufort, Tyrrel, Washington, Martin, Bertie, Chowan, Pasquotank, Camden, Currituck, Gates, Hertford, Northampton and Halifax.

**Virginia and North Carolina.**—59 replies from 32 counties.

Seventeen counties report same acreage as last year. Four report 10 per cent decrease. Eleven report 15 per cent increase.

All report no lands overflowed.

The weather is reported as dry and cool, but in general more favorable for planting than last year.

Stands are as good, if not better.

Crop fully one week earlier.

Labor about same as last year, but more efficient.

Commercial fertilizers have decreased, owing to large increase of home-made manures.

The average condition of the crop at present is good. Plant small but healthy. Fields in good order.

Gunny Bags, Bagging, Etc.—Bagging has ruled rather quiet during the week, but we have to note an increase in the inquiry, and prices are rather steadier, holders asking 12@12¼c. Should the demand for consumption which is now looked for, set in, an advance may be expected, as the present ruling figure is believed to be rather low. Bales continue without movement, and prices are nominal. Butts have come to hand quite freely, and manufacturers have been fully supplied by these parcels, and orders from consumers are small; we quote prices at 2¾@2⅞c. for spot parcels, according to quality, and parcels to arrive can be had at same figures.

Liverpool, June 16—3:00 P. M.—By Cable from Liverpool.—Estimated sales of the day were 12,000 bales, of which 2,000 bales were for export and speculation. Of to-day's sales, 6,600 bales were American. The weekly movement is given as follows:

Below we give all news received to date of disasters, &c., to vessels carrying cotton from United States ports:

ISTRIAN, str. (Br), Flitt, from Boston May 26 for Liverpool, arrived off Queenstown June 7, under sail, having broken her main shaft. A tug was despatched to tow her to Liverpool.

LEGISLATON, str. (Br), from New Orleans, in docking at Liverpool May 31, touched the Pluckington Bank, but sustained no damage.

ORIENTAL, str., from Savannah for Boston, ashore on Harding's Ledge, has been condemned and was sold at auction June 10, for $1,350, the purchasers to have 33⅓ per cent on cargo remaining on board. She had been shipped of sails, cables, &c.

VIRGINIA, str. Hunter, from Charleston, S.C., June 9, for Philadelphia, returned after proceeding as far as the lightship, to renew the packing in her stuffing-box, which was done, and she left again for destination on the 10th.

JEANNE POSTEL, ship (Fr), Bourges, from New Orleans at Havre May 26, shipped a sea on May 3, which filled the cabin.

## BREADSTUFFS.

FRIDAY, P. M., June 16, 1876.

The flour market has been moderately active for the past week but such has been the pressure to sell that prices have given way along almost the whole line of grades. Extremes of qualities have suffered most, but there are low trade brands from the West at about $5 50@5 75, which it seems probable cannot be closed out at much over the price of shipping extras, or about $5 25. This fact exerts a very depressing influence. Still, good lines are scarce, and an order for 7,000 barrels for the Continent, which yesterday came to this market, was sent to Philadelphia and was executed there. To day the market was dull, drooping and unsettled. Corn meal lower and more active.

The wheat market has been variable, and yet without important fluctuations. The export demand has been less active, and millers not doing much. Receipts have been large, and the condition of a considerable proportion has been unfavorably affected by the hot weather. Therefore, while strictly prime samples have declined but little, the "softer" lots have given way 3@4c. per bushel, and receivers have found it very difficult to get a bid on them in the last two or three days. Very favorable crop reports, and more peaceful advices from the Continent have contributed to the depression. Yesterday, prime No. 1 Spring sold at $1 31@1 31½, afloat; prime No. 2 do. at $1 17@1 18 for Chicago, in store and afloat, and $1 21@1 21½ for Milwaukee, afloat and for early arrival. The following telegram from San Francisco was published yesterday:

A prominent grain operator gives the surplus of wheat in California for shipment this season as 750,000 short tons, exceeding by 200,000 the surplus of the crop of 1875. The yield is unusually heavy in all parts of the State, and in quality the grain is the best ever harvested in the State. He gives the price for July delivery alongside the ship as 96 cents per bushel. He anticipates no difficulty in procuring labor for harvesting the crop, nor in procuring means of transporting it from the interior, unless the bulk of the crop is held until late in the season, which would probably overtax the railroad facilities. The tonnage of grain here and known to be on the way is 450,000 tons. Capacity enough is expected between now and December to take all that is offered.

To-day the market was very irregular; choice No. 1 spring sold at $1 35, and soft do. at $1 25@1 28, and prime No. 2 Chicago, $1 18.

Indian corn has been improving, owing to an active demand, and recent transactions have been at 54@55c. for damp new Western mixed, 57½@58½c. for steamer mixed, and 60@61½c. for sail mixed, with Western yellow going at 61@63c. Receipts have been very large at all points, but at current prices seem to be readily absorbed. To-day, the market was less active and closed easier, but without decided decline.

Rye has met with a less active demand, and the condition of much of the Western that has arrived is not good; hence, some weakness and irregularity in prices. Barley remains nominal, but barley malt is in better demand.

Oats have been very irregular; but stronger for the past day or two, owing to an active demand for export, some 50,000 bushels No. 2 Chicago having been sold for that purpose at 41@42c. afloat. To-day, the market was weak, with No. 2 Chicago sold at 40c.

## THE DRY GOODS TRADE.

FRIDAY, P. M., June 16, 1876.

As a rule, business has been quiet this week with the package houses, but an impetus was given to the demand for heavy woolens by the arrival of large numbers of cloth jobbers and clothiers from the leading interior cities. The most interesting event of the week was a great peremptory auction sale of 20,000 pieces fine and medium woolens, comprising the entire production to date of the Salisbury mills, Merchants' Woolen Company and Phœnix Woolen Company. The sale was the largest of its kind ever held in this country, and certainly one of the most successful. The entire offering was distributed in lots of from one to one hundred and fifty packages, at very good prices—say from 10 to 15 per cent below agents' regular quotations. The effect of the above sale has been to impart more confidence to buyers of woolen goods, and to arrest the downward course of prices. The Trustee of the A. & W. Sprague Manufacturing Company has determined to close all the mills and print works, owing to the dulness of trade and low prices ruling for manufactured cottons. By this stoppage fully 10,000 operatives will be thrown out of employment. Jobbers have been doing a fair business for the time of year with near-by retailers, and orders from more distant points are coming forward in considerable amounts.

DOMESTIC COTTON GOODS.—There has been a moderate demand for staple goods for export, and some fair orders were placed for future delivery. The shipments from this port aggregated 97[illegible] packages, of which 453 packages were sent to Liverpool, 209 to New Grenada, 90 to Hayti, and the remainder in small lots to other countries. From first hands there was a steady movement in brown and bleached cottons of the best corporation makes, but transactions were individually small. Colored cottons were dull especially denims and cheviots, which were almost neglected. Cotton flannels received some attention from manufacturers, and some fair sales were reported; but it is yet too early to look for much animation in these fabrics. Grain bags remained quiet and there was only a moderate inquiry for carpet warps, yarns and twines. Print cloths were dull at 3⅜c. 30 days for extra 64x64 makes, some small sales having been made to speculators at a fraction below these figures. Prints ruled quiet, except new white-ground fancies and figured shirtings, which were in limited demand, and ginghams and cotton dress goods moved slowly.

DOMESTIC WOOLEN GOODS.—There was a better demand at the close of the week for heavy woolens for men's wear, and plain and fancy overcoatings, fancy cassimeres and suitings, worsted coatings, etc., were taken by clothiers to an important aggregate amount. Light-weight woolens continued inactive and irregular in price with agents, but were distributed in small lots by jobbers. Kentucky jeans, which have so long been sluggish, received a little more attention from intending buyers, and a few sales were made by means of price concessions. Cloths and doeskins were lightly dealt in, and satinets continued quiet. Flannels were generally quiet, but twilled makes were more sought for by shirt manufacturers who are about commencing operations for the fall. Carpets were sold in small lots by jobbers, but the demand from first hands was comparatively light. Worsted dress goods were dull, as were shawls and woolen hosiery.

FOREIGN DRY GOODS.—The movement in foreign goods has been exceptionally slow in all departments, so far as importers are concerned, and the jobbing trade has been quite moderate. In dress goods, grenadines alone were fairly active, but are selling at greatly reduced prices. Low qualities of black and fancy dress silks were taken with some freedom in the auction rooms, where also some important lines of ribbons and millinery silks were distributed. Linen goods are steadily held by importers, owing to the comparatively light supply, but some makes of white goods can be bought a trifle lower. Laces ruled quiet, and Llama points and sacques brought very low prices when offered at auction. Woolen goods for men's wear shared in the general dulness, and cassimeres, etc., are selling at unremunerative prices.

We annex prices of a few articles of domestic manufacture:

## FINANCIAL REFORM AND THE BURDENS OF OUR BANKS.

In the present condition and prospects of our national finances, it is surely no time for us to burden any part of our monetary machinery with unnecessary or unequal taxation. This principle was admirably argued on Thursday, before the Committee on Banking and Currency, by a delegation of the Bankers' Convention now in session at Washington. The specific grievance of which complaint was made is a very old one, but the reasons for its removal are, some of them, new, and they grow stronger every day. The pressure of the special taxes which are imposed upon the banks was severely felt during the war, when large profits were made by enterprising institutions on every kind of financial business; but, since the panic, the depression of trade has so greatly curtailed bank profits, by the low rates of interest which have so long prevailed, that it has become quite impossible for the banks to endure, without serious embarrassment, the burdens imposed on them by national and State taxation. It is on this account that they have now appealed to Congress. Their demand is that their taxes shall be diminished and made co-ordinate with their diminished ability to pay. They might have gone farther and strengthened their case, by demonstrating the mischievous character of all such taxes on banks and financial institutions as tend to impede the movements of capital. It is well known that in the United States, and in all new countries, floating capital is always scarce; and its movements are consequently sensitive and timid; we can, therefore, endure less fiscal pressure on our banking system than other nations, among whom floating capital is more abundant, and better organized. We have every motive of sound policy to induce us to leave our banks as free as possible from all needless taxation. Instead, however, of conforming to this obvious duty, we have imposed upon American banking institutions heavier taxes than have been ventured upon by the older countries of Europe. The subjoined statement, compiled by the Comptroller of the Currency, will serve to illustrate this point.

Such is the official report of the aggregate taxation of our national banks. They have to pay one per cent. a year upon their notes, one-half per cent. upon their deposits, and one-half per cent. upon the average amount of their capital not invested in United States bonds. No objection, we believe, is made to the tax on circulation. We have always contended that the privilege of issuing bank notes is a taxable one, and nearly all the authorities on fiscal science agree that it may very properly be subjected to government imposts. The opinion is equally general that bank deposits and loans should not be taxed. The deposits of our banking system comprise an important part of that floating capital of which, as shown above, we have in this country by far too little. To this defect is due in a considerable degree, the slow recovery of business and its present languid movements. As our supplies of floating capital

are inadequate to the wants of the country, is it not the part of wisdom for us to husband what we have, and not to check or hamper its movements by mischievous fiscal burdens? The following statistics show how large a part of the taxes imposed upon our national banks are derived from the deposits, and are therefore open to the objection that they not only impede and embarrass the banks, but also inflict mischief upon the productive powers of the nation. To these productive powers the free circulation throughout the country is just as important as is the free circulation of the blood to the mechanism of the human body. Mr. Payne announced the intention of the committee to prepare a bill next session for revising the bank taxes. It is hoped that he will do his best to establish as the fundamental maxim of our bank taxation that the deposits shall be free of all imposts and regulations, which are needless and tend to obstruct mischievously the monetary movements of our financial organism.

The third column of the foregoing table brings to light another vicious principle of the method of taxing our banks. We refer to the tax on capital. It is an accepted maxim of financial statesmanship that the banks should be encouraged to keep up large capitals. Mr. Gilbart and some of the practical authorities declare that the capital of the institutions in a banking system should bear a higher proportion to their deposits than is deemed necessary by other writers. But all agree that it is for the safety and strength of any banking system that its members should be encouraged to keep up a large capital, fully adequate to do its business safely. This principle has always been conspicuously recognized in our bank legislation in this country. The New York Clearing House Banks, since the panic of 1857, have shown their appreciation of it by the accumulation of a large surplus, in addition to the ordinary capital of the banks. The national banking law was the first statute, we believe, which attempted here, or abroad, to impose the obligation on all banks of accumulating such a surplus. Unfortunately some of the State governments have assumed the doubtful right of taxing this surplus. But Congress has itself done what is in principle almost as bad, by taxing the capital itself of the national banks. Such a tax discourages the banks from increasing their capital, and at the present crisis in our financial history this is a mischievous policy to adopt. The banks ought to be encouraged to increase their capital, by every means which a wise and liberal legislation can accomplish. It is true that the tax on capital does not reach that part of the capital of the national banks which is invested in Government bonds; and, heretofore, so large a portion has been so invested, that the tax has been less oppressive than seemed at first likely. But, under the recent legislation, which allows the banks to retire their bonds and give up their circulation, a much smaller proportion of the national bank capital will be locked up in Government bonds, and more of it will be set free to aid, by loans, the mercantile interests of the country. This capital, so released to fructify in the fields of commerce and trade, will now be subject to the tax we are considering, unless the liberal principle is adopted by Congress, which will relieve bank capital from taxation, and will make it as free in this country as it is in the older nations of Europe.

If we had space to exhibit, in its full force, the claims of the banks for relief, we might refer to the heavy taxation which is imposed upon them by the governments of the several States. This part of the fiscal burdens of our banks is so oppressive and unequal that it merits special investigation, for which we have, at present, neither opportunity nor leisure. We must also waive for the present the discussion of the fiscal burdens of our State banks and private bankers. Neither of these questions forms an essential part of the specific subject now before us, which is rather to consider what Congress can do for the relief of the fiscal troubles under which the banks are suffering. It may not, however, be improper to refer to the doubts which have been expressed whether the governments of the States are justified in imposing any tax whatever upon bank surplus. Congress, by a specific statute, has enjoined the national banks to accumulate such a surplus. Every national bank in the country is compelled by law to fulfill this duty, and to add to its surplus a certain proportion of its annual profits. Hence, it is denied that a State government has any right, under the Constitution of the United States, to punish the banks by a tax, for obeying a specific command of Congress. Without going so far as this, we may endorse the practical suggestion made by the bank delegation on Thursday, that Congress would, if possible, relieve the surplus from taxation by some specific enactment. If this could be done, it would tend, with other obvious reforms, to improve the position of the banks, to introduce sounder fiscal principles into our bank legislation, and to strengthen our financial system to meet the pressure which awaits it in its future progress towards specie payments.

## RETIRING NATIONAL BANK NOTES.

We gave in the CHRONICLE of June 10th the currency changes to June 1st, under the acts of June 20, 1874, and of January 14, 1875. That statement showed that $53,930,989 in greenbacks had been deposited in the Treasury from June 20, 1874, to June 1, 1876, for the purpose of retiring national bank notes. Through the kindness of Mr. Knox, the Comptroller of the Currency, we are now able to give the following analysis of that total, showing by what States these legal-tender notes had been deposited, the amounts by each, with the insolvent and liquidating banks given separately.

During the period covered by the statement, additional circulating bank notes have been issued to the amount of $19,579,915, making the excess of the withdrawals over the new issues $34,351,073. At the time of the passage of the Sherman bill, it was seen that these two opposite movements must be stimulated by it. Special circumstances have, however, contributed to give the greater force to the retiring, rather than the expanding, movement. It is simply a question of profit and loss. An instance which we have before given shows what is the extent of the temptation the banks are under to withdraw their currency. The case we refer to was a bank in Massachusetts of $150,000 capital. They had $100,000 of sixes of 1881 on deposit as security for its $90,000 of circulation; withdrawing the bonds, they sold

them at 123¾, and realized an increase of nearly $34,000 in available funds. So long as this inducement continues, the movement must progress.

The table referred to is the following:

| States. | Insolvent. | Liquidating. | Act June 20, '74. | Totals. |

| | $2,040,748 | $5,995 244 | $45.894,996 | $53.930,988 |

By the above, we see that of the $53,930,988 deposited, $8,035,992 are credited to insolvent and liquidating banks.

## COTTON ACREAGE IN THE SOUTH.

We do not claim entire accuracy in any acreage results. This year, however, we have sent out about two thousand circulars and letters, several into every county of the South, for the purpose of having before us as full returns as possible upon every point affecting the questions at issue. We are therefore perhaps better satisfied with what we present to-day than on any previous similar occasion. And we think we have collected together facts which are not only useful in this instance, but will always be found of use in interpreting weather reports and estimating crop prospects. Of course, to-day we mainly confine ourselves to results. But we intend, through the year, to furnish our readers more in detail with the information gathered. We expect to do this in a series of articles on the industrial condition of each Southern State, when we shall give the development and capabilities of the counties separately, and thus show, among other things, how we make up our present averages.

As the trade is aware, all information with regard to the extent of the planting in any season, is a result of comparisons with the previous year. We have no actual returns as to the acreage since the census of 1870, and hence each succeeding spring, we are one step further removed from known facts. In every report, we have stated that our percentages were intended to be an underestimate of the actual planting. Thus, year by year, the total acreage figures have become more and more inaccurate, until it was evident to almost every one that an error of considerable magnitude existed. Our purpose, therefore, this season has been to obtain the actual facts with regard to the last two crops. The figures we present are, we believe, as near the truth as it is possible to reach in any way other than through a government census. They are the result—first, of several letters of inquiry sent into each county of the South, and replies received to them giving in each case six special instances (with name and location) of acres planted and bales raised on those acres each crop; second, the estimate of two or more persons in each of said counties as to the average yield per acre; third, railroad returns of cotton carried from each station; fourth, reports from county assessors; and fifth, State census or agricultural reports. In all of these ways we have gathered as much information as we could, and if complete returns had been made us in each case, we are persuaded that there would scarcely be room for error. As it is, the results, though not issued as absolutely accurate, must be, we think, a very close approximation to the truth.

We assume, therefore, that our acreage report starts this year with the actual result of the two previous seasons. The facts, with regard to those seasons, thus obtained, we have thrown together in the following table, which shows the average yield of lint per acre, and the actual yield per acre and in gross, and the total acreage of each Southern State in 1874–5 and 1875–6:

| State. | Pounds lint per acre. | | | Actual acres. | | Actual yield. | |
|---|---|---|---|---|---|---|---|

| Tennessee | 178 | 178 | 100 | 740,000 | 700,000 | 300,000 | 160,000 |
| Total | ... | 167 | 149 | 11,885,000 | 11,816,000 | 4,500,000 | 3,833,000 |

☞ We have averaged the bales in above totals at about 440 lbs. net.

In obtaining the above facts we have to acknowledge our indebtedness to a very great number of persons, official and unofficial, in every State. As yet, very little that is reliable has been accomplished by any of the State authorities in gathering agricultural statistics, with one exception; and that is in Georgia, where Mr. Thomas P. Janes, Commissioner of Agriculture for the State, is doing an excellent work. His usefulness is increasing with his experience, and we trust that he will be encouraged and supported. We cannot dismiss this part of our subject, however, without recording one fact which our investigations have so prominently brought out, and that is the sad fruit of the ignorance which is still ruling in parts of the South. We have space to cite only a single illustration. South Carolina has been taking a census. We supposed, of course, that when we had obtained those figures thus gathered, our work in that State was complete. It was therefore with great satisfaction that we entered upon the study of the details in the various counties, with the intention of adopting its results. Turning, however, to the totals for the whole State, we found the absurd conclusions reached, that according to this census the entire number of acres under cultivation in all the counties of the State was only 459,895; that the number planted in cotton was only 196,784, and the number of pounds of cotton produced 1,177,732 lbs. long staple, and 27,153,871 lbs. short staple—or say, if we average the short staple at 440 lbs. net, and the long staple 200 lbs. net, per bale, the production of the whole South Carolina in 1874–5 was 67,601 bales! Comparing these figures with the United States census of 1870, their absurdity is further seen, as follows:

| | Acres of land Improved. | Acres in Cotton. | Cotton Produced. |
|---|---|---|---|
| U. S. census, 1870 | 3,010,539 | 601,704 | 224,500 |
| State census, 1875 | 459,895 | 196,784 | 67,601 |

Poor South Carolina indeed. The above figures are a very faithful and forcible commentary upon the fact, that, out of the 125 members of the lower branch of the Legislature of that State, 75 of the 95 colored members can neither read nor write; and of course therefore the appointees for census and all other purposes must be of like calibre. Can we or they expect material progress while intelligence is thus in slavery to ignorance?

### ACREAGE AND STAND IN 1876.

With these preliminaries, we proceed to state the conclusions our information leads us to, with regard to the acreage which has this year been planted, and the stand and prospects up to the middle of June.

### DETAILS BY STATES.

NORTH AND SOUTH CAROLINA.—We take these two States together, not because they are alike in most particulars, but for the reason that in changes of acreage and fertilizers used, the total results are very similar. The soil in North Carolina of course differs widely, and yet much of it is a light loam with a clay subsoil, which with proper culture appears to be very productive. In 1874, for instance, we have many returns which show even in the average counties a production of 1,000 pounds of seed cotton. Fertilizers are largely used in the most of the State, though in such a county as Pasquotank, none is really needed. *Fertilizers.*—There is a very decided increase in the home-made manures in both these States, but especially in the first-named, and no material change in commercial manures. *Acreage.*—A slight decrease, say about 2 per cent, in the acreage is also reported, but it is attended with and apparently caused by a desire for a more thorough cultivation of the balance. This feature is apparent in many other States, as we shall notice. *Stand.*—In North Carolina was never better. The plant is more advanced than last year, and is in fine condition. In South Carolina the condition is good, better than last year, but a few days later than an average season, though not so backward as last season. The rains of last week caused anxiety, but as they have now apparently ceased, the prospect is again, in both States, one of more than usual hope and promise.

GEORGIA.—This State has not had an average crop for two years, and with the very low prices ruling, the feeling throughout the State is one of very decided despondency. But still, like all communities similarly situated, the pressure of the times is leading to new economies and an enlarged production of the necessaries of life. *Acreage* in cotton has been decreased, but, according to our returns, this is not universal, some counties showing no decrease whatsoever. Still we have put the average for the State at 7 per cent, and have no doubt that will fully cover it. *Fertilizers.*—There is no falling off in commercial manures used, and a very decided addition to the home-made composts. The aim seems to be to cheapen the cost by increased frugality and higher cultivation. *Stand.*—The stand and condition are now excellent; never better. Spring was late, but with a dry May, planters were enabled to get their crops well under control, and the fields are now clean and the prospect very satisfactory.

FLORIDA.—The *acreage* in this State has fallen off somewhat, say on an average 2 per cent. *Condition.*—The plant is now in very fair condition, about the same as last year, though rather more advanced, with the fields well worked.

ALABAMA.—This State has had a better crop this year than for either of the two previous years, and raised more food last year than probably ever before. Consequently, though prices of cotton have been very low, the people have kept in pretty good spirits. *Acreage.*—There has been considerable change in the planting in the different counties, the poorer counties showing a falling off, but the more productive counties showing an increase. For instance, the important counties of Green, Perry, Marengo, Hale, Wilcox, Dallas and Lowndes are returned to us as having enlarged their planting from 7 to 10 per cent, while other good sections also give an increase, though generally to a less extent. To be safe, however, we place the average increase for the State at only 2 per cent over last year. *Fertilizers.*—Commercial manures are used in the State to a very limited extent. Of course, on the black, canebrake lands fertilizers are little needed, but on the thin, sandy and clay soils increasing attention is being given to home-made manures. *Stand.*—The condition and stand are now very good, though perhaps not quite equal to last year, when they were unsurpassed. The Spring was late, but after planting, the season was generally dry, warm and favorable, except in some sections where, for the ten days or more succeeding May 25, there was too much rain for the free progress of farm work. *Labor* is working well. There is an increase in labor reported to us in some of the more productive counties, brought from West Georgia and East Alabama this spring.

MISSISSIPPI.—A good crop and relief from the fearful incubus of a vicious and ignorant Government are the events of the year in this State. *Acreage.*—Naturally, as a result of such facts, there is an improved feeling prevailing in the State, and none of our returns show any decreased planting, but from the Yazoo region down they show some increase. It is quite difficult to reach a satisfactory conclusion for the State, but we put it at one per cent over last year, intending to underestimate rather than overestimate it. *Stand.*—The planting was not completed this year until from one to three weeks later than last year, and the crop was, up to the second week of June, in a very irregular condition of progress; some of it very good and forward, and some very backward. The latest information is best, reporting good stands and good condition, though much of it still backward.

LOUISIANA, according to the best information we have been able to obtain, is making less rapid progress than any other part of the Southwestern section. This is probably due to the unsettled state of political questions and conditions. Labor, however, has increased slightly in some of the northern and northwestern counties. *Acreage.*—As to cotton planting, the changes in acreage in some of the parishes would appear to be influenced by the relative prices or prospects of sugar and cotton. At least, we notice in the sugar counties this year less cotton is being raised, but as they never produce the staple largely, this change has comparatively little influence upon the total acreage. In the river counties we do not find, by latest accounts, much falling off in the planting. For instance, it was at first supposed that in Tensas parish very much less ground was to be devoted to cotton; we cannot learn now that this expectation is to be realized, either in that parish, or in Madison, or Carroll, or Avoyelles, which, together, give more acres to cotton than any other four parishes in the State—aggregating last year, with Caddo, according to our returns, about 250,000 acres, or one-fifth the acreage of the State. In Morehouse and that section there would seem to be a slight increase. Still, always wishing to keep our figures within what we believe to be the lowest possibility, we have put the acreage at 3 per cent decrease compared with last year. *Stand and Condition.*—The early season was unfavorable. Frost and cold and overflow all contributed to discourage the planter, and even now cotton is not as advanced as last year; but since the last week in May or about the first of June, the progress has been marvelous in most of the parishes, and the prospect now is very flattering.

TEXAS.—The development of Texas is constant. *Acreage*—that is, the total under cultivation—increases year by year with the increase of her labor supply, and this season is no exception. Probably 15 per cent or more new land has been put down to crops of different kinds in 1876. Grain, however, is becoming a great crop in the State. The magnificent success of the last two seasons, with the low price of cotton, has led many to devote more space to wheat and corn. But so far as we can learn, the best old cotton counties have not given up their previous proportion of cotton, while in some sections a very large increase is reported. Averaging the whole State, there would seem to be some enlargement in the acreage, though it is small; we give it at only 1 per cent—believing, however, that it is more than that. *Stand and Condition.*—Up to the latter part of May the condition of the crop was good, though ten days to two weeks backward; but since then the weather has been very favorable and the progress has been extremely rapid. Our latest advices report condition never better, and the plant now fully as advanced as in any former year.

ARKANSAS has made magnificent progress the past year. *Acreage* in 1875 was very considerably enlarged, not only in cotton, but in grain, and the crops were excellent. The planters, however, are by no means, as a general thing, as thrifty as in Texas. This year there would probably have been a further small increase in cotton acreage, had it not been for the flood; as a result of that, however, the acreage is now about the same as a year ago, or, say, one per cent decrease. *Stand and Condition.*—No State has had more satisfactory weather this season, up to the 1st of June, than Arkansas; since then there has been more rain than desirable, but the general condition at our latest mail dates was fully as good as last year, when it was unsurpassed.

TENNESSEE.—The improved crop of last year has somewhat encouraged the planters in this State. Consequently, we find a disposition to enlarge the cotton *acreage* on the best lands in Western Tennessee, notwithstanding the low prices ruling. In the middle of the State some slight decrease is indicated. Taking, however, all the cotton counties together, we think the average cannot vary materially from last year, and we therefore leave it unchanged. *Stand and Condition.*—The crop has made good progress this year, and the condition at the present time is fully up to, and probably a little better than, last year's condition.

### CONCLUSIONS.

*First*—In making up the table for the acreage of all the States this year, we of necessity go back and change the previous years on the basis of the figures we have now gathered, and which are given in the opening part of this article. We start with the census statement of 1870, which gives the planting for the spring of 1869, or the crop of 1869-70. Those returns must be accepted as correct. We have each year since stated that our figures were intended to be below the actual; hence we find reason for the gradual departure from the truth, and now for a corresponding increase in the totals. Therefore, in making the necessary alterations, we do it by taking the year for 1869-70, and the above table for 1874-5 and 1875-6 as correct, and distribute through the intervening years, with a nearly regular percentage, the present surplus found. This being done, we bring forward our percentages of increase and decrease for this year, as given in the above details, with the following result:

| | 1876. | | 1875. | 1874. | 1873. | 1872. |
|---|---|---|---|---|---|---|
| *States.* | *Inc. and Dec.* | *Acres.* | *Acres.* | *Acres.* | *Acres.* | *Acres.* |

| Arkansas. ... | —1 per cent. | 1,039,000 | 1,100,000 | 950,000 | 850,000 | 900,000 |
| Tennessee.... | no change... | 740,000 | 740,000 | 700,000 | 700,000 | 600,000 |
| Total..... | —1 per cent. | 11,745,600 | 11,885,000 | 11,316,000 | 11,150,000 | 9,560,000 |

This shows a decrease in the acreage this year of about 1 per cent, or a total acreage of 11,745,600 acres.

*Second.*—As to cultivation, the comparison with last year shows some differences. Everywhere this spring economy has been practiced; and this is seen in increased thrift or less "slovenliness" in cultivation. For instance, through the Atlantic States, and in a measure in other States, there has been more home made or home-saved manures used than ever before. This is a marked feature, forced by the hard times. Then, again, whatever decrease in acreage there has been, is found to be, almost everywhere, in the poorer lands; and in the Atlantic States the same amount of commercial fertilizers is used on the decreased acres, thus securing an increased product at a decreased cost for labor. Furthermore, the advances by commission houses have of necessity been less, which will make the interest account of the planter smaller; while food products are almost everywhere receiving greater attention. Altogether, the result must be that this cotton crop will cost less than any previous one.

*Third*—As to present condition, the comparison with last year is not so entirely favorable. It will be remembered that in June, 1875, the accounts from the Gulf States were extremely satisfactory. Now, in Texas, Arkansas, Tennessee, and in all the Atlantic States, the condition is equally good, and in some respects better; but in parts of Louisiana, Mississippi and Alabama the plant and field work are still somewhat backward, though the past two weeks have even in those sections improved the situation decidedly. In our details of each State, given above, these matters are more fully explained. The comparative condition may be briefly stated as follows:

| | 1876. | 1875. | 1874. | 1873. | 1872. | 1871. | 1870. |
|---|---|---|---|---|---|---|---|
| Texas | 100 | 98 | 96 | 89 | 93 | 85 | 100 |
| Louisiana | 92 | 100 | 93 | 85 | 94 | 60 | 100 |
| Mississippi | 95 | 100 | 93 | 86 | 94 | 78 | 100 |
| Alabama | 98 | 100 | 94 | 85 | 93 | 82 | 100 |
| Florida | 99 | 95 | 94 | 85 | 95 | 80 | 100 |
| Georgia | 100 | 98 | 95 | 89 | 96 | 90 | 100 |
| South Carolina | 100 | 96 | 94 | 88 | 96 | 94 | 100 |
| North Carolina | 100 | 96 | 94 | 88 | 96 | 92 | 100 |
| Tennessee | 100 | 98 | 92 | 85 | 89 | 92 | 100 |
| Arkansas | 100 | 100 | 92 | 85 | 89 | 92 | 100 |
| Average | 98·4 | 98·1 | 93·7 | 86·5 | 93·8 | 86·5 | 100 |

The above figures indicate the condition of each crop in the earlier weeks of its development, and show that the present crop, notwithstanding the unfavorable start in the Southwest, is one of great promise at the date of this report. We should add, however, that last week there were severe rains in Georgia and South Carolina, attended with floods, which some report have injured the prospect in those States. We have attempted to corroborate that report, but have failed to do so. Railroads and bridges appear to have been carried away, and corn and grain in some cases destroyed; but our present information is that very few bales of cotton will be lost to the crop from that cause. Later developments may, however, change this conclusion, and we only mention it now because it happened so recently we have not had time to inquire into the circumstances as fully as we could wish.

*Fourth*—The possibilities of the crop are perhaps scarcely worth indicating, for the actual depends so very largely upon other and future conditions unknown and uncontrollable. Still, that we may have before us the facts for comparison as the season advances, we give the following statement of the yield per acre each year since 1869–70:

| | *Acres planted.* | *Crop, pounds net.* | *Pounds per acre.* | *Bales in the crop.* | *Net w't per bale.* |
|---|---|---|---|---|---|
| 1869-70 | 7,833,000 | 1,381,800,000 | 176 | 3,151,946 | 438 |
| 1870-71 | 9.985,000 | 1,906,300,000 | 191 | 4,352,317 | 438 |
| 1871-72 | 8,911.000 | 1,303,700,000 | 147 | 2,974,351 | 439 |
| 1872-73 | 9,560,000 | 1,729,400,000 | 181 | 3,930,508 | 440 |
| 1873-74 | 11,150,000 | 1,830,800,000 | 161 | 4,170,388 | 439 |
| 1874-75 | 11,316,000 | 1,682,700,000 | 149 | 3,832,911 | 439 |
| 1875-76 | 11,885,000 | 1,980,000,000 | 167 | 4,500,000 | 440 |

It is not necessary to make any deductions from the above table.

—The *Railway Age* is the title of a new weekly railroad journal which has just made its first appearance in Chicago. Mr. George S. Bange, formerly Superintendent of the United States Railway Service, is the President, Mr. Charles F. Hatch, late Superintendent of the Lake Shore & Michigan Southern Railroad, Vice-President, and Mr. E. H. Talbott, formerly connected with the Chicago *Evening Post*, Secretary of the "Railway Age Publishing Company." The first number is very neatly gotten up and presents a fine typographical appearance, and starts out with a creditable show of editorial and news matter.

—The Money of all Nations Equalized, is the title of a useful little volume of seventy pages, prepared and published by Mr. D. William Diggs, of 48 East Fourteenth street, New York. The book contains a comparison of the values of the various coins of other countries in American gold, and also a table showing the value of the greenback dollar, with gold at various prices, and the currency rates of sterling exchange.

[From our own correspondent.]

LONDON, Saturday, June 10, 1876.

There is no feature of importance to notice in the money market this week. Although some anxiety is still felt with regard to the issue of the Turkish difficulty, yet a better feeling prevails, the deposition and death of Sultan Abdul Aziz having led to the hope that the new Sultan will be able to carry out the reforms which are pre-eminently necessary, and to reform the administration of the country to such an extent as to free it from foreign interference. The task is, undoubtedly, a difficult one, and one also which cannot be accomplished in a brief time; but it is hoped that the new Government will make a speedy and successful beginning, and put a stop to the present doubtful and unsatisfactory state of affairs. By the aid of Russian intrigues, the present condition of things may be long in finding a remedy, as it seems to be Russian policy to foment disturbance; but the news more recently received is to the effect that Russia is becoming more isolated, and that such are the jealousies which prevail, with regard to the future sovereignty of the Turkish empire, that Russia may eventually find herself alone at the critical moment, and may, moreover, find powerful enemies, including the British fleet and British resources, allied against her. Austria, Germany, Italy and Great Britain, and France, also, cannot afford to allow Russia to acquire so important a territory as the Turkish empire; and this ought to assure us that the peace which now exists will not be speedily broken. The British Government have, it is known, made up their minds to a decided and bold policy, and the course they have pursued has already obtained for them adherents among some of the leading foreign powers.

The supply of money seeking employment during the week has continued large, and there is still but little demand, either for commercial or financial purposes. The market must, therefore, be considered to remain in a dull state, although a slight degree of firmness has been occasioned by the uncertainty which exists with regard to political affairs. The position of the Bank of England has not materially changed. The proportion of reserve to liabilities now amounts to 50.07 per cent., against 51.39 per cent. last week. The principal alteration is an increase in the Treasury balance of £1,215,070, the total being £3,971,487, against £6,808,134 last year.

The following are the rates of discount at the leading cities abroad:

There has been scarcely any demand for gold for export during the week, and a considerable supply has been sent into the Bank; but, owing to the provincial demand for coin, resulting chiefly from the holidays, the supply of bullion at the Bank exhibits only a small increase. The total held by the establishment is £27,647,181, against £22,930,897 last year. The silver market has been dull, and prices are decidedly weaker. Annexed are the current quotations for bullion:

The supply of bullion held by the Bank of France now amounts to £80,977,870,

In the stock markets during the week—partly owing to the holidays, partly to political uncertainties, and partly to an indisposition to operate—a dull tone has prevailed, and the tendency of prices has been adverse. American railroad securities, especially the first mortgage bonds of the leading undertakings, have, however, been in request for investment, and their value has had an upward tendency.

The holidays have, to some extent, interfered with business in the wheat trade, but a firm tone has, on the whole, prevailed, and, in some instances, prices have further advanced 1s. per quarter. Millers, however, are still operating with considerable caution. The weather is moderately favorable, but the indications are rather strong that the harvest will be late.

The following figures show the imports and exports of cereal produce into and from the United Kingdom since harvest, viz., from September 1 to the close of last week, compared with the corresponding periods in the previous three years:

The official return, for the week ending June 3, shows that the deliveries of English wheat in that week in the 150 principal markets of England and Wales amounted to 42,594 quarters, against 43,309 quarters last year. It is estimated that in the whole Kingdom there were 170,400 quarters, against 173,300 quarters in 1875. Since harvest, the deliveries in the 150 principal markets have been 1,787,396 quarters, against 2,376,217 quarters; and in the whole Kingdom 7,149,600 quarters, against 9,505,000 quarters during the corresponding period of the previous season. The deficiency this season, compared with its predecessor, amounts, therefore, to 2,355,400 quarters. Annexed is a statement showing the quantities of wheat and flour placed upon the British markets since harvest:

| | 1875-6. cwt. | 1874-5. cwt. | 1873-4. cwt. | 1872-3. cwt. |

Our imports of wheat into the United Kingdom, from September 1 to May 31, amounted to 39,598,685 cwt., against 28,039,012 cwt. in 1874-5, and 31,141,196 cwt. in 1873-4. Of flour, there were 4,855,365 cwt., against 4,252,847 cwt. and 4,883,871 cwt. in the two preceding seasons, respectively. Those supplies were derived from the following sources:

The following return shows the estimated value of our imports of grain and flour into the United Kingdom since the commencement of last September, or since the completion of harvest:

| | 1873-4. | 1874-5. | 1875-6. |
|---|---|---|---|
| Wheat | £20,745,845 | £15,030,526 | £21,441,346 |
| Barley | 3,451,424 | 4,702,250 | 2,945,607 |
| Oats | 3,296,296 | 3,559,763 | 3,052,816 |
| Peas | 420,874 | 588,936 | 520,701 |
| Beans | 930,664 | 976,019 | 1,207,855 |
| Indian corn | 5,164,238 | 4,817,012 | 6,751,237 |
| Flour | 4,681,143 | 3,409,782 | 3,903,405 |
| Total | £38,7?0,984 | £33,104,338 | £39,832,967 |

The increase amounts, therefore, to as much as £6,720,000, compared with last season. In wheat, it reaches to £6,400,000; in Indian corn, nearly £2,000,000; but, owing to the diminished receipts of foreign barley, the total quantity imported is not valued at more than £2,945,607, against £4,702,250; being a decrease of £1,756,643. There is a falling off in the value of the oats imported of about £500,000, but flour shows an increase of similar extent. There is an increase in the value of beans imported of £250,000.

A meeting of the creditors of Messrs. Turner, Nott & Strong, corn and provision merchants, of Bristol and Cardiff, was held in Bristol on Wednesday. Mr. Clark, the Receiver, stated that proofs had been put in amounting to nearly £200,000, but this sum includes debts due to various banks for bills under discount, and it is expected that the amount to rank for dividend will amount to about £130,000. The assets are estimated at a little over £40,000. Mr. Nott offered, on behalf of the firm, a composition of 5s. 6d. in the pound—2s. to be paid immediately in cash, 2s. in three months, and 1s. 6d. in six months. After considerable discussion the offer was accepted.

The development of ship-building in Italy is indicated in the following table, showing the number of vessels, their capacity and value, turned out of the Italian yards during the last ten years:

| | Vessels. | Tons. | Value. |
|---|---|---|---|
| 1866 | 675 | 59,522 | £708,000 |
| 1867 | 642 | 72,257 | 876,000 |
| 1868 | 703 | 86,954 | 1,088,000 |
| 1869 | 683 | 96,010 | 1,108,000 |
| 1870 | 724 | 90,693 | 1,020,000 |
| 1871 | 803 | 69,128 | 726,000 |
| 1872 | 720 | 63,963 | 696,000 |
| 1873 | 637 | 65,544 | 740,000 |
| 1874 | 413 | 81,291 | 1,060,000 |
| 1875 | 337 | 87,691 | 1,108,000 |

It will be observed that although the number of vessels built has been greatly diminished during the last two years, the gross capacity and value has, on the contrary, increased considerably. In Italy, as elsewhere, the character of the fleets is gradually undergoing a transformation in accordance with the exigencies of modern commerce. The importance of Genoa as a ship-building port is evidenced by the fact that during last year 95 vessels, with a gross capacity of 64,178 tons, and valued at £640,000, have been built there.

**Texas & Pacific.**—Messrs. H. G. Stebbins & Son state that the Texas & Pacific Railway have completed the sale of $2,000,000 of their first mortgage 6 per cent. bonds to investors in New York and Philadelphia, securing thereby the completion of 444 miles of road, and making the connection complete between Texarkana and Marshall, and between Shreveport and Fort Worth. The Texas & Pacific will now connect through its whole length with the Cairo & Fulton at Texarkana, and with the International at Jefferson, and intersect the Missouri Kansas and Texas, and Houston & Texas Central, at profitable points. Contracts have been made for 12,000 tons of iron that will not exceed in cost $50 per ton, delivered on the line of the road, and the work will now be pushed forward with all speed.

**Valley (Va.) Railroad.**—After much negotiation, it was determined by the directors of this company to accept the latest proposition of Wm. Milnes, Jr., President of the Shenandoah Valley Railroad Company, for a temporary lease of the Valley road at $2,000 per month. The Baltimore *Sun* says: The present proposed temporary lease is to be subject to annulment on a notice of thirty days from either party, and is guarded by the condition of the lessee placing at least $30,000 of rolling stock on the road as security and such other provisions as would seem to make it safe enough to all the stockholders' interests, the city of Baltimore and the Baltimore and Ohio railroad being more largely concerned than any others, and the representatives of both having voted therefor.

**Pacific of Missouri.**—This road is advertised for sale under foreclosure of the third mortgage, on the 6th of September, at St. Louis.

—We take pleasure in commending to the attention of our readers the card of Messrs. R. M. Waters & Co., which appears in another column. In addition to their prominent connection with the banking interest, they do a large business in cotton as commission merchants only, it being their invariable rule never to speculate or operate on their own account.

—The National Trust Company will pay, on and after July 1 next, its usual semi-annual dividend of four per cent. Transfer books closed June 20. The officers of the Company, Mr. D. R. Mangam, President, and Mr. J. C. Cruikshank, Secretary, report the business of the concern as in a flourishing condition.

—The attention of cotton planters and Southern commission merchants is directed to the card of Messrs. H. J. Baker & Bro., 215 Pearl street, New York, a prominent house, importing and manufacturing the several chemical manures, which are approved fertilizers for cotton and other crops.

—The Illinois Central Railroad Company has declared a semi-annual dividend of four per cent. on its full paid shares registered at the close of the 14th July next, payable on the 1st day of August. Transfer books re-open August 5.

—The Hanover National Bank reports that at a meeting of the Board of Directors, held on the 22d of June, Mr. James T. Woodward was unanimously elected President in place of Mr. James Stuart, who resigned a short time since.

—The Metropolitan Savings Institution advertises its forty-sixth dividend to depositors in this issue of the CHRONICLE; it is six per cent., and is payable on and after July 19. This bank has a surplus of $522,755.

—The Bank of New York, National Banking Association, has declared a dividend of five per cent., free from tax, payable on and after July 1st next. Transfer books will re-open July 5.

—The Metropolitan National Bank pays a semi-annual dividend of five per cent. on the first Monday of July next. The transfer books remain closed until July 8.

—The Merchants' Exchange National Bank declares a dividend of four per cent., payable on and after July 1. Transfer books are now closed, but re-open July 1.

—The National Bank of Commerce has declared its usual semi-annual dividend of three and one-half per cent, payable on and after July 10th, next.

—The Tradesmen's National Bank pays a dividend of five per cent. on and after July 1.

### FRIDAY, JUNE 23, 1876—6 P. M.

**The Money Market and Financial Situation.**—The principal events bearing upon the general financial situation since our last report, have been the Republican nominations, and the resignation of Mr. Bristow and appointment of Mr. Morrill as Secretary of the Treasury.

As to the nominations, it is sufficient to say that the candidates are understood to be clearly on the side of a sound currency and in favor of a return to specie payments as speedily as may be, without injuring the business interests of the country by any sudden spasmodic movements. The change in the Secretaryship is thus far unaccompanied by important results, and financial circles are waiting with some curiosity to receive from the new Secretary any definite indications of his intended policy.

Our money market shows a course of unbroken ease, and call loans are made at 1½@3 per cent., according to the collaterals offered and the character of the borrower. The range of prime commercial paper is 4@6 per cent., and the demand for choice paper is active at the lowest prices made.

On Thursday the Bank of England report showed a gain for the week of £987,000 in specie, and the minimum discount rate remained unchanged at 2 per cent. The Bank of France gained in the week 14,005,000 francs in specie.

The last statement of the New York City Clearing-House banks, issued June 17, showed an increase of $1,446,425 in the excess above their 25 per cent legal reserve, the whole of such excess being $17,527,900, against $16,081,475 the previous week.

The following table shows the changes from the previous week and a comparison with 1875 and 1874:

| | 1876. | | | 1875. | 1874. |
|---|---|---|---|---|---|
| | June 10. | June 17. | Differences. | June 19. | June 20. |
| Loans and dis. | $249,470,700 | $246,862,100 | Dec. $2,508,600 | $275,217,500 | $279,067,500 |
| Specie | 15,729,100 | 15,318,200 | Dec. 410,900 | 11,653,300 | 19,934,200 |
| Circulation | 15,810,100 | 15,646,400 | Dec. 163,700 | 19,142,000 | 26,652,300 |
| Net deposits | 210,830,500 | 208,632,000 | Dec. 2,198,500 | 234,068,100 | 227,619,500 |
| Legal tenders | 53,060,000 | 51,350,000 | Inc. 1,300,200 | 68,900,200 | 61,833,600 |

**United States Bonds.**—Governments have been less active this week, and prices are a shade easier. This is partly due to the little uncertainty arising from the change in the Secretary of the Treasury, and the possibility that the new incumbent may endeavor to press vigorous funding measures; it is also partly owing to local causes—a run on the Dry Dock Savings Bank, and a slight yield in the gold premium. As to the policy of Secretary Morrill, it is suggested by some of our leading bankers that it would, at least, be a bold and extraordinary course to pursue, should he now, as a new officer, with a prospective term of about eight months, undertake the negotiation of a large amount of United States bonds abroad during the pendency of a presidential contest in this country, and the prevalence of an exceptionally sensitive condition in the financial centres of Europe. The Dry Dock Savings Bank run seems to be one of the most senseless affairs that has ever occurred, as the bank is reported to be abundantly strong, and has very large resources immediately available.

**State and Railroad Bonds.**—There has been considerable activity in some of the State bonds, and Tennessees have advanced about 1 per cent., while Louisiana consols, on considerable transactions, partly speculative, have jumped up to 70. A telegram from New Orleans gives the amount of these bonds already issued as $9,306,950; yet to be issued, $2,437,680; total, $11,744,630. On the offering of $3,373,117 stocks and bonds of the city of New York this week, the total bids amounted to $13,782,851. There were three separate bids for the whole $2,381,617 of 6 per cent. consolidated stock, and the award was made at 104.27 to Morton, Bliss & Co.

Railroad bonds have shown decidedly more activity, and there has been quite a general advance in prices. This is partly accounted for by the approach of July 1, when large disbursements are made for dividends and interest, and there is a good deal of money for re-investment. Then the condition of the stock market and the decline in some of the dividend-paying issues has turned the attention of certain operators towards the bond market as furnishing a channel for speculative purchases. The St. Paul and Northwest Railroad bonds and the Pacific issues have been most largely dealt in, as all these are out of the range of the present injurious railroad war. As to the Toledo Wabash & Western sale on June 10, it appears that the same is yet to be confirmed by the court, but as to the force or probable effect of the reported stay of proceedings, the statements seem to be somewhat mixed.

**Railroad and Miscellaneous Stocks.**—The stock market has shown the same variable and sensitive tone noticed in our reports for several weeks past. It is apparent that there is a heavy bear influence still exerted in the market, and this added to the real injury arising from the railroad war, and the uncertainties pertaining to the commercial situation, makes a combination of circumstances against the support of prices, which rather occasions surprise that the market is so well maintained. The course of affairs during the early months of the year was quite satisfactory for railroad property, and there has been nothing to change all this, except the present disagreement among the officers of the trunk lines, and the cutting in rates, which ought certainly to be of temporary duration. Lake Shore has been about the most active stock, and fluctuated from day to day as controlled by the prospect of an August dividend, or, on the other

hand, by the reports of Mr. Vanderbilt's illness. The Northwest, St. Paul and Rock Island stocks have been strong and active on reports of large earnings. Central of New Jersey has been conspicuous for weakness, notwithstanding the circular issued by President Johnston, stating that the company was in a prosperous condition; the company does not report earnings, and the absence of any figures showing operations, etc., took away much of the effect of the circular. Western Union closed steady at 67½ ex-dividend of 1½ per cent., although additional reductions have been made by the opposition line. New York Central sold to-day at 106.

**The Gold Market.**—Gold, having previously been steady throughout the week, yielded to-day to 112. The prospect of the coming disbursements in July, and the absence of any considerable support to the market, either speculative or otherwise, seem to be the principal causes for the decline. There has also been talk of probable transactions on a large scale by the new Secretary, but this would seem to be too indefinite to really affect the price. Gold loans to-day were at 1, 1½ and 2 per cent for borrowing, 1 and 2 per cent for carrying, and flat. Customs receipts of the week were $1,553,000.

The following table will show the course of gold and operations of the Gold Exchange Bank each day of the past week:

## ANNUAL REPORTS.

### Canton Company of Baltimore.

*(For the year ending May 31, 1876.)*

The following is an abstract of the recent annual report: Notwithstanding the unprecedented commercial distress and depression which has pervaded our whole country, and affected all departments of business, especially that of real estate and railway traffic, the prosperity of the Canton Company has been maintained, and the operations of the Union railroad have largely increased during the past year.

There is one important fact to which your particular attention is called. There has been no decline in the value of the landed estate owned by the company; indeed, the prices asked for our land have always been reasonable, and never have reached the inflated values attained elsewhere in and around other large cities; and, therefore, we are not now compelled to submit to or report a decline; on the contrary, much of the land of the Canton Company, by reason of the extensive railroad and other improvements, has largely enhanced in value. The sales and leases during the past year have been small, owing to the dulness of trade and the lack of disposition to engage in any new enterprise, but some of the leases made have been for manufacturing purposes, which, with one not yet executed, and therefore not reported, will bring considerable laboring population to Canton.

Other leases are under consideration which, if effected, will add a large revenue to the company.

The report of the Treasurer for the year ending May 31st, 1876, shows the total amount of sales and leases, at a valuation at six per cent., to be $45,333, of which amount, $27,306 was by sale of ground rents to the trustees of the sinking fund of the Union Railroad Company, which sum being paid over to the trustees of the mortgage bonds of the Canton Company enabled them, with other funds in hand, to redeem and cancel $41,000 of the bonded debt.

The report also exhibits a total income to the company from rents, etc., to be $80,133, being an increase over the previous year of $4,055, and an expenditure for the ordinary expenses of the company of $51,828, a reduction of expenses over the previous year of $13,002.

The following tabular statement of receipts and expenditures for the past seven years has been prepared, showing, first, the ordinary receipts and expenditures, and, secondly, extraordinary receipts and disbursements:

ORDINARY RECEIPTS AND EXPENDITURES.

| Year ending— | Receipts. | Expenses. |
|---|---|---|
| May 31, 1870 | $73,404 | $155,623 |
| May 31, 1871 | 74,482 | 47,230 |
| May 31, 1872 | 77,946 | 74,669 |
| May 31, 1873 | 76,939 | 118,425 |
| May 31, 1874 | 73,034 | 76,137 |
| May 31, 1875 | 75,178 | 61,831 |
| May 31, 1876 | 80,133 | 51,828 |
| Total | $527,119 | $190,747 |

The above revenue of $527,119 was received, notwithstanding during the years 1871 and 1872 $393,646, principal of ground rents, were deeded over to the trustees of the sinking funds, yielding annually $23,609; and of the above expenditures £200,000 have been expended in permanent improvements and betterments to the property of the Canton Company.

During the same seven years, the extraordinary receipts and expenditures have been as follows, viz.:

EXTRAORDINARY RECEIPTS AND EXPENDITURES.

| *Receipts.* | | *Expenditures.* | |
|---|---|---|---|
| From sales of real estate, houses, stocks, &c | $338,029 | For stock in Union RR. Co.. | $562,450 |
| From interest on loans, &c.. | 60,110 | Stock Chemical Co | 10,000 |
| From sale of bonds | 1,241,660 | Real estate | 93,858 |
| | $1,639,800 | Elevator and wharf | 123,540 |
| Add to the above— | | Loans to Union RR. Co | 624,836 |
| Ordinary receipts | 527,119 | Interest on bonds | 234,466 |
| | | | $1,654,152 |
| Total | $2,166,919 | Add to the above— | |
| | | Ordinary expenses | 490,747 |
| | | | $2,144,899 |
| | | Leaving a cash bal. in bank. | 22,020 |
| | | | $2,166,919 |

The sinking funds of the Union Railroad Company, and of the Canton Company, which originally were $593,646
Have increased by rents, &c 127,543
Making total at present $721,189

Of which amount $114,500 is invested in the first and second mortgage bonds of the Union Railroad Company, indorsed by the Canton Company.

In addition thereto, $32,000 of the Canton gold bonds, and $16,000 of the Canton sterling bonds, have been redeemed and cancelled, making a reduction of the mortgage debt of $48,000.

There are now outstanding, viz:

| | |
|---|---|
| Of the Union Railroad Company currency bonds | $900,000 |
| Of the Union Railroad Company gold bonds | 600,000 |
| Canton Company sterling bonds | 281,000 |
| Canton Company gold bonds | 343,000 |
| Total | $2,907,000 |
| Amount in sinking funds | 721,189 |
| Balance of bonded debt due by the Canton & Union Railroad Cos | $2,226,810 |

For the security of which debt the Canton Company not only has its extensive landed estate, embracing some 18,000 building lots in the city of Baltimore and in the county adjoining, and 900 acres of farm and wood land, with over three miles of wharf, dock, and valuable water front on the deep water of the harbor, but, in addition thereto,

| | |
|---|---|
| The Canton Company owns the Union Railroad, costing | $1,526,021 |
| Well-secured ground rents at 6 per cent | 458,603 |
| Warehouses, dwellings, and permanent betterments | 200,000 |
| Elevator and wharf improvement | 128,540 |
| Bills receivable and open accounts | 11,707 |
| Stock in Chemical Company | 10,000 |
| Cash in bank | 22,020 |
| Total | $3,356,892 |

The report of the business and traffic of the Union Railroad exhibits a very gratifying increase over last year, viz., 18,568 cars of freight against 11,303 for the year ending May 31, 1875, and 4,722 cars for the year 1874.

The gross revenue from all sources was $62,540.00 against $40,804 for 1875, making a net revenue, after deducting $32,126 for working expenses, of $30,414.50 against $8,354.32 for 1875; thus, the gross increase is over 53 per cent., and the net revenue 376 per cent. in advance of 1875, giving an earnest of what revenue may be expected during the year ending May 31, 1877.

When we duly consider all the extensive terminal railroad facilities provided and being provided and extended for railway traffic, what increase of revenue may not be reasonably expected from the Union Railroad within the next two years? An amount, we trust, sufficient to demonstrate beyond any cavil the ability of the Union Railroad Company, not only to liquidate all its own expenses and the interest on all of its bonds, but to give a handsome return to the Canton Company amply sufficient to pay every liability.

## GENERAL INVESTMENT NEWS.

**California Pacific—Central Pacific.**—A press despatch from San Francisco, June 20, says: In the case of A. Culotte, stockholder of the Central Pacific Railroad Company, against that company, Judge Morrison to-day rendered a decision, enjoining the directors from using the Company's money to pay interest on the bonds of the California Pacific Railroad Company to the amount of $1,600,000, indorsed by the Central Pacific Company. Judge Morrison gives it as his opinion that the guarantee of bonds of the Central Pacific Company is illegal and not binding on the corporation.

[It is remarked by parties familiar with this case that Judge Morrison always decides against the Central Pacific; and, moreover, that this interest may be paid by the California Pacific without any aid from the Central Pacific.]

**Canadian Pacific Railway.**—The *Sun* says: The Canadian Government has issued an advertisement saying that it expects to be able, on or before January, 1877, to invite tenders for building and working the sections of the Canadian Pacific Railway, between Lake Superior and the Pacific Ocean. This advertisement is published in Canada and England, its object being to induce contractors, who may be desirous of building, to make such examinations into the character of the country along the line of the projected road, as may enable them to intelligently frame their proposals. The act of 1874, under which the bids are invited, provides that contractors for the construction and working of the road shall receive lands, or the proceeds of lands, at the rate of 20,000 acres, and cash at the rate of $10,000 for each mile of railway constructed, together with 4 per cent. bonds, to run twenty-five years from the completion of the work, on any further sum which may be stipulated in the contract. This announcement, however, does not indicate any purpose of the Canadian Government to push the work to immediate completion, as the terms of the advertisement would naturally lead one to infer; for our neighbors in the Dominion have urgent objections to being taxed enormously to build an unproductive railroad for the benefit of contractors and political jobbers. Their present Government has determined upon the policy of building the proposed road only so fast as the resources of the country will permit; but, in the construction of such sections as are undertaken, to keep in view the feasibility of making them ultimately available for a complete road, if the great project should ever be carried through.

**Central Railroad of New Jersey.**—The President, under date of June 20, issues a notice to stockholders, in which he says:

The raid on this stock has been backed up by circulars and pamphlets of the most unprincipled character. If these are to be credited, the managers of this company, who, for the past twenty-eight years, have been careful to give their stockholders full annual reports, must have intentionally falsified these statements.

In the last annual report, it was distinctly stated that the coal strike of six months' duration had so materially reduced the business and profits of that year that only one-half of the dividends declared had been paid from the earnings of the year, the remainder having been made good from the surplus profits of the previous years. This was done with the expectation that in the Centennial year there would be a large revival of business, and, under the same belief, the spring dividend was made. The general depression has, however, continued, and has affected the anthracite coal business most sensibly; the transportation of coal has been limited to less than half of what the regions have the power to produce, and it is evident that, until the production can be largely increased, the profits of the business must be seriously impaired.

All this is a temporary matter, affecting for the time being the earning of dividends, but leaving the future of the company unchanged. The anthracite coal stocks have always been a favorite investment. Nothing was considered

more certain or of more abiding value than the hard coal deposits of central Pennsylvania, limited in area and of ever-increasing value.

The receipts of the current six months are very largely in excess of those of the same period last year. The Long Branch division is doing a large and profitable freight and passenger business. The receipts of the new line to Philadelphia are increasing daily. The new up-town ferry, at the foot of Clarkson street, is nearly ready for opening, and will be not only a great public convenience, but add largely to the business of the company. In fact, the prospects of the company were never better than at the present time.

As this circular is issued in response to numerous inquiries, and with a view of quieting the minds of stockholders, it is distinctly asserted that there is nothing discouraging in the outlook of the company. The movement in the stock has been entirely a bear movement, and carried on mainly by short sales of borrowed stock. The object now of the operators is to frighten stockholders into parting with their stock at low prices and thus enable them to realize a profit on their sales. So far comparatively little stock has been drawn out.

It would have been satisfactory, if this statement had been accompanied with figures showing the company's operations for five months.

**Chicago & Pacific.**—The Chicago *Inter-Ocean* says: A report was filed on the 12th inst. by John M. Whitman, Receiver of the Chicago & Pacific Railroad Company, appointed in the suit of the Lackawanna Iron and Coal Company and others, against the above railroad company and others, in which he gives a statement of the affairs of the company as he found them on taking possession of the property. There are not enough freight cars, and two trains were abandoned last week on that account. The receiver recommends the purchase of twenty-five box cars at once. The following is a list of the amounts required to be expended immediately:

| | |
|---|---|
| For purchase of rolling stock | $102,250 |
| Ballasting and repairs of track | 10,000 |
| Right of way claims | 12,000 |
| Back pay rolls (2 months) Debbins & Co. | 21,000 |
| Wells, French & Co | 2,810 |
| American Bridge Co | 15,000 |
| Judgments against the company | 41,000 |
| Taxes | 5,000 |
| | $209,090 |

The receiver also filed yesterday a petition referring to the statements already made in the foregoing report. He wants $175,000 at once. He has received $610 33 in cash, and $8,952 15 on account of earnings, of which he has still $4,600 on hand. In his opinion, when the rolling-stock is put in good shape, his gross monthly receipts will be from $25,000 to $30,000, but he cannot wait to pay the amounts above stated to be needed from this source. The complainants in the present foreclosure suit, creditors to the amount of $1,700,000 out of the $2,000,000 of bonds issued, are willing to advance all the money needed, if the Court authorizes the receiver to make the loan and give certificates of indebtedness to constitute a prior lien over all receipts except the back and other pay of operatives.

Mr. Whitman, therefore, asks the Court to authorize him to borrow $175,000 and give certificates of indebtedness in sums of $1,000, payable in twenty-four months, with interest at 10 per cent., to be paid out of the first earnings. Out of this amount he wishes to be authorized to expend $102,250 in the purchase of rolling stock, $10,000 in necessary repairs, $5,000 in taxes. Also, to pay the arrearages due employees, for rights of way and liens on bridges.

**Cincinnati & Martinsville.**—Indianapolis, June 20.—The Cincinnati & Martinsville Railroad was sold at Franklin to-day, at the suit of the Eastern bondholders. It was bought in for the bondholders by Edward Pierce and William Goddard, trustees, for $10,000.

**Cincinnati & Muskingum Valley.**—At the annual meeting in Zanesville, O., June 13, the stockholders requested the board of directors to take the necessary steps to terminate the existing lease of their road to the Pittsburg Cincinnati & St. Louis Company, under the conviction that better results could be obtained if the operation of the road were conducted by the corporation itself.

**Cincinnati & Terre Haute.**—Notice of the sale of this road in foreclosure is given for the 8th day of August next, at Terre Haute.

**Colorado Central.**—Referring to recent statements that the Union Pacific Railroad Company had lost control of the Colorado Central Railroad, an officer of the former corporation states that the Union Pacific company practically owns the latter road. There are 12,000 shares of Colorado Central Railroad stock, of which the Union Pacific Company owns 9,350 shares. At the last election E. H. Rollins, Secretary of the Union Pacific Railroad Company, forwarded the company's proxies, but failed to attach the necessary seal. The inspectors refused to receive the proxies, and some officials who were voting on securities owned by the counties through which the road runs, put in their own board of directors. In addition to the stock mentioned above, the Union Pacific Railroad Company owns $1,106,000 of the first mortgage 8 per cent. gold bonds of the Colorado Central Railroad.

**Georgia State Bonds.**—Of the $500,000 recently sold, the Atlanta *Times* says: The bids considerably exceeded this amount, and several parties were thus deprived of the supply they desired. The bids were all at a premium, the highest being 101½. The largest purchasers of bonds were the following parties: Moran Brothers, New York, $120,000; Backer & Cohen, New York, $100,000; John H. James, $50,000; John E. Jones, President Central Bank of Macon, $50,000; John J. Gresham of Macon, $50,000; Cotton States Life Insurance Company, $35,000; William Henry Woods, Savannah, $155,000; General A. R. Lawton, Savannah, $15,000. The remainder of the bonds was sold in quantities varying from $2,000 to $5,000 to citizens of Georgia. The highest premiums were bid by citizens of Georgia, and the larger portion of the bonds was allotted to them.

**Gilman Clinton & Springfield.**—The sale of this road took place in Springfield, Ill., June 10, pursuant to notice, and the property was bought in for $1,500,000 by George Bliss and Chas. S. Seyton, for account of the bondholders. Out of $2,000,000 bonds, $1,961,000 are represented in the purchase.

**Illinois Midland.**—At Decatur, on the 14th, the Midland railroad case came up again. Defendant filed new pleas, which were demurred to. The demurrer was sustained by the court, and a judgment of ouster against the Midland company to so much of that road as was known as the Paris & Decatur road was awarded to the people. The defendant then took steps to take the case to the Supreme Court.

**Iron Mountain Chester & Easton.**—The United States Circuit Court at Springfield, Ill., has appointed Mr. Charles B. Cole, of Chester, Ill., Receiver, on application of the bondholders. This action was taken to prevent the sale of the road in some actions for debt.

**Louisville New Albany & St. Louis.**—A despatch from New Albany, Ind., June 20, says: At the sale of the Louisville New Albany & St. Louis Air-Line Railway, this afternoon, J. J. Brown became the purchaser, at the nominal sum of $18,000, for the bondholders.

**Maryland and Delaware.**—The Easton (Md.) *Ledger* says: "Although a decree for the sale of this road has just been granted by the Circuit Court of this county, it is also necessary, before any sale can be made, that a similar decree pass the courts of Delaware for the sale of the portion of the road running through that State; hence, the probability is that said sale cannot be effected for some time to come.

**Nashville Chattanooga and St. Louis.**—The earnings and expenses in May and for eleven months were as follows:

| | Gross earnings. | Expenses. | Net earn's. |
|---|---|---|---|
| May, 1875 | $108,967 | $31,063 | $25,901 |
| " 1876 | 143,424 | 93,420 | 429,99 |
| Eleven months to June 1, 1875 | 1,585,495 | 1,097,948 | 487,546 |

**New Jersey Midland.**—The Railroad *Gazette* says: We are informed that the statement that the Chancellor of New Jersey had admitted the second and third mortgage bondholders as parties in the foreclosure suit was not quite correct. The suit is in the name of George Opdyke and George S. Coe, trustees under the first mortgage, but it appeared to the Balestier Committee that a claim for re-payment of the coupons for February and August, 1873, believed to have been paid by the then lessee, could be made, and it was thought best for the committee to appear in Court for the purpose of rectifying the bill so far as this matter was concerned. The committee accordingly made its appearance and was recognized by the Chancellor for the purpose stated.

—The road has been for over a year in the hands of Messrs. G. A. Hobart and J. W. McCullah, as receivers in a suit now pending before the Chancellor of New Jersey for foreclosure of the first mortgage.

From figures furnished by the receivers the following account is obtained, covering the fourteen months and twenty-three days from March 8, 1875, the date of their appointment, to May 31, 1876:

| | | |
|---|---|---|
| Balance on hand March 8, 1875 | | $261 47 |
| Receipts from passengers | $143,257 73 | |
| Receipts from freight | 462,617 45 | |
| Receipts from mail, express, telegraph, etc. | 44,423 51 | |
| Total receipts on operating account | | 650,298 72 |
| Receipts from loans | $166,126 67 | |
| Less payments on loan account | 137,990 98 | |
| | | 28,195 69 |
| Total receipts | | $678,755 88 |
| Supplies, working expenses, pay-roll, Pa. R.R. terminal charges, etc. | $559,757 51 | |
| Middletown Unionville & W. G., lease account | 60,012 02 | |
| Equipment account | 17,554 89 | |
| Ties and rails | 26,770 56 | |
| Right of way claims | 14,099 54 | |
| | | 678,224 52 |
| Balance, May 31, 1876 | | $531 36 |

The account gives only actual cash receipts and disbursements. The road was, when the receivers took possession, utterly bankrupt and broken down so that trains had ceased to run with any regularity, and there was an actual lack of fuel and supplies for daily use. During the period covered by the report, the condition of the road has been much improved, payment for the equipment provided for, some additional equipment secured, and the business established and consolidated.

**New Orleans City Bonds.**—The Secretary of the New Orleans Stock Exchange furnishes the following statement in relation to conversions of old New Orleans city bonds into city premium bonds, and what coupons should be on city bonds to entitle them to be considered a good delivery. The interest on old bonds ceases July 1, 1875.

To convert old City bonds into premiums.

Gold bonds, G. S. must have October, 1875, coupon on. Half each of January and April, 1875, coupons can be collected in cash from city and the ½ paid coupons and full July coupon retained.

Gold bonds, D. S. must have October, 1875, coupon on. Full coupons of January, April and July, 1875, should be retained.

Of the RR. Issues, past due—Half interest due to July, 1875, will be paid in cash to parties funding, balance of interest to be ordinanced for.

Of the RR. Issues extended— Half interest due from last coupon to July, 1875, will be paid to parties funding, balance to be ordinanced for.

Of the RR. Issues, Pontchartrain must have January, 1876, coupon on. Half of July, 1875, coupon can be collected in cash from city and half-paid coupon retained.

The Waterworks, same as issues to Pontchartrain RR.

Old 7s, 1869, must have September, 1875, coupon on, and if half paid, will receive $5 83 cash per $1,000. If these half-paid coupons are with bonds, the amount of half payment already made will be in full to June 1, 1875. Paying the holder $5 83 is one month's additional interest, or to July 1, 1875.

New 7s, 1870, must have December, 1875, coupon on, and will receive $5 83 cash per $1,000, being for the first month of Dec. coupon, or in full to July 1, 1875.

Tens of 1871 must return October, 1875, coupon, half paid or cash. This coupon is for April to September, inclusive. The half payment made is in full for half that time, or to July 1, 1875; consequently this half-paid coupon must be returned to the city, or its par value in cash.

The 7-30 Street Improvement will have August, 1875, coupon stamped "half paid" and returned, and receive $12 16 cash per $1,000. Half this coupon is $18 25, of which the city retains $6 09 for July interest, and returns the balance, $12 16, and the half-paid coupon.

Jefferson City, 1857 and 1870, must have January, 1876, coupon on, previous coupon being to July 1, 1875.

Jefferson City, 1867, must have December, 1875, coupon on, and will receive $6 66 cash per $1,000, being one month's interest to July 1, 1875.

Carrollton must have November, 1875, coupon on, and will receive $13 33 cash per $1,000, being two months' interest to July 1, 1875.

All full and half-paid coupons, prior to those required to be on, belong to holder of old bonds, and should be detached before funding.

The coupons being paid by the city are: Consolidated, January, 1876, in full; railroad, with coupons, half to July, 1875, inclusive; 10s, 1871, half October, 1875; 7-30 street improvement, half February, 1875; gold g. s., half each January and April, 1875; old 7s, 1869, half each March and September, 1875; new 7s, 1870, half June, 1875; Carrollton, half each November, 1874, and May, 1875; waterworks, half July, 1875; Jefferson City half December, 1874.

Half interest to July, 1875, is paid on railroad issues without coupons, only to parties converting old bonds into premiums.

Where there is no understanding to the contrary, city bonds to be a good delivery should have coupons as follows:

| Bonds. | Due. | | Coupons. | |
|---|---|---|---|---|
| Consolidated | January, | 1893. | July, | 1876 |

**New York & Boston.**—The second meeting of the bondholders of the New York and Boston Railroad was held this week. Louis May presided. The *Tribune* report says: About $4,000,000 have been expended on the railroad, which extends from the Harlem River to Brewster's, in Putnam County, a distance of 52 miles. The holders of the first mortgage bonds, amounting to $2,500,000, have agreed to exchange them for preferred stock, and the holders of the second mortgage bonds, amounting to $500,000, are to receive common stock in exchange for their bonds. The committee, which was previously appointed to report in reference to a reorganization, stated through its Chairman that the name had not been fully decided upon, but it would be either the New York & Westchester Railroad, or the New York Westchester and Putnam Railroad. Henry A. St. John, the chief engineer of the New York & Boston Railroad, said he had examined the road very carefully and found the road-bed in a good condition. He estimates the expense of completing and equipping the road at $846,500. The committee advised the issue of $1,250,000 of first mortgage bonds, to be issued to the stockholders at 85 cents on the dollar. It was suggested that the issue of $1,250,000 was too great, and that the amount be fixed at $1,000,000. The subject was recommitted to the committee, to report at a future meeting. The committee also recommend that no contract be entered into, or anything done to incur indebtedness, until a sufficient amount of money shall have been subscribed, or the bonds placed in payment for the work.

**Savannah & Charleston.**—A letter from Captain William A. Courtenay to Attorney-General Stone, says: "I have procured from the clerk of the court certified copies of the accounts, and find conspicuous errors, well calculated to arrest attention. This property was suddenly seized on the 28th of April, 1874, by a decree of the late Judge Graham, and was placed in the hands of a receiver and an advisory board, nominated and maintained in absolute control by the court, all vacancies in the board filled by it, and to all intents and purposes charged with the management of the trust estate. Under these circumstances, I venture to lay before you, as the chief legal adviser of the State, the accounts just as made by Receiver C. T. Mitchell, and certified by the clerk of the court as true copies of the originals." After giving the accounts in detail, the letter says:

"It appears that Receiver Mitchell started with $6,482 when he went into office on 1st May, 1874. His last quarterly account, dated May 1st, 1876, shows a debit balance of $15,188, which, however, is nominal in its character, as by a foot-note appended thereto it is all disposed of to a cent.

"I respectfully submit a general balance sheet for the period under review, carefully taken from the accounts above referred to, and computed by one of the best accountants in this city:

**Taxation of Railroad Lands**—*Sioux City & St. Paul Railroad Company vs. County of Osceola.*—This is an action to restrain the collection of taxes for 1873 on lands granted to the Railroad Company, and to declare the same illegal and void. Did the plaintiff, at the time the taxes were levied, hold such an interest or title in the lands that they were subject to taxation? Under the Act of Congress of May 12, 1864, granting to the State, lands for the use of railroads, the State is only a trustee, and acquires no title to the land until the terms of the grant are complied with by the Railroad Companies in the building of the road, and on the issuance of a patent. The Railroad Company acquired no title to the land until it had earned it by the building of the road, and on receiving a patent from the State. Although, under the act of the Eleventh General Assembly, the Company had earned the land, and were entitled to the land, it was not until the Fifteenth General Assembly (1874-5) that the Governor was directed to issue a patent to the Company. Hence the title did not vest in the Company until then, and therefore the taxes for 1873 assessed against the Company were invalid. The Court, however, said it would be competent for the county to show fraudulent design on the part of the Company in delaying to procure the patent and title, to evade taxation.

**Town Bonds in New York State.**—Judge Wallace, of the United States Circuit Court, has recently given a decision in the suit of Joseph P. Cooper against the town of Thompson, an action brought to recover the amount of coupons upon bonds issued by the defendants in aid of a railroad company, and in which verdict was rendered for the plaintiff, and motion for new trial made. Judge Wallace says: "Conceding, for the purpose of this case, that the bonds to which the coupons in suit were originally attached were issued in contravention of the statute which authorized the town to lend its aid to the railroad, the defense is untenable by force of the act legalizing the acts of the commission in issuing and disposing of the bonds. That act validates the action of the commissioners in issuing the bonds, and in exchanging them for the stock of the railroad company, and declares that no bonds held by any person 'in good faith and for a valuable consideration, shall be void or voidable by reason of any defect or omission in the consents of the taxpayers.' * * * The power of the legislature to validate such bonds is established by repeated adjudications, and is not contested here; but it is asserted that the plaintiff is not a holder in good faith or for a valuable consideration, and therefore not within the protection of the act." In conclusion, he says: "It may be necessary to resort to the bonds to which they were originally attached to prove the execution of the coupons, but this does not deprive them of their negotiable character. Payment or cancellation of the bond will not defeat the rights of a prior holder of the coupons. The motion for a new trial is denied, and judgment ordered for plaintiff upon the verdict."

**Wabash & Erie Canal.**—The Special Master reports to the United States Circuit Court that the purchasers of the canal from Lafayette to the Ohio line have refused to complete their purchase, unless certain lots and lands which they claim belong properly thereto, but which were sold separately, are included in the transfer. The Master asks that the court decide this question and enable him to conclude the matter. Most of the parties who bought the outlying tracts of land have fulfilled the conditions of sale, but a few have not. The Master asks authority to sell at private or public sale those tracts the purchase of which was not completed, and also some property withheld from sale as being covered by leases, with privileges of purchase attached.

## COMMERCIAL EPITOME.

FRIDAY NIGHT, June 23, 1876.

The volume of trade the past week has been at a full average, considering the stage of the season. Confidence in values seems to be growing, and the needs of the country are asserting themselves. Little doubt is felt that after the coming Centennial holidays shall have been duly observed, and the principal political movements of the Presidential campaign are gone through with, a marked revival of business may be expected. There have been excessive rains in the Northwestern and the Atlantic States, from which the wheat crop has suffered some injury, but not enough (it is generally believed) to affect the general promise of a bountiful harvest. There have been floods in Southern rivers, which have done some local injury, and the Mississippi River has risen again, between Cairo and Vicksburg, but the local press does not anticipate an overflow.

The speculation in pork and lard has again turned towards lower prices, with much excitement and wide fluctuations. The depression has been caused by large arrivals of swine at the Western markets, and notably at Chicago; but in bacon and minor articles of cured meats prices have ruled firmer, on light local supplies and an improved demand. To-day, mess pork sold at $19 35 on the spot, and the closing bids for future delivery were $19 00 for July, $19 40 for August, and $19 50 for September, showing a comparatively steady market. Lard sold at $11 45 for prime Western steam on the spot, and the closing bids for future delivery were $11 40 for July, $11 55 for August, $11 65 for September, and $10 32½ seller the year, and the close rather flat. Beef and beef hams have been moderately salable at full prices. Tallow has been fairly active at 8⅛@8¼c., the latter price for choice. Stearine has been more active, at 13¾c. for prime Western. Butter has lost a portion of the recent advance, and closes at 20@27c. for good to prime State. Cheese has declined to 8@10½c. for State factories.

In Rio coffee there has been a further advance of ¼c., to 17@18¼c. gold for fair to prime cargoes. A good business has been done, while only one cargo has arrived, reducing the stock 102,400 bags, and the visible supply for the United States to 213,100 bags. Mild grades are unchanged, and the stock of bags is 49,400; but of Java a large sale has been made, by which the stock is reduced to 121,500 mats. Rice has been quiet. Molasses has sold to a moderate extent for grocery grades, but refining grades have been quiet. Sugars have ruled very firm, with more activity at the advance; fair to good refining, 7⅞@8c. Refined was held higher, but as trade was not maintained, the close is without improvement, at 10½c for standard crushed.

Foreign fruits have remained dull. The auction sales of teas have gone off at steadier prices.

The market for Kentucky leaf tobacco has been quiet, the sales for the week aggregating only 400 hhds, of which 250 for export and 150 for consumption. Prices have ruled firm; lugs 6@8c, and leaf 9@18c. Seed leaf has been offered more freely, and considerable activity can be noted. Sales for the 1,639 cases as follows: Crop of 1871, 61 cases New England, private terms; crop of 1874, 258 cases Ohio, 6@6½c, 100 cases New England, private terms; crops 1874 and 1875, 80 cases Wisconsin, private terms, and 160 cases Pennsylvania, part at 8½c.; and crop of 1875, 187 cases Ohio at 5@5½c., and 443 cases Pennsylvania and 150 do New England, on private terms. Also 200 cases sundry lots at 7@35c. Spanish tobacco has been quiet; sales 400 bales Havana at 88c@$1.15.

There has been a pretty good business in ocean freights during the past week, both in berth and charter room; so much so that at the close a pretty steady tone prevails, under the reduced offerings of tonnage. Late engagements and charters include: Grain to Liverpool, by steam, 8½d.; cotton, 5-16d.; provisions, 40@55s. per ton; grain, by sail, 7d.; cotton, 9-32d. Grain to Glasgow, by steam, 8½@9d. Provisions to Bristol, by steam, 55s. per ton; do., to London, 50s. Grain to Cork, for orders, 6s. per qr.; do. to Cardiff and Bristol, 5s. 6d.; do. to Lisbon, 15c., gold, per bushel. Refined petroleum to the Baltic, 5s.@5s. 1½d.; do. to Spanish ports, 4s. 6d., and 24c. for cases; crude do. to Havre, 4s.; quite a number of large ships from Baltimore to Antwerp or Bremen, 4s. 7½d. To-day, business was rather moderate, but rates were generally steady. Grain to Liverpool, by steam, 8¼d.; cotton, 9 32d.; grain, by sail, 7¼d.; cotton, 9-32d., as it runs. Grain to Penarth Roads, for orders, 5s. 9d.; refined petroleum to Bremen, 4s. 3d.; do. to the Baltic, 5s.; do. to Santander, 5s., and cases 25c.; do. in bbls. from Philadelphia and Baltimore to the Baltic, 5s. 3d. @5s. 6d.@5s. 9d.

In spirits turpentine there has latterly been a pretty good business, and at the close was steady at 30c. Rosins were quiet but steady at $1 70@1 75 for common to good strained. Petroleum has been active and higher, with crude, in bulk, closing at 8¼c., and refined, in bbls., at 15c, with 15,000 bbls. sold at the latter figures. Ingot copper is quiet and generally quoted at 19½@20c., cash, for Lake. In American pig iron, there have been sales during the week of 1,500 tons No. 2 at $20, and 1,200 tons No. 1 at $21@23. Whiskey has been firmer, but closes unsettled.

## COTTON.

FRIDAY, P. M., June 23, 1876.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening (June 23) the total receipts have reached 10,493 bales, against 8,444 bales last week, 10,456 bales the previous week, and 13,810 bales three weeks since, making the total receipts since the 1st of September, 1875, 4,047,550 bales, against 3,451,826 bales for the same period of 1874–5, showing an increase since Sept. 1, 1875, of 595,724 bales. The details of the receipts for this week (as per telegraph) and for the corresponding weeks of five previous years are as follows:

* *New Orleans.*—Our telegram to-night from New Orleans shows that (besides above exports) the amount of cotton on shipboard and engaged for shipment at that port is as follows: For Liverpool, 9,000 bales; for Havre, 6,500 bales; for Continent, 2,000 bales; for coastwise ports, none; which, if deducted from the stock, would leave 63,500 bales representing the quantity at the landing and in presses unsold or awaiting orders.

† *Galveston.*—Our Galveston telegram shows (besides above exports) on shipboard at that port, not cleared: For Liverpool, no bales; for other foreign, no bales; for coastwise ports, no bales; which, if deducted from the stock, would leave remaining 7,994 bales.

‡ The exports this week under the head of "other ports" include from Boston 908 bales to Liverpool; from Philadelphia 1,282 bales to Liverpool.

From the foregoing statement it will be seen that, compared with the corresponding week of last season, there is a *decrease* in the exports this week of 4,932 bales, while the stocks to-night are 88,378 bales *more* than they were at this time a year ago. The market for cotton on the spot has been variable in tone, but, up to the close of yesterday's business, there had been no change in the official quotations of the New York Exchange; middling uplands remained at 12¼c. On Monday, it would not have been easy to buy, and on Wednesday not easy to sell at quotations. Liverpool advices have been rather disappointing; that market seems to have been a little surprised and disconcerted by the freedom with which New Orleans and New York had sold on the publication of the estimates of reduced acreage for the next crop. To-day, the market was quiet and prices nominally unchanged. For future delivery, the week opened with an appearance of buoyancy; but on Monday, Liverpool accounts were not so strong as was expected, and there was a cessation of the heavy rains, which had caused floods of considerable local importance in South Carolina and Georgia. The demand fell off, and the transactions for the week aggregate the smallest reported in several months. The decline of Tuesday and Wednesday was partially recovered yesterday, but without developing speculative confidence or any considerable activity. To-day, with a decline in Liverpool, and lower gold, futures lost the advance of yesterday, and closed with very little change from last Friday; the autumn months were, however, slightly lower.

The total sales for forward delivery for the week are 73,800 bales, including —— free on board. For immediate delivery the total sales foot up this week 6,603 bales, including 1,588 for export, 3,703 for consumption, 1,312 for speculation, and —— in transit. Of the above, —— bales were to arrive. The following were the closing quotations to day:

* This is the stock by actual count, and is 551 bales less than the estimated stock.

The above totals show that the old interior stocks have *decreased* during the week 6,170 bales, and are to-night 20,232 bales *more* than at the same period last year. The receipts at same towns have been 383 bales *more* than the same week last year.

BOMBAY SHIPMENTS.—According to our cable despatch received to-day, there have been 1,000 bales shipped from Bombay to Great Britain the past week, and 19,000 bales to the Continent; while the receipts at Bombay during this week have been 20,000 bales. The movement since the 1st of January is as follows. These are the figures of W. Nicol & Co., of Bombay, and are brought down to Thursday, June 22:

| | Shipments this week | | | Shipments since Jan. 1 | | | Receipts | |
|---|---|---|---|---|---|---|---|---|
| | Great Britain. | Continent. | Total. | Great Britain. | Continent. | Total. | This week. | Since Jan. 1. |
| 1876..... | 1,000 | 19,000 | 20,000 | 496,000 | 303 000 | 793,000 | 20,000 | 954,000 |
| 1875..... | 30,000 | .... | 30,000 | 712,000 | 379,000 | 1,091,000 | 10,000 | 1,207,000 |
| 1874..... | 22,000 | 8,000 | 30,000 | 639,000 | 387,000 | 1,026,000 | 7,000 | 1,181,000 |

From the foregoing it would appear that, compared with last year, there is a *decrease* of 10,000 bales this year in the week's shipments from Bombay to Europe, and that the total movement since January 1 shows a *decrease* in shipments of 298,000 bales compared with the corresponding period of 1875.

WEATHER REPORTS BY TELEGRAPH.—The weather the past week has been favorable almost everywhere, and the crop is now making very satisfactory progress. Caterpillars are mentioned in our Galveston and Mobile despatches, but in each case it is stated that the rumors are of little importance. A singular fact is given in our Dallas (Texas) telegram, to the effect that some parties are experimenting by planting cotton on land from which wheat has been reaped.

*Galveston, Texas.*—We have had rain on three days this week, the rainfall reaching one inch and sixty-seven hundredths. The thermometer has averaged 81, and the extremes are 70 and 92. The crop is developing promisingly, and the cotton plant looks strong and healthy. We hear rumors of the appearance of caterpillars, but think them of very little importance.

*Indianola, Texas.*—We have had delightful showers on three days of the week, the indications being that they extended over a wide surface. The rainfall is one inch and one hundredth. The average thermometer is 85; the highest 94, and the lowest 71. Crops are in an excellent condition.

*Corsicana, Texas.*—There has been no rain here this week, and the weather has been warm and dry. Crops are doing wonderfully well, but showers will soon be needed. Average thermometer 79, highest 99 and lowest 60.

*Dallas, Texas.*—There was a shower here one day this week, the rainfall reaching three hundredths of an inch. The thermometer has averaged 83, ranging from 63 to 93. The crop promise continues all that could be wished for—the forcing growth of the past three weeks has been indeed marvellous, Some parties are experimenting by planting cotton on land from which wheat has been reaped.

*New Orleans, Louisiana.*—The weather has been warm and dry all the week. The thermometer has averaged 81.

*Shreveport, Louisiana.*—There has been no rain here this week, and the crops are progressing finely. The thermometer has averaged 78, ranging from 92 to 64.

*Vicksburg, Mississippi.*—We have had rain on three days this week, to the extent of eighty-five hundredths of an inch. The thermometer has averaged 77, ranging from 64 to 90.

*Columbus, Mississippi*—Telegram not received.

*Little Rock, Arkansas.*—We had a shower on Monday, with a rainfall of twenty-three hundredths of an inch; the remainder of the week has been pleasant. The past two days have been very warm, which has proved of benefit to the crops. The thermometer has averaged 74, having ranged from 53 to 93.

*Nashville, Tennessee.*—We have had four rainy days this week, the rainfall reaching two and seven hundredths inches. The thermometer has averaged 71, the extremes being 63 and 79. The crop is developing promisingly.

*Memphis, Tennessee.*—We have had delightful showers this week, and the indications are that they extended over a wide surface. Rain fell on four days, to the extent of thirty hundredths of an inch. The thermometer has ranged from 63 to 82, averaging 73. The crop is developing promisingly.

*Mobile, Alabama.*—We have had no rain here this week. The crop is developing promisingly, and good progress is being made in clearing the fields of weeds. The thermometer has averaged 80, the highest being 92 and the lowest 69. From Montgomery and Green counties, Alabama, we hear rumors of the appearance of caterpillars, but think them of very little importance.

*Montgomery, Alabama.*—There has been rain here on two days this week, the rainfall reaching ninety-four hundredths of an inch. The average thermometer is 77, the highest 96 and the lowest 64.

*Selma, Alabama.*—We have had rain two days of the week, to the extent of seventy-three hundredths of an inch. The thermometer has averaged 75. The cotton plant looks strong and healthy, and is developing promisingly.

*Madison, Florida.*—There has been one rainy day this week, the rainfall reaching eighty-five hundredths of an inch. The thermometer has averaged 81, the highest being 90 and the lowest 72.

*Macon, Georgia.*—The weather during the week has been very favorable for cotton, and the crop is developing promisingly. There has been one rainy day. The rainfall during June has been four inches and sixty eight hundredths. The average thermometer this week is 74, the highest 90 and the lowest 61.

*Atlanta, Georgia.*—It has been showery two days this week, the rainfall reaching one inch and nine hundredths. The rest of the week has been pleasant. Average thermometer during the week 76; highest 84 and lowest 62.

*Columbus, Georgia.*—There has been rain here on one day of the week, to the extent of eight hundredths of an inch. The remaining six days have been pleasant. The average thermometer for the week is 79, the highest 92 and the lowest 64. The crop is developing promisingly.

*Savannah, Georgia.*—There has been rain on three days this week, the rainfall aggregating four inches and twenty-eight hundredths. The rest of the week has been pleasant. The thermometer has averaged 78, the highest being 91 and the lowest 69.

*Augusta, Georgia.*—In the early part of this week it was showery on three days, the rainfall reaching eighty-two hundredths of an inch; but the latter part of the week has been clear and pleasant. The average thermometer is 77, the highest 92 and the lowest 65. The crop is developing promisingly and accounts are generally favorable. The tributary rivers are higher, in many places overflowing and seriously injuring corn.

*Charleston, South Carolina.*—We had slight showers on three days this week, the rainfall reaching a total of one hundredth of an inch. The thermometer has averaged 79, the highest being 92 and the lowest 69.

The following statement we have also received by telegraph showing the height of the rivers at the points named at 3 o'clock June 22. We give last year's figures (June 25,1875) for comparison.

COTTON ACREAGE REPORT FOR 1876.—Our cotton acreage report for this year will be found in our editorial columns to-day.

GUNNY BAGS, BAGGING, ETC.—Bagging has been in better demand during the past week, and sales of several thousand bales have taken place at 12c. cash for prompt delivery, and 12¼c. for July and August. At the close the market is rather quiet again, with holders firm at 12¼c. cash. Bales continue dull and nominal at 9c. for India. Butts have arrived since the first of June to the extent of about 36,000 bales, which were sold previously, and until this large amount is worked up the demand will be rather limited; the only sale which has been made is 1,000 bales, now landing, at 2¾c. cash. The market closes at 2⅞@2¾c.

LIVERPOOL, June 23—3:00 P. M.—BY CABLE FROM LIVERPOOL.—Estimated sales of the day were 8,000 bales, of which 1,000 bales were for export and speculation. Of to-day's sales, 6,000 bales were American. The weekly movement is given as follows:

Below we give all news received to date of disasters, &c., to vessels carrying cotton from United States ports:

ORIENTAL, str., ashore on Harding's Ledge below Boston, has been purchased by Alderman Power, and others, and will be broken up where she lies, as the expense of floating her off would be heavy, compared with her value. Her starboard side is stove in, the stanchions under the beams have been bent, and the deck amidships started, &c. The wreckers blew up part of the deck June 14, in order to get at the cargo remaining on board, consisting of cotton, hides, &c., and two lighter loads have been taken to Boston. All the cargo remaining on board when the vessel was sold had been got out June 13 and taken to Boston.

HENRIK IBSEN, bark (Nor.), from Mobile (cotton), at Hango June 1, had been found to have part of her cargo damaged.

OSSEO, brig, Lowry, from Mobile for Havre, resumed her voyage from Bermuda June 10, having completed repairs.

Cotton freights the past week have been as follows:

## BREADSTUFFS.

FRIDAY, P. M., June 23, 1876.

The flour market has been inactive and irregular during the past week; low grades have further declined, and extreme low figures made, under a pressure to sell lots in doubtful condition from the wharf. The sales of lines yesterday embraced poor Western Spring extras from the wharf at $4.50, good do. for arrival at $4.90, and fair superfine at $3.75. Good medium extras were, at the same time, held with more firmness, and brands worth from $5.50 to $6 could not be readily obtained. Choice high grades are scarce, but not much wanted. Rye flour has been unsettled by the offering of Western superfine, which sold at $4.50 per bbl. Corn meal has been salable. To-day there was less pressure to sell, and a steadier market, but with little doing.

The wheat market has been inactive and drooping. A wide range has been given to prices by the "soft" and unsatisfactory condition of much of the receipts. Another important feature of the week's business is the decided decline which has taken place in Winter wheats. Foreign advices have been dull, but our own crop accounts are less satisfactory. Too much rain has fallen and much damage done to winter wheat in the Southern Middle States, where harvesting has already made some progress. The wet weather and the bad condition of much of the old crop, have, at the close, given some strength to holders of prime samples. Receipts of wheat at the West, as well as on the seaboard, have been on a very liberal scale. To-day, there was a steadier market, with a fair export demand at $1.08 for No. 3 Milwaukee, $1 13 for No. 2 Chicago, and $1 16@1 18 for good to choice No. 2 Milwaukee.

Indian corn has experienced but slight fluctuations, and in the aggregate prices had, up to the close of yesterday's business, changed very little; and speculation for the future has been dormant. Supplies are liberal at all points, but the demand has been very steady. The weather, unfavorable for wheat, was beneficial to corn, and there is every prospect of a large crop. To-day, sail corn was a shade firmer, and in demand at 60c., with steamer mixed selling fairly at 57c.

Rye has been dull. Barley and barley malt are unsettled. Shipping peas and beans show some changes.

Oats were in less active request for export, and prices have been tending downward, especially in the past few days. To-day, the market was quiet.

## THE DRY GOODS TRADE.

FRIDAY, P. M., June 23, 1876.

The package trade has been irregular the past week, but on the whole fairly satisfactory for the time of year when jobbers are reducing their stocks, preparatory to taking the semi-annual inventory at the close of the month. There has been an improved feeling in regard to woolen goods, and prices have been more firmly maintained on all desirable heavy fabrics; while a very fair distribution was made to clothiers from various parts of the interior. The jobbing trade has been fully as active as usual at this season, and small personal selections, combined with orders from all parts of the country, foot up a respectable aggregate amount. The importing branches of the trade continued very quiet, and the suspension of Messrs. Cameron, Pye & Co., linen importers, was announced. The estate of Messrs. Cochran, McLean & Co. has been placed in the hands of receivers, in order to protect the general creditors from vexatious suits which had been instituted by note holders. The receiver for the estate of Messrs. Hoyt, Sprague & Co., whose failure occurred some time ago, has paid a dividend of ten per cent. on a large amount of

proved claims, and will soon be ready to pay a like dividend on about $3,000,000 more.

DOMESTIC COTTON GOODS.—The export trade in cotton goods has shown a continuous improvement. From this port 1,108 packages were shipped during the week, and from Boston 2,897 packages. Of the goods shipped from this port, 537 packages were sent to Great Britain, 173 to Brazil, 129 to Venezuela, and the remainder to other countries in smaller lots. The home demand was chiefly restricted to comparatively small parcels of brown and bleached cottons, the best corporation makes of which are steadily held at current rates by manufacturers' agents. The stock of wide sheetings manufactured by the Utica Steam Cotton Mills was closed out by agents at a considerable reduction from previous holding rates, and some large lots of low-grade bleached shirtings were sold at a concession in price; otherwise quotations were unchanged. Print cloths continued quiet but firm, in view of a short stoppage of the mills at Fall River. Extra standard 64x64 print cloths closed at 3⅜c., cash @ 30 days, and standards at 3½c., prompt cash. White-ground and light fancy prints met with moderate sales, and shirtings were in fair demand. Flag and decoration prints were quite active, and some 9c. makes, which are sold out by agents, were advanced by jobbers to 12@15c. on account of their scarcity. Ginghams and cotton dress goods moved slowly, and cotton hosiery ruled quiet in first hands.

DOMESTIC WOOLEN GOODS.—The movement in woolen goods has chiefly been confined to heavy fabrics for men's wear, for which there has been a very fair demand by clothiers from all the leading manufacturing centres. Selections have not been individually large, but so numerous that a satisfactory aggregate distribution was effected, and more confidence in values has been evinced than for some time past. Heavy cassimeres were taken with considerable freedom, but light weights were almost neglected. Worsted coatings of the best makes were more active in both light and heavy weights, but low grades and imitation worsteds continued quiet. Beavers, chinchillas, and fancy overcoatings were in steady demand, and are firmly held in all desirable makes. Cloths and doeskins were in steady but limited request. Kentucky jeans ruled quiet, but offers were made for considerable lots at prices which agents would not entertain. Flannels have not commenced to move freely as yet, but an early movement is expected on the part of shirt manufacturers. Carpets have been jobbing fairly, but were quiet in first hands. Dress fabrics remained inactive.

FOREIGN DRY GOODS.—There has been a quiet market for imported goods. The most staple fabrics were sold in fair amounts by jobbers, but moved slowly from first hands. The auction rooms were poorly supplied with dress fabrics and silks, but fair lines of ribbons and milliuery goods, linen goods, embroideries, white goods, laces, etc., were presented, and brought fair prices for the time of year. There have been heavy failures in the linen trade abroad, but prices were not affected in this market, and the best makes being in moderate supply are firmly held by importers. Fancy white goods and Hamburg embroideries were jonbed in moderate quantities, but laces continued sluggish Woolen goods for men's wear were dull, but Italian cloths and satin de chenes were a trifle more active.

We annex prices of a few articles of domestic manufacture:

# REAL ESTATE MORTGAGE BONDS

GUARANTEED BY THE

## Equitable Trust Co.,

**$1,000,000 CAPITAL.**

THESE REAL ESTATE MORTGAGE BONDS ARE COMMENDED TO THE ATTENTION OF THE MOST

**CONSERVATIVE INVESTORS.**

*First*—They have the individual liability of the maker.

*Second*—Each bond is secured by a first mortgage of real estate of not less than double its value.

*Third*—The prompt payment of both principal and interest of every bond is guaranteed by this Company.

The Company guaranteeing these Bonds receives no deposits, owes no money, and incurs no obligations of any character except those arising from such guaranty thereby keeping its whole capital of One Million Dollars unimpaired, TO MEET AT ALL TIMES the prompt payment of both principal and interest of these Bonds.

All mortgages securing the Bonds are formally approved by the following Executive Board:

ROBERT L. KENNEDY, ADRIAN ISELIN,
SAMUEL WILLETS, JAMES A. ROOSEVELT,
WM. REMSEN, EUGENE KELLY,
CHAS. BUTLER, JOHN D. MAXWELL,
HENRY P. HAVEN, GUSTAV H. KISSELL.

These Securities bear Seven Per Cent Interest payable semi annually, and are offered for sale at one hundred and two and interest at the office of the Equitable Trust Company, Nos. 52 & 54 William street.

**SEVEN PER CENT TEN-YEAR BONDS**

SECURED BY

**FIRST MORTGAGES OF IMPROVED REAL ESTATE.**

GUARANTEED, PRINCIPAL AND INTEREST,

BY ITS

**CAPITAL STOCK OF $500,000.**

Interest Coupons payable semi-annually. Bonds registered to order, or payable to bearer at option. Accrued interest is not required to be paid by purchaser, the next due Coupon being stamped so as to denote that interest begins at the date of purchase.

A Pamphlet with full information will be sent on application to the Company's Office.

**43 Milk Street, Boston.**

These Bonds are commended to the attention of the MOST CONSERVATIVE INVESTORS, as they are believed to be as perfect a security as can be obtained. The issue of Bonds is limited to one-half the amount of the same class of Bonds ever issued under a like Guarantee.

The security of each Bond is not confined to single Mortgage, but extends over all the Mortgages owned by the Company. This Company receives no deposits, guarantees no other securities, and has no other debts than its bonds. Its Mortgages are of like character to those which have been bought in the last twenty years by individuals, Life Insurance Companies and other Corporations, to the amount of more than Fifty Millions of Dollars, proving a most secure and satisfactory investment. The Loans are all upon improved Farms in some of the most fertile Western states, near the Railroads, with short and perfect titles, and average less than $650 each, upon property worth nearly four times their amount. Experience has proved that well-selected Mortgages upon this class of property are safer than those upon city property, either in the East or West. They are not affected by Fires, or by Business revulsions; Principal and interest are more promptly paid; and upon the success of Agriculture depends that of almost every industrial investment.

# Investors' Supplement

OF THE

## COMMERCIAL AND FINANCIAL CHRONICLE.

PUBLISHED ON THE LAST SATURDAY OF EACH MONTH.

**Furnished Gratis to all Subscribers of the Chronicle.**

[Entered according to act of Congress, in the year 1876, by Wm. B. Dana & Co., in the office of the Librarian of Congress, Washington, D. C.]

NEW YORK, JUNE 24, 1876.

# INVESTORS' SUPPLEMENT

OF THE

## Commercial and Financial Chronicle.

The Supplement is issued on the last Saturday of each month, containing a complete exhibit of the Funded Debt of States and Cities, and of the Stocks and Bonds of Railroad and other Companies.

It is furnished without extra charge to all regular subscribers of The Chronicle; no single copies are sold at the office, as a sufficient supply is printed for subscribers only.

Transient advertisements are inserted at twenty-five cents per line; advertisements by the quarter, six months or year, at special rates.

## INVESTMENTS IN JUNE.

The money market in June has been decidedly favorable for a good demand in the line of investment securities. The usual accumulation of funds which ordinarily takes place in this month is again experienced, and the lowest rates for money have been prevalent,—the price for call loans on government collaterals touching 1¼ per cent.

Under these circumstances the inquiry is made by parties having large sums to employ—How shall we use our money until the beginning of the Fall trade? With a good many the only satisfactory answer has been—Purchase government bonds; and hence the government market has generally been strong on a pretty large demand, both from home and out-of-town parties. Another cause which has led to an active demand for the five-twenties is found in the fact that the anticipations entertained in the early part of the year, that Congress would pass a bill for the speedy funding of these issues, has greatly passed away, and there is much doubt felt as to any practicable funding law being passed at this session.

For the average private investor, the annual interest paid by government bonds is too small to be satisfactory; although it has been noticed that lately, under the influence of heavy commercial failures and the unpromising outlook for business, together with the railroad war, and the decline in coal railroads, which had been held as sure 10 per cent investments, there have been a good many purchases of government bonds in small lots by individuals. These were generally made as investments of a part of their surplus funds, on the principle of having some securities founded on "bed rock", that can not be shaken by anything in the ordinary line of probabilities. Aside from these exceptionally careful transactions, the balance of funds must be divided chiefly between city bonds, railroad bonds, corporate stocks, and real estate mortgages.

It is never the province of this article to definitely advise the readers of the Supplement to invest in any particular security, but rather to point out the facts relating to each, and to leave investors to make their own selection under the advice of reliable brokers. From the prices quoted weekly in the Chronicle it appears that the bonds of a number of leading cities, whose credit ought to be considered above reproach are ranging now from 95 to 110, according to the rate per cent—whether 6, 6 gold, or 7—and the time they have to run. It is also noticed with city bonds that there is often a wide difference between the prices of different issues bearing the same rate of interest, which arises from a variety of causes, and among others from the different degrees of security supposed to attach to the respective bonds, from the circumstances attending their issue, the laws under which they were authorized, and the purposes for which the debt was created. It is obvious from these remarks that the services of an impartial and experienced broker are necessary in selecting such bonds for purchase. The recent Missouri decision relating to Town bonds, as well as all decisions tending in the slightest degree to invalidate the soundness of any county, town, or city bonds marketed in good faith and at a fair price, will produce the natural result of making buyers more cautious about purchasing a class of securities where the legal maxim of *caveat emptor* applies to so large an extent.

Railroad bonds are active and higher, as the first of July approaches, when the large interest and dividend disbursements lead to an increased demand for good bonds. Among the most favored issues, lately, have been the consolidated bonds of the Northwest and St. Paul roads; these have been stimulated by the better condition of the companies since the modification of the granger laws of Wisconsin, and they are taken up on the theory that all the bonds of those companies will be perfectly good, and these issues being much lower in price than the old bonds, will give a better income. There is, however, a considerable speculative support for these bonds, which is lacking in case of smaller and less known issues. The Pacific Railroad bonds have advanced for the first mortgages, but have been somewhat depressed as to the subsequent issues by the pending questions between the companies and the U. S. Government. If the proposed arrangements for a final adjustment should be completed, and all questions as to their relation to the Government be finally put at rest, there is little doubt that the bonds referred to would be held in much higher favor. No recent information is at hand as to the probable passage of the Pacific Railroad bills in Congress.

As to investments secured by mortgage on real estate, the business is mainly of two sorts, aside from ordinary local transactions in the neigborhood of the party loaning out—these are either a direct loan on Western real estate, made at a high rate of interest through the medium of agents or attorneys residing at the West, or secondly, the 7 per cent mortgage bonds sold here by the mortgage companies, organized within the past few years, and having the additional security of a guaranty by the company. In the case of mortgage loans at the West, made by an agent there, it is apparent that the excellence of the security must greatly depend on the care and business intelligence of the agent, though it is known that a great proportion of the loans so made there during the past ten years have turned out well, and paid the investor in many cases 10 to 12 per cent. The rates for money, however, in prosperous States like Illinois and in large cities at the West, have declined from 1 to 3 per cent since 1873, and many persons prefer now to purchase bonds at 7 per cent, issued by a substantial company here, with its own guaranty, rather than have the trouble and risk of loaning at a distance, and obtaining 1 or 2 per cent more interest.

Three prominent mortgage loan companies now publish their cards in the Supplement, as may be seen on the opposite page, and of these the two companies in New York sell bonds secured by mortgage on specific pieces of real estate at the West, and having the additional security of a positive guaranty of the company on the bonds. The New England Mortgage Security Co., of Boston, as we understand, sells its own bonds, having as security all the mortgages taken by the company, and the bonds run ten years.

The Mercantile Trust Company, whose card appears in our columns for the first time to-day, is under the direction of Mr. Louis Fitzgerald as President, and with a capital stock of $2,000,000, of which $1,000,000 is stated to be invested in government bonds, has sold mortgage bonds bearing its own guaranty to the amount of $936,500, and has on hand for sale, $734,000 of the same class of bonds.

# STOCK AND BOND TABLES.

## NOTES.

These tables are expressly intended to be used in connection with the information concerning Investment matters, published from week to week in the CHRONICLE—to which an index is furnished in the remarks at the foot of the tables. Annual reports are in black-faced figures.

A full description of U. S. Government Securities is published regularly in the CHRONICLE each month, as soon as the official "Debt Statement" is issued.

Prices of all Stocks and Bonds are quoted weekly in the CHRONICLE.

The following will give explanations of each column of the tables below:

*Description.*—Railroads leased to others will often be found under the lessee's name. The following abbreviations frequently occur, viz.: M. for "mortgage," s. f. for "sinking fund," l. gr. for "land grant," reg. for "registered," coup. for "coupon," Br. for "Branch," guar. for "guaranteed," end. for "endorsed."

*Date of Bonds.*—The date of issue on the face of the bond is referred to in this column.

*Miles of Road.*—Opposite Stocks, this means the miles of road operated, on which the earnings are based; opposite bonds, the miles covered by the mortgage.

*Size or Par Value.*—These figures are dollars, showing the denominations or par value. The figures "100, &c.," signify $100 and larger.

*Rate Per Cent.*—The interest *per annum* is given for bonds, but the per cent of *last dividend* for stocks; *g* means gold; *x*, extra; *s*, stock or scrip.

*When Payable.*—J. & J. stands for Jan. & July; F. & A., Feb. & Aug.; M. & S., March & Sept.; A. & O., April & Oct.; M. & N., May & Nov.; J. & D., June & Dec.; Q.—J., quarterly from January; Q.—F., quarterly from Feb.; Q.—M., quarterly from March.

*Bonds, principal when due; Stocks, last dividend.*—The date in this column shows the period when the principal falls due of *bonds*, but the time when the last dividend was paid on *stocks*.

*Alabama.*—The commissioners, under law of Dec. 1, 1874, to ascertain, liquidate and adjust, the legal liabilities of the State on its bonds, propose substantially that 30 year bonds, dated July 1, 1876, bearing 2 per cent for 5 years, 3 per cent for next 5 years, 4 per cent for next 10 years, and 5 per cent for last 10 years, be exchanged for old bonds, without any allowance for past-due coupons. The commissioners will be in New York in July, and the exchange of old bonds may be made there till November, and subsequently at Montgomery. Ala. & Chatt. endorsed bonds may also be exchanged at London. Eight per cents signed by Governors Lindsay and Lewis can only be exchanged at Montgomery. The State has been in default since January, 1874. The value of all taxable property is given at $160,000,000; tax rate, 7½ mills. The assessed valuation of real estate in 1875 was $83,851,252. (V. 20, p. 139, 539, 570, 581; V. 21, p. 276, 294, 322, 534, 612; V. 22, p. 110, 157, 203, 521.)

*Arkansas.*—Rate of taxation, 5 mills. Unfunded debt is mostly held by U. S. The State is in default for interest. By the last assessment for 1872 and 1873 the total valuation of property was $104,972,329. Interest was paid Jan. 1, 1876, on secured sinking fund bonds, issued under the law of December, 1874, to pay expenses. A Board of Finance was appointed in January, 1875, to confer with bondholders of the State and they issued a notice as quoted in V 21, p. 161. See CHRONICLE, V. 19, p. 167, 189, 637; V. 20, p. 139, 161; V. 21, p. 465, 590.

*California.*—California finances appear to be in a particularly sound condition. The State holds in trust for School and University funds the $500,000 Capitol bonds and $2,063,000 of bonds 1873. Total valuation of property, 1874, over $600,000,000. Tax rate, 50 cents per $100. As the debt is now practically extinguished, the Governor advises the gradual cancellation of the bonds held in trust and the purchase of foreign securities in their place. (V. 19, p. 3 of advertisements; V. 19, p. 32.)

*Connecticut.*—The debt of Connecticut was all created for war purposes, and has been reduced since 1866 from $10,000,000 to the present figures by sinking fund purchases. The 1861 bonds are payable at pleasure since July, 1871, and those of 1864 since October, 1874. Assessed value of real and personal property, $351,785,469; rate of taxation, 1 mill.

*District of Columbia.*—The total assessed value of taxable real estate in 1875 was $93,452,681. United States Attorney-General Pierrepont rendered an opinion that the faith of the United States is pledged for the payment of interest on the 3.65 bonds, but conflicting legal opinions have been rendered as to the right of New York savings banks to invest in these, as government securities. The interest due February, 1876, was not paid till March, as no appropriation was made by Congress. The total amount of 3-65 bonds issued to February were as above. (V. 20, p. 83. See also V. 19, p. 15, 61, 142, 189, 477; V. 20, p. 230, 446; V. 21, p. 63, 417, 465; V. 22 p. 131.

*Florida.*—Less the sinking fund of $49,900, and J. P. and M. loan, the total debt is $1,199,700. Real and personal property are valued about $35,000,000; tax rate, 7 mills. The loan to J. P. & M. RR. is secured by mortgage on road, and the question as to the State's obligation to the bondholders was before the United States Supreme Court, and decided in December, 1875, (V. 21, p. 591), in favor of the State; no interest has been paid on these bonds for some years past, and a decision of the State Supreme Court holds them unconstitutional. (V. 21, p. 466; V. 22, p. 158, 231.)

*Georgia.*—In June, 1876, $300,000 bonds sold to pay overdue coupons on recognized bonds of Macon & Brunswick and North & South Railroads. The State Legislature declared void all the semi-annual gold bonds of 1870 ($1,889,000), and $102,000 of the quarterly bonds held by H. Clews & Co.; the Brunswick & Albany bonds, $1,500,000; and all railroad endorsements, except, $1,950,000 Macon & Brunswick; $191,000 Ala. & Chatt.; $240,000 No. & So. Ga.; and $31,000 Memphis Branch. Assessed value of property in 1874, $273,000,000; in 1875, $251,755,834; rate of tax, four mills. Macon & Brunswick Railroad endorsement was declared valid by Legislature of 1874, but the later issue of $600,000 was declared void by the Legislature in 1875. Governor's Message, V. 22, p. 87. (V. 20, p. 83. See also V. 19, p. 111, 350, 375; V. 20, p. 241, 336, 570; V. 22, p. 410, 590.)

*Illinois.*—The debt has been rapidly reduced of late years, and, without the addition of new loans, will soon be extinguished. The Illinois Central Railroad charter tax on earnings contributes over $100,000 per year to the State revenue. The assessment of all property in 1875 was $1,085,520,856. Municipalities in Illinois are in some localities heavily incumbered with debt issued to railroads. (V. 19, p. 15, 38, 526.)

*Indiana.*—There are also $139,000 of war bonds. There is a question as to the State's obligation to pay the Wabash & Erie Canal debt. A reference to the origin of that debt, arising from the State's compromise with the bondholders in 1846, will be found in the CHRONICLE, V. 19, p. 493; see also p. 526. A suit on the question was brought and decree of sale obtained (V. 21, p. 85; V. 22, p. 101). Taxable valuation, 1875—real estate, $521,416,973; personal, $231,667,147; railroads, $18,436,919; corporations, $4,045,593; tax rate, 1¼ mills. A law permitting towns to issue bonds was passed in 1875, the main section being as follows:

"SECTION 1.—*Be it enacted by the General Assembly of the State of Indiana*, That any corporated town in this State which shall have heretofore, by the action of its Board of Trustees, commenced the erection of any public buildings, to be used as a market house, engine house or other public purposes, and shall not have the necessary means with which to complete such building, on the passage of an ordinance authorizing the same by the Board of Trustees of said incorporated town, issue the bonds of such town to an amount not exceeding in the aggregate $10,000, in denominations of not less than $50 nor more than $500, and payable at any place that may be designated in the bonds; the principal in not less than one year nor more than ten years after the date of such bonds, and the interest, annually or semi-annually, as may be therein provided, to provide the means with which to complete such buildings; provided that such bonds shall not be sold at a price less than ninety-four cents on the dollar, nor bear a greater rate of interest than eight per centum per annum."

A similar law was passed for counties, which, referring to contracts that have been made for public buildings, &c., says that in counties where such contracts have been so made, the board of commissioners of such counties are authorized to issue bonds to an amount not exceeding one-half of one per centum on the assessed valuation of the property of such county, in addition to any loan for said purpose for which bonds may have been heretofore issued, negotiated and sold. (V. 22, p. 209.)

*Kansas.*—Kansas has but a small State debt, but the issues of municipal bonds have been large. An extract from the State Auditor's report was given in V. 20, p. 14. The valuation of real and personal property in 1875 was $121,514,311; tax rate, 6 mills for State purposes and an average of 3.78 per $100 for al purposes. State funds hold $759,250 of the bonds. (V. 20, p. 14.)

*Louisiana.*—The funding bill passed Jan. 24, 1874, scaled the debt down to 60 per cent of the face value. For coupons lacking on bonds funded, similar coupons are cut from the new bonds issued; interest on consol. bonds is paid in New York, but no interest paid on bonds unfunded. These consols. were admitted to New York Stock Exchange, May, 1876. The principal bonds not fundable are, $111,000 of RR. bonds; $48,000 school; $240,000 Miss. & Mex. Gulf Canal; $80,000 Bœuf & Cr. Nav.; $875,000 N. O. M. & Chat. endorsed; and $2,500,000 N. O. Mob. & Texas. The same tax of 14½ mills. in 1875 as in 1874 (in 1873 the rate was 21½ mills.) The total assessed value of real estate in 1875 was $150,507,071; personal, $40,349,547; of which New Orleans had $93,463,269 of real and $23,118,833 of personal. The gross revenue in 1875 was $3,286,151 and expenses $3,185,707. The $2,500,000 bonds to N. O. Mob. & Texas Railroad have been declared void by State Supreme Court, but a re-hearing granted. (V. 20, p. 78, 82, 476, 521, 546; V. 21, p. 15, 63 119, 159, 231, 439, 535, 613; V. 22, p. 64.)

*Maine.*—The sinking funds, January, 1876, reduce the total debt to a net amount of $3,272,688. Valuation of total taxables in 1875, $255,000,000; tax rate, 5 mills. Governor's message in V. 21, p. 62.

*Maryland.*—The assessed valuation of property in 1875 was $427,753,393, on which the rate of taxation in 1876 is 17½ cents per $100; income from dividends on railroad, canal and other stocks owned by the State was $133,491. The State has largely assisted canals and railroads, and holds $4,787,2 5 of stocks and bonds of companies paying interest promptly, leaving only $5,916,582 of debt without any offset; the State also holds $22,555,188 in unproductive securities. On two investments only, the Comptroller says that the State has met no loss, viz., the Baltimore & Ohio and the Columbia & Port Deposit railroads.

*Massachusetts.*—Governor's message on finances, V. 22, p. 62. All interest on the funded debt of Massachusetts is paid in coin. The credit of the State stands high in London and at home. During 1874 the debt was increased $987,400, and in 1875, $4,500,000. The sinking funds in January, 1876, were $11,725,309. The Hoosac tunnel has cost the State over $14,500,000. Real estate assessed in 1875, $1,311,031,326; personal, including bank shares, $560,813,163; tax rate, 1·06 mills; deposits in savings banks, $237,818,963; corporation property (above real estate and machinery), $24,213,634. The loan to B. H. & E. Railroad was secured by deposit of $3,600,000 "Berdell" mortgage bonds, afterwards exchanged for new stock. (V. 20, p. 336, 521; V. 21, p. 277; V. 22, p. 62.)

*Michigan.*—The debt has been largely diminished in the last few years. Assessed valuation of real and personal property, 1871-72, $330,000,000, and tax rate 2¾ mills. Surplus revenue is applied to purchase of bonds. (V. 20, p. 139.)

*Minnesota.*—All the State bonds are now held by the permanent school fund. Minnesota is usually classed among the States which have avoided their obligations, in consequence of her refusal to recognize the "State Railroad bonds" of 1858 to the amount of $2,275,000. There seems to be a growing feeling in the State that these bonds should be acknowledged. See Governor's Message, V. 22, p. 63. Property valuation, 1875, $218,835,743, of which $45,162,467 was personal; tax, 21-10 mills. (V. 19, p. 493; V. 22, p. 567.)

*Missouri.*—Valuation of real and personal property in 1875 was $549,593,471, upon which the tax is 4½ mills. Railroad property was assessed at $54,849,312, as returned to County Courts; but at only $19,861,141, as returned to the State Auditor in 1875. The State had $1,428,000 bonds maturing in 1875, and $3,907,000 in 1876. To provide for these, a law of 1875 authorizes the sale of new bonds. The Hannibal & St. Joseph Railroad provides for its own debt. Bonds falling due are paid in currency, pursuant to a resolution of the Legislature, although some of these bonds are payable by their terms in "gold or silver." (V. 20, p. 33. 161, 290, 313, 336, 383. 477; V. 21, p.277; V. 22, p. 83, 591.)

*Nevada.*—The debt of Nevada is hardly more than nominal.

*New Hampshire.*—The debt of New Hampshire was created for war purposes, and is being rapidly reduced. The Municipal loan of 1872 was issued to cities and towns, the proceeds to be used in reducing their several war debts, which the State thus assumed.

*New Jersey.*—The debt was created for war purposes. Of the first two classes of bonds the principal is payable $100,000 per year. Valuation of real and personal property in 1875 $612,731,094, against $619,097,933; State tax, 8¼ mills.

*New York.*—There is also $68,000 contingent debt to Long Island Railroad, and $7,961 per annum for Indian annuities. An abstract of the Governor's Message was given in V. 22, p. 63, showing a net reduction of $2,744,505 in the debt for year ending Sept. 30, 1875. The following were valuations and tax rate for State purposes in the years 1859 and 1865, and from 1870 to 1874:

| Year. | Real Estate. | Personal. | State tax. |
|---|---|---|---|
| 1859..... | $1,097,564,524 | $307,319,155 | 2½ |
| 1865..... | 1,158,327,371 | 392,552,314 | 4 53-80 |
| 1870..... | 1,532,720,907 | 434,280,278 | 7 41-156 |
| 1871..... | 1,599,930,166 | 452,607,732 | 5 79-120 |
| 1872..... | 1,644,379,410 | 147,248,035 | 9¼ |
| 1873..... | 1,692,523,071 | 437,102,815 | 6 95-100 |
| 1874..... | 1,750,698,918 | 418,608,935 | 7¼ |
| 1875..... | 1,960,352,703 | 407,427,399 | 6 |
| 1876..... | ..... | ..... | 3 11-24 |

For the present fiscal year, 1875-6, the tax rate of 3 11-24 mills reduces the rate of 1875 nearly one-half; this is partly owing to the considerable redoction in the Bounty debt, and the increase of sinking fund resources. It appears that the value of real estate by local assessors in 1874 was $1,750,698,918, while the full value, as estimated by the State assessors, was $4,168,330,757. The Comptroller says the actual value should be adopted as the basis of taxation. The total amount raised by tax, State and local, in 1875, was $56,926,470, or 24 mills on the $1 of assessed valuation. In 1874, the local debts of cities in New York State were $137,539,609; of counties, $46,685,264, and towns, $25,140,181. (V. 19, p. 350; V. 20, p. 28, 60, 615; V. 22, p. 63, 471.)

*North Carolina.*—North Carolina is heavily burdened with debt, in proportion to her taxable property. A lengthy extract from the Treasurer's report was given in V. 20, p. 84. Total property was assessed in 1872 at $123,507,628, a low valuation. Interest is paid on bonds issued to North Carolina Railroad ($2,800,000), as the State holds $3,000,200 stock and receives dividends thereon. Other interest in default. A funding bill passed the Legislature March, 1875. (See CHRONICLE, V. 20, p. 336.) In New York, bonds are classified thus: "Old," being those issued prior to May 1, 1861, coupons on from Jan. '69; "N. C. R. R." issue of $2,800,000 to that road, coups. on since Jan. & April, '69; same "coup. off" have had 7 coups. paid; "funding act '66 carry coups. Jan., '69; "funding act" '68 carry coupons April, '69. "New"—authorized before war, except $1,500,000 in 1868; "Special tax, 1st," carry coup. April, '69; "2d" coup. of Oct. '69; "3d" coup. April, 1870. (V. 18, p. 166, 629; V. 20, p. 84, 161, 283; V. 21, p. 570.)

*Ohio.*—Ohio has a very small State debt, but large local debts, amounting in 1875 to $25,957,588. Valuations in 1874 were: Real estate in cities, &c., $366,031,721; other, $696,883,323; personalty, $535,660,818. Tax rate in 1875, 3 2-10 mills for State, and an average of 25 9-10 mills for local purposes. Of the 1875 loan above, $868,230 was paid Jan. 1, 1876, and the balance April 1. Report on State and local debts, V. 22, p. 64.

*Oregon.*—The debt is provided for by sinking funds, payable from land sales. Taxable property in 1875 was assessed at $41,197,149; ½ mill tax was laid for Relief bonds and 1 mill for Bounty bonds.

*Pennsylvania.*—Total debt Nov. 30, $23,233,137; available assets, $9,466,572; net debt, $13,766,564. The financial system is remarkable in Pennsylvania, in the fact that no tax is laid for State purposes on real estate. Revenue is raised from numerous sources, principally from corporations. Taxes are levied on personal property, which was assessed at $159,382,242, and the tax was $574,817 in 1875. State expenses have lately exceeded revenue, and sinking funds have been diverted to meet the deficiency. The State holds $1,754,321 in stocks and $10,554,321 of railroad bonds. Interest is paid in gold on all the State debt issued prior to 1867. Any coupon bonds may be changed to registered. The bonds due in 1877 are payable at any time till 1882; those of 1882 till 1892. (V. 21, p. 137; V 22, p. 64.)

*Rhode Island.*—The debt was all created for war purposes and is being steadily diminished. The valuation of real and personal property in 1873 was $247,798,550, and tax rate 20 cents on $100.

*So. Carolina.*—The Governor's message on finances in V. 21, p. 525. The funding law approved Dec. 22, 1873, provided for scaling down the old debt by giving new bonds to the extent of 50 per cent, and declared void the conversion bonds to the amount of $5,965,000. The January, 1875, interest was paid on consolidated bonds in April, 1876. Total valuation of all property—in 1875, real estate, $88,177,218; personal, $46,791,006; rate of taxation in 1874, 12 mills. (V. 20, p. 84, 241, 291, 358, 547; V. 21, p. 489, 514.)

*Tennessee.*—On the first July, 1874, the payment of interest was resumed, and the interest due January 1, 1875, was paid by help of a loan of $300,000, but default again made July, 1875. The Governor's letter in December, 1875, on the finances, discouraged the expectation of further payments soon, and suggested "scaling." The law passed in March, 1873, provided for funding all outstanding, legally issued bonds, due between July 1, 1874, and July 1, 1884, as well as all past-due coupons, and coupons maturing on or before Jan. 1, 1874, in a 10-40 year 6 per cent bond. The total debt given above is, substantially, according to the last report of the Comptroller, January, 1875. The Comptroller estimated debt of solvent railroads at $3,238,896; due from purchasers of railroads then sold, $372,000; value of Knoxville & Charleston road, $100,000. The State's endorsements for railroads are $1,802,000, of which $1,560,000 is taken care of by the roads. Total valuation of real estate, $281,000,000, and railroad property, $51,000,000. The rate of taxation is 40 cents on the $100. Tennessee bonds, sold in New York as "old," are those issued before 1862, and having coupons of July, 1869; Old "ex coupon," have only the coupon of July, 1875; "New," issued since 1862 carrying coupon of July, 1869, "ex coupon" July, 1875, only; "New Series," the new funding bonds. (V. 18, p. 143, 247, 350, 497; V. 19, p. 167; V. 20, p. 14, 84, 161, 282, 491; V. 21, p. 87, 313, 614; V. 22, p. 472.)

*Texas.*—The State Comptroller, in February, 1876, reported total funded debt $4,249,757; floating debt, $543,737, and bonds of doubtful validity remaining in hands of State Treasurer, $812,240. The valuation of taxable property in 1875 was $250,833,750, against $213,841 85) in 1874. Tax rate, 50. From the Comptroller's report we have the following statistics for 1875:

| | |
|---|---|
| Total value of taxable property assessed. | $250 833,750 |
| State tax | 1,254,351 |
| Poll tax | 148,312 |
| County taxes | 1,959,154 |
| Miles of RR. in the State ass'd for taxes | 1,487 |
| Value of railroads | $16,605,122 |
| No. of acres of land assessed in the State | 66,637,920 |
| Value of lots assessed in the State | 44,666,937 |

(V. 19, p. 15, 117, 142; V. 20, p. 84; V. 22, p. 281.)

*Vermont.*—This State has a very small debt—all created for war purposes. Of the registered bonds $135,500 are held for Agricultural College. The sinking fund, Aug. 1., 1874, was $37,982.

*Virginia.*—The Funding act of 1871 provided that coupons of the funded bonds should be receivable for State taxes. For 2-3 of the old bonds a new bond was issued, and for the other ⅓ a deferred certificate given (as the proportion due by West Virginia). The act of 1872 amended that of 1871 by not allowing coupons to be received for taxes. All the amounts marked (*) may be funded under the amended act of 1872. The sinking fund holds $2,446,-98[illegible] of State bonds and certificates. All interest over due and unpaid to Sept. 30, 1875, (on the basis of 4 per cent.) was $1,199,861. A part of the interest due July, 1874, has been paid since Jan 1, 1876. Assessed value of property is $329,424,152; tax rate, 5 mills. The circular of Messrs. Branch & Co., bankers, April, 1876, said: "The Legislature has adjourned, and no law in any way affecting the bonds of the State has been passed; if we except a clause in the tax bill subjecting the coupons cut from bonds held by a non-resident of the State to the same tax as has heretofore been deducted from coupons held by residents. This tax amounts to $1 70 on each coupon of $30, or five and two-fifths per cent—the coupons being received at 94·60 per cent of their par value in payment of taxes. The State is still in debt for money borrowed to meet temporary deficiencies in the revenue; and the payments to the sinking fund have been suspended, as also the payments of interest of July, 1874, on the non-consolidated debt. The tax bill includes some additional subjects of taxation, which will make a small increase in the revenue, but it is now certain that no *cash* payments will be made during the present year on account of interest, except that the small balance due on July, 1874, interest may be paid." Auditor's report, V. 21, p. 604. (V. 19, p. 295 502, 526, 582; V. 20, p. 14, 306, 336, 373, 547; V. 21, p. 529, 604.)

*Albany.*—There are sinking funds for municipal bonds and for water stock. The loan to Albany & Susquehanna is secured by 1st mort. The equalized valuation of property in Albany County in 1875 by State Board was: Real estate, $48,799,146; personal, $5,837,088; total, $54,636,234. Estimated true value of real estate, $102,764,770.

*Augusta.*—Of this debt, $600,000 was issued for railroads, and balance for canal enlargement, water works, &c.

*Baltimore.*—The fiscal year of Baltimore ends with Oct. 31. The city credit has been loaned extensively to railroads, in exchange for their securities, which it holds to a large nominal amount. The sinking fund for Balt. & Ohio Railroad $5,000,000 loan is $1,746,973; West Maryland Railroad sinking fund, $149,165; and the total of the several other sinking funds, $6,457,881. The Balt. & Ohio RR. pays interest on $5,000,000 loan; Water loan is paid by income of water works; and Public Park by City Passenger Railway, and ont of a total debt of $32,943,425 only $16,154,793 is dependent on the tax levy. The assessed value of property in 1876 is $231,503,129; tax rate, 1876, $1 80 on the $100 for city purposes, and .17½ for State. Population in 1870 was 267,354, against 212,418 in 1860. (V. 22, p. 589)

*Bangor, Me.*—The valuation of real and personal property is $11,052,211; rate of taxation, 2.50 per cent. The loans to European & North American Railroad and to Bangor & Piscataquis Railroad are secured by first mortgages on those roads.

*Boston.*—The population of Boston in 1870 was 292,497, against 177,840 in 1860; in 1875 it was, 341,919. Valuation of real property in 1875, including the recent annexations, was $558,769,500, and personal, $234,998,400; upon which the rate of taxation is $13 70 per $1,000—$12 66 of this for city and $1 04 for State purposes, against a total of $15 60 per $1,000 in 1874. The total debt, both funded and unfunded, at the close of the last fiscal year, April 30, 1876, was $43,913,165, and the sinking funds, bonds, mortgages, &c., $16,880,387. The sinking fund provisions are sufficient to meet the debt as it matures. In March, 1876, Mr. Turner, city auditor, gave his estimates for the revenue required for the coming financial year 1876-77, commencing May 1, 1876. This estimate is based on an assumption of meeting the actual wants of the municipality and avoiding the borrowing of money for other than the water works, and extensive and costly improvements; the tax per each $1,000 will be reduced from $13 70 last year to $13 45 per $1,000 this year. The following is a comparison of the appropriations granted by the City Council, and income to be received, compared with the estimates for 1875-6:

| | 1875-6. | 1876-7. |
|---|---|---|
| Appropriations | $13,202,305 | $11,219,287 |
| Income | 2,864,425 | 2,939,900 |
| | $9,437,880 | $8,279,487 |
| Per centage | 283,136 | 247,385 |
| | $9,721,016 | $8,527,872 |

Placing the tax to be paid to the State at the same as last year, the estimated tax warrants exhibit the following result:

| | 1875. | 1876 |
|---|---|---|
| City and County | $9,721,016 00 | $8,527,872 00 |
| State | 802,120 00 | 742,932 00 |
| Total by taxation | $10,523,136 00 | $9,270,804 00 |

During the last forty years, with a single exception, the taxable valuation has shown an annual increase. Mayor Cobb's message, January, 187 gives a net decrease of debt in 1875, amounting $305,579. (V. 22, p. 61.)

*Brooklyn.*—The statement of debt is from th Mayor's message dated January 1, 1876, whic made the whole city debt as follows:

| | |
|---|---|
| Permanent loans | $26,063,0 |
| Sinking funds | 3,462,7 |
| Balance | $22,600,2 |
| Loans chargeable on specified property | 10,052,0 |
| Tax certificates | 2,379,0 |
| Total | $35,031,2 |

—The Mayor, in his message, January, 1876, state that the debt chargeable on taxation decrease in 1875 $5,239, against an increase of $512,089 i 1874, $2,426,516 in 1873, $1,591,411 in 1872, an $3,590,581 in 1871. Population in 1870, 396,200, agains 266,661 in 1860. Valuation of property in King County in 1875, by the State Board of Equalization $200,557,586 for real estate, and personal, $19,806,135 they estimated the true value of real estate i 1874 as $426,393,740. The Board of Supervisor value the total taxable property of Brooklyn in 1875 at $225,176,755, or about 65 per cent of tru value. The debt of Kings County, separate fron the debt of Brooklyn, is $3,936,000, of which th city is responsible for about $3,739,200. Averag tax rate in 1875, $3 41 per $100, against $3 52 i 1874, and $3 46 in 1873. (V. 20, p. 520; V. 22, p. 589.

*Buffalo.*—The funded debt, January 1, 1876, was $6,743,199, and floating debt, $394,092. In 1875 real estate was assessed at $31,943,735, and personal at $5,024,370—total, $34,968,105. Buffalo also pays 7-10 (being $712,310) of Erie county debt. City tax-rate, 1875, $35 55 on the $1,000. In May, 1876, $125,000 7 per cent certificates of debt in pieces of $5,000, &c, were issued, due 1881. (V. 22, p. 233, 511.)

*Charleston, S. C.*—The bonds of Charleston are mostly held within the State of South Carolina. The total assessed value of property in 1873 was $27,978,991; rate of tax, 2 per cent. Sinking funds reduce the total debt to $4,672,663.

*Chicago.*—The total funded debt at the close of the year 1875 was $13,457,000. Certificates of indebtedness, $4,641,096. Assessed value of real property, '74, $258,549,310; personal, $45,155,830—total, $303,705,140. Tax rate, 18 mills. The Illinois State valuation is $224,118,620, and the city debt is limited to 5 per cent of that. Of the $13,472,000 of funded debt, $4,581,000 is on account of the Water Works, which last year yielded an income of $730,144 21. Question having arisen as to whether certificates were not an increase of debt, and therefore illegal, an ordinance was passed authorizing the Comptroller to make an endorsement thereon that they "were issued upon the appropriations and tax levies of the city." Some certificates went to protest. See V. 22, p. 544.

Population in 1870 was 306,605, and in October, 1874, 395,226, against 109,260 in 1860. Cook Co. debt is all 7 per cent, and interest is all payable in J. & J., or in M. & N. The So. Park, W. Chicago Park, and Lincoln Park loans are not debts of the city, but of distinct corporations. (V. 21, p. 207; V. 22, p. 457, 544.)

*Cincinnati.*—In addition to the issues above named, there remain several small amounts, as follows: $25 00 (T.) 6s, due July, 1876; $108.00 5s, November, 1885; $56,000 (YY2, & O.) 6s, 1886-88; $17,000 6s (Q.), November, 1890; $27,000 6s, (A.), March, 1897. By the census of 1870 population was 218,900, against 161,044 in 1860. Tax rate for 1875, $23 82 per $1,000, against $23 88 in 1874. Sinking funds are $456,440, against $7,200,000 of old debt. The following table from the books of the Auditor of Hamilton County, Ohio, exhibits the assessed valuation of the city of Cincinnati in the year 1860 and from 1870 to 1874:

| Year. | Real estate. | Personal estate. | Total valuation. | Rate tax per $1,000. |
|---|---|---|---|---|
| 1860 | $61,621,901 | $31,411,813 | $93,032,716 | $17 45 |
| 1870 | 78,736,482 | 57,370,754 | 136,107,236 | 31 60 |

| 1875 | 125,976,845 | 58,521,730 | 184,498,585 | 28 82 |

—The city will be the sole owner of the stock of the Cincinnati Southern Railroad, in order not to violate the law prohibiting cities, &c., from giving aid in building railroads, &c. (V. 20, p. 14; V. 21, p. 511; V. 22, p. 209.)

*Cleveland.*—The total valuation of property for taxation is $73,305,277 and tax rate 18 15-2) mills, of which 6¼ mills are levied for interest and sinking fund. The sinking fund, January, 1876, amounted to $1,700,000, market value. The sewer, street improvement and street opening bonds are for special local improvements, and redeemed by assessments on the property benefitted.

*Columbus, Ga.*—The total debt is $332,500, and the annual interest required about $10,000. Bonds are all coupon, and were issued in small amounts as wanted; 25,000 fall due each year. City holds some stocks and other property. Valuation of real estate, 1875, $3,923,575.

*Detroit, Mich.*—The population in 1870 was 79,601; in 1874, by State census, 101,063. The value of waterworks is $1,589,683, against a debt of $1,100,000. The water works bonds are issued on a pledge of the city credit, and $75,000 per year collected in taxes to pay interest on them. Assessed valuation, 1875, real estate, $20,225,875; personal, $7,448,755—total, $27,774,630; true value estimated at $92,582,100. Tax rate, $3 92 per $100.

*Elizabeth, N. J.*—Total debt of the city of Elizabeth August 1, 1875, was stated at $5,400,000, as follows: General debt, $930,000; assessment debt, $4,450,000. The sinking fund has to its credit $900,000. Valuation of real and personal property, $32,000,000; assessed valuation, $16,000,000. Tax rate is $3 66 within the lamp and water district, and $2 18 outside. Population in 1875, 25,000.

*Galveston, Texas.*—The total city debt is $873,000, of which all are 10 per ct. currency except $106,500.

*Indianapolis.*—The assessment of taxable property in 1874 was $67,301,546; taxes for that year, $510,028, or a levy of $1 35 per $100. Total debt June 30, 1875, was $1,435,000. The School Board is a distinct organization from the city, created by a separate act of the Legislature; levies its own tax, which is collected by the City Treasurer. The city warrants are discounted when sold. The floating debt of this character, Jan. 1, 1875, was $200,000, payable during this year.

*Jersey City.*—The total bonded debt of the city, April 1, 1875, was stated at $14,247,500, as follows: General, $3,558,000; assessment debt, $6,06 ,500; water debt, $4,629,000. The sinking fund was $525,565. Assessed valuation, including railroad property, is $88,496,885, on which the tax rate is $3 00 per $100 on $68,496,855, and 1 per cent on railroad property assessed at $1 ,000,000. Population by State census in 1875 was 116,883, against 85,000 by U. S. census of 1870. (V. 22, p. 521.)

*Louisville.*—The funded debt, January 1, 1876, exclusive of railroad loans, was $8,330,000, against $8,504,000 January 1, 1875. Of the $8,33 ,000 there is payable out of the sinking fund $3,705,000; payable by special tax, $4,625,000. Assets of the sinking fund, Jan. 1, 1875, were $3,130,625. Population by census of 1870 was 100,750, against 68,033 in 1860; now estimated upon the basis of 7 to a voter makes 120,000. Assessed value of property, about $79,-000,000. Real value, $100,000,000. Rate of taxation for all city purposes in 1875 is—Eastern District, $2 27 on $100; Western District, $2 33; State tax, 45c. The following figures give the assessed property valuation for the past six years. For 1868, $59,-425,974; for 1869, $63,284,091; for 1870, $70,806,712; for 1871, $76,845,995; for 1872, $77,156,642; for 1873, $77,225,872.

*Memphis, Tenn.*—The city has been in default for interest since Jan. 1, 1873. The total floating debt April 1, 1876, was $1,947,286, and there were nominal assets (unpaid taxes, &c.) to balance this of $1,766,034. In 1874 the policy was adopted of receiving proposals for the sale of past due coupons, so far as the funds in hand permitted. The City Council declared the funding and paving bonds issued by Mayors Leftwich and Lofland 1867–8–9 to have been issued illegally, but allowed the coupons to be received, *pro rata*, according to the amount realized by the city for the bonds; but a decision of Tenn. Supreme Court, December, 1875, was against the city on this point. Assessed valuation, $32,000,000. Tax rate, $2 per $100. Population in 1870, 40,230. (V. 21, p. 186, 570.)

*Milwaukee.*—The city cannot issue debt beyond 5 per cent of its average assessed value for five years, which is $43 545,000; in 1875, valuation was $52,585,664 of real and personal; tax rate, 25.64 mills. Sinking funds are provided for all the bonds. There is also about $180,000 scrip issued to settle old railroad bonds. Population by State census, 1875, 101,000. (V. 17, p. 187, 628, 691.)

*Mobile.*—The valuation of property in 1876 is $12,891,625 real estate and $5,377,716 personal property; tax rate, 1¼ per cent. Interest has been in default since July, 1873. A settlement with bondholders was offered by Commissioners in New York, Sept., 1875, viz.: $510 in 6 per cent bond for $1,000 of the old 8 per cent. The 5 per cent bonds have a lien on city revenue, and exchange for these is offered at 75 per cent of their face in the new 6 per cents. This has been accepted to a considerable extent, but no report yet given. Population about 38,000. (V. 20, p. 302.)

*Nashville, Tenn.*—At the close of the fiscal year Sept. 30, 1875, there were $131,100 of past due bonds and $136 410 unpaid coupons. The total debt was $1,737,2 2. Assessed valuation of all property, about $18,625,775; tax rate, 1875, 2 per cent.

*Newark.*—The bonds in the first line in the table are payable out of the sinking fund of 1869, which amounts to $385,368; those in second line out of sinking fund of 1864, $8 2,757; public school bonds out of public school fund, $89,034; Clinton Hill bonds by sinking fund, $22,221, against local improvement bonds the city holds $2,568,083 of assessments unpaid and a lien on the property. Temporary loan bonds, Jan. 1, 1876, were $767,750. Valuation of real estate, 1874, $79,538,208; personal, $24,880,800 tax rate for all purposes, 1875, $1 98 per $100. Population in 1870, 105,059.

*New Orleans.*—Interest was in default December 1874, but coupons then due were paid May 15, 1875. The total funded debt, April, 1876, was $20,872,332; certificates, coupons unpaid, &c., $671,781; other floating debt, $1,145,325. The assessed valuation of property is $98,463,269 real estate, and $26,118,833 personal. State tax, 14¼ mills; city tax, 25 mills; total tax, 39¼. A scheme for settling the debt by a bond premium drawing plan is in practice, and drawings take place Jan. 31, April 15, July 31, and Oct. 15. The premium bonds exchanged for others and outstanding, April 15, 1876, were $5,667,900. Population in 1870, 191,418; in 1860, 138,670. (V. 21 p. 64, 86, 159, 278, 511, 633; V. 22, p. 471.)

(Less sinking funds)

The equalized valuations by State Board in 1875 were $1,205,631,280, of which $983,050,399 was real estate. The true value of real estate is estimated at $1,935,021,510. By an act of 1874 the towns of West Farms, Morrisania and Kingsbridge, embracing about 12,000 acres, were annexed to New York.

From the termination of the Tweed *regime* in 1871 to January, 1875, the gross increase in debt was $33,252,049, and Comptroller Green has claimed that the old demands existing when he took office, together with the bonds issued to pay deficiency in State sinking fund, and for up-town improvements, aggregate more than this whole increase. All unadjusted claims against the city Jan. 1875, were nominally $6,971,149, a large part of which the Comptroller claims to be fraudulent and has determinedly opposed. The outstanding assessment bonds (payable out of local assessments on property benefitted) are represented by advances to contractors, advances on Boulevard work, and uncollected local assessments. Extract from Mayor's Message of January, 1876, is given in V. 22, p. 61. (V. 20, p. 14, 29; V. 21, p. 86; V. 22, p. 563.)

*Norfolk.*—The bonds due April, 1892, are two series—series 1st, issued to A. M. & O. RR. and Raleigh & Gaston RR.; series 2d, to private parties. Both series are secured by deed of trust on city property. Coupons of 1st series are payable at "Citizens' Bank; coupons of 2d series at Peoples' National Bank. Tax rate, $1 60; water tax, 40 cts., (special); total rate, 2 per cent.

*Philadelphia.*—The total funded debt, January 1, 1876, was $35,635,691; guaranteed debt, $5,399,400; floating debt, $3,641,432. Sinking funds, $10,030,300. The net increase of debt in 1875 was only $358,539. Total disbursements of the city for 1875 were $18,416,451, classified as follows: Judgments, &c., $378,422; interest on city loan, $3,734,215; interest on endorsed warrants, $196,898; sinking funds, $785,899; warrants of previous years, $3,917,417; amount paid on loan warrants, $1,417,909; for the erection of public buildings, $320,412; school fund, $2,454; State tax on settlement, $53,515; cash for the departments, $2,289,377. The Comptroller's statement to form a basis for taxation in 1876, was issued Nov. 1, 1875, making total estimated liabilities, $26,296,282 64.

Of this amount $9,296,202 was estimated to come from other sources than taxes, leaving $17,000,080 to be raised by taxes, at a rate of $39 per $1,000 on full city property. These estimates, however, were materially redneed by the Councils, and the tax rate was kept at $2 15 for full city property. The following table exhibits the assessed valuation and tax rate in the city since 1870:

| Year. | Real Estate. | Personal Estate. | Rate Tax per $1,000 |
|---|---|---|---|
| 1870 | $470,851,800 | $8,188,873 | $18 00 |
| 1871 | 491,811,096 | 8,592,756 | 18 00 |
| 1872 | 502,415,863 | 8,608,819 | 20 80 |
| 1873 | 518,224,568 | 8,930,700 | 21 50 |
| 1874 | 539,003,602 | 9,239,933 | 22 00 |
| 1875 | 565,849,095 | 9,434,873 | 21 50 |
| 1876 | 583,408,703 | 10,001,673 | 21 50 |

There is no large amount of city debt maturing in the next five years. Assessed valuations for 1876 are: Full city property, $537,213,282; tax rate, $2 15; suburban property, $38,031,673; tax rate, $1 46; farm property, $20,163,423; tax rate, $1 12½. Population, 1870, 674,022, against 565,529 in 1860.

*Alabama Central.*—In default since January, 1872. Negotiations pending for a new adjustment.

*Alabama & Chattanooga.*—Road sold May 3, 1875, for $1,200,000, subject to lien of receiver's certificates. (V. 21, p. 38, 62, 253, 302, 322, 511; V. 22, p. 61, 87, 135, 157, 521.)

*Albany & Susquehanna.*—This road was leased for 150 years from 1870 to Delaware & Hudson Canal Co., at 7 per cent per annum, on stock and bonds. Important change in terms made in 1876. Consol. mortgage is for $10,000,0 0. of which $3,450,000 is to retire old bonds, and balance to lessee for improvements, which up to April, 1876, were $1,978,672. (V. 22, p. 399, 495.)

*Alleghany Valley.*—This road was embarrassed in 1874, and compromised with creditors. The unsettled debt Jan 1, 1876, was $676,140. Abstract of operations in 1875 in annual report, V. 22, p. 392.

*Alexandria & Fredricksburg.*—The Pennsylvania Railroad holds $512,000 of the bonds and controls the road. Loss on operation in 1873, $25,074.

*Arkansas Central.*—Most of the bonds were sold in London, where $600,000 of 2d mortgage bonds were also hypothecated. Receiver appointed, March, 1876. (V. 22, p. 374.)

*Ashtabula, Youngstown & Pitts.*—It is leased and operated by Pennsylvania Co. at cost. Net earnings paid to lessor, but lessee guarantees interest on 1st mortgage for five years. Common stock, $1,500,000; preferred, $400,000. Net earnings, 1873, $84,156.

*Atchison & Nebraska.*—Interest was in default September, 1873, and coupons funded. Gross earnings, 1875, $270,935; net, $272; unpaid coupons to Jan., 1876, $750,000. Annual report V. 22, p. 399.

*Atchison, Topeka & Santa Fe.*—Net earnings, 1875, $841,907. Interest is paid on $976,000 of the 2d consol. mortgage bonds, but on the balance of that issue the coupons are funded to Oct. 1, 1876. (V. 21, p. 63, 130, 303, 591; V. 22, p. 432, 3.7, 445.)

*Atlanta & Richmond Air Line.*—Defaulted in 1873, and now in litigation. A decree of sale in foreclosure was made October, 1875. Report of earnings, &c., V. 22, p. 135. (V. 21, p. 14, 85, 323, 418, 488, 612; V. 22, p. 589.)

*Atlanta & West Point.*—The road has paid 8 per cent dividends for some years; it has about $200,000 of bonds.

*Atlantic & Great Western.*—This road was leased to the Erie for 99 years from May 1, 1874, but the lease did not go into effect. Shortly after (in July, 1874) default was made on its bonds. The last annual report, to October 1, 1875, will be found in V. 21, p. 371. Proceedings looking to re-organization are in progress, and a considerable amount of securities has been deposited by holders with the London Committee. (V. 20, p. 85, 139, 289, 499, 592; V. 21, p. 136, 159, 230, 393, 440; V. 22, p. 181, 3.7, 352.)

*Atlantic & Gulf.*—Gross earnings in 1875 were $965,809; net earnings, $326,9.8. The Company also has $500,000 10 per cent coupon notes outstanding; $45,000 Junction Branch RR. bonds, and $51,350 Bainbridge Extension bonds. (V. 21, p. 275, 488; V. 22, p. 469.)

*Atlantic, Mississippi & Ohio.*—Of the stock $5,845,700 is common, $800,000 preferred, and $256,200 guaranteed; the company, itself, holds $3,441,200 of the common, all the preferred, and $165,700 of the guaranteed stock. Gross earnings year ending September 30, 1875, $1,782,453; expenses, $1,108,947; net earnings, $673,503. There was a decrease of gross revenue by $48,890, and a decrease of net revenue of $54,114. Of the $15,000,000 loan enough is held to retire all the old debt. The company funded one coupon on old bonds, Jan., 1874, but paid subsequent coupons in part. Funding notes due 1875 and 1879 were issued. In October, 1875, in London, the company made a proposal to fund whole coupon then due, on consol. bonds, and four-sevenths of coupons due up to 1881, paying three per cent cash on coupons till 1881, and balance, if earned. A bill to foreclose the consolidated mortgage was filed by the trustees thereof, at Richmond, Va., March, 1876, and in June receivers were appointed. Extract from President Mahone's circular to bondholders, showing the financial condition, is given in the CHRONICLE, V. 22, p. 280. (V. 21, p. 569, 591; V. 22, p. 110, 231, 280, 327; V. 22, p. 467, 584.)

*Atlantic & Pacific.*—This was a consolidation, in Oct., 1870, of the Atlantic & Pacific and So. Pacific. The land grant amounts to some 1,000,000 acres. Interest was passed Jan., '74, on the land grant bonds, the 2d mortgage and the interest scrip, but coupons funded. A break in the company's affairs occurred in October, 1875; the Missouri Pacific lease was surrendered and complicated litigation against the Atlantic & Pacific Company commenced. Receivers were appointed. Interest of January, 1876, on land grant bonds was not paid, and interest on the 3d mortgage bonds of the Missouri Pacific is also unpaid. The latter were mostly held by the Atlantic & Pacific Company. Decree of foreclosure made June 7, 1876. (V. 20, p. 288; V. 21, p. 9, 418, 440, 466; V. 22, p. 61, 332, 373, 471, 589.)

*Atlantic & St. Lawrence.*—Leased for 999 years, from July, 1853, to Grand Trunk Railway of Canada. Annual rent, 6 per cent on bonds and stock.

*Augusta & Savannah.*—Leased to Central of Georgia for $73,000 per annum; has surplus fund of about $50,000.

*Bald Eagle Valley.*—Leased to Pennsylvania Railroad at 40 per cent of gross receipts. The Pennsylvania Railroad holds all the 2d mortgage bonds.

*Baltimore & Ohio.*—The B. & O., in comparison with its rival trunk lines, claims a much smaller capital account in proportion to the value of its property. The gross earnings of main stem and branches, and financial condition of B. & O. Co. for four years were as follows:

| | Gross Earnings. | Net Earnings. | Stock and Debt. |
|---|---|---|---|
| 1874-5 | $10,514,178 | $4,332,206 | $47,173,134 |
| 1873-4 | 11,693,955 | 5,018,060 | 45,876,927 |
| 1872-3 | 12,252,841 | 4,934,796 | 28,567,899 |
| 1871-2 | 10,654,472 | 4,532,072 | 29,161,399 |

The gross earnings of the main and all leased lines in 1874-75 were $14,426,532, and net earnings, $4,490,098. The company claims a surplus of $34,023,566, in the value of its assets above its stock and debt, which surplus is represented chiefly by securities of branch lines, received for advances made by the B. & O. In Dec., 1875, the operating contract with Pittsburgh & Connellsville road was ratified, by which B. & O. guarantees $10,000,000 bonds. See report in CHRONICLE, V. 21, p. 487, and V. 22, p. 446. (V. 20, p. 183, 381, 404, 453, 592; V. 21, p. 371, 511, 591; V. 22, p. 374, 446.)

*Baltimore & Potomac.*—This is the line of the Pennsylvania Railroad from Baltimore to Washington. The bonds are guaranteed by Penn. RR. and Northern Central. Last annual report V. 22, p. 588.

*Belleville & Southern Illinois.*—Leased and operated by St. L. Alt. & T. H. Co. on a percentage of gross earnings. Gross earnings, '75, $279,337. (V. 20, p. 380.

*Belvidere Delaware.*—Stock is $935,700. Leased to United Co.'s of N.J., and lease assigned to Penn. RR. Net earnings go to lessor. In 1875 net earnings of B. D. were $221,494, against $4 6,367 in 1874. Floating debt, $1,245,392. (V. 20, p. 488.)

*Berkshire.*—Leased to Housatonic, at 7 per cent per year on stock.

*Boston & Albany.*—The Boston & Albany is the main western trunk line of New England. In past three years the following has been its exhibit:

| | Gross Earnings. | Net Earnings. | Total Stock and Debt. |
|---|---|---|---|
| 1874-5 | $7,634,139 | $2,262,147 | $26,478,282 |
| 1873-4 | 8,963,128 | 2,411,916 | 25,422,100 |
| 1872-3 | 9,798,033 | 2,236,873 | 24.183.100 |

$5,000,000 new bonds were authorized in Feb., 1875. (V 20, p. 14, 162, 592; V. 21, p. 464.)

*Boston, Clinton, Fitchburg & New Bedford.*—This was a consolidation in May, 1876, of the Boston, Clinton & Fitchburg and the New Bedford Railroads. (V. 21, p. 84, 591; V. 22, p. 471, 521, 544.)

*Boston, Concord & Montreal.*—Gross earnings for the year ending with March, 1876, were $693,334; net earnings, $182,012. There are also $76,000 old bonds due in 1865. (V. 22, p. 565.)

*Boston & Lowell.*—Operated with the Nashua & Lowell, which receives 31 per cent. (V. 20, p. 85; V. 22, p. 42.)

*Boston & Maine.*—Net income, 1874-5, over interest payments, $607,97?. Pools earnings from competing points with Eastern. (V. 20, p. 14, 614; V. 21, p. 533; V. 22, p. 280.)

*Boston & N. Y. Air Line.*—Formerly N. Haven Middletown & Wil. Road cost about $6,000,000, represented now by $3,000,000 preferred stock and $1,000,000 common. (V. 22, p. 567.)

*Boston & Providence.*—The bonds and also $934,000 notes have been issued for purchase of branch roads. Total income, 1874-5, $1,581,258; net, over operating expenses, $147,236. (V. 21, p. 569.)

*Buffalo, Bradford & Pittsburgh*—Under perpetual lease to Erie at $40,000 per year.

*Buffalo, New York & Erie.*—Leased to Erie in 1863, for 499 years, at 7 per cent on stock and interest and sinking fund on bonds. In 1873 Erie bought $530,300 of the stock at $150 per share. (V. 20, p. 61, 614.)

*Buffalo, New York & Philadelphia.*—This is the connecting line of the Philadelphia & Erie with Buffalo. In 1874 the net earnings were $134,813.

*Burlington, Cedar Rapids & Minnesota.*—In 1874 default was made in interest. A sale in foreclosure June 22, 1876. (V. 21, p. 85, 277, 591; V. 22, p. 350, 374, 495, 567.)

*Burlington & Missouri River.*—An agreement of consolidation and a perpetual lease to Chicago, Bur. & Quincy, was made in Oct., 1872. In August, 1875, stock of Chic. Burl. & Q. was issued in place of stock of this Co. and for convertible bonds. Annual report V. 20, p. 335. (V. 20, p. 139; V. 22, p. 87.)

*Burlington & Missouri in Nebraska.*—The stock is $8,583,750. A report of company's operations, &c., to Jan. 1, 1876, has not been published, but we have the earnings in 1875 as $723,843, and expenses, $351,643. The total land sales up to Jan. 1, 1876, amounted to 733,464 acres for $5,335,675, after deductions for dead contracts. (V. 20, p. 289, 593; V. 22, p. 471.)

*Burlington & Southwestern.*—Defaulted Nov., 1873. Foreclosure in progress. (V. 21, p. 159, 441.)

*Cairo & St. Louis.*—Defaulted in 1873 by failure to receive town and county bonds. Road completed February, 1875. (V. 20, p. 265, 313; V. 21, p. 31, 441; V. 22, p. 352.)

*Cairo & Vincennes.*—Defaulted in 1874. In hands of receiver. (V. 20, p. 499; V. 21, p. 63, 332; V. 22, p. 448.)

*California Pacific.*—Extension bonds of $3,500,000 and incomes of $1,000,000 have been in default, but a proposal offered by Central Pacific. (V. 21, p. 315. Also V. 20, p. 5.6; V 21, p. 159, 277; V. 22, p. 181, 280, 495.)

*Camden & Atlantic.*—Net earnings, 1875, $207,642.

*Camden & Burlington Co.*—Leased to United Companies, at 6 per cent on $352,000 stock.

*Canada Southern.*—Defaulted January, 1874, and coupons funded, but interest not paid July, 1875. In January, 1876, passed into N. Y. Central control. (V. 21, p. 159; V. 22, p. 16, 399, 567.)

*Carolina Central.*—Formerly Wilmington, Charlotte & Rutherfurd. Passed interest January, 1876. (V. 20, p. 15.)

*Catawissa.*—Leased to Phila. & Read., Oct., 1872, New preferred stock dividend to be 7 per cent in 1875-6 and afterward. (V. 20, p. 381.)

*Cayuga.*—The Cayuga Lake road was sold under second mortgage, and this Co. organized. (V. 19, p. 270.)

*Cayuga & Susquehanna.*—Leased in perpetuity to Delaware, Lackawanna & Western. Dividends, 9 per year.

*Cedar Falls & Minnesota.*—Leased to Dubuque & Sioux City, and sublet to Illinois Central at $1,500 per mile yearly, and a per cent of all earnings over $3,500 per mile.

*Cedar Rapids & Missouri.*—Leased to Chicago & Northwestern at $700 of first $1,500 gross earnings per mile; one-third of the next $3,000 per mile, and one-fifth of all above that. (V. 21, p. 162.)

*Central Railroad & Bank, Ga.*—Leases several roads, and guarantees $1,492,500 of bonds. In April, 1875, purchased one-half interest in Western Railroad of Alabama at foreclosure sale. Gross earnings year ending Sept 1, 1875. $2,8:6,536; net, $1,199,831. (V. 20, p. 239, 335, 398; V. 21, p, 372, 417; V. 22, p. 304.)

*Central of Iowa.*—Decree of sale in foreclosure made October, 1875. (V. 20, p. 15, 85, 235, 546; V. 21, p. 85, 393, 417, 465, 511; V. 22, p. 110, 495.)

*Central of New Jersey.*—The annual report for 1875 was given in Vol. 22, p. 826, showing gross earnings of $7,411,636; net, $3,282,909. Dividends in 1875-6 partly paid from previous reserve. On large decline of stock in June, 1876, the president issued a circular, stating that the company was earning well, but giving no figures. Of the consolidated mortgage sufficient will be held to pay all the prior issues. This company also assumes $2,310,000 of Lehigh Coal & Navigation Company's debt and $2 5,793 of the Railroad Car Trust Company. The following table shows the receipts, expenses and net earnings, from the beginning of 1863 to the present time; including, since 1870, those of the Lehigh & Susquehanna Division:

| | Receipts. | Expenses. | Net earn'gs. |
|---|---|---|---|

| 1875 | 7,411,637 | 4,128,7:7 | 3,284,910 |

*Central Ohio.*—Leased to Balt. & Ohio RR. to 1906 for 2½ years, rent 35 per cent of gross receipts for 5 years, and 40 after. Pays 6 per cent dividends.

*Central Pacific.*—Gross earnings in 1874 were $14,531,355 (currency), and net earnings $5,682,378. Land grant statement, V. 21, p. 186. An abstract of the annual report for 1874 is given in the CHRONICLE, V. 21, p. 251. Gross earnings, '75, $17,021,015; expenses, $7,417,944; net earnings, $9,603,071. A settlement with bondholders of California Pacific has been proposed, by which the Central Pacific guarantees certain new bonds to a limited amount (V. 20, p. 8, 37, 42, 178, 182; V. 21, p. 159, 484; V. 21, p. 61, 233, 352, 471, 521, 545.)

*Charlotte, Columbia & Augusta.*—Stock is $2,578,000. Net earnings in the year ending September 30, 1875, $250,904, against $ 25,731 the previous year. Floating debt retired May, 1876. (V. 21, p. 593; V. 22, p. 154, 471.)

*Chartiers.*—Leased to Pitts. Cin. & St. Louis, and operated by Penn. Co. Net earnings go to lessor—in 1875, $34,727. (V. 22, p. 519.)

*Cherry Valley, Shar. & Al.*—Transferred to Delaware & Hudson Canal Co., April, 1875. Interest unpaid in December, 1875. (V. 20, p. 404.)

*Chesapeake & Ohio.*—After the panic, default was made on interest. Net earnings in 1874-75, $346,868. Receiver appointed October, 1875, and foreclosure proceedings will be had for the purpose of re-organization. A very complete statement of outstanding liabilities and the plan of re-organization are given in V. 21, p. 569. (See V. 20, p. 102, 184, 357; V. 21, p. 223, 371, 417, 441, 534, 569, 612; V. 22, p. 42, 87, 134, 290, 375, 392, 589.)

*Cheshire.*—Net income, 1874-75, $76,927. Dividends, 4 per year. (V. 18, p. 295; V. 21, p. 590.)

*Chester Valley.*—In hands of trustees and leased to Philadelphia & Reading. Coupons due 1880, paid May, 1876.

*Chicago & Alton.*—The report for 1875 is given at length in V. 22, p. 235, and shows gross earnings of $4,656,765, and net earnings of $2,082,6 8, against $2,836,876 in 1874. Joliet & Chicago RR. is leased for interest on stock and bonds. St. L., Jack. & Chic. Railroad leased at $240,000 per year. Louisiana & Mo. RR. built and operated under contract. (See V. 19, p. 479; V. 20, p. 129.) The Chicago & Illinois River bonds had not been sold to January, 1876, and there was some litigation. (V. 18, p. 350; V. 19, p. 16, 479; V. 20, p. 176, 265, 289, 500; V. 21, p. 185, 512; V. 22, p. 255.)

*Chicago, Burlington & Quincy.*—Stock was issued in exchange for that of the Burl. Mo. River in Sept., 1875. Gross earnings for 1875 were $11,391,361; expenses, $8,430,122; net earnings, $5,361,238; interest charge, $2,014,709. The C. B. & Q. leases numerous branch roads, giving them a traffic guarantee (usually 40 or 50 p. ct.) for purchasing their bonds. Enough of the consolidated mortgage is reserved to take up prior debts. In August, 1875, stock of this Company was issued in exchange for Burlington & Missouri River Railroad stock, and the same is also given for the convertible bonds of Burlington & Missouri River Railroad. (V. 20, p. 15, 37, 60, 184, 335, 499; V. 22, p. 231.)

*Chicago & Canada Southern.*—Connection of Canada Southern. Interest not paid.

*Chicago, Cincinnati & Louisville.*—No information furnished.

*Chicago, Clinton & Dubuque.*—This road defaulted in 1873. It was built by construction companies in which directors of C. B. & Q. were stockholders. (V. 20, p. 85, 1:4; V. 21, p. 14, 612)

*Chicago, Danville & Vincennes.*—There is also a 2d mortgage for $1,000,000 and a chattel mortgage of $1,000,000, most of which are pledged. Default was made in 1873, and coupons partly funded, subsequently receiver appointed, and litigation in progress. (V. 21, p. 157, 185, 317; V. 22, p. 87, 304, 544.)

*Chicago, Dubuque & Minnesota.*—Defaulted December, 1873, same as Chicago Clinton & Dubuque. (V. 20, p. 85, 139, 184; V. 21, p. 14.)

*Chicago & Iowa.*—Has a traffic guarantee of Chic., Burlington & Quincy 40 per cent for purchase of bonds. (V. 22, p. 87.)

*Chicago, Iowa & Nebraska.*—Leased in perpetuity to Chicago & Northwestern, at 37½ per cent of gross receipts.

*Chicago & Michigan Lake Shore.*—The first mortgages, main line, have traffic agreement from Michigan Central. In default for interest since July, 1873, except on first bonds $477,000. (V. 17, p. 188, 211; V. 18, p. 14; V. 19, p. 247; V. 20, p. 60, 312.)

*Chicago, Milwaukee & St. Paul.*—The earnings were reduced in 1874 and 1875 by the lower freight rates imposed by the Wisconsin railroad law. In 1876 the law was modified, and with April, 1876, higher rates again took effect, having a good influence on earnings. The following is a comparison for three years of operations, and financial condition at the close of year:

| | 1875. | 1874. | 1873. |
|---|---|---|---|
| Miles | 1,399 | 1,399 | 1,399 |
| Stock | $27,673,744 | $27,673,744 | $27,673,744 |
| Debt | 27,129,000 | 27,119,610 | 26,287,610 |
| Earnings | 8,255,743 | 8,953,017 | 9,046,123 |
| Op. expenses | 5,170,354 | 5,871,116 | 6,594,560 |
| Net earnings | 3,085,389 | 3,081,900 | 2 451,663 |

The issue of consol. bonds of 1875 was made to substitute for that of 1874; of these bonds $27,339,000 are reserved to take up old debt. The dividend on preferred stock March, 1874, was paid in consol. bonds, and the same April, 1876. See statement V. 22, p. 280. The sterling bonds of 1872 are convertible into dollar bonds. Dividends have been paid since 1869—on pref. stock—in 1876 14 per cent, in bonds; in 1874 7 in bonds, 1873 7 cash, 1872 7, 1871 7, 1870 7 and 3 scrip; on common stock in 1871 7 scrip, 1870 3 cash and 7 scrip. (V. 21, p. 38, 186, 253, 612; V. 22, p. 281, 421, 567.)

*Chicago & Northwest.*—The fiscal year ends with May. The last annual report will be found in the CHRONICLE, V 21. p. 206. The net surplus of the year on the Chic. & Northwest. lines proper, after paying interest, was $1,366,167, and on the whole system, including proprietary roads, $518,266. The net earnings of proprietary roads were $282,004, and the interest on their bonds, $1,129,905. Lands of the company are 2,108,643 acres unsold, on 1 were only recently placed in market. In 1874-5, 24,296 acres were sold at an average price of $1 78 per acre. The nominal surplus balance of the Company, May 31, 1875, was $2,627,612. Operations for the last six fiscal years compare as follows:

| | Gross earnings. | Expenses and taxes. | Net earnings. |
|---|---|---|---|
| 1874-75 | $12,707,726 | $7,984,694 | $4,723,031 |
| 1873-74 | 14,410,124 | 9,334,450 | 5,075,673 |
| 1872-73 | 12,738,607 | 8,170,247 | 4,568,360 |
| 1871-72 | 11,402,161 | 6,810,026 | 4,592,135 |
| 1870-71 | 11,694,914 | 6,3 1,506 | 5,383,408 |
| 1869-70 | 12,535,428 | 8, 13,317 | 4,522,111 |

The trust deed of the gold loan provides contingently for a possible issue of $48,000,000, by ultimately absorbing all the other bonds and also all subsequent issues, including all the bonds of the proprietary roads of the company, together aggregating $35,349,000, which amount is reserved from the $48,000,000. The residue of the gold loan, viz., $12,651,000, represents all the additional indebtedness resulting from the mortgage. Dividends have been paid—July, 1873, 3½ on preferred; December, 1872, 3½ on both; June, 1872, 3½ on preferred; December, 1871, 3½ on preferred; June, 1871, 5 on both; December, 1870, 5 on both; June, 1870, 2 on preferred; December, 1869, 5 on preferred, 4 on common; June, 1869, 5 on both; December, 1868, 5 on both. (V. 19, p. 295, 375 528; V. 20, p. 136, 186, 593; V. 21, p. 109; V. 22, p. 544)

*Chicago & Paducah.*—Completed in July, 1874. (V. 19, p. 16; V. 20, p. 357; V. 21, p. 85.)

*Chicago, Pekin & Southwestern.*—Opened in 1873 Gross earnings first half of 1874, $66,346; net, $33,720.

*Chicago, Rock Island & Pacific.*—Net receipts in year ending April 1, 1875, $3,543,283, against $3,256,684 in 1873-74. The income account for year was as follows: Gross receipts, $7,399,613; net receipts, $3,534,283; dividend payments, $1,678,384; interest, &c., $755,000; surplus for the year, $1,109,899. Chicago & Southwestern road is leased and interest guaranteed on $5,000,000 of its bonds; the others are in default. (V. 20, p. 614; V. 21, p. 38, 186, 253.)

*Cincinnati, Hamilton & Dayton.*—See report in V. 21, p. 62, showing net income of $197,192 in 1874-5. Investigating Committee's report, V. 20, p. 357. (V. 19, p. 183; V. 21, p. 62; V. 22, p. 280.)

*Cincinnati, Lafayette & Chicago.*—Lafayette, Ind., to Kankakee, Ill. Gross earnings in 1875, $400,051, net, $178,903. (V. 20, p. 568.)

*Cincinnati & Martinsville.*—Leased again to the Ind. Cin. & Laf. Receiver appointed, Feb., 1876. To be sold in foreclosure, June, 1876. (V. 20, p. 289; V. 22, p. 232.)

*Cincinnati & Muskingum Valley.*—Is leased for 99 years from 1873 to Pittsb., Cin. & St. Louis for net earnings, but bonded interest is guaranteed. Net earnings, 1875, $35,741. (V. 22, p. 519.)

*Cincinnati, Richmond & Chicago.*—Leased to Cin., Ham. & Dayton, which owns most of the stock. Net income above interest, 1875-6, $8,229. (V. 21, p. 62.)

*Cincinnati, Richmond & Fort Wayne.*—Leased to Grand Rapids for 99 years. Interest on bonds is guaranteed by Grand Rapids, Cincinnati Hamilton & Dayton, and by Pennsylvania Co. (V. 22, p 532.)

*Cincinnati, Sandusky & Cleveland.*—In the year ending June 30, 1875, gross earnings were $857,895; expenses, $561,775; net earnings, $295,919, being $28,748 better than in 1873-74. (V. 21, p. 591.)

*Cincinnati & Springfield.*—Leased in perpetuity to Clev. Col. C. & I., with guarantee of interest; on first mortgage half of interest is also guaranteed by Lake Sh. & M. S.

*Cincinnati, Wabash & Michigan.*—Paid interest January, 1876, to bondholders not consenting to pass, and allow funds to be used for completion of road. Some bonds held by L. Sh. & Mich. So'n. but no indorsement by that company. (V. 22, p. 158.)

*Cleveland, Columbus, Cincinnati & Indianap.*—By the annual report surplus over interest in 1875 was $300,261. Net earnings in 1875, $3S4,024, against $902,674 in 1873. (V. 20, p. 211; V. 21, p. 63, 253; V. 22, p. 237, 303.)

*Cleveland & Mahoning Valley.*—Is leased to Atlantic & Great Western, and interest on bonds is paid. (V. 20, p. 85, 139.)

*Cleveland, Mount Vernon & Delaware.*—Defaulted July, 1874, and made compromise by which all the coupons due July, 1874, and one-half of coupons from January 1, 1875, to and including July 1, 1877, are to be postponed to Jan. 1, 1885, and the remaining half to be paid as they mature. Gross earnings 1875, $426,027; expenses, $329,360; net, $96,667. (See report, V. 20, p. 380; V. 22, p. 350.)

*Cleveland & Pittsburgh.*—Leased to Pennsylvania Railroad at 7 per cent on stock, besides expenses and interest, and transferred to Pennsylvania Co. Report for 1875, V. 22, p. 206, shows surplus of $17,385 over all expenses, interest, &c.

*Cleveland, Tuscarawas Valley & Wheeling.*—This road was sold under a 2d mortgage, Jan. 27, 1875, and re-organized. (V. 20, p. 6', 140, 336; V. 22, p. 352.)

*Colebrookdale.*—Leased to Philadelphia & Reading. No dividends paid on stock.

*Colorado Central.*—Built mainly by Union Pacific, which holds the bonds, $5,270,593 in all. (V. 21, p. 85; V. 22, p. 61, 567.)

*Columbus & Hocking Valley.*—Gross earnings, 1875, $877,590; net, $348,376, against $357,077 in 1874. See annual report V. 20, p. 476; V. 22, p. 350.)

*Columbus, Chicago & Indiana Central.*—This was a consolidation (Dec. 4, 1867). On January 22, 1869, it was leased by the Pittsburgh Cincinnati & St. Louis, guaranteed by Pennsylvania Railroad. An amended lease was made Feb., 1, 1870, also guaranteed by Pennsylvania Railroad. The first lease guaranteed interest on $15,000,000 of first and $5,000,000 of second mortgage bonds, the amended lease on only $15,821,000 of first and second bonds. Aug., '74, default was made on the $5,000,000 seconds. April 1, 1875, defaulted on 1st mort. The guarantee of interest was absolute, but the Pennsylvania Railroad claims that the C. C. & I. Co. did not fulfil all its part. Bondholders claim that no such failure after bonds had been sold with the guaranty could prejudice their rights. Suit is pending against Pennsylvania Railroad. Interest on most of the old prior bonds has been taken up. Net earnings, 1875, $616,443. (V. 20, p. 29, 61, 140, 162, 211, 325, 355, 382, 426, 593; V. 21, p. 13, 317, 511, 534; V. 22, p. 352, 495, 519 590.)

*Columbus & Xenia.*—This road is leased to the Little Miami Co., and both roads for 99 years to Pittsburg Cinn. & St. Louis Co.; the lease is guaranteed by Pennsylvania Railroad, and the terms are 8 per cent on stock and interest on bonds.

*Concord.*—Pays 10 per cent a year; net receipts in 1875-6, $275,296. (V. 22, p. 565.)

*Concord & Portsmouth.*—Leased to Concord RR. at $25,000 per year.

*Connecticut & Passumpsic.*—Annual report to June, 1875, showed net earnings for year $236,875, against $272,790 in 1873-4. Div. passed Aug., 1875. The new mortgage of $1,500,000 will retire previous issues. (V. 21, p. 277.)

*Connecticut Central.*—Leased to Connecticut Valley at a rental covering interest. (V. 22, p. 209.)

*Connecticut River.*—Net earnings 1873-4, $295,067. Surplus account Oct. 1, 1874, $518,039. (V. 20, p. 61.)

*Connecticut Valley.*—Hartford to Saybrook—The stock paid is $1,034,600; floating debt, $1,177,000; cost of road, &c., $2,833,819. (Vol. 21, p. 534.)

*Connecticut Western.*—Net earnings 1874-5, $184,295; interest, &c., $221,296. (V. 21, p. 611.)

*Connecting.*—Leased to Philadelphia & Trenton, and operated by Pennsylvania; terms, 6 per cent on $1,278,800 stock, and interest on the bonds.

*Cumberland & Pennsylvania.*—Owned and operated by Consolidation Coal Co., which guarantees 2d mortgage. Stock $1,500,000. (V. 22, p. 415.)

*Cumberland Valley.*—The stock is owned in large part by Pennsylvania Railroad Co. Net earnings, year ending Sept. 30, 1875, $260,594. Large advances have been made to branch roads. This company paid 9 per cent in 1871, 5 in 1872, nothing in 1873, but resumed in 1874, and declared 5 per cent. in October, and semi-annually since.

*Danbury & Norwalk.*—Gross earnings, 1874-75, $167,026; expenses, $87,410; interest and taxes, $42,191; surplus, $37,425

*Danville Hazleton & Wilkesbarre.*—Leased, March, 1872, to Pennsylvania Railroad for 33 years. The coupons due October, 1874, were purchased by Pennsylvania Railroad. In default, April, 1875. (V. 20, p. 334, 476, 500, 570.)

*Danville Urbana, Bloomington & Pekin.*—This is a part of the Indianapolis Bloomington & Western, now in default. See I. B. & W.

*Davenport & St. Paul.*—Sold in foreclosure, March 2, 1876. Re-organized as Davenport & Northwestern. (V. 20, p. 61, 313, 593; V. 21, p. 411, 570, 612; V. 22, p. 87, 231, 335, 515, 590.)

*Dayton & Michigan.*—Leased in perpetuity to Cin. Ham. & Dayton, which pays interest on bonds, and guarantees dividends on stock, holding itself $1,398,100 of the common. (V. 21, p. **62.**)

*Dayton & Western.* Leased to Little Miami, and with that to Pittsb. Cin. & St. L. About $90,000 of old ext. mortg. bonds of 1881, are yet out, which will be retired shortly.

*Delaware.*—Leased by Philadelphia Wilmington & Baltimore Railroad for 30 per cent of gross earnings. In 1874-5 gross earnings were $510,094, and net receipts therefrom, $153,928.

*Delaware & Bound Brook.*—This is part of the new route between New York and Philadelphia. (V. 22, p. 209, 257.)

*Delaware Lackawanna & Western.*—The gauge of road narrowed in March, 1876. The company's operations consist in large part of coal mining and transportation, and no annual report is issued except the statistics required by the State of Pennsylvania. The Morris & Essex Railroad is leased and some of its bonds guaranteed. From the last annual report published in CHRONICLE (V. 21, p. **84**), the following comparison is taken:

| | Gross Earnings. | Net Earnings. | Stock and Debt. |
|---|---|---|---|
| 1874. | $5,247,725 | $3,244,633 | $36,535,237 |

| 1870. | 4,106,222 | 1,240,513 | 24,766,850 |

—(V. 18, pp. 582, 607; V. 20, p. 85; V. 22, p 212.)

*Denver Pacific.*—Operated in close connection with Kansas Pacific. Land grant, 1,100,000 acres. In 1874 gross earnings were $310,911; net earnings, $172,049; total income was $242,287, and interest payments, $186,662. Cost of road and equipment, $6,494,358. (V. 20, p. **569.**)

*Denver & Rio Grande.*—This is the principal narrow-guage road (three feet) in the United States. The whole line as projected is 8.5 miles. Earnings so far have been good.

*Des Moines & Fort Dodge.*—This is part of the Des Moines Valley, reorganized after foreclosure. Coupons of Jan., 1877, are funded. (V. 21, p. 488.)

*Detroit Eel River & Illinois.*—To be sold in foreclosure. (V. 22, p. 305.)

*Detroit Lansing & Lake Michigan.*—The report for 1875 is given briefly in the CHRONICLE, Vol. 22, on p. **399**, showing gross earnings of $739,704, net, $210,896. Coupons on 1st mort. paid half in cash and half in pref. stock; coupons of I. & L. bonds paid in cash. Foreclosure proceedings are pending. (V. 22, p. 446.)

*Detroit & Milwaukee.*—This road was operated by the Great Western of Canada, but defaulted in 1873, and negotiations are now pending for settling the debt. Of the bonds of June, 1866, $1,238,000 are in the hands of the Merchants' Bank of Canada, redeemable $100,000 per year. The Detroit & Pontiac interest has been paid in whole or in part, and it is not proposed to fund coupons on those or Oakl. & O. bonds. (V. 19, p. 118, 271, 350; V. 20, p. 242. **311**, 357, 383, 500; V. 21, 186; V. 22, p. 110, 109, 281, 299.)

*Dubuque & Sioux City.*—Leased to Illinois Central, in 1867, for 20 years, at 35 per cent of gross earnings first ten years, and 36 afterwards. In 1875 gross earnings were $1,194,268.

*Dubuque Southwestern*—Farley to Cedar Rapids, Ia.—Gross earnings, 1874, $117,107—$5,8:0 below 1873.

*Dunkirk Allegh. Valley & Pittsburg.*—A consolidation, Dec. 1, 1872. Stock, $2,300,000. Road leased and bonds mostly held by New York Central & Hudson.

*Duchess & Columbia.*—To be sold in foreclosure. (V. 20, p. 15; V. 22, p. 321.)

*East Tennessee Virginia & Georgia.*—Gross earnings year ending June 30, 1875, were $1,059,985; expenses, $342,462, and net earnings, $717,522. Annual report, V. 21, p. **275.**

*East Pennsylvania.*—Leased to Philadelphia & Reading at 7 per cent on stock and bonds. Dividends are 6 per cent per annum.

*Eastern Shore.*—Formerly leased, but now operated on own account since December, 1869. Coupons for $216,000 overdue. (V. 22. p. 297.)

*Eastern (Mass.).*—Company embarrassed 1875. V. 21, p. 847. At request of bondholders, a general mortgage was authorized by Massachusetts Legislature to fund the old issues of debt. Annual report, V. 21, p. **569**; V. 22, p. **158.** Funding proposal V. 21, p. 612. (V. 20, p. 177, 242; V. 21, p. 323, 347, 535, 569, 612; V. 22, p. 42, 61, 87, 135, 158, 221, 590.)

*Elmira & Williamsport.*—Leased in 1863 to Northern Central for 999 years. Rent amounts to $165,000 per year.

*Erie.*—Mr. H. J. Jewett, the president, was appointed receiver May 26. Negotiations for settlement with bondholders pending—see report of London Committee in V. 22, p. 423. Int. on the first four mortgages is paid. Foreclosure suits were commenced under the fifth and consolidated mortgages, but in February, 1876, overdue interest on 5th mortgage was paid by Maitland, Phelps & Co. The largest gross earnings ever made were $20,012,606, in 1872-3. The following comparison for four years is from the company's report to N. Y. State Engineer for the years ending Sept. 30:

| | Gross Receipts. | Net Earnings. | Interest, Rentals, &c |
|---|---|---|---|
| 1874-5. | $17,677,746 | $4,998,616 | $6,351,781 |

—(V. 20, p. 61, **110, 288**; V. 21, p. 489; V. 22, p. 16, **256.**)

*Indianapolis, Bloomington & Western*—Default was first made July, 1874, and affairs are yet unsettled. Receiver's certificates issued to Aug. 1, '75, $285,000. The Danville, Urbana, Bloomington & Pekin is part of this road. Plan of re-organization. V. 22, p. 110 (Vol. 20, p. 61, 495; V. 21, p. 245, 277, 348, 395; V. 22, p. 16, 61, 110, 257, 375.)

*Indianapolis, Cincinnati & Lafayette.*—The company was re-organized in June, 1873, and has since been doing a good business. The last annual report was in V. 21, p. **461.** Gross earnings, 1874-75, $1,767,231; net, $670,980. (V. 20, p. 162. 357; V. 21, p. 207, 277, 465; V. 22, p. 257.)

*Indianapolis, Decatur & Springfield*—This embraces the former Indiana & Illinois Central. The second mortgage is issued to holders of old I. & I. C. firsts, and till July, 1881, interest is payable out of net earnings only, if sufficient. The remaining 67 miles to Indianapolis is in progress.

*Indianapolis & St. Louis.*—The stock, $600,000, is owned by Pennsylvania Co. and C. C. C. & I. This company forms part of the Pennsylvania system, and leases the St. Louis, Alton & Terre Haute. (V. 21, p. 395.)

*Indianapolis & Vincennes.*—Is controlled by Penn. Co, through stock ownership, and interest is guaranteed by Penn. Railroad. Net earnings in 1875 were $32,708. (V. 20, p. **426.**)

*International & Great Northern (Texas).*—This is a consolidation of the International and the Houston Great Northern. Interest passed and funding progressing. The company had an issue of Texas bonds granted it, but the grant was repealed and land given instead. (V. 21, p. 186, 291, 313, 383; annual report, V. 22, p. **398**)

*Iowa Falls & Sioux City.*—Leased to Illinois Central at 35 per cent. on earnings. Quarterly dividend 1¾ per cent, June 1, 1876, on $1,625,000 stock.

*Iron Mountain, Chester & Eastern.*—This was formerly the Chester & Tamaroa. Bonds are in default since 1873, and a receiver has been appointed. (Vol. 19, p. 529.)

*Jacksonville, Pensacola & Mobile.*—This road is mortgaged for a like amount of Florida State bonds. Indefault and litigation. (V. 19, p. 629; V. 21, p. 591; V. 22, p. 158.)

*Jefferson.*—Leased to the Erie Railway Company, which pays interest on the bonds. (V. 19, p. 628.)

*Jeffersonville, Madison & Indianapolis.*—Leased in 187. to Pittsburgh, Cincinnati & St Louis Railroad for interest and sinking fund of bonds and 7 per cent. a year on stock. Lease transferred December, 1872, to Pennsylvania Company. In 1875, net earnings were $453,231. (V. 20, p. **426.**)

*Jersey City & Albany.*—Road was in progress, but was stopped in panic of 1873. Bondholders held off. (V. 19, p. 365; V. 21, p. 613.)

*Joliet & Northern Indiana.*—Mich. Central offered to extend with a 6 per cent. bond but court decided that total rent must be applied to principal and interest of bonds; still in litigation. (V. 20, p. 85, 140, 429; V. 21, p. 110; V. 22, p. 567.)

*Junction (Phil.).*—Owned by connecting companies. Cost of road $898,324; paid-up stock, $185,000.

*Kansas City, St. Joseph & Council Bluffs*—In addition to these, there are also funding bonds of about $640,000 in different issues. Annual report for 1875 in V. 22, p. **495.** Gross earnings in 1875, $1,362,709; net, $351,869. Stock, $2,776,000. Interest defaulted Sept., 1873. (V. 20, p. 475; V. 22, p. 233, 495.)

*Kansas Pacific.*—In 1874 net earnings were $1,685,704, against $1,146,308 in 1873. The land grant is in two trusts, 2,000,000 acres in the first, from the 1st to the 389th mile, and 3,000,000 acres in the second, from 389th mile westward. Interest on income bonds is payable in lands or cash, only out of net earnings. The company now pays half the current interest on its bonds, (except the incomes) as about four-fifths of bondholders have funded. An important settlement with Union Pacific made in May, 1875. See annual report, V. 21, p. **252.** (V. 19, p. **271**, 365; V. 20, p. 8, 85, 476, 501, 544; V. 21, p. 466, 613; V. 22, p. 545.)

*Kent Co.*—This road was completed in 1872, but defaulted in 1873. No recent information received.

*Kentucky Central.*—This was formerly Covington & Lexington. (V. 20, p. 500; V. 21, p. 39.)

*Maine Central.*—The Maine Central leases several roads. The report of the year's operations, ending December 31, 1875, had the following: "The total earnings for the year 1875 have been $1,786,016 47; operating expenses, $1,147,066 82; net earnings, $639,009 65—sufficient to pay all operating expenses, interest, coupons and rents, and leave a small balance. In 1874 the total receipts were $2,094,080 55, and operating expenses $1,381,631 25. Net, $812,399 30. Showing a diminution this year, as compared with last, in gross receipts, $308,004 08; in operating expenses of $134,614 43; and in net receipts of $173,389 65.

"Of this reduction in our gross receipts the past year, $77,322 56 was occasioned by the modification of former contracts, for the purpose of producing uniform and harmonious action between the Eastern and Boston & Maine roads, which will result, as we trust, to the benefit and in the general convenience of our patrons who have occasion to do business over the railroads west of Portland. The balance of the diminution in our gross receipts, $230,681 62, must be attributed to the general depression of the business of the country, and 'reduction of tariff by special rates.'" (Vol. 20, p. 313, **356**; V. 22, p **350**.)

*Manchester & Lawrence.*—Formerly operated with the Concord Railroad as one line. Net earnings 1875-6, $100,686. (V. 22, p. **588**.)

*Mansfield, Coldwater & L. M.*—Leased by Penn. Company for net earnings. In hands of mortgage trustees. (V. 20, p. **426**; V. 21, p. 42.)

*Mansfield & Framingham.*—Leased to Boston, Clinton & Fitchburg, at 25 per cent of gross earnings. Consolidation made June, 1875. (V. 20, p. 615.)

*Marietta, Pittsburgh & Cleveland.*—Net earnings in 1874 were $40,717. Defaulted and in receiver's hands August, 1875.

*Marietta & Cincinnati.*—Gross earnings for the year 1875 were $1,662,015; expenses, $1,290,590; net earnings, $871,424, against $523,150 net earnings in 1874. This road forms a part of the through route, and is operated in close connection with the Baltimore & Ohio Railroad, which has made large advances for recent construction on the "Short Line." Annual report V. 21, p. **208**.

*Marquette, Houghton & Ontonagon.*—This is a consolidation of Marquette & Ontonagon and Houghton & Ontonagon. Lands amount to 425,000 acres, chiefly timber and mineral. Stock, $2,306,600.

*Maryland & Delaware.*—This line was leased by the New Jersey Southern, to form part of the through route. Lately, decree of foreclosure was made. (V. 20, p. 242; V. 21 p. 567.)

*Memphis & Charleston*—This road was leased to the Southern Railway Security Co., but in 1874 the lease was cancelled and Mr. R. T. Wilson, President of the East Tennessee, Virginia & Georgia, road was elected President of the Memphis & Charleston, with a new board of directors. No recent report has been obtainable. (V. 19, p. 424.)

*Memphis & Little Rock.*—Decree of foreclosure made. (V. 20, p. 336, 615; V. 21, p. 15; V. 22, p. 471.)

*Michigan Central.*—The annual report to May 31, 1875, (V. 21, p. **109**.) showed gross earnings on main line and branches of $7,102,285, and net earnings, $2,034,188, or $76 250 less than previous year. The floating debt June 1, 1875, was $770,015, against $1,036,452 on the 1st of June, 1874. The J., L. & S. debt is assumed by Michigan Central, which also pays $70,000 per year on the stock, one-third of which it owns. Semi-annual report to Dec. 1, 1875, in V. 22, p. **41**, showing net income of $185,092 above interest charges, &c. Interest was passed on the Detroit & Bay City bonds, not guaranteed, Nov., 1875. (V. 19, p. 143; V. 20, p. 101; V. 21, p. 15; V. 22, p. 41.)

*Michigan Lake Shore.*—Defaulted 1872, and in receiver's hands. (V. 18, p. 248, 504; V. 21, p. **110**.)

*Midland Pacific.*—This was one of the roads represented by Messrs. Turner Bros. in New York, of which Benj. E. Smith was president. Default in interest was made in February and August, 1875.

*Milwaukee & Northern.*—This road defaulted on interest December, 1874. Circular to bondholders, V 20, p. 615. It is leased to Wisconsin Central, and there is said to be prospect of resumption. (V. 22, p. 233.)

*Milwaukee, Lake Shore & Western.*—Sold in foreclosure for $2,509,788, Dec. 10, 1875. Interest paid on first mortgage June, 1876. (V. 21, p. 277, 591.)

*Mine Hill & Schuylkill Haven.*—Leased to Philadelphia & Reading, May 1861, for 999 years; 8 per cent dividends on stock.

*Mineral Point.*—Total receipts 18 3, $128,121; expenses and interest, $130,6 4; cost of road, &c., $1,200,000.

*Mississippi, Ouachita & Red River.*—Land grant 257,000 acres. Sold in foreclosure, Dec. 16, 1875, for $25,000. (V. 21, p. 405; V. 21, p. 535, 613.)

*Mississippi & Tennessee.*—Stock, $825,400. Net earnings 1874-5, $211,332. V. 22, p. **181**.

*Missouri, Kansas & Texas.*—The latest plan of settlement with bondholders was given in the CHRONICLE. V 22, p 205. Receiver was appointed, December, 1874. Land grant is about 4,565,142 acres. Annual report for 1875 in the CHRONICLE, V. 22, p. 542 (V. 19, p. **29**; V. 20, 16, 141, 501; V. 21, p. 87, 186, 207, 351, 395; V. 22, p. 111, 158, 305, 368, 446, 447, 471, 495, 521, **542**, 590.)

*Missouri River, Fort Scott & Gulf.*—The stock is $5,950,000. Interest passed Oct., 1873, on 2d, and Jan., '74, on 1st m'tgs. Net income of 1875, $241,616. (V. 20, p. **403**; V. 21, p. 15; V. 22, p. **470**, 495.

*Mobile & Girard*—The Central Railroad of Georgia endorses $212,500 of the first and all the second mortgage bonds. Net earnings 1874-5, $22,685.

*Mobile & Montgomery.*—Sold in foreclosure. November, 1874, and stock given to old bondholders. Old mortgage debt yet out, $263,000. (V. 20, p. 62, 501; V. 22, p. 280.)

*Mobile & Ohio.*—The company has been in default since March, 1875. Gross earnings, 1875, $1,914,347; net, $361,458. (V. 21, p. 605; V. 22, p. 154, 315, 427, 513, 520, 568.)

*Montclair.*—The 2d mortgage was foreclosed December, 1874, and road sold again Sept. 25, 1875. (V. 20, p. 16, 290, 383, 488, 501, 571; V. 21, p. 186, 278, 323, 395.)

*Montgomery & Eufaula.*—Interest has been in default since January, 1873. It is one of the State aid roads, and advertised for sale Dec. 6, 1875. (V. 21, p. 489.)

*Monticello & Port Jervis.*—Defaulted in 1873. Sold July 7, 1875. (V. 19, p. 83, 143, 503; V. 20, p. 354, 383; V. 21, p. 39, 592.)

*Morris & Essex.*—Leased in perpetuity to the Delaware, Lackawanna & Western. The lessees assume all liabilities and pay 7 per cent on stock, and 8 after 1874, if they then earn 10 net on Morris & Essex road. (V. 20, p. 85, 477, 488; V. 22, p. 309.)

*Nashville, Chattanooga & St. Louis.*—Gross earnings of 1874-5, $1,6 0,826; expenses, $1,151,954; net earnings, $528,871. In six months ending Dec. 31, 1875, net earnings were $331,120. (V. 21, p. 370; V. 22, p. 109, 181, 305, 420, 487.)

*Nashville & Decatur.*—Leased May 4, 1871, to Louisville & Nashville Company for thirty years.

*Nashua & Lowell.*—Net earnings in 1874-5, $56,464. (V. 21, p. 590.)

*Naugatuck.*—Net earnings 1874-5, $222,327. (V. 21, p. 611.)

*Newark, Somerset & Straitsville.*—Leased to Sandusky, Mansfield & Newark. Guaranteed by Baltimore & Ohio.

*New Bedford.*—This road is leased and operated by the Boston, Clinton & Fitchburg for 8 per cent on stock and interest on debt.

*New Castle & Beaver Valley.*—Leased to Pittsburgh, Fort Wayne & Chicago, and lease transferred to Penn. Company. Net earnings, 1875, $219,534. (V. 20, p. 425.)

*New Haven & Derby*—Net earnings 1873-4, $24,832. New Haven city guarantees $225,000 of the bonds.

*New Haven & Northampton.*—Gross earnings, 1874-5, $595,164; operating expenses, $399,250; net earnings, $195,913. (V. 21, p. 590.)

*New Jersey & New York.*—This was a consolidation of the Hackensack & N. York and Hackensack Extension, and further built to Haverstraw. The old bonds are about $900,000, 7 p. c., due May, 1890. (V. 20, p. 488.)

*New Jersey Midland.*—Defaulted after the panic of 1873 and funded coupons. The company, having exhausted its capital and credit in construction, leased to the New York Midland for 7 per cent on its cost; it had at the time a floating debt of about $400,000. After the panic of 1873 the road came back without sufficient rolling stock and without means to pay interest. The bondholders funded coupons, but default was again made. Several plans of re-organization are proposed. (V. 20, p. 242, 258, 313, 358, 488; V. 21, p. 39, 64, 86, 230, 318, 395, 442, 466, 489; V. 22, p. 87, 135, 582.)

*New Jersey Southern.*—This was a consolidation of several roads. Net earnings, 1875, $109,276. Interest in default since October, 1873. Litigation in progress. Plan of re-organization, V. 21, p. 488. (V. 20, p. 313, 488; V. 21, p. 466, 489; V. 22, p. 422.)

*New Jersey West Line.*—In foreclosure. (V. 19, p. 640; V. 20, p. 383; V. 22, p. 354, 400.)

*New London Northern.*—Operated under lease till 1891 by Vermont Central for $120,000 a year. Income of Co., in 1874-5, $151,955; disbursements, $143,973. (V. 21, p. 590.)

*New Orleans, Mobile & Texas.*—The Western Division of this road was sold Nov. 18, 1874. Interest in default since 1872. The trustees' circular for reorganization of Western Division is given in V. 21, p. 231. (V. 21, p. 231, 535; V. 22, p. 243, 352, 568.)

*New Orleans, St. Louis & Chicago.*—Gross earnings year ending June 30, 1875, $3,184,326; net, $1,363,948. See annual report, V. 22, p. 156. Operated as a connecting line with Ill. Cent. Ill. Central buys up $230,000 per year of consol. mortgage bonds of 1873. The Miss. Cent. 1st mort. bonds, due Nov., 1874, were not all paid, and Nov. 1, 1875, and Jan., 1876, there was some delay in payment of interest. Floating debt June 30, 1875, $1,929,057. Receiver appointed March, 1876. (V. 21, p. 15, 613; V. 22, p. 63, 111, 156, 281, 328.)

*New York, Boston & Montreal.*—Proposed consolidation of several roads from New York to Rutland. Company defaulted in 1874 and now in hands of receiver; foreclosure pending. (V. 20, p. 536, 358, 383, 405; V. 21, p. 16, 549; V. 22, p. 447, 471, 545, 568.)

*New York & Canada.*—The bonds are guaranteed by the Delaware & Hudson Canal Co. Road opened through Oct., 1875. (V. 21, p. 207.)

*New York Central & Hudson River.*—The consolidation of New York Central and Hudson River was made Nov. 1, 1869. In 1868 the stock of the separate companies was $42,712,700. The scrip dividend on New York Central of 80 per cent was made in Dec., 1868. On consolidation, another 27 per cent was distributed on Central stock and 25 per cent on Hudson. The mortgage loan for $40,000,000 is to retire prior debt, and the balance for laying third and fourth track and other improvements. These tracks were virtually completed from Buff. to Albany Jan. 1, 1875, thus furnishing a double track road exclusively for freight traffic. The Harlem Railroad was leased April, 1873. The following is a comparison of operations, &c., for five years:

*Owensboro & Russellville.*—Now Evansville, Owensboro & Nashville. To be sold in foreclosure.

*Pacific of Missouri.*—Road was leased July, 1872, to Atlantic & Pacific Railroad and dividends guaranteed. In Sept. and Oct., 1875, the price of stock fell from 47½ to 7½, the principal causes being a decrease of $602,996 in earnings since January 1; the failure of A. & P. to pay the October dividend advertised, and the fact that the road was so heavily loaded with debt to A. & P. Co. The lease was surrendered Nov., 1875, and litigation is pending. Interest on 3d mortgage and on Lexington & St. Louis in default, December, 1875. (V. 20, p. 288, 429, 593; V. 21, p. 40, 372, 393, 412, 418, 466, 489, 535, 571, 592; V. 22, p. 10, 182, 328, 568.)

WAS THE

*FIRST COMPANY TO SUBMIT TO THE RESTRICTIONS OF THE SURPLUS LAW OF* 1874.

By the provisions of this Law the Company is compelled to limit its dividends to stockholders to 7 per cent. per annum, and to deposit one half of the remainder of its earnings in the Insurance Department of this State, as a SPECIAL RESERVE SAFETY FUND, for the PROTECTION and SAFETY of such policy holders as may not be burned out at the time of a conflagration so great as to destroy the ability of all Companies, to pay their losses in full, thereby avoiding the necessity of placing the Company in the hands of a Receiver in Bankruptcy.

Some of the benefits of submission to this law are as follows:

*First*—To the assured, who are claimants for losses at the time of the great fire.

It will give them more money than can be obtained under the requirements of any other law on this subject, because it exempts the Company from receiver's fees, legal costs, or other expenses of bankruptcy.

It requires the Company to maintain at all times a "GUARANTEE SAFETY FUND" equal in amount to the "Special Reserve Fund," for the greater protection of policy holders generally.

It will prevent any encroachment upon it by later losses under uncancelled policies.

It compels just and prompt adjustments and payments, no matter how great the fire or loss.

*Second*—To the policy-holders whose property is not involved in such fire—a hitherto neglected class:

It will give a deserved protection and provide for the payment of their later sustained losses, as if no great fire had occurred.

It will save them from vexatious and serious loss of time and money in seeking and paying for new insurance, while waiting indefinitely for the return what is due from the Bankrupt companies whose olicies have become worthless, and whose assets ay be in the clutches of a slow-paced Receiver.
